GOVERNMENT SAID TO HAVE RL-GAINED CONFIDENCE IN SITUATION.

General Political Strike and Railrond down as the outcome of the war. Tie-up is Past and That Workmen's Council Will Stand by Compromise With Government-Another Report most in a State of Panic-Telegraph-Transmitted by Courier-The Alleged been expected after such a war-Revolution at the Palace.

St. Petersburg, Saturday evening, Dec. 2, by courier to Eydtkuhnen. East Prussia, Dec. 3 .- There is perceptible a more confident feeling in government circles to-night. It is believed that the danger of an immediate general political strike and railroad tie-up is past and that the workmen's council will stand by a compromise under which her way to a store, near her home, togovernmental and private factories will day, Roy C. Furthermore, the government has received reassuring news concerning the new outbreak of troops in the Baltic provinces.

M. Petrunkevitch, the well known zemstvoist and president of the Moscow Agricultural society, and his colleagues, at the invitation of Premier Witte, participated in the sitting of the council of ministers this afternoon when the election law was discussed. This also is interpreted favorably, but, nevertheless, it is realized that the situation may at any moment charge for the worse should the leaders of the revolutionaries and social democrats, who their hands, suddenly alter their plans.

The government version of the arrest of the soldiers of the guard at Tsarskoe-Selo places an entirely new comthe muttiny in Sebastopol and at the public insults to which they were constantly subjected even in the streets of Tsarskoe-Selo, and they demanded to be led against the revolutionaries and the intelligencia in the capital. When their officers tried to quiet them the men became so obstreperous that they had to be arrested.

The reactionary influences at court and the Imperial Guard are making there desperate efforts to induce Count Witto proclaim a dictatorship and to fight the revolution with bullets and bayonets. Their candidates for dictator are General Count Alexis Ignatieff and General Skallon, governor general of Poland.

### ALMOST PANIC IN CAPITAL.

#### Population Fears Cataclysm Immineut -Finish Operators Out.

St. Petersburg, Dec. 2, 1 p. m., via Berlin, Dec. 3 .- Intense alarm prevails drawn; in 1905, 117,700,000. There has Communication with the outer world ceased this morning, when the Finnish operators joined their Russian comrades.

The embassies, legations and banks are hastily organizing courier services to both the Finnish and German frontiers.

The population is almost in a state of panic, fearing that the railroads will stop running and that the inhabitants therefore will have no mode of flight in the event of the cataclysm which, they seem to fear, is imminent.

Stories of the spread of disaffection in the guard regiments are in everybody's mouth, and the revolutionaries continue to boast that the troops will no longer fire on the people.

This morning newsboys were openly hawking flysheets in the streets containing an account of an alleged revolt at Tsarskoe-Selo, and crying out, "The emperor's palace guard has mutinied!" According to reliable information, the

only foundation for these stories is the arrest of the soldiers of the guard at Tsarskoe-Selo Thursday. Nevertheless, in their excited state the people give ready credence to all rumors and this adds to the general alarm.

The air is also filled with stories of the alleged revolution at the palace on Friday, in which Grand Duke Boris is said to have attempted the life of the emperor. These stories likewise are untrue, but they prove that a revolution in the palace is considered possible at any time.

This situation has greatly increased the dangers of a financial crash. The charges of cruelty to seamen employed people, even the commercial interests, on oyster boats. During the trip three are withdrawing their money from the captains of oyster vessels were arrestbanks, converting it into gold, hoarding ed on charges of crelty and four it or demanding foreign exchange which the state bank is issuing upon the foreign balances of the government. The Associated Press has just learned from a high authority that the situation in the Baltic provinces has grown chon and the entire state board of exceedingly grave, and that the troops health, with the exception of Dr. Stenhat Reval and neighborhood are in open ens, tendered their resignations to Govmutiny. This was the real cause of the ernor Blanchard yesterday. The board extraordinary cabinet meeting which in its report to the governor declared was held at Tsarskoe-Selo last night.

