CITIES RAZED BY EARTHQUAKE

Chilpancingo and Chilapa, Mexico, in Ruins and People Flee in Terrible Panic.

EARTH CONTINUES TO ROCK

MINOR SHOCKS COMPLETING WORK OF DESTRUCTION.

Chilapa, the Capital of the State of Guerrero, and Has Population of 15,-000-No Details Yet Received-One City Not Heard From at All-All Communication With the West Coast Cut Off Since the First Shock and It Is not Known How Seriously That Region Has Suffered-Five Hundred

city has been completely destroyed by five years. one of the most serious earthquakes that has ever visited this section. Up to this evening the known dead number eleven and the badly injured twenty-seven. Among the dead is the wife of Postal Inspector Leopoldo Lopez Guerra; also the child of Jose Aleman, the postmaster of the city. Jose Lopez Martinez, manager of the federal telegraph office, was struck on the head by a block of stone and badly injured. A panie prevails everywhere and people are fleeing to the open country The earth continues to rock at calfhour intervals, and many minor shocks are completing the work of destruction of the first earthquake.

All telegraph communication with the outside world ceased shortly after 11:50 o'clock last night, when the first shock was felt. The telegraph operators have installed temporary quarters in an open square.

of Chilapa, forty-two kilometers to the Mrs. Eddy against Christian Science of- disappearance and the fact tout he was orders of the applicant be recognized. northeastward, has also been destroy- ficials to compel the latter to given an seen driving through Haddam in Good- and discussion followed. The question to be of great value. He advocated ed. As yet no details have been recelv ed as to the number of the dead and an unexpected course to-day by filing a ed, immediately led to a search for wounded, but it is feared that the number will be large.

The population of the town is 7,498 and until the panic into which the citizens have been thrown abates it will be impossible to state accurately to just what extent the recent earthquake has decreased it. The population of the city of Chilapa is 15 000 and that place is the home of the bishop of the Catholic church, who administers the eccleslastical affairs of the entire region. No word has been received from the bishop's palace, and it is not known at this time whether or not he was a victim of the shock.

Midway between the cities of Chilpancingo and Chilapa is located the city of Tixtla. This is a prosperous and progressive community, and as no word has been received from that place of the earthquake, Tixtla would be in its direct line, and if the city has escaped it has been only by a miracle.

The following message was sent to the federal telegraph office in Mexico City from Chilapa:

"Our boys are working on a public garden. A terrible panic prevalls as the earth continues to tremble at regular intervale. Send us tents that we may establish office out in thte coun-

All communication with the west coast has been cut off since the moment of the first shock and it is not known to what extent that region suffered. The nearest big town, !Acapulco, which is 130 kilometers to the southwest of this place, has not been

FIVE HUNDRED REPORTED LOST

City of Mexico Henrs of Grent De-

City of Mexico, April 16 .- The "Banco Nacional" (National Bank of Mexico) has received a telegram saying that 500 lives were lost in the destruction of Chilpancingo and Chilapa. The telegram adds that both cities were completely destroyed. In governmental circles the report is not credited. It is admisted that both cities were se verely damaged but it is not thought that the deaths will even approximate 500 owing to the fact that the houses are massive affairs, built of stone in

order to resist earthquake shocks, The federal authorities here have beeen appealed to by the governors of the disticts of Bravos and Chilapa for tents as the inhabitants in the stricken cities are now living in the open, having constructed dwelling of palm

leaves and branches. The governor of the state of Guerrero has dispatched military engineers and troops to the destroyed district and the work of rescue and sanitation is being carried on in a systematic man-

Seismographs in European Cities Note Violent Earthquake,

Vienna, April 15.-The meteorological stations in this city and at Trieste report a violent earthquake at a distance of 6,250 miles. The disturbance probably is the earthquake at Mexico City.

Berlin, April 15 .- The seismograph at Hamburg, Potsdam, Goettingen and Jena registered a severe earthquake sbock this morning at a distance of 6,210 miles. The heaviest shock occurred at 8 a. m. The disturbance probably was somewhere in South or Central America.

Berkeley, Cal., April 15 .- Perhaps the nest remarkable earthquake shock ever ecorded at the students' observatory at the University of California was registered on the Omey seismograph early to-day. The shock lasted for more than half an hour, and on account of the greater duration it is believed that the local station is much nearer the center of the shock than the eastern stations.

STATE MORTALITY FOR MARCH. Forty-two Less Deaths Than In Febru-

WANT IMMEDIATE HEARING

UNEXPECTED MOVE BY TRUS- to whom he expressed his repentance TEES IN EDDY CASE.

Ask That the "Next Friends" Be Ordered to Show Cause Why the Motion of the Trustees for Leave Intervene as Plaintiffs Should Not Granted-Conference Between Court and Contending Parties Expected To-day.

the trustees of Mrs. Mary Baker G. Eddy in the suit brought by George W. Tord has reached here that the town Glover and other "next friends" of had died after being struck. Bailey's Rev. Dr. F. M. North moved that the accounting of Mrs. Eddy's estate, took ale's wagon, which had been abandonmotion for an immediate hearing.

This city is the capital of the state clerk of the Merrimack county su- ada, and was brought back on July 17 that he was a priest. It was, however, of Guerrero, and four years ago was perior court, asks that the "next and tried for murder at the fall sitting pointed out that two priests of this was wrong. He was for unification of the superior court. and wounded many of its inhabitants the motion of the trustees, for leave to and destroyed a large part of the town. intervene as plaintiffs should not be granted and that if Mrs. Eddy's relatives have objections they make them

known at once. Later in the day the trustees filed an answer to a supplemental bill filed on April 6, by Glover and other "next friends" of Mrs. Eddy. The trustees reserve the right to object to the maintenance of the proceedings instituted by the "next friends," 'Among other reservations they retain the right to apply to the court at any stage of the Htigation to determine whether the proceedings instituted by the "next friends" were brought in good falth and not instigated by enemies of Mrs. Eddy. The answer denies that the original defendants induced Mrs. Eddy to turn it is feared that it also has been de- over her property to the trustees, or stroyed. According to the movements that the trustees are or have been agents of the original defendants. The trustees aver that to their knowledge no ombination of persons has existed for the purpose of secluding Mrs. Eddy and deny the allegation that she was not competent to execute the deed of trust

The trustees state that it is their duty if the charges in the bill of the 'next friends" are true, to prosecute the ten defendants for the recovery of all money and property, if any, misappropriated or diverted from Mrs. Eddy' state.

It is expected that the court will hold conference to-morrow with counsel for both sides for the purpose of fixing a date for an early hearing.

FIVE KILLED IN WRECK.

Great Northern Express Deralled Running Forty Miles an Hour.

St. Paul, April 15.-Running at a speed of forty miles an hour on a straight track the Great Northern west bound Oriental limited, which left here for Pacific coast points Sunday morning, was deralled early to-day at Bartlett, N. D.

