

FIRE DRIVES INMATES FROM BURNING HOSPITAL

Every One of the Eighty or More Patients Compelled to Leave Grace by Flames That Started in the Servants' Quarters Late Yesterday Afternoon—No Fatalities, But Deaths May Result from Serious Shock.

MANY ARE CARRIED OUT DOORS ON COTS

Rushed in All Sorts of Vehicles to the New Haven Hospital, St. Raphael's and Nurses' Home—Twenty-five Critical Cases, Some Typhoid and Others Just Operated Upon—Woman Under Knife Few Hours Before Rushes Downstairs—Mother With Child Recently Born Taken Out—Citizens Quick to Respond—Bell-Boy is Missing.

Fire which resulted in the first third alarm that the local fire department has had in a long time badly damaged the top floor of the new wing of Grace hospital, in Chapel street, and endangered the lives of over eighty patients, who were all in the portion of the building where the fire started shortly before 5 o'clock yesterday afternoon. Through the calmness of the nurses, the good control of the patients and the help of a great many persons who were early on the scene, all of the inmates were taken safely out of the hospital and after a short time were conveyed to places of safety. Some of them were taken to the New Haven hospital, others to St. Raphael's, more to their homes and a few to the home of the Grace hospital nurses across the street from the hospital itself. While none of the inmates was hurt by the fire, the serious condition of some of them is likely to make the shock and exposure resulting from the fire go hard with them. There were six cases of typhoid fever being cared for at the hospital, about a dozen persons suffering from recent operations and a number who had recent fractures, which made moving them critical and dangerous work.

The fire itself ruined, for the time-being, the new portion of the hospital, which was built at the cost of \$38,000 a few years ago. The entire top floor was gutted by the blaze, while the remainder of the building was flooded with water. The fire department, by splendid work, kept the blaze from spreading and soon had it under control. The burned portion contained the quarters of the employees of the hospital. The maternity room and private wards on the third floor were slightly damaged by water also. The fire loss will probably reach \$20,000.

The entire loss is covered by insurance, held in several different companies.

The cause of the fire could not be definitely ascertained. Crossed electric wires at the top of the elevator shaft is considered the most likely explanation. The theory of some men smoking in their quarters is scouted by Miss Albaugh, the superintendent, on account of the time of day at which the fire broke out.

There will be a meeting of the board of directors to-day, at which plans for immediate rebuilding will be taken up. Work will be started to-day to dry out the interior of the water-soaked building. The patients will meanwhile be cared for at other institutions.

The three alarms brought out a great assemblage of apparatus and thousands of helpers and spectators.

This is said to be the first time in the history of New Haven hospitals that a fire of such an extent as to require the removal of all the patients from the institution has occurred.

FULL DETAILS OF FIRE

Starts in Servants' Quarters—Two Theories of the Cause.

It was nine minutes to 5 yesterday afternoon when the first alarm from box 811, the private box at the Grace hospital, was recorded at fire headquarters and immediately upon the arrival of the first company it became known that a fire of considerable extent had broken out in the upper part of the building. The second alarm came in just four minutes later, and the first third alarm that has been run in this city in a long time came just four minutes later, bringing the entire fire department, with its apparatus, and the three lower floors are water-logged.

Cost of New Structure.

This structure was built at a cost of \$38,000, which figure covers the actual contract figure for construction. It is a very modern structure, well built, and apparently quite up to date in equipment. To-day it is a bad wreck, the top floor being gutted by the flames, the entire room is burned off and the three lower floors are water-logged.

Loss About \$20,000.

The loss caused by the fire was comparatively not very large. In fact, New Haven has had much worse fires from that standpoint in the past year. The walls of the building are practically intact, the three lower floors will probably not require much work after they have dried out to place them in service again and the top floor contains the real fire loss. Here the building is a wreck and all the contents of the floor, consisting of the apparel and furniture of the employees and those who occupied it and all the woodwork, together with the roof, must be replaced entirely. The loss will probably be about \$20,000, which figure represents nearly half the value of the structure, and will probably be the cost of replacing it in good condition.

