### ILLEGAL RETENTION OF FEES BY INSURANCE COM-MISSIONERS.

Governor Pennypacker Approves a Joint Resolution of the Special Session of the Legislature Providing for a Sweeping Investigation-Charge That Secret Fees of Which the General Pupblic Has Been in Ignorance Made Office Worth \$100,000 a Year.

Harrisburg, Pa., Jan. 30 -- Governor the pilot ladder. Pennypacker to-day approved a joint resolution of the special secsion of the legislature providing for a sweeping investigation of charges of illegal retention of fees by insurance commissioners for years past. It is charged that secret fees of which the general public was in ignorance made the office worth \$100,000 a year to the incumbent. The complete its labors and report to the legislature by February 6.

David Martin is the present official, he having succeeded Israel W. Durham last July, Mr. Durham is now in California because of poor health, and it is doubtful if he will be able to appear before the committee to explain the charges in connection with his sixyears' incumbency of the insurance commissionership.

One of the important witnesses will be Robert Forster, actuary of the office, who recently admitted that he collected \$33,000 fees last year in his branch alone. Forster said that only a small portion of this sum was retained by himself, the remainder going to unnamed persons.

Throughout the earlier part of the day the lugubrious tolling of bells, the coming of minute guns, the universal svidences of mourning and the stagnation of business, even amid the strangey contrasting acclaims for the new

The dead monarch's features are unchanged and are composed as if in a sleep other than that of death.

Hereafter our store will remain open until 6 o'clock every evening, instead of 5.30, as heretofore; Saturday, of course, until 10 o'clock. We were influenced to this change by continual requests from our customers, who were constantly disappointed in their efforts to gain admittance after our doors were closed. When the old plan was originated, we thought we were solving a difficult problem, but we found that we have erred, and it would be advisable to keep our store open. Therefore—

Telephone company held yesterday a larger amount of stock than usual was voted on. President Morris F. Tyler in his circular having urged a large attendance to vote on the proposition to increase the capital stock by \$1,000,000.
This increase was voted, a two-thirds vote having been secured. As the stock pays 6 per cent. and is quoted at 151, it is the opinion of the directors that in subscribing to the new stock the present subscribers should pay more than par, and 120 has been suggested as about the proper price. It is the feeling that the company should realize more on its stock than par.
The capital is now \$5,000,000, and this vote will make it \$6,000,000, and the company has legislative authority to increase \$4,000,000 additionally, when it deems it to be necessary.

RETAIL DRUGGISTS.

New Haven Retail Druggists' association is now slated to take place at the Tontine hotel on the evening of February 15. The business part of the evening will begin at 8 o'clock, followed at 9:30 by the banquet.

Much interest is being taken by the members, and it is generally believed that it will be the largest and most successful gathering ever held under

the society's auspices. Many out-oftown guests are expected, and prominent speakers from Boston, Danbury, Meriden and other places will address the meeting.

Good Digestion Until It is Lost. Many people suffer from dyspepsia and do not know it. They feel mean, out of sorth, peevish, do not sleep well, do not have a good, keen appetite, do not have the inclination and energy for physical or mental work they once had, but at the same time do not feel any particular pain or distress in the stomach. Yet all this is the result of poor digestion, an insidious form of dyspep-

Bitters, after dinner pills and nerve tonics will never help the trouble; they don't reach it. The new medical dis-The prevailing winds have been from | covery does. dyspepsia is the natural result. When you are nervous, run down and sleepless don't make the common mistake of supposing your nervous system needs treatment and fill your stomach with powerful nerve tonics which make you feel good for a little while, only to fall back farther than ever.

Your nerves are all right, but they are starved-they want food.

Nourish they with wholesome, everyday food, and plenty of it, well digested, and you can laugh at nerve tonics and medicine.

But the nerves will not be nourished from a weak, abused stomach, but when the digestion has been made perfect by the use of this remedy all nervous symptoms disappear.

Whoever heard of a man or woman blessed with a vigorous digestion and good appetite being troubled with their nerves?

Good digestion means a strong nervous system, abundance of energy and capacity to enjoy the good things of

Stuart's Dyspepsia Tablets will certainly set your stomach and digestive organs right; they can't help but do it. because they nourish the body by digesting the food eaten, and rest the stomach.

You get nourishment and rest at one and the same time, and that is all the worn-out dyspeptic needs to build him up and give new life to every organ and an added zest to every pleasure. Stuart's Dyspeptic Tablets are a godsend to the army of men and women with weak stomachs and nerves, and justly merits the claim of being one of the most worthy medical discoveries of the time.