Five persons were killed and a score or more injured, somet of them serlously. After the wreck a gas tank exploded and the train took fire, seven passenger coaches being destroyed, the sleeper and observation coaches escaping the flames. Officials of the road say that the track in this vicinity had been in apparently first class condition, and they are unable to account for the wreck on any other theory than that it was the deliberate attempt of

miscreants to wreck the train. The dead are: W. B. Jones, mail clerk, Grand Forks. Four unidentified foreigners.

The wreck occurred on the line dividng Nelson and Ramsey counties, the mail car completely jumping over the engine, and landing in Ramsey county, while the remainder of the wrecked

train burned in Nelson county. Death of English Artist.

nounced of James Clark Hook, R. A. known mine owner, died to-day at was born in 1819.

RECORDED MANY MILES AWAY. H. G. BAILEY HANGED AT THE STATE PRISON

WALKED TO EXECUTION WITH SELF-COMPOSURE AND HEAD ERECT.

Showed No Fear Whatever-Once in the Denth Chamber He Stepped on the Spot Indicated, the Black Cap, Noose and Manneles Were Quickly Adjusted and in Less Than Half a Minute After He Entered the Room He Forfeited His Life.

Wethersfield, April 16.-Henry C. Balley, murderer of George H. Goodale, was led to his execution in the state prison at 12:05 this morning and 19 seconds later he paid the penalty for his crime. Bailey showed no fear and walked with head erect, and in a selfcomposed manner between the two prison attendants from his cell to the death chamber, the condemned man stepped on the spot indicated, the black cap, noose and manacles were port for the month of March issued to- quickly adjusted and less than half a day by Secretary Townsend of the minute after he had entered the room State Board of Health shows that the signal was given, the drop fell there were 1,558 death during the and Bailey's life was forfelted for the acceptable. month or 42 less than in February. This killing in Middletown on July 6, last of total however was 69 more than the his employer. It was remarked that number for March of 1906, and 308 more Balley had appeared in better health physically and mentally this morning than when he entered the prison.

The hanging was witnessed by the prison directors, newspapermen doctors according to the statutes. The body will be buried in the prison, No one was with Bailey before his

and stated that he was reconciled to During the day Balley's wife visited

him and bade him good-bye. Henry G. Bailey, of Middletown, who was the first of the three murderers now under sentence in the state prison to suffer the penalty of murder, killed George H. Goodale who employed him on a small farm on the boundary between Middletown and Middlefield, on to investigate, and Goodale's body was found in a chair near a window. He

He pleaded self-defense but the jury argued an appeal before the superior fallibility. court of Middlesex county on sixteen alan appeal was taken to the supreme A week ago Bailey appeared before the commutation of sentence to life imprisonment. This was at once dented as no extenuating facts were presented, and the chief excuse offered for the crime was that Balley had been on a sprce just before he committed the crime and had no realization of the crime committed. Bailey leaves a wife with whom he has not lived for some time, and a family. Goodale was reputed to have had some money and a few days before his violent death had received money from a sale of some property, A which he spent in going to Canada.

VITAL STATISTICS FOR 1905.

High Birth Rate in This Statety in Divorce Courts.

Hartford, April 15 .- In the report on to be published many interesting facts est member of the conference. and figures will be disclosed. It will show a high birth rate and an increase

vorce courts, much more than usual.

The number of birth during the year and the highest number ever recorded in one year. In 8,328 of these births ecutive session. the parents were both Americans while were foreigners. The number of mar- quake. riages shown in the report is \$.075. deaths numbered 16,291, or 587 than in the preceding year. The death rate was 16.4 per 1,000 of the living population which was a slightly higher rate than in any year since 1900, when it was 18 per 1000. In 38 towns the deaths exceeded the births and the figures show that there was a natural loss in the population of 228. The loss this way was 22 more than in 1904. In eight towns the death and birth rates were equal and in 122 the births exceeded the deaths. The number of divorces is 491 or 27 more than in the previous The rate of divorces to marriages was one to every 16.4. Of the divorces 260 were for desertion. One hundred and 47 more widowers remarrie! than widows and among the divorced people 37 more women remar-

SAME LINE OF DEFENSE.

O'Relily Says It Will be Followed in Than's Second Trial.

New York, April 15 .- "If another trial s held it has been agreed that the same line of defense as that used in the first trial will be followed. Evelyn Thaw will tell her story again, but her testimony will be greatly strengthened by documentary evidence that was not used before."

This is the statement credited to Lawyer Dan O'Rellly, of Harry K. Thaw's counsel to-night. It has been reported that O'Rellly would be chief of the defense whe nthe trial is called again, but this report was not con firmed to-day, and it was even stated semi-officially that none of the law ers who officiated at the last trial had been dispensed with by Thaw. On the other hand it was said there would not be a formal announcement of their dismissal by Thaw, they would not reappear in the case.

As to Mr. O'Reilly's reference to cumentary evidence, it was said tolight that he referred to the letters written to Evelyn Nesbit by Stanford

White. Among the visitors to the Tombs tolay was a Broadway business man who said he had heard that Thaw was emporarily Libering under financial ifficulties and might not be able to give ball in as high a sum as might be demanded by the district attorney. The man declared that he was in sympathy with Thaw's position and would be willing to furnish cash ball for the prisoner in any sum, if each ball was

SUBSTITUTE BILL ON STORRS' SCHOOL MATTER

16 1167

REMOVAL OF STATE AGRICUL-TURAL INSTITUTION IS PRO-VIDED AGAINST.

Legislative Committee and Represen tatives of Various Commissions and Boards Meet at State Capitol and Adopt Resolutions in Form of Mensure to Be Presented as a Substitute for the Governor's Recommendations -Bill Crentes Commission to Inves tigute Agricultural Affairs.

Hartford, April 15 .- The agricultural committee of the legislature and representatives of the various commissions and boards allied to agriculture, met this afternoon at the capitol, on invitation of House Chairman Kingsbury, to consider the advisability of report- the university, was burned to the ing a substitute bill in regard to the ground. The loss is estimated at half recommendations of Governor Woodruff concerning he agriculural college.

A feature of the discussion was the removal of the college to some central ocation, and formulating a plant for the consolidation of all the commissions, boards, etc., in fact everything but the removal of the college.

The gathering was a large one, the various societies being represented as was the state college, the state grange and the office of the dairy commission-

c. Mr. Kingsbury said that he would much rather prefer that the resolution to be presented to the general assembly should come from the meeting than Standing in the Old Catholic Church from the committee alone, and instruclons could be given for the committee to work for its passage. The resolution could provide for a commission of three or of five to inquire into methods in other states and present conditions at sell again presided when the New York | the state college, Discussion followed in East conference resumed its sitting to- which Charles M. Jarvis took part. He was in favor of a careful inquiry into state colleges in other states but doubted if the work could be done in two or three months at this time when the average man was against the agricultural college because they are not informed as to its workings. He knew it was raised as to the standing of the proceeding along broad lines and knew

J. H. Hale said that the opinion that the governor was opposed to the college a ngricultural interes if the appropriation for the societies were made at one time there would be less criticism than at present.