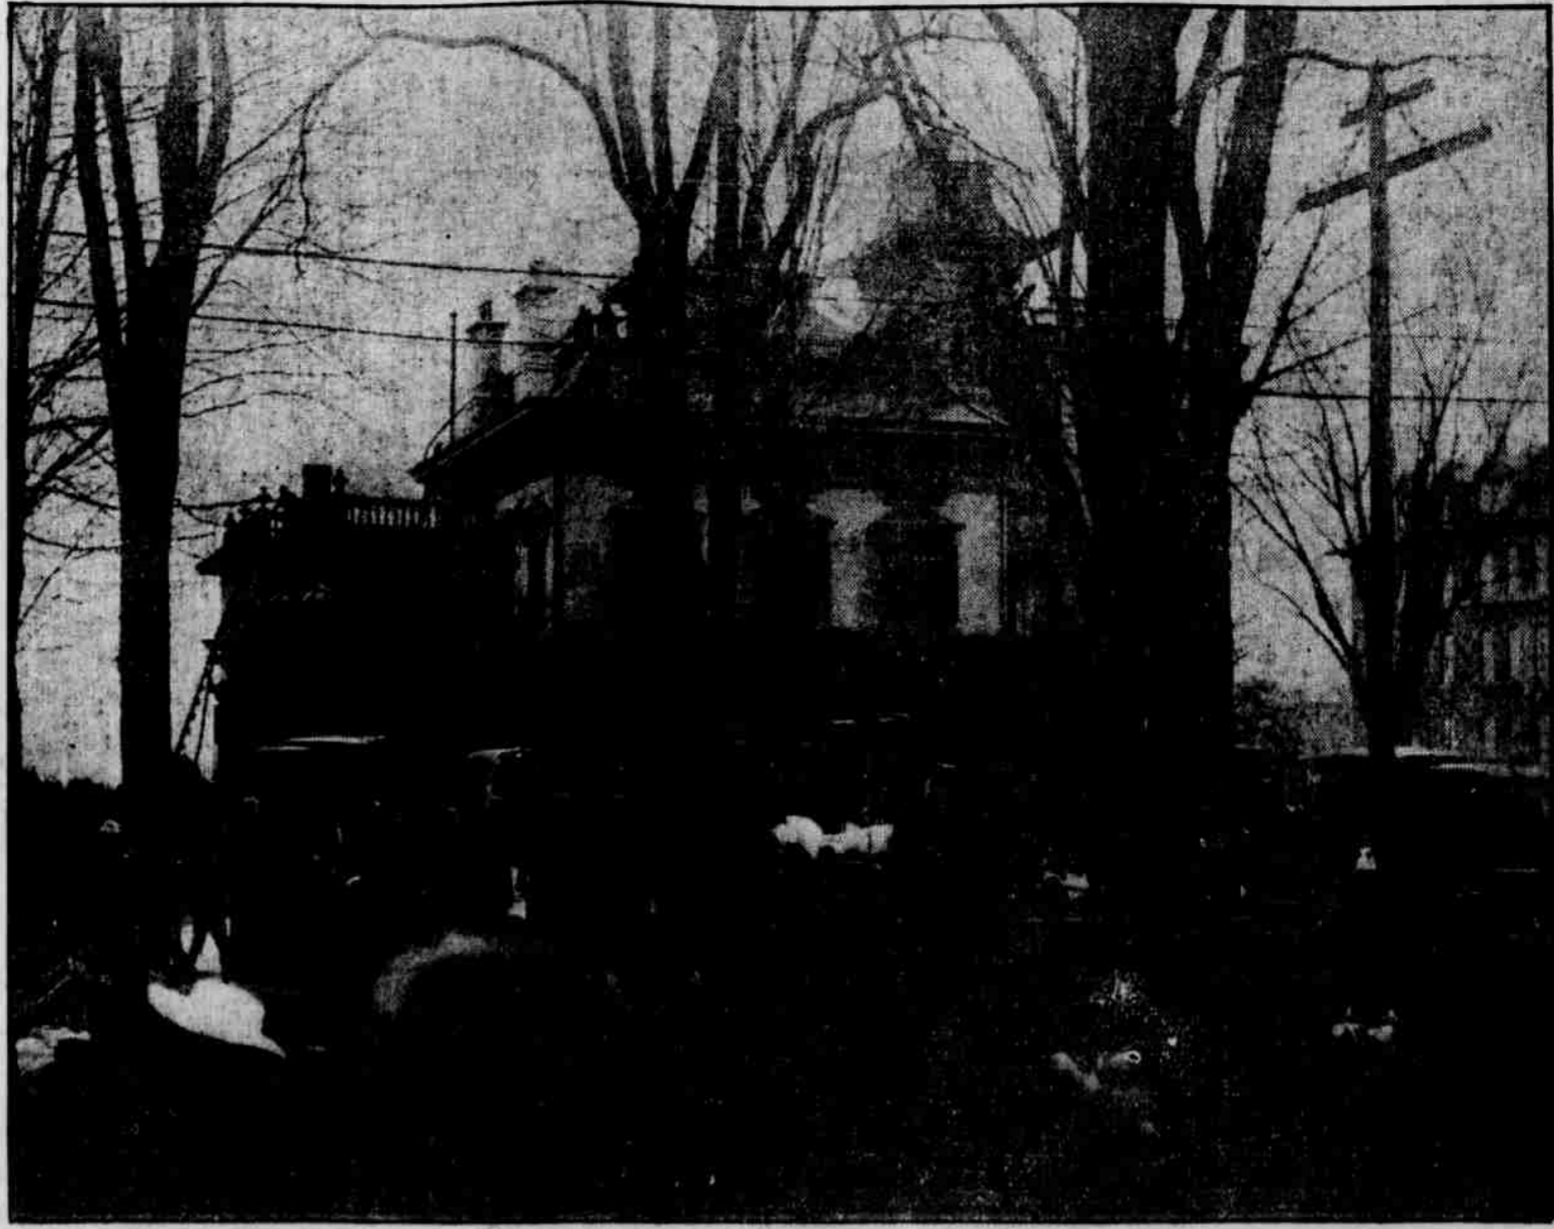

Removing the Patients.

The real horror of the fire consisted in the endangering of so many lives of persons seriously ill, some in the most critical condition and absolutely unable to care for themselves. The hospital was crowded almost to its capacity, there being about eighty-five patients under treatment, all of whom were quartered in the part of the hospital where the fire was. All of them were removed safely, however, although there may be some serious results from shock and exposure to those in critical conditions.

Miss Albaugh Arrives.

Miss R. Inde Albaugh, the superintendent of the hospital, was away for the afternoon. She had been in Wallingford and had just reached the center of the city when she learned of the fire. She boarded a car anxious to reach the scene at once and the delay caused by the blocking of Chapel street traffic was a severe trial under the circumstances. Upon arriving at the hos-

SCENE AT GRACE HOSPITAL FIRE.

Picture taken at 5:15 o'clock, when the excitement was intense. At least 10,000 people were gathered. The white spot in center is one of the cots being removed with patient. The white tops of ambulances are shown around the building, and firemen may be faintly seen on the roof.

pital she at once took charge of the nurses and the removing of the patients.

Method of Fighting.

Although the fire had already gained considerable headway when the firemen arrived, Chief Fancher adopted the policy of putting as little water on the fire at the start in order to make the work of carrying out the patients possible. The fire being entirely upon the top floor allowed the rescue and averted a holocaust. The flames were carried upward and the firemen directed their energies to keeping the flames above the third floor with the result that only the ceiling of that floor suffered from the blaze.

All Right at 11:30.