Commissioner Yerkes discussed the "free work" done by his bureau, such as gauging of spirits at rectifying houses; the free stamps used; clerk hire, etc., and recommends legislation fixing charge of 20 cents per stamp for each stamp issued to rectifiers or wholesale liquor dealers for use upon packages prepared and sent out by them. From this source the commissioner estimates that an increased revenue of from \$750,000 to \$800,000 would be produced. The commissioner also recommends that a tax of twenty-five cents per gallon be imposed on all sweet wines fortified through the use of grape brandy. The cost of collecting the internal revenue last year was \$4,705,295 and the commissioner estimates that the cost for the next fiscal year will be reduced to \$4.689,120. The cost is stated to have been 2.01 per cent, last year, as against an average, since the creation of the bureau of 2.83 per cent.

Salem, Ore., Dec. 3.-Far more serious

many land frauds perpetrated in Oregon are charges made in a letter to Governor George E. Chamberlain yesterday by State Land Agent Oswald West, who asserts that by means of forged certificates of sale of school lands, eastern bankers have been swindled out of large sums of money. Not content, the land agent asserts, with having defrauded Oregon of 500, 000 acres of school land, nearly all the state possessed, by means of "dummy" entrymen, land operators prepared printed certificates of sale and assignments and inserted in them descrip-

by forgeries of signatures and the great seal of the state of Oregon, sold the lands time and again to innocent persons in th eeast. Mr. West says: "I have discovered a large number of these forged certificates in the hands of eastern bankers and the magnitude of the frauds will not be known until the subject is given publicity and the eastern holders have sent in their certificates for examination. SEED DEALERS PROTEST.

Denounce Free Distribution of Seeds by

Washington, D. C., Dec. 3.-Thirty of the leading seed dealers of the country have sent President Roosevelt a petition protesting against the free distribution of seeds by members of congress, and urging him to include in his message a paragraph disapproving the present practice and recommending that only the intent of the original act authorizing seed distribution be the future policy. This intent, the petition says, was that the seeds should be obtained from remote corners of the earth Fred E. Castro, Mexico. and unknown to the people of this country, and be for the purpose of increasing the wealth of the nation.

The petitioners allege that the present practice is a "grievous restraint of trade," and that the United States should abolish the practice as unfair, as against a branch of commerce, unbecoming a great government.

UNITED STATES COMMISSION RECOMMENDS THAT APPLI-CANTS BE TAXED.

Small Amount Suggested-Would Ellminute From Examinations a Large Number of Persons, Who Take Them Out of Curiosity, or to Secure a Higher Rating on the Eligible List-Cortelyou's Order Regarding Fourth Class Postmasters Considered Most Important Administration Reform of Pant Year,

Washington, Dec. 3 .- The twenty-second annual report of the United States civil service commission made public to-day contains a recommendation that congress should authorize the collection of a fee from applicants for examination for the government service. Should this authority be given, the report states that the commission will issue a manual giving such detailed informamake it unnecessary for the more intelligent applicants to make special prepcivil service school or institute. amount of the fee, it is suggested, should be a small one. The argument in its favor is that it would eliminate Chicopee in 1863. from the examination the large num ber of persons who take them out o curiosity, or to secure a higher rating on the eligible list through re-examination. It is stated that 150,000 persons were examined last year, 40,000 of whom secured positions. During the year the number of competitive positions increased from 154,093 to 171,807 Touching on the order of Presiden Roosevelt of November 17 last giving authority to heads of departments to separate an employe from the service without notice, for delinquency or mis-

conduct, the report says: "The new rule neither changes the authority to make removals, which existed as fully under the former as un der the present practice, nor affects th jurisdiction of the civil service commission, merely making some changes in the procedure in the case of removal. Of the order of Postmaster General Cortelyou providing for the retention of fourth class postmasters during satisfactory service, the commission says: "It is distinctly the most important administrative reform effected within the past year. The fourth class postmas ters constitute the largest class of employes selected without examination of any kind. For many years these position have been treated as political spoils and appointments in them with slight regard to the best interests of

HOME RULE TO THE FRONT. Intention of Unionist Party in Coming

Election Struggle.

London, Dec. 4 .- Evidence of the intention of the unionist party to force the question of home rule for Ireland to the forefront in the impending election struggle is shown in a message sent by Premier Balfour to a unionist candidate in a bye-election, in which the premier says he hopes the electors "will set an example of determined resistance to those home rule proposals which, as we have recently heard from Speaker Cannon Not Ready With His the leader of the opposition, once again threaten the country."

The political gossips are busy with cabinet making for the liberal party. The names suggested are interesting as forecasting the return to office of Sir Charles Dilke, who has been for twenty years without a portfolio.