Following the discussion resolutions were adopted which will be presented by the committee to the legislature as a substitute to the recommendations of the governor concerning the agriculturat college. The resolutions follow:

Resolved, By this general assembly that the governor is hereby authorized to appoint a commission of five memto be named by the bishop to consider bers to acquire into the agricultural interests of the state including the Connecticut Agricultural college, not with the conference on trial. They are the view of changing the present locaof Frooklyn; Ralph W. Keeler, of the purpose of increasing its value to the

AT CONFERENCE

(Contineud from First Page.)

in the United States, since the conference of 1899, by men like President Roosevelt, Mr. Root, our president of the present congress. Mr. Carnegie, and by so many other highly distinguished authorities, to put in effective action the principle of conciliation among nations, I declare that I fee sure of the success of the coming Hague conference.

After a manifestation like this, after such a powerful affirmation of your devotion to the service of civilization, 1 s impossible to believe in the future with the American help." The next speaker was Secretary

Straug. Secretary Strans was followed by Professor Hugo Musterburg, of Har-

"I am here, my friends, "to express a hope of peace, and discuss peace from the standpoint of the German. I am, of course, not one of the repreentatives of the German government but I am one of the people and for the past few years have been separated from my country," sail the prefessor. "I feel it is my duty to speak against

ome of these things with which the nissionaries of peace are weakening their arguments. I speak of Germany Germany is prosperous and the Ger-man householder looks to military duty as he looks to paying for fire insur-And, even in war, no matter what the results were, Germany would not be crippled. American railron's have killed more people than American cannon. These arguments, which o many friends of peace use, are weakming to their own cause. Universal peace is not a material issue; it is a noral one.

"I want to deny the stories that have ocen used for so many years to the effeet that Germany is a menace to the peace of the world. Peace, I believe has no more earnest supporter than Germany and America, I believe, has ng sincerer friend than Germany.

"I am sure that in Germany to-day there is a large and growing desire for international arbitration, but I know there is a feeling that, now that the interests are so closely bound together, that the judge may not be im partial. And then, in those courts intereste!, actorneys may be allowed to bring in experts to prove that there existed international brainstorms."

Professor Munsterberg said that to lay Germany was at perfect peace with all the world and a calm understanding of Germany's position would do more than anything else to promote peace. Conscription, he said, was not a burden in Germany.

At the close of Professor Munster-berg's address, Mr. Carnegie repeated his statement of the afternoon to the ffect that the German emperor had it in his hands to enforce international peace. In reply to Professor Munsterberg's statement that con-scription was not a burden, Mr. Car-

"That statement was one of the had. I wish he would go to our mills at Pittsburg and ask the thousands of men there why they came here. It is too late in the day for any professor to tell me that conscription is not a

Dr. Ernest Richard, president of the German American Peace society of New York, who was not on the formal program, followed. He also spoke for rmany, and said he agreed w Prof. Munsterberg in his statement that he knew that the Germans were great lovers of peace, for even in peace loving America the first peace society was of the conference were ordered to with- | ment, to-day, draw. And to the kalser's influence is due the withdrawal of the order, de

declares: W. T. Stead, in a speech, said in part; "I do not represent the British government. I never represented the British government and I hope I never will. No. I represent the people, and I am here to ask you, nearly all of you English speaking people, to join with us to make the coming Hague conference a

greater success than the first. "There has been all sorts of talk about disarmament. I have heard it going to propose any such thing at the Hague conference or anywhere else. What probably will be broached is a halt in this mad haste to increase armaments and still again increase them in the nonsensical degree."

Colonel Sir Robert Cranston, exord provost of Edinburgh, was intro-

"I speak," he said, "as the representaliberty than any other country and I on the coast. can say that there are very few people in that country who would not well pushes herself through the waves. as coming from me, but I want to tell sel. Paper Before New Haven Historical Socety-Extracts from Church Records From the Founding of the Church, 1767-Then a Small Wooden Building on Church Street-Meeting Presided Over by Professor Williston

The meeting of the New Haven Historical society last night was for the ployed transferring the plants to varimost part given up to the consideration ous beds. This work is termed transof a paper by Mr. Edward C. Beecher planting. Most of the plants thrive on "The Early Days of Trinity Church." Mr. Beecher is the present clerk of the church and from the records in his possession he has recontrolled the collect days of Trinity. The plants that are put down now will be ready to market next winter. Down the expense of the extension of the streets named. The expense of the collect days of Trinity.

structed the earliest days of Trinity. Mr. Beecher went back to the year Most of them are under charter for 1767 when the church was first estab- Fair Haven planters, but some are to lished. Trinity then was by no means transport oysters for other dealers. the dignified edifice that now stands on The auxiliary schooner Kansas City is that ideal spot at the corner of Chapel under charter to Lancraft Brothers, street and the Green. The Trinity which Mr. Beecher told about was a little wooden structure that stood on the east side of Church street and the company has another boat also under charter. They will plant also under charter. They will plant which gave to that street its present name. It was a church for which a matter of an eight by ten foot addition was decided by the parish to impart to make the parish to make the parish to impart to make the parish to mak tion was decided by the parish to impose too great a financial burden. In Jayne, which has been carrying brick from Long Island to Providence and as Mr. Beacher read their names it was as Mr. Beecher read their names it was possible to pick out many men whose work in these early days has come work in these early days has come to Providence, and Humphrey streets and the wider and Humphrey streets and the wide work in those early days has come down in the history of New Haven and passed Point Judith Sunday bound The bond issue will be for \$172,000. The Yale university.

Mr. Beecher's paper was made up of details gleaned from the minutes of early church meetings. Perhaps the most interesting fact brought out was interesting fact brought out was interested at the control of the contro in regard to the custom of burial un- pected home to-morrow der the church after the English man-

Covered Whole Head and Neck After an Attack of Measles-Hair All Came Out - Doctor's Treatment Had No Effect-Suffered 6 Months

CURED IN 3 WEEKS BY CUTICURA COSTING \$1.50

"After having the measles my whole head and neck were covered with scaly scree about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along, taking the doctor's blood remedies and rubbing on salve, but it did not seem to get any better. It stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. I used one bottle of Cuticura Resolvent, one box of Cuticura Ointment, and two cakes of Cuticura Soap. I think it a cakes of Cuticura Soap. I think it a splendid medicine, and I recommend it whenever I can. Mrs. Henry Porter, Albion Neb., Aug. 25, 1906."

FACIAL HUMORS Acne, Eczema, Ringworm Speedily Cured by Cuticura.