Miss Albaugh, when seen during the fire, stated that she had personally been in the part of the building where the fire started at 11:30 in the morning and that at that time everything was in good shape. There was a rumor that shortly after the fire started and while the doctors were endeavoring to fight it with hand extinguishers there were two explosions which made it impossible to check the fire, was scouted by Miss Albaugh. She declared that there was nothing on that floor to explode.

Quick and Heroic Work.

The nurses, all of whom have been carefully drilled for just such an emergency, retained their self control in the trying situation which they were called to face. Every patient had been taken off the top floor of the dormitory house within eight minutes. The nurses acted quickly, impressing into their service many outsiders who offered their aid. The patients also showed good courage and while there was much confusion there was no panic. Although there were very many children in the institution at the time they also were unaffected by fear and allowed themselves to be carried out without causing much trouble.

Mr. Whitney Offers Aid.

While the fire was raging at its height Senator Eli Whitney of the New Haven hospital arrived and personally offered to Miss Albaugh all the aid which his hospital could give, also offering to care for more of the patients than had so far been sent to them despite the crowded conditions which they had to face with their own patients.

Operating Room Saved.

The fire did not reach the operating room which is on the third floor of the damaged wing. On this floor which is right under the employees' quarters. On this floor also were located the maternity wards and some private wards. The other two floors below held general and private wards. The instruments in the operating room were saved by some of the doctors who went into the room during the fire and placed them in all places of safety. Considerable water damaged this room, but it was not burned at all.