The Daily Telegraph somewhat curfously predicts that the chief secretary for Ireland in the liberal cabinet will be Sir Anthony MacDonald at present under-secretary to the lord lieutenant of be accomplished the first week of the Ireland.

The last of the big football games Saturday afternoon on the university largest throngs that has witnessed a game this season, including President Roosevelt, the contestants being the West Point and Annapolis Cadets. The game was one of the most exciting that has been played between the two academies and ended in a tie score of 6 to 6, the middles anatching victory from defeat in the last few minutes of play in the gathering darkness of a late December afternoon.

Torney scored a touch down for West Point in the first half after consistent gaining through the Annapolis line. Rockwell kicked goal-

Just before the end of the game the navy boys got the ball on the army's twenty-five yard line as Referee Wrightingham declared the ball to be theirs after a foul tackle and offside by West Point. They succeeded in going brough the army for the needed ground and Douglas took the ball over, Norton kicking goal. It was so dark when the teams lined up again that it was decided to call the game.

The game was very cleanly played. Final score, West Point, 6; Annapolis,

HIGH SCHOOL CHAMPIONS. The light, active New Haven High school team won the final game for the championship of the Trinity Interscholastic football league and the possession of the Trinity cup for one year by defeating Meriden High school by the decisive score of 37 to 5 at Hartford Saturday afternoon before about 1,500 people. New Haven was considerably lighter than Meriden and the wet condition of the field was against them, but after the first few minutes the play was all their way. Meriden's only score came as the result of two consecutive fumbled punts, which allowed Gauss to fall on the ball behind New Haven's goal line. New Haven showed the result of the systematic practice of Coaches Sanford, Messenger and Spreyer.

The men's meeting in the Foy auditorium yesterday afternoon was addressed by Joseph Hail, a paperhanger of workingman to workingmen on the sub-Friends of George T. Boucher, who ject "Has a Man a Soul?" The service These meetings are proving very interesting. The one next Sunday will be of a highly interesting nature, it being the first one held in any of the theaters for several years past.

Mr. Hall's address was in the shape of an answer to the arguments advanced by the leading atheists of the times,

"The reason for the declining of moral life is that there is a general decline of faith. When a man's faith goes down he goes down, too. The mightlest power that we have in the universe is an ideal. There is nothing great in the world but mind. There is a general wave of skepticism in the world to-day. I would rather grapple with a man who is either an atheist or a Christian than with a skeptic. The great trouble today is that we have a great deal if idealism, with no conviction back of it. A little modern sense would do us more good than modern science and modern learning. If a man has his ideal set on the top of some mountain he will at

least climb. He will not go down. "As soon as a man believes that there is no such thing as a human sold he becomes an animal. Has man a soul? There is no logic or reason in that inquiry. It is nonsense. A man has not two personalities. The soul is his personality. The soul is the man, and the man is the soul. The soul itself is asking whether it is a soul or notcannot get out of your own personality. The reality is the spiritual side and not the physical, for matter knows nothing, fears nothing. No man would ever look at a dead man to find a living soul. All knowledge is a knowledge of states of mind, states of conscience. It is impossible for mind to come into contact with matter. The gulf between mind

and matter is impassable. "Take all the animals of the universe and give them all the material of the world, and there is not reason enough among them to make an animal or a If you put a monkey-looking stick. man and a manly-looking monkey side by side you could not tell which was the man or the monkey until you inanatomically the same. There is no better proof that man is a living soul than that fact. If there be no physical difference wherein comes the difference? We all liked which is wider than the widest chasm. The money catches fleas and eats them, while the other controls the powers of the earth, climbs the mountain peaks maps them out on the table. Where comes in the difference? The difference soul. Huxley says that man is nothing what a string that is! What awful power pulls that string! If man is only a chunk of mud the brain is only a chunk of mud, and what can you expect from a muddy brain but muddy logic? There is a spirit in man, said Solomon,

### HAMPTON INSTITUTE.

INTERESTING SERVICE HELD IN UNITED CHURCH.

