Mrs. Sage Issues Statement | ney of St. Paul, president of the Chl Through Her Attorney Regarding the Sage Foundation.

OBJECT THE IMPROVEMENT OF SOCIAL AND LIVING CONDITIONS.

Wide Scope For Work Allowed-Investigation and Study of the Causes of Adverse Social Conditions-Ignornnce. Poverty and Vice Included-Trustees to Suggest How These Conditions Can Be Remedied or Ameliorated and Put in Operation Any Appropriate Means to that End.

Albany, N. Y., March 12 .- Mrs. Russell Sage, through her counsel, Henry W. DeForest, has authorized the fol- grand jury, charged with attempted death. lowing statement in relation to the Sage foundation, a bill incorporating which has been introduced in the leg-

'I have set aside \$10,000,000 for the endowment of this foundation. Its object is the improvement of social and living conditions in the United States. It will be within the scope of such a foundation to investigate and study the cause of adverse social conditions, including ignorance, poverty and vice; to suggest how these conditions can be remedied or ameliorated, and put in operation an appropriate means to that

"While having its headquarters in New York city, where Mr. Sage and I have lived, and where social problems are most pressing and complicated, partly by reason of its extent and partly because it is the port of entry for about a million immigrants a year, the foundation will be national in its scope and activities.

"I have sought to select as my trus-tees men and women who are famillar with social problems, and who can bring to their solution not only zeal and interest but experience and judg-

#### BRYAN TO GOOD ROADS MEN. An Unexpected Feature of Yesterday's

Convention Session. Pittsburg, March 12 .- The fourth an-

nual convention of the American Road Makers' association convened here today in the Carnegie Music hall, Schenley park. The meeting is the largest | there were not enough men to quell the one ever held by the association, and over 2,500 delegates, representing thirty-eight states, together with many prominent men from all parts of the country are in attendance.

To-day's session was one of speechmaking. Noteworthy addresses in the interes tof good roads were made and much enthusiasm was evinced by the delegates.

One of the unexpected features of the meeting to-day was the appearance of William J. Bryan. Mr. Bryan lectured last night at Washington, Penn. near here When James H. Macdonald of New Haven, Conn., president of the association, heard that Mr. Bryan was so near Pittsburg, he extended an invitation by telephone, which Mr. Bryan accepted. His remarks for the advancement of good roads were warmly received, and the convention gave him

New York, March 12 .- The end of the Thaw trial at last seems to be in sigh and the twelve men who have been in State Department Officials Admit It the jury box for nearly eight weeks are to be Harry Thaw's judges. Tentative plans for the final stages of the trial were agreed upon to-day by opposing counsel, even to the detail of alloting the time for the summing up District lAttorney Jerome has at last burned behind him all bridges leading to a lunacy commission and has irrevocably pointed his course to proving that Thaw was sane the night he shot and killed Stanford White and that being same his crime constituted murder in the first degree. Within ten days or two weeks the case should be in the jury's hands.

Mr. Jerome played to-day probably the strongest card he holds-evidence which came to his knowledge but a few days ago and which undoubtedly caus ed him to abandon the idea of sending White's slaver to a mad house and to try for a straight out conviction under the criminal statutes. The evidence from Mrs. Stanford White's He Was Connected With Standard brother, James Clinch Smith, who told a remarkably clear, succinct story of the events on Madison Square Garden the night White was killed and of a feller, of Cleveland, O., a brother of long conversation he had with Thaw

Bill for Elimination of Musical Instruments as Personal Property.

Hartford, March 12.-A bill calling for the elimination of musical instruments from the list of personal property not subject to provisions of the section concerning contract of a conditional sale met with vigorous opposition at a hearing before the judiciary committee to-day.

Representative Cunningham, who inroduced the bill, favored its passage, and cited cases of where people having such instruments in their possession used their possession of them to obtain credit for other articles. The bill would ompel all sales of such musical inruments to be recorded with the town

## WOMEN WHO CHARM

Health Is the First Essential Toward Making a Woman Attractive.

There is a beauty and attractiveness in health which is far greater than mere regularity of feature.

A sickly, irritable, and complaining woman always carries a cloud of depression with her; she is not only unhappy herself but is a damper to all joy and happiness when with her family and friends.

It is the bright, healthy, vivacious oman who always charms and carries sunshine wherever she goes.