Patients Taken Away.

The patients were taken away to the New Haven hospital, St. Raphael's and some to their home as soon as possible. Several were taken to their homes in carriages without the knowledge of the authorities of the hospital and they are very anxious to have these patients at least reported to them as they are responsible for

them. One case especially is that of a boy who was brought in a couple of days ago and who was operated upon for a crushed foot. The authorities understand that he was taken to the home of an aunt. They are very anxious to get track at once of all who were under their charge at the breaking out of the fire.

Bell Boy Missing.

There is just one on the missing list. That is a bell boy by the name of George Underwood. As he came from one of the state institutions they are very anxious to learn of his whereabouts at once.

No Operations Yesterday.

Dr. William Pitt Baldwin stated that there had been no operations at the hospital yesterday. There was one on Thursday, however. That was an aged woman who was suffering from a tumor. During the fire she started to walk down stairs. A child was born on Tuesday in the maternity ward.

One Death Rumored.

There was a report about town last night that there had been one death as the result of the fire. The probable source of the story was in the death of a child at the institution Thursday. Mrs. Hemphill, wife of a motorman in this city and her two children were taken to the hospital. One child died Thursday and the death was reported yesterday. This became confused with the account of the removing of the others and it was thought that one of them had died.

REMOVING THE PATIENTS

Everybody Offered His Services and Hundreds Helped.

The story of the removal of the patients from Grace hospital is, in good part, the story of the fire. This is simply because the damage done by the flames was not nearly as great as many a fire that is not given nearly so much publicity. Of all imaginable buildings, with the possible exception of a prison where the inmates are locked in, a hospital may be imagined as the most horrible scene for a fire. The idea of human suffering is a terrible thing in any event; the idea of human beings in danger of being helplessly burned to death in their beds while they lie in it were not for the efforts of others, upon whom they must depend, is far worse.

There were many women and girls in the vast crowds that surged back and forth in the streets about the scene of the fire that were completely unprepared by the very thought that the patients were helpless and stood there with the tears rolling down their faces as the bundles of white were hurried away in every describable kind of vehicle.

Some of the Helpers.

The college element came in droves and set to with a will at whatever of itself it could do. One diminutive freshman still in his teens and having a very youthful face, rushed up to the Journal-Courier man and loudly shouted: "Is there any work about here for an able-bodied man?" It was the spirit of willingness everywhere.

The telephone delegation was soon shelled greatly by the arrival of more employees from the telephone company. When the fire bell first rang the hospital was called up on the phone to be asked if the fire was really there. This is the usual custom of the company. It is so that the information desk, known as "number 25," may be informed rightly. The hospital responded that the fire was there and that every aid that could be given should be sent. Immediately Chief Clerk Ed-ward H. Lewis dispatched a crowd of the

company's workers to the scene of the catastrophe.

In the meantime the Grace hospital ambulance was driving hither and yon at breakneck speed, carrying the patients from the barn in the rear and from the main building in the front to safer and warmer places in nearby homes, all of which opened their doors on the spot. From the New Haven hospital came two ambulances and from every police station in the city some every available patrol wagon and ambulance and all were pressed into commission.

Some Conveyances.

Chief Cowles of the police station had taken his stand at the front door of the hospital by this time. He was there besieged with offers of private equipages for use in the further removal of the patients. From every part of the city came hacks and wagons and autos of every kind. James English's coupe, one of the handsomest in the city, was on the spot with liveried coachman and footman, and it did commendable service from first to last, making trips to nearby houses many times and later on going to the New Haven hospital again and again.

Nurses Off Duty Come.

The nurses who were off duty at the time the fire broke out were the first to aid at the same time. Inside the hospital everywhere were hurrying people. Outside the fire apparatus was beginning to arrive with clamor of gong and shouts of the drivers, enough to give a serious nervous shock to the patients many of whom were in a serious condition. The exceedingly lucky part of the whole fire was the fact that it did not break out in the night time. Had it done so, the results would have been surely fatal for many.

All Out in Short Time.

The fire broke out on the top floor, where was the quarters for the male attendants. On the floor beneath was the maternity ward, where there were a number of children, the operating room and some private wards. On the floor below that, the second, came the general wards for different ailments. Simultaneously on every floor the work of removal started. The patients were removed either to the front building, which is the original wooden one or down the stairs in the brick addition in the rear and a small side door and thence to the barn which is in the rear of the property. In all over eighty patients had to be taken care of in a very few minutes.