Rev. H. B. Frissell, With Represents tive Negroes and Indians, Plead for Funds for Industrial School-Personal Experience of the Speakers-History of the School

There was an appreciative and intersted congregation gathered last night in the United church. The service was held in behalf of the Hampton institute which has long been recognized as the mother of the industrial schools of our ountry for the Indians and the negroes, and its methods have been adopted in many other institutions of learning. Rev. Mr. Haynes presided and addresses were made by representatives graduates of the institute and the principal, Rev. H. B. Frissell. quartette of colored men rendered old time plantation songs. The negro speaker was a typical back country lad of Alabama, who struggled against tremendous odds for his education and who told a very interesting story. The Indian representative is a graduate of the class of '89, and has since that time been steadily at work at his trade and has an excellent record. A meeting with the same programme was to have held yesterlay afternoon at been Dwight hall, after chapel, but owing to the inclement weather it was postponed

till 6 o'clock p. m. Rev. H. B. Frissell in introducing the object of the special services said: "Hampton institute is very closely associated with New Haven, Dr. Woolsey was one of its founders and the Sunday school of the church has so generously maintained for several years a scholarship at the school. are engaged in a noble work, and being in lack of funds to continue as the success of the school widens we appeal again to a benevolent and charitable north for support. I bring with me representatives of my school, who tell the story of our work much better than These represent to night thousands of their race who have been benefited by the Hampton school; they have left the school to return to their people and shine as lights in darkness and are teaching them to live higher and more

Then followed the quartette of negroes who sang very pleasingly "The Church of God" and "I'm Rolling Through an Unfriendly World." There was a certain pathos and feeling in the singing, which further emphasized the negro's aptitude for simple melodies.

The Indian followed with a recital of Hampton changed his nature for useful and higher labor,

He said: "To change an Indian to the custom of the white man is not so accomplished as people may imagine. The Indian habit of laziness was caused by a too free life. About fifty years ago the Indian was being rapidly forced to new conditions of life, caused by the encroachments of the white people. My people could not subsist as in olden times, and if we did, we would surely be violating the laws parents died and some cause turned by attention eastward and first I engaged this time I knew only a few words of for the renewal of old associations, English, and the thought occurred to me, if that deaf and dumb man can move among the English people why cannot I. So from that time I began to think of a future work and life. ed. From that time I have been leading a useful and successful life. I have met new conditions of life and have tried to learn to keep the good work going. I am one of the 80 per cent. of the graduates from this school who are doing as I am. The negro quartette followed the speech of the Indian by two melodies entitled "Oh, My Lord, Keep Me from Sinking Down," and "Oh. Yes."

Principal Frissell then introduced a egro graduate both from an industrial school in Alabama, near Booker Washington's school, and also a graduate of Hampton institute. His name is Lorenzo Hall, and he said in part: place I want to picture to you to-night is situated in the center of the state of Alabama; there cotton and corn raising are the only occupations. Log cabins there are being gradually replaced by crude frame houses with no glass winrived from providential crudeness of the carpentering. ### LABOR COLONIES.

Perhaps the United States can still learn something from other countries. For instance, perhaps it might study with profit the labor colonies in Holland, Germany, Belgium and England. In Holland there are three such colonies, with an aggregate population of were without employment, but willing to work. These colonies were begun after the battle of Waterloo, when thousands were reduced to poverty by the war. Philanthropic persons gave the land and assisted in its cultivation. After experience is gained and a reputation for efficiency obtained the colonist is put first on a free farm and then on a farm of seven and a half acres, for which he pays rent. He is given a cow and other helps, for which he pays in annual installments. Farming, horticulture and dalrying are mented by the sale of products and by private contributions. WEDING IN TEHUANTEPIC.

Beautiful Women With Necklaces of Dollars-Procession and Dance. The Indians of the Isthmus ber. "Absolutely neutral," replied the Tehuantepec are a race apart .Ethnologists say that the beauty of the women of the Zapotecan race, the principal people of the isthmus, is excelled only

by the women of the Samoan Islands of

the Pacific, says Modern Mexico. The principal ornament of a well dressed Zapotecan, aside from her rings of various sorts, is her necklace of American gold coins. Nothing but American gold is ever used. British soverigns, French, German and even the present small percentage of Mexican gold coins are all disdained and American gold is bought at a high premium in order that it may adorn the necks of the bells of the isthmian metropolis-

These coins are fastened together vith gold wires and chains, making a very showy it not beautiful ornament Every centavo a woman can save goes into her store against the time when she can buy another coin to add to her necklace. Half eagles and double eagles are fastened together in this

### The Christmas Rush Is On.

Just as we predicted, the first enthusiastic rush of the season came Saturday.