Warm baths with Cuticura Soap, and gentle applications of Cuticura Oint-ment, the great Skin Cure, speedily cure, in the majority

of cases, torturing, disfiguring facial Philadelphia and other humors of infants, children, and adults when Detroit New York and adults when seemingly incurable by all other remedies. No other treatment so pure, so sweet, and so speedily effective for preserving, purifying, and heautifying the skin, scalp, hair, and hands, as well as for all the purposes of the toilet, bath, and nursery. Guaranteed absolutely pure and may be used from the hour of birth.

Italian salt is heavily taxed, not because it is a luxury, but because it is a necessity, and the poor suffer greatly. Sugar is taxed also, even in the frivilous form of white ornaments on the top of cake. So a traveler from Alexandria found of late, arriving at Venice, bringing with him a decorated cake. Having no taste for cake, the traveler sailed into the port of Venice with his Egyptian sugar uneaten and forgotten. Down upon the cake came the Italian officials, demanding duty. The Englishman protested that cake was not contraband, whereupon the white ornaments were denounced. It was argued, besides, that the substance of the pastry itself was probably sweetened. The traveler, who did not like paying duty, proposed to heave the whole thing overboard into the lagoon, Not so; his arm was grasped; the sugar was now the property of the king of Italy. The traveler paid,

It is announced that the War department has received a report of the tests which have been going on for nearly two years at the army proving ground at Sandy Hook with two designs of wire-wound guns of six-inch calibre. One has been known as the Brown gun and the other as the Crozier gun, the latter having been designed by the ment commensurate with his dazzling chief of ordnance of the army. Each gun was fired ninety-eight rounds, when it was found that both had so eroded as to make it impossible to fire them with service charges of ammunition with any accuracy. The board which reported the tests falled to make any comparison of the guns in the way of respective merits. It has been arranged that the comparison shall be made by means of a special board, which will be composed of Major General J. P. Story, U. S. A. (rottred), formerly chief of artillery; P. R. Alger, professor of mathematics, U. S. N., who is a well known ordnance expert, and Captain 'Alston Hamilton, of the artillery corps, who is stationed at Fort Monroe, Virginia, and who is regarded in the workhouse -Tit-Bits.

The Tournal and Courter as one of the ablest artillerists. This oard will report on the relative merits of the two guns.

A GREAT AND CHEERING CHANGE. here was about universal peace wasn' taken very seriously. Since then there to. It is true that there are not many yet who believe that there will be uni probable. They are doing all they can of it will be powerful and enduring. It is a great and a significant thing to ognized and respected. It is an idea which is based on the everlasting foundation of right, and it may wax strong the doubters think. All the civilized countries are lired of war, and are honestly wishing that there need be no should they not take the next step and abolish that to wideh they are all opposed? We have faith to believe they will. That they will is not a bit more improbable than some of the things Miss M. Jennie Kendall is the first they were done. Wars and rumors of woman deputy sheriff in New Hamp- wars! They have troubled the world

a department of journalism. The first be devoted to English history, languages and mathematics; the third year the theory of journalism," and the fourth year to "practical experience."

There is, of course, much hopeful and promising talk about the new departation in all the newspaper offices will continue to turn out more or less finishper men. And we do not believe they will feel very much the rivalry of Indiana University's new department.

COMING BACK. Benevolence and beneficence some times pay well in addition to giving a comfortable feeling. Philippine lumber is being sold in Cleveland, Ohio. A lumber firm of that city operates a 60,place of Mexican mahogany. An officlai of the car company says: More In a French country town a strange pine Islands in lumber alone in the next count, just dead, years to get to- fifteen years after its purchase from gether. He spent the greater part of Russia. The future wealth of the Philippines lies mainly in the vast forests known brand of cigars. The collection, of valuable timber which they contain. than 66,000,000 acres are the property this public domain are wooded.

Perhaps when the resources of our Philippines are known and developed we shall find that we made a better move than some thought when we acquired them.

BETTER LATE THAN NEVE

People who in their lifetime somerimes find it hard to get bread and butter get fame and costly memorials after they are dead. It is interesting to read that plans are being made in Baltimore to erect a handsome mausoleum to Edgar Allan Poe, to be dedicated on the centenary of his wirth in 1909. In a communication from a Par-Islan, published in the Baltimore Sun. surprise is expressed that such slight honor has been paid to Poe in Amerlca, considering that the French never forget to place a wreath on the grave of Baudelaire on his birthday anniverfame rests on his translation of the other Parisian as follows: "If Baltimore does not want the bones of Edgar Allan Poe she might dispose of them to her material advantage to the citizens of France. To this end I will engage to raise a fund of 5,000,000 francs among his admirers in Paris alone. We will bury him in the Elysian fields of his dreams, erect a monu and imperishable fame, and never forget the wreath of immortelles on the anniversary of his birth, year after wear forever."

Better late than never, the admirer of Poe in this country will say. Poe died about 58 years ago, and perhaps it is as remarkable that he is going to have a mausoleum now as it is that he hasn't had one long ago.

That the automobile is rapidly mak ng its way is known to everybody who France. For 1906 the United State leads the world in the number of cars built, 60,000 as compared with 55,00 built in France, 28,000 in England, 22,-000 in Germany, 19,000 in Italy and 12, 000 in Belgium.

Owing to the prevalent prosperity, recent times have been good times for the automobile industry. Harriman has an automobile, and his testimony show ed that he could afford it. And ther are many others in this country who can afford an automobile. It is said that some who cannot afford one have one, but that may be only idle talk.

To Locate at the Housatonic Plant. New Haven will soon be the seat of another large manufacturing concern, were Philip J. Sullivan of Hartford, the E. C. Fuller company, incorporated, the state president, George H. Sheehan of 28 Read street. New York, has of Boston, the national organizer, John purchased the old Housatonic Manufacturing company's plant on Blatchley The local divisions are hard at work avenue. This company manufactures on plans for raising funds with which press accessories such as folders, binders, feeders and paper cutting machinery. Yesterday work was begun here enlarging and remodeling the Housatonic company's shop to meet the requirements of the Fuller company, which employs several hundred men. This concern is doing a big business in New York and controls patents of great value. All the large printing houses in this city are doing business with them and their patronage extends to the Paelfic const.

E. C. Fuller, the president, was formerly a New Haven man, and while here was known as a mechanical expert of marked ability. His return to this city at the head of a large manufacturing concern, while unexpected, will be John Mal of Gulfferd, Held By Coroner learned with much pleasure by his

many friends.
It is understood that the concern will employ several more men when estab-John Mai, a Guilford farmer Friday lished here. The workmen sent up in morning, Coroner Mix holds Mai crim-inally responsible. He has been out on hollers in the factory and have directions to practically transform the shop into a modern and up to date machine

The Connecticut Computing Machine company has used the factory as temporary quarters, but they are now in the wheel shop on York street.

CITIES RAISED

BY EARTHQUAKE

(Continued from First Page.)

fered with the working of the wires in all parts of the republic south of a line drown from Acapulco on the west coast to the city of Tampico on the gulf coast. The director of telegraphs, however, states that communication has not been entirely cut off from any point except (Acapulco.