If a woman finds that her energies are flagging and that everything tires her; if her feminine system fails to perform its allotted duties, there is nervousness, sleeplessness, faintness, backache, headache, bearing -down pains, and irregularities, causing constant misery and melancholia, she should remember that Lydia E. NEW HAVEN THEATER,

Beulah Poynter in Her Own Dramatization of "Lena Rivers.

Worthy of a much large house than creeted it at the New Haven theater last night was "Lena Rivers," which has been carefully dramtized from Mrs. Mary J. Holmes successful novel of the same name. The part of Lena was taken by Miss Beulah Poynter, and she did the girlish character splendid justice. Her acting was superb, and showed that she had given the part a most careful study. But the well-known characters that make up the story are admirably taken careof. The character of Granny Nichols was ably sustained by Mrs. Marie Day. Ted V. Armond made a splendid Joel Slocum, and kept up the funny end to a nicey. His droll sayings caused much aughter to fllow from the audience. Alma Keller as Mrs. Graham was clever in her portrayal of the part, and May Gerald and Nettie London played the parts of Caroline and Anna Livingston in a very finished manner. The play is in a prologue and three acts. and the many readers of the book will do well to see the dramatized version of the story, which will be repeated again this afternoon and evening. Pop-

Dr. Lyman P. Peet, president of Foochow College, says that the present occasional outbreaks in China are chiefly anti-dynastic. The probation system seems to work as well in Massachusetts as it does in Connecticut. Judge Gaskill of the superfor criminal court, in a talk to the tury the other day, said that he was a first believer in the probation system as exemplified in the superior criminal court of Boston. He said that he was shown a list of those who had sex county court last year, and the percentage of those who had gone the straight and narrow path was a very gratifying one. He also said that the criticism that had been made of late in magazines as regards the delay of the courts in reaching cases surely does not apply to the Massachusetts courts, and the honorable justice said that it must be apparent to all "that the courts are not institutions to railread men to prison."

WHAT CICERO MIGHT DO

If Cicero were alive and living around burns and wounds, after putting on the hind legs and ask Mr. Winter the same he would have good warrant for doing It. Too long, indeed, has Winter abused ing it hasn't snowed for a few hours in a kind of half-baked or halfstate. But what can be done about it? Nothing at all, except to look cheerful. Let us all, therefore, continue to look cheerful. Practice makes perfect, and we have had practice enough this Winter to enable us to give a pretty good imitation. The real thing is just ahead. THE NEW DOUMA.

When General Trepoff found the growds assembled to witness the opening of the first Douma too large for comfort, and too unruly for safety, he used guns and sabres and killed to the right and left, and the Czar dissolved the Douma and ordered the election of another. The new Douma has assembled and organized, and though the crowds on St. Petersburg streets were too large for comfort and too unruly for safety, General Dracheffski, successor to General Trepoff, only used whips upon the shoulders of the crowds and dispersed them more effectively than the guns and sabres of

So far so good, and quite a gain. Nor does it look as if the new Douma would be speedily dissolved, as was the first one. Beyond that there are no clear indications of what has been or will be accomplished by the new Douma. The radicals will, of course, ask government may not be willing to go as far as it should. DRAGON CAR LEADS.

In Secret Endurance Race from New

York to Boston. Four of the touring cars which left New York at 5:30, o'clock yesterday morning arrived in Hartford late yesterday afternoon. But one of them arrived on time, that was the Dragon driven by Haynes. The cars, which are contestants for a purse of \$500 in a secret endurance run from New York to Boston, were covered with the mud of hundreds of miles.

The run was scheduled for Saturday of this week, but it was pulled off ahead of time for some unknown rea-

Mr. Haynes, the driver of the Dragon New Rochelle, N. Y., and one of the Welch cars at Norwalk. The other Welch car seems to have been lost somewhere, as nothing has been heard or seen of it. Mr. Haynes said that the roads from New York to Bridgeport were in fair condition, but those from Bridgeport to New Haven were so good, and that the roads from New Haven to Hartford were in a hor-rible shae. He encountered mud and snow in abundance.

The contestants passed through Brilgeport about 6:30 yesterday morning and through New Haven at about

HIGH SCHOOL ENTRIES. The High school entries for the first Naval battalion meet, which is to take place at the armory on March 18, are to be more extensive than was at first planned. Instead of the single entry of the relay team, the scholastic stars sprint events. Captain Graves will run the mile, and Blakeslee the sprints.

YALE BASEBALL TEAM. It is expected that Captain Gil Kin- low, Russell and Allen. ney of the Yale baseball team will be successful in getting his scholarship difficulties straightened out before the first month of the baseball schedulo has been completed. He is attending practice regularly in the cage, and will be in his old-time form when he is allowed to play. Although Kinney's absence from the basketball team during its final game very fortunately had no influence on the result of the season, his absence from the baseball team will be infinitely disastrous, consider-ing the weakness of the Yale squad.