The time between now and Christmas is short and there is a lot of buying to be done, and it has to be done quickly. The prettiest things as well as the novelties will be picked up and the assortments will soon be broken, so it behooves your making an early start.

### CONFLICTING ADVICES FROM RUSSIAN CAPITAL

(Continued from First Page.)

All attempts to secure details of the uprising have thus far failed. According to reports, the attitude of the troops in the Baltic provinces is regarded by the government as the most dangerous factor that has thus far developed. A strike of the policemen and hours

porters of St. Petersburg is scheduled for to-morrow (Sunday). Count Witte continues to refuse to

deal with the telegraphers, declaring that for the government to yield would be equivalent to its abdication at their orders. Nevertheless, the surrender of the government to their demand for the dismissal of M. Durmovo, acting minister of the interior, is regarded as in-

Instructions to the governors and the local authorities are being sent with great difficulty over the railroad telegraph lines.

ODESSA JEWS FEARFUL

#### In Dread of Fresh Mussarce by the Loenl Garrison.

Odessa, undated, sent by special courler by way of Podowoloczyska, Galicia, Dec. 3 .- This dispatch is sent at the request of the Jewish community, which fears a fresh massacre by the local gar-

being circulated in almost every regiment calling on the soldiers to exterminate the Jews and to destroy the newspaper offices in revenge for the groundless accusations against the troops of their participation in cassacres and in pillage and in the protection of rowdies.

This is exciting the population against the army.

The Jews assert that the officers deliver anti-Semitic speeches in the barracks after removing the Jewish soldiers, and that Governor-General Kaulbars himself has confessed that the officers are burning for revenge on the Jews, and that he is unable to guarantee the preservation of order.

In view of the fact that this city is

entirely cut off from St. Petersburg and thus is altogether in the hands of the local authorities, the Jewish community implores all civilized nations and their governments to take all possible measures at St. Petersburg to prevent a catastrophe which may exceed anything that has yet occurred.

An Indian adaptation of the native Spanish dance, 'joto," is a feature, and each vies the ther for an opportunity to dance with the bride. Then al the company joins hands and dances about the bride and bridegroom, who stand in the middle of the circle. Then the ring breaks, and each in his turn, still dancing , whirls in to swing the bridegroom, then the bride, and, courtesying, passes over to

the other side. During the dancing refreshments, onsisting of drinks from those of the incient Zapotecans down to the most modern, are served in the house adjoining. Here the bridegroom stands as nost drinking with all his guests, who offer him the most appropriate and inappropriate toasts with a wish for his bride's future happiness.

# The Dolls

ands of Dolls; white dolls and little black ones, brown

Dolls and red ones too-Dolls from everywhere; civilized and uncivilized D 11s;

There's a Doll here for every little girl in New Haveh whatever her disposition or taste.

We're building a nice red brick house at one end of the Toy Store for the dolls, when they can be quite exclusive, by themselves, away from the other toys; because at night when cur little visitors aren't about, the Dolls hold high carnval and gather in groups and discuss their futures and wonder which of the hundreds of little girls that come to see them in the day time are to be their mothers.

We've made quite sure that every little girl in town and some boys--for we find that certain boys like dolls, shall have a dolly this year.

There are Dolls here for as little as 10 cents and there are Dolls here for as high as \$25

And this price range applies to dolly dressed or dolly without any clothes on at all.

Choral Union Gives Way to Oratorio Society. The officers of the People's Choral

union have decided to hold the weekly rehearsal of the union on Wednesday night instead of Thursday of this week because of the production of "St. Christopher" in Woolsey hall by the New Haven Oratorio society on Thursday.

Notices to this effect will be sent out the members to-day or to-morrow. This decision was reached owing to a generally expressed desire on the part if the chorus to attend the Oratorio soclety's concert.

The Woolsey hall box office will be

open to-day for two hours, 11 until 1 o'clock, for the "St. Christopher" sale of seats. Hundreds of excellent seats at 50 cents and 75 cents are left which it is hoped will be sold before Thursday night. The oratorio society has worked faithfully to give a great work the rendition it deserves and now it renains for New Haven to give its recognition to an organization that has done so much to better musical conditions in New Haven- Then, too, New Haven may take this chance to give due honor to one of the greatest living composers and certainly the formost composer of church music and oratorio Europe so honored Dr. Parker as did New York and Boston, and others of the large cit-

At the coming meeting more is to be made of the social gathering preceding the supper than usual. The hour for assembling is set for 5:45 instead of 6-In the parish house, adjoining the church, members and guests arriving will be presented to the officers of the club with their wives. Palms and Potted plants will adorn the rooms for the ecasion, while Stanley R. and Wm. C. McLane will enliven the occasion by selections on the violin and plano.