From messages received here up to noon it appears that the entire southern half of the republic, including the lower country and the "mesa" belt felt the shock of last night.

Messages from as far north as San Luis Potosi and as 'ar south as the city of San Juan Buatista in the state of Tabasco reports that the shock was felt in varying degrees. But at no place up to date has a loss of life or great destruction of property been reported except in the state of Guerero. From these reports it would seem that the last earth tremble was greater in extent than any that has preceded it during the last half century. The boundary line of the northern zone of ing to reports received up to this time, show it extended across the country in a northwesterly direction for a distance of over 400 miles; and that the southern extent of the shock covered a distance of over 600 miles, making in all 24,000 square miles of territory affected by the

Both the volcanos of Colima and Jorulla are in this region and the people fear that the recent eruption of the earth may cause these mountains to become more active and destroy much property and many lives. The first named volcano is in the state of Collma, along the coast to the northwest of this city. Jorulio is much nearer and is located almost due north in the state of Michoacan. The inhabitants of this region are known as "pintos" because of the "spots" in their faces. They are noted for their hardy warlike spiritt and for thteir stoicism and fanatticism, but the recent catastrophe seems tto have completelly unnerved them as they have up to date lost all discretion. The city is located 97 kilometers from the nearest railroad line and it will be impossible for the people to flee except on foot or on horseback This fact caused a considerable amount of anxiety because the state is inhabited by a great number of Americans who are engaged in prospecting for mines. The nearest railroad terminal is at Iguala, which is across the river Rio Balsas and 97 kilometers to the northward of Chilpancingo. The total distance between Chilpancingo and Fexico is 335 kilometers.

PRESIDENT WITH HUGHES.

Significant Statement Given Out by Henry W. Tuft. .

Washington, April 15 .- Any lingering

doubt that may exist in the minds of certain politicians in New York State that President Roosevelt is not enlisted for the war with Governor Hughes to carry out the latter's programme, as outlined in his message to the Legislature, should be dispelled by an incident at the White House to-day. Henry W. Taft of New York city. brother of the secretary of war, called to see President Roosevelt this morning, and had a talk of some length. What the two men talked about, and what Mr. Roosevelt said to Mr. Taft, is apparately reflected in what Mr. Taft said to your correspondent, as he left the President's private office. Mr. Taft, with lawyer-like caution, wrote

"Public opinion approves the main features of Governor (Hughes' policies. The republican party in the state of New York stands for the policies of resident Roosevelt, and the president supports Governor Haighes, because they work on similar alnes and have the same purposes. Some of the leaders of the republican org anization seem to be put in the attitudes of opposition to Governor Hughes. Thirs cannot continue, if the state is to but kept in the republican ranks, and I believe that what must be found is some way by which Governor Hughes m ay be given

down what he had to say.

FOSTER LAW LECTURE.

Deliverd by Prof. Wurts Before Enthu- At Dwight Place Church and at the slastic Student Body in Hendrie Hall Last Night.

Prof. John Wurts, M. A., M. L., holder of the Lafayette S. Foote professorlecture on "Systems in Legal Educa-

in a body and the popular law lecturer public, with a silver offering. was introduced by Chief Justice Simeon E. Baldwin.

Among other things he said: In our generation, we have seen every line of thought and social activity undergoing a change and educational ideas have see this attitude so pronounced in the preparation of the young men for addo their part in this noble work. They in the long ago. have devised means to facilitate the student work; the inductive method is now used to no small extent. Some three or four law schools have gone so far as to demand college degrees for admission, but when we refuse all but the college bred man, some think we sacrifice very often the substance for the name.

Now we hear the question: What system has your school adopted? The old rule was the study of the text books; it was the old system that Justinian recommended to the law students of his time and this system, supod of to-day.

In those Roman days, the admission of the young lawyer to the har was statute was enacted. The question thus the first step of his education, for he presented was whether the transfer tax had only learned the fundamental principles, and now was to learn their application. Then his education was his courts sustained it, and the federal sucombine the practical workings of the lay with the theory, terminology and by Justice Day. He found Mrs. Dela- Pennsylvania sold 10,000, and a quarscience of the law. Such an attitude today seems indispensable.

While some have adopted the text book method, supplemented with the lecture and case book system, few have been so radical as to confine the legal education from the beginning to the cases as precedents-from which he deduces the principle of law found there

Such a system would perhaps be most beneficial to those who have a knowledge of the law, but to apply such a system to a young man who does not know the rudiments of a science which streets. The front of the building is he adopts, is like beginning a young man's study of medicine first in the technical dissecting room. It has been the unanimous opinion of friends who were trained by th ecase method that their first year was worry, strain and misapplied energy, while those who have begun under the lecture and text book system say that he sees the profession in a historical way. It looms up before him as a science. He is not turned loose in a laboratory of books but is directed by careful guidance taining eight rooms, with modern conthrough the elements; gradually this work becomes more experimental by cases carefully selected to demonstrate the application of well known principles already learned; also are added lectures and experience teaches a more rapid growth and more practical knowledge by a combination of all these three methods, and it is sadly in error family. to decide to use one method exclusively, for different people require different food; one man's wants may not be what the majority wants; the happy medium gives best results, less superfluous energy wasted and the study of this most lawless of laws becomes a pleasure, not

CONSUMERS' LEAGUE.

First Meeting Will be Held at Center Church Chapel To-Morrow Afternoon.

The first meeting of the Consumers' league of New Haven will be held in Center church chapel on Wednesday, April 17, 1997, at 4 o'clock, immediately after the Woman's Civic club meeting.

All who are members of the Consumers' league of Connecticut or are interested in the work which the league is doing, are cordially invited to attend this meeting.

NEW STICK FOR THE JUDGE.

Attorney Sullivan Brings a Gift to Judge Mathewson.

Judge Mathewson of the City court is the proud possessor of an exceptionally fine Irish bog oak cane given him by Attorney James M. Sullivan, who recently returned from a trip to the Emerald Isle. Both Chief Wrinn and stick and Judge Mathewson does not heaviness in the tone of speculative let it out of his sight whenever he enters the police building.

The cane is handsomely carved with spiral of Irish shamrocks while on the handle are cut three Irish harps. The judge prizes the stick very highly,

FUNERAL OF BABY. The funeral of Helen Sullivan the en months old daughter of Mr. and Mrs. Daniel Sullivan of 105 Lombard street, was held yesterday afternoon at three o'clock. The interment was in St. Lawrence cemetery.

MARKET FEATURES

VIOLENT BREAK IN HALF DOZEN STOCKS AT OPENING.

Continue to Call Lonns.