POWLING PRIZES. The New Haven Horticultural socity's bowling team met at the alleys at -490 the Aschenbroedel last Saturday to ar--494 range for the playing off for the prizes for the next two months. A silver cup 473 535 492 -1500 for the highest average will be given, a silver dish for the highest single scroe, a gold piece for the greatest number of strikes, a box of cigars for the one improving most in his average, and two pins for the next best averages. The names of the bowlers are: Thomas Nye, captain; David Ferguson. William Symons, R. Bell, Thomas Pettit, J. H. Murray, William Gibson Dickie, Gus Schoepfer, James Moore, D. Kydd. The club will play every Saturday night on the Aschenbrodel alleys.

FOR 'VARSITY GAMES.

Over Three Hundred Booked for the Home Grounds This Season, Upwards of 200 home baseball games

are scheduled for the coming season by the college nines of New England. In most of these games the contending teams will represent New England institutions, but there are many games outside of New England. In addition to the 300 games to be played on New England college diamonds the college eams of New England have nearly 100 games booked outside of New England. Yale goes as far south as North Carolina for her spring practice, while toward the end of the season Williams will make a western trip that will include Michigan, Chicago and Illinolis universities.

MEET TO-NIGHT.

The dual meet between the Yale and Columbia teams will be held this evening at the New York Athletic club's tank. Yale's chances are very bright for a victory, considering the fact that the Yale freshmen can be used in this meet. Max Schwartz, the swimming instructor, said yesteriny that he was very confident that Yale would win the

HIGH SCHOOL TRACK TEAM. The High school track team had a run of the hardest kind of luck at New Britain, but nevertheless expect to come out strong at the armory next Monday night. The relay team will be the feature, and is looked upon as a sure winner. It is made up of the following men: Connelly, Fulton, Lewis and Connors. In addition the team will compete in the mile run and also the sprints, Blakeslee being entered for the mile, and Captain Grave, Connor and Connelly in the sprints.

SIOUX WANT GAMES.

The Sloux basketball team of the Y. M. C. A. wish to arrange a game with any team, in or our ofthe city, the average weight of whose members is 105 to 110 pounds. The Sloux claim the championship of the city at this average. All challenges addressed to S. Hershman, 10 High street, New Haven, Conn., will receive prompt attention.

MET AT YALE FIELD MAY 4 FOR 1902 TROPHY.

Arrangements have been completed for the fifth annual interscholastic track meet to be held at Yale field on Saturday, May 4. The Yale interscholastic track meet cup, presented by a Hartford, March 12 .- New Britain number of alumni in 1902, will be com-

by Worcester academy, and twice by Mercersburg and the Hill school,

WALLINGFORD POLO TEAM. The team standing of the Walling ford polo team will be computed from bFeruary 18: according to the vote passed at the last meeting of the State Polo league directors. Although there are only four more weeks of play scheduled, it is possible for Wallingford to crawl out of last place, the po-sition which the locals gained by losng their first league game, and to hich they have clung tenaciously. On their present playing form they are at least as fast as three other teams in the league, and local fans believe they will exchange places with one of these teams beforethe close of the season.

YEGGMEN ARE ARRESTED.

Eleven Caught in Raid on Wooster Street House-A Very Good Piece of Work.

The eleven alleged yeggmen who were arrested at Vincent's lodging house on Wooster street, near Olive, yesterday morning will appear in the city court this morning. Detective Henry J. Donnelly, who led the raid, said last night that he had at least seven who could be identified as safe crackers. The quarters in which the men staid

were typical of the abode of men of this character. One large room on the second floor contained some eighteen or twenty beds arranged in rows on either side. In the center of the room was a stove on which the men did all their cooking. They work in small bands and go off on longer or shorter trips occasionally, but always return to their headquarters after a foray. It is thought that among the num-

ber are thetwo men who held up an employe of Frohlich's Center street barber shop on Wooster street several Sundays ago. It is also thought that one of the gang is guilty of the hold up and robbery which occurred on Fair street several days ago.

With the exception of a brace and bit, which was found on one of the suspects, no other incriminating evidence was secured.