The rush to get out with the stretchers and the mattresses with the patients on them became very great at the narrow doorway mentioned where falling sparks which threatened to set the bedding on fire or burn the helpless were falling all about.

Some thirty-two were taken to the barn, where two was the strangest and, at the same time, most pitiable sights imaginable. Some lay on the floor with nothing beneath them but a mattress. As fast as beds could be removed from the burning building they were put into use. The police had begun to arrive by the wagon load from every quarter of the city. No determined effort was made by them to be over strict in their censorship of who should get through the lines and who should be kept out. This was because every possible helper that could be obtained was needed.

Where Taken To.

In all nineteen were removed to the New Haven hospital, sixteen were taken to the new St. Raphael hospital, which adjoins the Grace hospital grounds and eleven were taken to their own homes. Thirteen were removed

to the home of an aunt. They are very anxious to get track at once of all who were under their charge at the breaking out of the fire.

Bell Boy Missing.

There is just one on the missing list. That is a bell boy by the name of George Underwood. As he came from one of the state institutions they are very anxious to learn of his whereabouts at once.

WILL REBUILD WITHOUT DELAY

Work on Pumping Out Water So as to Dry Out Soaked Structure Starts at Once.

DIRECTORS' SESSION TO-DAY

Meeting Will be Held for the Purpose of Considering the Situation and Discussing the Building Plans.

The authorities at Grace hospital have already begun to consider the matter of rebuilding. Joel A. Sperry, president of the hospital association, said yesterday afternoon in an interview that of course the hospital would be rebuilt as soon as possible. There is the nucleus for the new building, and in fact after the old structure has been thoroughly dried out the repairs can be pushed rapidly.

Joel Gilbert of the firm of Foskett & Bishop, heaters and plumbers, received orders last night to start to work early this morning on the task of pumping out the cellar of the building in order to get out the lake that has formed there, so that the furnace may be started as soon as possible. As soon as these have been placed in shape for work they will be started and the building heated thoroughly until it is dried and in a condition for repairs to be made.

A meeting of the board of directors of the hospital will be held this morning. It has been called to take immediate action on the situation and at the same time plans for the rebuilding will probably be taken up and discussed.

SOLD FARM PROPERTY

Sergeant Donnelly Arrests New Yorker Late of North Haven.

After a hard chase and some clever detective work Sergeant Jeremiah Donnelly yesterday afternoon arrested Isaac Rubin for hiring a farm in the suburbs and then selling everything on the farm and beating it to the city. Isaac hired the farm of Mrs. Amelia Daab a year ago and gradually sold the furnishings getting in all \$344.99. He left North Haven and went to New York.

Yesterday it became known that he was in town and State's Attorney William issued a bench warrant for him. Sergeant Donnelly went out for him and found his brother Nathan Rubin at the house in the rear of 232 Cedar street. Nathan started to give his brother the tip but the sergeant followed him. Nathan met Isaac and Isaac started to run. Sergeant Donnelly sprinted, called to him that his brother wanted him. The man slowed up long enough to let the sergeant arrest him. Detective McAvoy assisted Sergeant Donnelly.

BRIDGE CONNECTIONS

Trolleys to Run Over Grand Avenue To-morrow.

A large gang of men were busy last night at a late hour thawing out the ground at the Grand avenue bridge in order to make the necessary electrical connections required before the cars can be run over the new structure on Sunday. The work is being done under the direction of the surface managers of the local trolley company, and is accomplished by the burning of old and doused ties. From all indications the work will be accomplished before midnight to-night and it is almost certain that the cars will run over the new structure to-morrow.

ANNUAL DINNER OF YACHT CLUB

The date for the annual dinner of the New Haven Yacht club has been set by the committee. It is March 18.

WEATHER RECORD.

Washington, Feb. 28.—Forecast for Saturday and Sunday: Fair slightly warmer Saturday; Sunday warmer with snow in north and rain or snow in south portion; winds becoming east and probably locally heavy.

For New England: Fair Saturday; colder in Maine; Sunday warmer with snow in north and snow or rain in south portion; fresh northwest to northeast winds.

Observations at United States weather bureau stations taken at 8 p. m. yesterday, seventy-fifth meridian time.