A special note on the programme gives the report of the executive committee on the matter of guaranteeing attendance to the ladies of the churches who entertain. It is as fol-

1-The club shall guarantee and attendance of at least seven-eighths of the number of acceptances, 2-If for any reason attendance falls

below the required seven-eighths-and only in such case-those whose guests fall to come will be depended upon to remit to the treasurer, on learning of the shortage, seventy-five cents for each guest not appearing.

The mid-winter meeting, ext follow-

ing, will be held with the Dwight Place churche on January 29. The speaker then will be Dr. Charles L. Kloss of the Central Congregational church of Philadelphia, who has been actively interested in municipal re-forms in that city. His theme will be The Battle With the Boss."

### AN AGED PHYSICIAN

After Years of Experience Gives the Following Advice

"If you have anything to do with nedicines at all be pretty sure you know what you are taking." Our local druggist, William H. Hull,

says this is a strong point in favor of heir valuable cod liver preparation, Vinol. Everything it contains is plainly printed on the bottle; therefore it is not a patent medicine.

Vinol contains, in a highly concentrated form, all of the medicinal elements of cod liver oil, actually taken from fresh cods' livers, but without a drop o' oll or grease to nauseate and ipset the stomach-This is the reason that Vinol accom-

plishes such wonderful results in curing chronic coughs, colds, bronchial and Choice of Class Day Officers To-Day lung troubles, and there is nothing known to medicine that will so quickly build up the run-down, overworked tired and debilitated, or give strength and renewed vitality to the aged, as Vinol.

Mrs. Martha Fraser, of Portland, Me. writes: "I was all run down from overwork and had a chronic cough for years. I had tried so many remedies hall, without help that I had lost all faith in My daughter bought me a bottle of Vinol. It simply worked wonders for me; it cured my cough and brought back health and strength, and am better than I have been for

We can only ask every one in New Haven who needs such a medicine to try Vinol on our guarantee to return their money if it fails. Hull's Corner

### A GREAT PHYSIOLOGIST

Once Said That the Way to Keep the Stomach Healthy is to Exercise It.

### But He Did Not Tell How to Make It Healthy,

The muscles of the body can be de veloped by exercise until their strength has increased manifold, and a proper amount of training each day will accomplish this result, but it is somewhat doubtful if you can increase the digestive powers of the stomach by eating indigestible food in order to force it to work.

Nature has furnished us all with a perfect set of organs and if they are not abused they will attend to the business required of them. They need no abnormal strength.

There is a limit to the weight a man can lift, and there is also a limit to what the stomach can do.

The cause of dyspepsla, indigestion and many similar diseases is that the stomach has been exercised too much and it is tired or worn out. Not exer-

clse but rest is what it needs. To take something into the stomach that will relieve it from its work for a short time-something to digest the food-will give it a rest and allow it

time to regain its strength. The proper aid to the digestive or gans is Stuart's Dyspepsia Tablets, which cure dyspensia, indigestion, gas on the stomach and bowels, heartburn, palpitation of the heart, and all stom-

ach diseases Rest and invigoration is what the stomach gets when you use Stuart's Dyspepsia Tablets, for one grain of the active principle in them is sufficient to

digest 3,000 grains of food. The Tablets increase the flow of gas tric juice, and prevent fermentation acidlty and sour eructions.

Do not attempt to starve out dyspen mia. You need all your strength. The common sense method is to digest the food for the stomach and give

it a rest. Stuart's Dyspepsia Tablets do no make the cure, but enable the organs to throw off unhealthy conditions. Perfect digestion means perfec health, for under these conditions only do the different organs of the body

work right and receive the building-up material found in pure blood. Stuart's Dyspepsia Tablets are a natnral remedy and are a specific for stomach troubles. The ablest physicians

prescribe them. The Tablets are pleasant to the taste and are composed of fruit and vegetable extracts, golden seal and pepsin. At all drug stores-50 cents per pack-

### THE MOUNTAIN WHITES.

ADDRESS BY MISS MARGARET HENRY OF MARYVILLE.