Those arrested gave the following names: Joseph Lynch, Thomas Ferriter, James O'Brien, James Shay, William Lylapp, William Galway, Wallace McCabe, John Gillen, Thomas Martin, George Lyons and Thomas Emmett. It was denied that the arrests had any connection with the English man-

sion on Hillhouse avenue. Detective Donnelly had the assistance of Detectives McAvoy, Dorman, and a number of railroad detectives on

## Simply Swallow

Many Eat as Though They Were Blind and Their Tongues Cut Out.

Dyspepsia is built on confidence-too nuch confidence in the ability of your stomach to digest anything and everything you put into it.

In this age we have developed speed in every line of action, and we have also developed speed in mastication. We don't take time to eat right, and

sometimes we do not eat the right kind of food. Sometimes we carry our business to our meals and as a result eat mechanically. We eat as though we were blind and our tongues cut out. We simply swallow.

The result is that the food we eat is half chewed, and lies like a lump of lead on the stomach.

You may deny to yourself that you abuse your stomach, but when you get a bloaty feeling, you can't deny you've

you get brash, eructations, burning sensations, bloating, aversion to food, loss of appetite, belching and other kindred ailments, there is not much use asking yourself, for the time being, why you suffer. The fact is you got these allments and the question of the hour is how to get rid of them at once, so that at your next meal you may be able to sit down and look at your meal straight in the facewith a keen appetite and a smile, and enjoy thoroughly everything you eat.

Just one of Stuart's Dyspepsia Tablets will digest an ordinary meal, without the help of the stomach. One inwill digest 3,000 grains of food, The strongest stomach couldn't do the work any better than one of these wonderful little Tablets can do it.

Each tablet contains the strongest digestive agents it it possible to obtain. Stuart's Dyspepsia Tablets are not a patent medicine. We come out and say just what is in them-hydrostas, golden seal, lactose and aseptic pepsin. They are recommended by 40,000 licensed physicians in the United States and

And they are recommended by everyone who uses them-they can't help it, for they immediately invigorate the stomach by letting it take a rest; they of the firm of Cheney Brothers, silk strengthen the gastric juice and cause the appetite to become keen and regu-

Stuart's Dyspepsia Tablets will surely destroy dyspepsia, brash, belching that 'lump of lead' feeling, burning sensations, indigestion, loss of appetite, and aversion to food.

Have Stuart's Dyspepsia Tablets handy where you can take one or two after each meal. Then you will know what a blessing it is to have a good appetite and to get all the good possible out of everything you eat. You'll feel rosy and sweet. Stuart's Dyspepsia Tablets at any drug store on earth

A tempor-Merchants' and Miners' line. The stock ary organization was effected. The officers elected were: President, Hon. Alexander Troup, vice president, Thomas H. Young, M. D., J. P. Anderson, John W. Hutt, J. R. Bolton, Henry J. LeMoyes and J. R. Robin.

An enrollment of those present was made, and all pledged themselves to do all they could for the success of the club. The idea of starting the club is due to Mr. Troup, who conceived the plan while attending the national convention of the Canadian societies at Niagara last year. Those present were much pleased that the movement had been started, and some said that it would meet a long-felt want.

The organization is to be social in character, and everything political is to be tabooed. Sessions will be held from time to sime, and it is probable that an annual dinner will be held on Dominion day. Dominion day, which is like our Fourth of July, commemorates the establishment of the Dominion in its present form, which occurred on

July 1, 1867. The governing board will also constitute a committee on organizatoin, and they will prepare a constitution for the club as soon as possible. All Canadian-born citizens in New Haven are invited to join the organization,

STOLEN GOODS RECOVERED.

Detective Finds Articles Taken by Tailor's Boy in Stables.

Since the conviction of Harry Resnik. a tailor's boy who was sent to the Reform secool March 1 for the theft of a large number of articles of clothing from Yale students, Detective Dorman, who made the arrest, has succeeded in recovering other articles which were stolen by Resnik. Contrary to the common bellef, the officer has something else to do besides visiting a pawnshop o recover articles. The vast majority of stolen goods are not disposed of at pawnshops. None of those recovered by Detective Dorman was in a pawnshop. Some were found in stables, gredient of Stuart's Dyspepsia Tablets where they had been sold for small sums, and others in barrooms.

The articles recovered were an over coat belonging to a student named B. Stern, who lives at 120 College street, and another overcoat belonging to a student who lives at 395 Temple street. Detective Daley has recovered a gold watch which was taken by Resnik.