There was a violent break in half a lozen stocks right at the opening yeslist. Efforts appear to have been made was compared with the extended con to put prices as low as possible, and they had all of the appearance of a treller of the currency. Besides subfew minutes, then they fell back a lit- ties. seemed to come in. The improvement helping on depression in stocks,

Morrison Brothers, who have been quite large buyers for several days, bought 10,000 Union Pacific and 5,000 Steel common. Content and Eckstein conditions, is constitutional. The state & Co. took 15,000 Smelters, F. W. Savin & Co. bought about 15,000 shares The court's decision was handed down and Reading. Watts, the specialist, in tette composed of three room traders devising the property, and therefore and one commission house sold 10,000 Kraus Brothers bought 5.000 Reading. Post & Flagg, Wrenn Brothers, Tracy & Co., Seligsberg & Co. and C. D. Barney & Co. sold Union Pacific. W. Davis & Co. bought Northern Am. Pacific and H. B. Hollins & Co. and Watson & Co. took Great Northern. Marshall, Spader & Co. bought 5,000

> The overthrow of stocks at the openng brought back to mind the conditions of March. There was a very poor market in which to liquidate, and shares like Union Pacific and Smelters had to be sacrificed in order to sell. With this liquidation there was a certain amount of short selling to aggravate the weakness.

The 22-point break in Standard Oil early in the day was construed by some as reflecting the market position of the financiers identified with that company, notwithstanding the recent nterview with Henry H. Rogers, in which he took an optimistic view of the general business situation. As a Read matter of fact, the decline in Standard Rep. I do. Rock Oil could reasonably be attributed to the adverse court decision, and to nothing else. That matter was amply suf- So. ficient to depress Standard Oil stock, if a heavy penalty were meted out on each of the numerous counts.

Of particular stocks little need be said. All declined or rallied in unison. The early recovery was led by supporting orders in the Harriman Issues, Pennsylvania and Steel. One broker had an order to buy 10,000 each of Union Pacific, Steel and Pennsylvania. One of the firmest features throughout the day was Consolidated Gas, which was several points above Saturday.

Out-of-town banks continued to call oans in New York, owing to the unsatisfactory rates now prevailing. Bank officers said that this liquidation by Adventure - 314 nterior lenders was a decided factor n last Saturday's \$36,968,000 expansion The banks also received some heav, deposits from the trust companie Nearly all the money loaned in Wal street yesterday was at 2 per cent.

Some rather large lots of the gran gers were sold at declining prices in the last hour. No additional news de veloped to explain the decline. It was probably due in a measure to liquida ion. Just before the close 3,700 shares of Union Pacific brought 133. Some support was offered at the close.

The 5-point rise in Consolidated Gar was a sporadle movement based or nothing in particular. Very little progress is being made in the 80-cent ga case, and it will be some time before a decision is rendered. Banking interest make the very good point that a favor able decision would make capital les timid about extending itself, coming after a favorable rendering in the Great Northern case and the defeat or municipal ownership in Chicago,

London sold probably 20,000 shares in the New York market yesterday, buying nothing. The sales were scatterbut particularly the Harriman and co. somewhat lower on the other side beticular feature.

YESTERDAY'S STOCK MARKET.

Violent and Irregular Fluctuations-Professionals in Control.

New York, April 15 .- To-day's rather violent and irregular fluctuations in prices did not alter the general conviction that the current stock market is largely in the hands of professiona operators, with the factors of doub and uncertainty over the future of suf-Court Officer Cooney are said to be ficient force to keep out any large pubenvious of the judge's new walking lic participation and to keep a tinge of sentiment. The bear element among the professional, evidently flushed with their success towards the latter part of last week, made a vigorous on slaught upon the opening market to

The subsequent trading showed day. the influence of this considerable extension of operations on the short side, without dislodging any important new iquidation.

There was a material recovery from the first break, but it was not until the needs of the uncovered bears had been substantially met that the dull and uncertain fluctuations were renewed. The ecovery became most prenounced aftthe announcement on the exchange the failure of a board member. It was assumed that the announcement represented the disclosure of the mysterious something which bear opera-tors have insisted was hanging over the market to cause last week's reac-

tion. The failure was not regarded as Large Buyers for Several Days Take important in itself, and the bears were 10,000 Union Pacific and 5,000 Steel not inclined to remain uncovered on the short side with this factor as an Common-Twenty-two Point Break explanation of whatever weakness the in Standard Oil-Out-of-Town Banks market has shown. But with the passng of the influence of the failure there was recurrent consideration of some of the doubtful factors which were in evidence last week.

The record weekly expansion of bank terday, and this depressed the entire loans shown by the bank statement dition of credits for the country a large shown by the reports to the conconcerted attack. In addition to this, scriptions to new stock issues and rethere were unquestionably a good many payment of loans to Interior lenders, it was believed that large payments to elling orders in the market, brought foreign lenders had been in progress about by Saturday's collapse in prices. and the upward course of foreign ex-These came from far and near. Losses change last week bore out that suppoof 1 to 3 points were sustained, notably sition. To-day foreign exchange reactin the Hill stocks. Harriman issues and ed sharply, although call money conin Smelting. Within half an hour a tinued easy. In the time money marrally was in progress, and it continued ket here there is a stiffening of rates off and on until midday. Around noon for the longer maturities, although the prices were run up sharply within a market is soft for the shorter maturi-

tle and business became dull. The A sudden relapse in the price of short covering was mostly over for the Standard Oil stock in the curb market noment, and little outside business was a sentimental influence towards n stocks was chiefly based on the renewed downward drift carried prices easing off of wheat, as a result of bet- almost as low as the opening break, ter climatic conditions in the south- but there was some recovery again beore the irregular closing.

Bonds were heavy. Total sales par value \$1,510,000. United States bonds were unchanged

NEW YORK STOCK MARKET.

WEATHER RECORD.

Washington, April 15, 1907. Forecast for Tuesday and Wednes-

Forecast for Tuesday and Wednesday:
Eastern New York, showers Tuesday; Wednesday fair, increasing south shifting to west winds.

New England, fair in east, showers in west portion Tuesday; Wednesday showers; fresh west winds becoming south.

Local Weather Report. New Haven, April 14, 1907. a. m.

p. m

Westner Gear Jun. Temperature 33 Lax Temperature 4 L. M. TARR, Local Forecaster, U. S. Weather Bureau.

Brief Mention.

High water to-day, 1:22 a. m. Major E. L. Isbell has sold to a New York syndicate a lot, 80x240 feet, adjoining the Hill Homestead property in Beach street, Savin Rock, The property is to be used for a roller coaster.

Stanley P. Rockwell, the Yale oarsman who was recently operated upon for appendicitis, is convalescent and is able to be up for a short time each day. He is anxious to return to college and resume rowing, but in the opinion of and the hearing is likely to prove quite his physician it will be entirely a question of recovery of strength in time to re-enter training.

The first straw hat has arrived. It was not on the head of a Yale man, therefore the university loses a distinction won in former years. This straw has was seen at the depot yesterday morning. Itw as brand new and was held in place by a hat guard owing to the strong wind that was blowing.