Tells an Interested Audience at the Church of the Redeemer of the Conditions and Needs of These People-Pictures of Mountain Conditions.

At the Church of the Redeemer last night a fairly large audience of interested people listened to an address on "The Conditions and Needs of the Southern Mountain Whites." by Miss Margaret F. Henry of Marysville college, Tennessee. The institution is devoted to the education of mountain whites of both sexes. Rev. W. L. Phillips, D. D. rector of the church, presided. In introducing Miss Henry Dr. Phillips told of a visit of his own which he paid to the mountains of North Carolina, the interested faces by saw and the eagerness for knowledge was an indication of the hunger manifested by these people reared under such environments. Miss Henry, who is a pleasant and rather unassuming lady, spoke for nearly an hour in a simple and interesting manner of the lives and conditions of the southern whites. She prefaced her remarks by telling that her grandmother on one side was a rich London lady, while on the other side, her grandmother was born in the mountains of Tennessee, and that it was from her that she had inherited the love and interest she had for those poor people. Miss Henry told many interesting stories of the life led by these mountain whites, who were so eager and hungry and anxious for knowledge. She told of the work in the superstitions and sin, of the want of schools, of teachers and preachers, who ing for which they thirsted. In Tennessee the school year, she said, only amounted to ninety days, and the aver- them a distinct ovation. age pay for teachers was only \$25 per state there were nearly 75.000 between the ages of ten and twenty years who could not read or write. In some of these great mountain districts she said the people only saw a minister once a They were our own flesh and blood, loyal almost to a man to the union and yet it was only within the past year or two that the people of the

George Primrose and his big minstrel company, which comes to the Hyperion theater next Thursday night, will present the best real minstrel performance this country has ever enjoyed by the largest company of humorists, comedians, vocalists, dancers and musicians ever toured, with every scene, act and song true to southern flavor. The oldtime jubilee melodies, refrains and dances, that are ever popular with the public, are used, not only ingeniously from a musical standpoint, but are very cleverly intermingled with the story of different scenes picturing the south. The staging and costuming are noteworthy features of this production. J. H. Decker, his manager, has shown good judgment in surrounding Mr. Primrose with a host of well-known comedians and vocalists. The star setting for the first part is of great magnificence and the costuming throughout is costly and elegant. In addition to the large number of vocalists and comedians, a complete operation orchestra of soloists is carried. Taking it in all, there seems to be no doubt but that George Primrose fully carried out all that he claimed could be done with America's most popular form of amusement-minstrelsy.

The first shows the restaurant with the husband and the pretty young lady. The wife appears on the scene and all are taken to police headquarters. The second act shows the prison at Blackwell's Island, where the husband is confined for thirty days. His wife visits there as a mission lady. He, having told her he had gone to Mexico, has to do some dodging. The third act shows the home, where the couple keep up their apparent ignorance of each other's doings. The tales the husband tells from Mexico, where he has never been, are hair-raisers. The play is a guarantee to drive away the blues and will do so.

"The Man from Mexico" is to be followed by other standard plays. Next week "The Christian," which is Hall Caine's masterpiece, will be presented. 'The Little Minister, "Charity Ball" and "When We Were Twenty-one" will also be produced by the splendid company.

JEWISH WEDDING CEREMONY.

Miss Lena Brummer Becomes Bride of

Mr. Barnet Cohen. One of the events in Jewish circles last evening was the wedding which took place in Maple Auditorium on street. The contracting parties were Mr. Barnet Cohen and Miss Lena Brummer. The old Jewish ceremony was used and was performed by Rabbl Jacob Abu Fromer. The bride, who is a very pretty girl, was dressed in white and carried a bouquet of carnations and pinks.

The maid of honor was Miss Kitty Cohen, She wore a white crepede chene dress and carried a beauciful bouquet of tea roses. The brides maids were Miss Mary Savage and Miss Rosa Cohen. The ushers were H. Cohen and N. Price. Mr. and Mrs. Cohen left for a wedding trip to Washington and upon their return will be at home at 128 Livingston street in this city. The groom is a shoe drummer for Woolson Company of Boston. Among the out of town guests were Miss Lovetts of Danbury and Mr. M. M. Bernstein of West Haven.