The selling, however, was at the higher evels and was not pursued on the dedines. The incident of the day's news on which most stress was laid was the interview at Washington between Preident Roosevelt and J. P. Morgan. Mr. Morgan's appearance in the avowed role of a mediator to bring about an understanding and co-operation between the railroads and the national government was accorded important significance. The purpose of the proposed conference between the president and railroad executives, as to what step might be taken to alloy the public friends, was a good advertisement for anxiety as to the relations between the railroads and the government is admittedly of far reaching consequence to the stock market. The action of the Stuyvesant Fish, whom E. H. The ground of the hopeful feeling seems to be that co-operation between the railroads and the national government to secure the ends sought by the governmay serve to allay the flood of measures now pouring into state legislatures all over the country for restraint upon the railroad powers, and which are feared especially for their variety and conflicting requirements. Foreign markets seemed to be equally impressed with our own as to the importance of the proposed conference. Buying of stocks for London account was an important element in the strength of the day's market. The mixture of hesitation and scepticism in the tone of the market owed its origin largely to the obscurity of the outlook over the money question. The growing tightness of the New York money Next Saturday night a rescue mils- market became quite manifest to-day selling. The day's extreme advances were not all held, but the closing tone was fairly steady. Bonds were irregular. Total par value, \$1,894,000.

## The Lournal and Courier GALA NIGHT FOR ORATORIO.

GREAT GERMAN REQUIEM AT-TRACTS BIG AUDIENCE.

Entire Concert Force to Take Part In "Dress" Rehearsal in Woolsey Hall-Soloists to Arrive Early in Forencon.

Everything points to a gala night in Woolsey hall Thursday, when the New Haven Oratorio society will sing Brahm's grand "German Requiem." The sale of seats has been such as to encourage the managers to believe that the audience will be big, and the performance will be a notable one, perhaps one of the best the society has ever given.

To-morrow afternoon the chorus meets for its dress rehearsal on the Woolsey hall stage. The rehearsal is called for 2 o'clock and the entire concert force will be present-orchestra, cloists and organist. Both works will be gone over, the Mendelssohn "Hymn of Praise," and the "Requiem," the first named work being chosen to close the evening programme.

Mr. Biward Johnson, tenor, Mrs. Edith Chapman-Goold and Mrs. Genevieve Clark Wilson, sopranos, and Claude Cunningham, baritone, the soloists, will come to New Haven early in the forenoon in order to take part in the rehearsal.

Good seats are to be had, and they will be on sale at Steinert's and Woolsey hall from 10 a. m. dally. Nothing the New Haven Oratorio socley has ever done has more keenly interested the singers. There are

thrills in the great German work If ever there arethrills in music. As the massive chords of the "Requiem" roll out from the chorus, and the organ and the blg orchestra throb through and under it all, the effect is indescribably impressive and wonderfully beautiful.

THE FRENCH GIRL'S DOT. Commenting on some differences in the American woman's and the French woman's scheme of economy, a writer

"Harper's Bazar" says: "At the point where the American roman's economic obligations cease and her economic identity is lostwhen she comes to marry, that is-the French girl's 'dot,' without which marriage for her is impossible, continues her obligations and preserves her independence. The result is that whatever abor the French girl engages in is undertaken by her with the same serious and constant purpose that the typical man has in his work; the reward sought is in both cases precisely the same—the accumulation of sufficient money to marry and found a family. But with reference to the girl this further fact operates-that the woman's uccess in any line of work must tend first of all to perfect family concerns. Thus we find the French girl or woman dorking outside the home only under compulsion of want of moneynever in the satisfaction of any bristing ambition to carve a career of her own; that she should be compelled so o work is established as a clear misfortune, and the schooling she receives, as well as the very purpose of industry tseff, determines that a knowledge of domestic affairs shall, to the greatest possible extent, be the foundation of her instruction in any trade or profesion, and she is understood to progress n indestry accordingly as she becomes nore and more at liberty to apply herself to work within the home."

"The beautiful silver service present ed to Mrs. Lotze and myself will be an additional and constant reminder of the years we have labored with you for the boys and young men of New Haven, and permit me to add that without such a helpmeet the work done would have

been of much less value. We hope still to do much more in private life in this city for the cause we so dearly love. Assuring you of my deep gratitude for the thoughtful manner in which the resolutions and allver service were presented by your committee, I beg to remain as ever, Very sincerely yours

"WILLIAM G. LOTZE." Since February 1 Mr. Lotze has been giving his time to the association gratuitously in assisting the directors and citizens' committee to raise the balance of the \$100,000, thus making the pledges binding. Such substantial responses have been received by Mr. Lotze that he has decided to continue the work up until April 1 and so notified the directors at their meeting Monday night. It is hoped by the directors that friends of the association will respond gener ously in order to bind the pledges already made, and that the next few weeks' work will see the canvass com-

wildly hither and thither about the The men forward who had been attending the lecture clambered over the bulwarks and jumped down, some of them onto the dock, and others onto the stone quay. Many of the men who jumped sustained fatal injuries.