Delphin M. Delmas, attorney for Harry K. Thaw, will speak before the Yale Kent club in a few weeks, his subject being "Criminal Jurisprudence." The uncertainty of the date was made necessary by the uncertainty of the length of the trial, 'Attorney Delmas has been forced to take a rest after the strenuous labors of the past six weeks, but before he returns to the west he will be in New Haven to speak to the

WELL-BRED WOMEN Everywherwe use Paxtine Toilet Antiseptic as a wash for the teeth and mouth, as it is unequalled for killing gums, purifying and perfuming the breath, and keeping the teeth clean and

Mrs. L. M. Reynolds, of New Bedford, Mass., writes: "I must say Paxtine is a necessity in a woman's tollet My husband and I both use it as a mouth wash and for the teeth, and it is unequalled for other uses for which it is recommended. We have never used anything we liked to well."

Paxtine is the formula of a noted Boston physician, who used it with the greatest success in his private practice for years. It is unequalled for all uses in woman's toller where a cleansing or healing antiseptic is desired. As fast as one women uses it she is sure to tell others of its value. Fifty cents at druggists'. The R. Paxton Co., Boston,

Nasal catarrh, an inflammation of the delicate membrane lining the air passages, is not cured by any mixture taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the fevered, swollen tissues are reached at once Never mind how long you have suffered nor how often you have been disappointed; we know Ely's Cream Bala will cure you as it has cured others by the thousand. All druggists, 50 cents. Mailed by Ely Bros., 56 Warner street, clined to give out any further informa-

New York

The Bournal and Courter IN AND ABOUT THE COURTS

ITALIAN SALOON KEEPERS POINT OUT VIOLATIONS.

License of Edward Monohan Contested -Less Work for Court Messengers-Came Home and Was Arrested-Young Robber to Beform School.

A list of twenty-three places where liquor is alleged to be sold without a license or on Sunday was forwarded to Chief of Police Wrinn yesterday for prosecution by the recently organized Italian Saloonkeepers' Protective assoclation. The chief looked them over and stated that an investigation would be started at once.

"If the violations are going on, as this letter says, the violators will be rounded up, you can depend on that," he said warmly, but refused to give out the list for publication.

The saloonkeepers' association was formed to blot out an alleged illegal yesterday's list was the first gun in the campaign.

The matter of prosecution is now up to the police, and results are awaited with interest.

CONTESTED LICENSE TO-DAY. The county commissioners have appointed for to-day at 10 a. m., at their cooms in the county courthouse building, a hearing in the contested license case of Edward J. Monahan, a saloonkeeper at 135 Union avenue. Monahan has been twice convicted of violation of the Sunday law during the past year, but having appealed both cases to the ommon pleas court, through his attorney. David Fitzgerald, his first case

were not sent up in time. In his second case he asked for and btained from the judge, who did know of his first offense, a certificate, sometimes given, but only in a first offense protecting him from loss of his license

was stricken from the docket because

his appeal papers from the city court

and the calling of his bond. The Rev. Mr. Mossman is opposing his receiving a renewal of his license interesting.

LESS WORK FOR COURT MESSEN-GERS.

The bill pending in the general asembly which provides an increase in the salaries of the messengers in the New Haven and Bridgeport civil superior courts has been amended so that it is provided that these men shall not be compelled to do janitor work, as they do now. It is proposed that all the janitor work be done by the janitors of the buildings in which the courts are cield.

In New Haven court messengers do janitor service by keeping their own court rooms in proper condition. The messenger's salary is only \$1,000 a year and he is obliged to pay out of this to employ assistance on his janitor work In Hartford the messenger is paid \$1,-500 a year and he has no janitor work

The New Haven and Bridgeport messengers believe they should be placed success founded upon Tolstol's famous on an equal footing with the Hartford novel Anna Karenina, which is to be J. Henry Kirschner and Marie L. K. ing for \$1,500 a year and no janitor

> CAME HOME AND WAS ARRESTED James McDowell, of the Fair Haven annex, for whom the police have been looking since last December in connection with the burglarizing of Alvah Granniss' store in Grand avenue, came home from Maine Sunday and was arrested by Patrolman Cook, of the

With Leo Hill and Arthur Roberts or whom the police are still looking, McDowell burglarized Granniss' store and the following day left for Maine, where he has been ever since.

After pleading guilty Judge Mathewson bound him over to the superior court under \$250 bonds. McDowell is nineteen years old and has served two terms in the Reform school.

YOUTH TO REFORM SCHOOL. But recently before the city court for oting a work car in the railroad yards of a number of rubber boots benging to workmen, Peter Taragonski, welve years old, of 77 Adeline street, made another raid on the railroad last Saturday afternoon in company with Joseph Patrick, of 20 Adeline street. This time Peter went down looking for a locomotive, but as none cappened to e handy he compromised on a blg siece of lead worth \$10 and nearly as arge as himself. This the boys carried off and gold to Antone Alpert, a junk dealer of 53 York street, for \$2.

Patrolman Doran arrested Peter and oseph, and yesterday morning Judge Mathewson sent Peter up to the Re form school. Patrick was remanded on probation until June 20. It cost Alpert, the junk dealer, just \$18.78 for the germs of decay, hardening the buying from minors, taking all the profit off his deal.

RETURNS TO POSITION.

Conductor of Grays' Special Back On

His Train.

George F. Eaton of 12 Park street, the conductor of the Grays' special train which was wrecked near Waterbury, two months ago, has been exonthe railroad company and yesterday morning Mr. Eaton was in charge of iis old train which leaves this city at 9:35 a. m. for Pittsfield over the Berkshire division. Mr. Eaton was severely hurt in the wreck and was laid up for some time during which the company was trying to place the responsibility

for the accident. It has been 'reported for some days that Mr. Eaton had been released by the company, but his return to his old train proves that the road does not old him in any way responsible for the accident. Coroner Mix in his report of the affair said that Eaton had done all he could to aver; a collision and the many friends of the conductor were pleased to learn that the railroad took the same view of it. Efforts to 'earn whether any employes other than the engineer of the special had been disciplined on account of the accident were futile as officers of the ron 1 de-

tion on the matter.

NEW LIGHT ON "MUTINY."

Deputy Says Prison Officials Really Murdered Tortured Prisoners.

St. Petersburg, April 15 .- The mutiny in the prison at Riga on April 13, when thirty-three prisoners attacked and overcame the superintendent and wardens, necessitating the summoning of troops, who fired on the mutineers, killing seven and wounding twelve of them, was the subject of an interpel lation in the lower house of parliament o-day. Deputy Ozel of Riga declared that he

had information to the effect that the affair was deliberately arranged by the prison authorities in order to dispose of several prisoners who had been tortured in order to obtain confession from them, the torturing resulting in at official investigation of the affair and the commencement of proceedings against the guilty persons. The deputy nsisted that the prisoners had made no attempt to escape, as alleged by the prison authorities at Riga.