The hundreds of men below deck were in a fearful position. They were enshrouded in blinding smoke, and while they groped their way toward the exits they became the prey of suffocating fumes, which caused many of

them to fall unconscious where they In the meantime the detonations had come more frequent, and the entire after pant of the Iena, which was virtually blown to pieces, caught fire. Shells and charges of explosives in the magazines continued to explode, and masses of metal were hurled into the air to fall everywhere about the docks and the arsenal. These flying missiles demolished the torpedo shed, the engine works and the pump house near by, and constituted a most serious menace to the lives of those who made their way toward the ill-fated battleship to begin the work of rescue. In spite of the danger many heroic efforts were made to render assistance, but for the most part in vain. The lena was aflame from bursting projectiles, and the fire prevented approach.

came to an end. Thus amidst masses of dense smoke

the search for the dead and wounded commenced. The lower decks of the lena were littered with the fragments of shattered and torn bodies, while the surrounding water was dotted with hunan fragments dripping blood. It will be impossible to ascertain the exact number of killed and wounded until tomorrow, when a roll call will be held. as many of the men were completely blown to pieces, while others were incinerated.

Many of those who escaped with their lives suffered most severe injuries, and, becoming temporarily insane, rushed frantically around the vicinity of the drydock until they fell exhausted.

The arsenal authorities organized an ambulance service without loss of time, and soon a long procession of injured men were on their way to the hospitals. A quartermaster gave an account of his experiences. His face was blackened, his hair and beard had been burnt off, his uniform was in rags and he had sustained a number of minor injuries. 'I was on the bridge and just about to call the afternoon roll," he said, "when the explosion occurred. I had no idea what had happened. I felt myself hurled into the air, and a few seconds later I found myself lying on the quay.

had no idea where I was going.

An orderly of Rear-Admiral Manceron, who was cut, bruised and bloodstained, gave the following recital of his experiences: "Rear-Admiral Manceron's quarters are above the magazine. I was in the dining room when the first formidable shock occurred. The quarters were at once filled with aciduous fumes and choking smoke. rushed to the rear-admiral's cabin, where he sat awaiting his coffee. saw that he was wounded and I shout-Orange street," will find their way to to his persevering efforts in behalf of ed to him to run. > the rescuers found me." Captain Vertier occupied a cabin near the after-turret over the magazine. Immediately after the explosion he tried to get out, but the door of his cabin was blocked with debris and the only means of exit was impassable. The flames then broke out, and Captain Vertier died a horrible death. After the fire had been extinguished the rescuers found his incinerated remains, as well as the terribly burnt bodies of caught in the after-cabin. The midshipmen were killed outright, and the others attached to the Iena have not yet been accounted for.

Until a late hour this afternoon a office of the maritime prefect, seeking the names of the victims. Finally the officials persuaded these people to disperse, telling them there was no chance of learning the names of the killed and injured before to-morrow.

Lieutenant Tiercelin, one of wounded survivors, is of the opinion that everybody who was below at the e of the explosion undoubtedly was asphyxiated by the deadly fumes arising from the magazines, particularly from the combustion of "B" powder.

There are this evening a total of 150 wounded men being cared for in the ospitals or in their own homes, but in addition a number of people in the town were hit by projectiles from the explosion. A two-year-old child was killed instantly in the town by such a missile

The fire is now practically out, and is soon as the battleship is free of the deadly fumes, probably sometime tonight, the work of bringing out the bodies will begin.

POSSIBLE CAUSE OF EXPLOSION. Paris, March 12.-Inspector-General Admiral Bienaime expresses the opinion that the explosion on the Iena was caused by the spontaneous combustion certain time and which requires constant inspection for safety. Spontaneous combustion was the cause of the terrible explosion of the Toulon powder

nagazine in 1899. The ministry of marine received a dispatch from Toulon late to-night saying that, while the number of victims was considerable, it would not be so large as at first reported. Seven officers are reported missing. They are Captain Adigard, Captain F. B. C. Vertler, Lieutenant Thomas, Midshipman Lereux, Mishipman De Beauregard, Surgeon E. R. Roustan and Engineer F. O. Gie.