Another interpellation of the govert.ment to-day concerned the alleged torturing of a prisoner confined in a jail at Astrakhan, as a result of which the man is said to have deliberately burned himself to-death

Rear Admiral Nebogatoff, who com sale of liquor in the Italian colony and manded the Russian third Pacific squadron, which surrendered at the battle of the Sea of Japan, and who was tried by court martial and sentenced to death, but whose sentence was commuted to ten years' imprisonment in a fortress, has begun to serve his term in the fortress of St. Peter and St. Paul. He was allowed to choose the time for the beginning of his sentence has been assigned to a comfortabl furnished room in the fortress, and will

be allowed a special diet. The session of the lower house to-day was devoted to the discussion of the agrarian question. Previous to the pening of the debate the house, at the uggestion of President Golovine, rose in honor of Baron Frisch, president of the council of the empire, or upper house of the Russian parliament, who dled on April 13, and who opened the first session of the first lower house of parliament in 1906. This is the first ecognition of the upper house of parliament by the lewer house.

ERTAINMENTENTS.

Hyperion Theater.

The Rogers Brothers announce that they will present their most successful, musical comedy "The Rogers Brothers in Ireland," at the Hyperion tomorrow and Thursday evenings.

This is the comedy that ran for 200 nights in New York city and was played to immense business in Philadelphia, Pittsburg and Boston. Gus and Max Rogers the stars who head the organization have made the success of their career in this production and competent critics admit there has never been a more brillians perfornance in modern musical farce. The original cast and the complete scenic investure will be brought to this city. The desire to see this success is sufficlent to insure crowded houses.

VIRGINAY HARNED. of stage craft and footlight illusion is prices. leclared to be the locomotive scene in "The Great Question," the big Paris of this scene is said to be such that the wheels is one of the most thrilling illusions yet attempted in this kind of to Paris to study the original mechansm at the Theater Antoine, states that it is the most intricate and wonderful device that he has ever seen and that it vill require a decidedly heavy equipas it has thrilled the Paris audiences.

New Haven Theater.

CHAUNCEY OLCOTT. Chauncey Olcott will present at the New Haven theater to-night his new play, Ellen Asthore, by Theodore Burt sayre, with which he has just won a decided triumph in New York. great was his success at the New York heater that he could have remained here for six months but for existing secessitated his presence elsewhere. It and resume there the most prosperous run of his career as soon as his present tour, which extends but a few weeks longer, is concluded. There was not a single dramatic critic in blaise New York who could find any words except those of praise to bestow upon Mr. Olcot: and his new offering. Indeed, it was declared that Mr. Olcott has at last come into his own and that there is a permanent place for him upon Broadway with his engaging art and his high-class Irish dramas, Eileen Asthere is something of a departure from the conventional romantic drama dealing with the history of Erin's Isle. It tells a heart story without the recital of any political history, without flint-hearted landlords and harrowing evictions. The dramatist has taken us back one hundred years for his theme Ireland was overrun with police spies, devil-may-care air, one Richard Temple, who is one of the merriest habitues of the ale-houses and gamblingplis of Dublin. Temple has been havown fortune upon his boon companions with loose-handed prodigality, and has been chastised by his father, who nev- field plays it well. He is well supporter had any too much love for him, by having his name erased from the eld-

THE LION AND THE MOUSE. "The Lion and the Mouse," probably one of the greatest plays ever offered American theatergoers, will be presented here by Henry B. Harris with the original company headed by Grace Elliston and Edmund Breese on Thursday, Friday, Saturday, April 25, 26, 27 with matinee Saturday. Charles Kieln. the author, unfolds in this play a perfectly simple, direct, but powerful the Women's Relief corps of the Unic story in which a girl pits herself Veterans Union witnessed the play.

THE CLOAK MODEL.

One of the near coming attractions it the New Haven theater Thursday, Friday and Saturday, April 18, 19 and 20, is the great melodramatic success, Nellie, the Beautiful Clonk Model," bout is an exact representation of Madison Square Garden during a masked roller skating carnival. This large greatest landmarks is advoitly shown with its spacious floor crowded with katers and revellers. The blowing up of an automobile and part of the new Williamsburg bridge, the rescue of Not-He, the heroine by her lover Jack Carrol is another one of the many features in the play, "Nellie, the Beautiful Cloak Model" is in four acts and fifteen scenes. Action is incessant, there are plenty of thrills and any amount of pathos, comedy and heart throbs. The play teaches a good moral esson besides being instructive and entertaining. The usual matinee will be One of the most remarkable novelties given on Saturday. Regular popular

Bijou Theater.

Unusually large Monday audiences vesterday witnessed at the Bijou theater two splendid performances of Clyde men to reproduce it. It will be seen ter two splendid performances of Clyde by the playgoers of this city exactly Fitch's thrilling historical drama 'Nathan Hale." The production of this play can well be said to be one of the best things offered by the stock during the present season. In setting and costuming the play affords no room for criticism and the work of the company s all that could be desired,

The story of the life of Nathan Hale is one that appeals to every school child. It is one of those heroic characters of Revolutionary days which once known are never forgotten and contracts like the one in this city which which with Washington shares the glery of that gallant and successful is his intention to return to New York struggle made for independence. The play is true to the story and being such

cannot fall to interest. Lawrence B. McGill is cast in the title role. Mr. McGill has been seen in many strong characters. His work in "The Christian" and "Monte Cristo" was splendid, but it pales into insignificance when compared with his interpretation of the role of Nathan Hale in the presentation of this week. Mr. Mc-Gill gives to that character those qualities which are always associated to gether with the mention of the name of a man such as Nathan Hale and in his work yesterday he was forced t respond to several curtain calls.

The second in importance only to the title role is that of Alice Adams played by Grace Franklin Lynch. The character is a distinctly emotional one and to the times of Robert Emmett, when Miss Lynch played it superbly. Her work showed an intense appreciation and has introduced to us a rollicking of the various situations of th eplay young chap with a light heart and a particularly in the last act when she parts with Hale forever.

In the work of the supporting company the leading character is taken by William F. Canfield, who plays the part ing a fine fling of it. He has spent his of the hard hearted and vicious Guy Fitzroy. It is not a pleasant character but it is essential to the story and Caned by Victor Browne in the character of the dastardly Cunningham who heaps insult after insult upon Hale.

The stock company members are well cast in the other roles, none of which are particularly prominent. The scenic effects secured in the various important scenes are all good and the production will doubtless receive most generous patronage. On Thursday a large number of members of the Daughters of the American Revolution will attend. Yesterday afternoon thirty members of the Women's Relief corps of the Union

SCHOOL TEACHER DEAD.

MISS HARRIET C. MILES DIES AT GRACE HOSPITAL.

Was Seventy-three Years of Age and Had Been Connected With the Public Schools for Thirty-five Years.