SUNDAY AT CHURCH

Archdeacon Stuck, of Alaska, at Trinity and Christ P. E. Churches.

THE 75TH ANNIVERSARY

Celebration of New Haven Orphan Asylum at United Church in the Evening.

The services at Trinity P. E. church on the green will be as follows: 8 a. m., holy communion; 10:30 o'clock, holy communion and sermon by the Rev. Archdeacon Stuck of Alaska; 12:10 p. m., Sunday school; and 7:30 p. m., evening prayer and sermon by the Rev. W. P. Downs.

Christ P. E. Church.

At the evening service the preacher will be Archdeacon Stuck of Alaska. The archdeacon is an eloquent speaker and will tell in an interesting manner about the mission work that is being carried on under his direction by the church in Alaska. There will also be special music by the vested choir of the church.

St. Thomas' Church.

The services in St. Thomas' church to-morrow, are litany and holy communion with sermon by the rector at 10:30, and evening prayer at 4 o'clock. The Sunday school meets at 12:05. The organ which has been remodeled and removed to the chancel will be used.

Beautiful the Home

Nothing adds more to the attractiveness of the home than taste displayed in the selection of wall hangings. They form a background not only for the pictures, but also for the rest of the furnishings. We have not only made a study of this specialty, but have years of experience back of it. Many owners of beautiful homes in this city will gladly endorse our work in this line. We have helped them very satisfactorily; let us advise with you.

hibit and explain the various implements mentioned in the psalm. As Mr. Maghaghghab was originally a shepherd he is the more strikingly realistic. A speaker of easy manner and ready English he is readily acceptable to audiences of the most intelligent character. The quartet will sing for opening "God be Merciful Unto Us" by Buck; for offertory, "Even Me," by Warren. To all of these services the public is invited. One of the most beautiful interpretations of Scripture ever brought to the attention of the American people was published not long ago under the title "The Song of Our Syrian Guest." It was in reality a graphic explanation of the Twenty-third psalm. So immediately successful was its publication that nearly a million copies have been sold. As an amplification of the same work a new book has been issued by the same author, the Rev. Faddoul Maghaghghab, A. B., a graduate of the college at Beirut, Syria, entitled "The Shepherd Song on the Hills of Lebanon," which bids fair to outdo its predecessor in popularity. Mr. Maghaghghab will speak in Trinity Methodist church Sunday evening, giving his portraiture of the shepherd psalm, exhibiting and explaining at the same time the implements mentioned by the author of the psalm, and wearing the garb of the shepherd of the Orient.

Grace M. E. Church Doings.

At the official board meeting on Monday night the pastor, Rev. W. W. Wilson, D. D., was unanimously inclined to return for the fourth year. The Willing Workers' circle of King's Daughters gave a supper at the church on Thursday night in behalf of the poor whose wants they are relieving.

Grace Methodist Episcopal Church.

Corner Howard avenue and Port- street. The pastor, Rev. W. W. Wilson, D. D., will administer the sacraments of the Lord's supper and Baptism and receive new members to-morrow morning, and at night preach on another "Well Done of the Master," a companion sermon to the one preached last Sunday morning. There will also be a love feast at 9:30 a. m. led by the pastor. Sunday school at 12 m. and Epworth league vesper service at 6:30 p. m. The services of the week will be as follows: Ladies' aid Tuesday at 2:30 p. m.; prayer meeting with Scriptural exposition at 7:45 p. m.; Ladies' Bible reading Friday at 2:45 p. m.; federation class Friday at 7 p. m.; Convalescence of the Cross at 7:30 p. m.; and class meeting at 7:30 p. m. To all of these services the public is cordially invited.

Epworth Methodist Church.

The sacrament of the holy communion will be observed Sunday morning at 10:30. The Sunday school session will follow at 12 o'clock. Junior league at 3; Epworth league at 6:30; evening worship at 7:30, when the pastor will speak on "Pure Religion." All are cordially invited.

First Church of Christ, Scientist.

Services at the First Church of Christ, Scientist, to-morrow at Republican hall will be as follows: 10:30 o'clock and 7:30 o'clock. Subject, "Christ Jesus." The Sunday school will meet after the morning service, and the regular testimonial meeting will be held Wednesday evening at 8 o'clock.

Second Church of Christ, Scientist.

The Sunday services at Warner hall will be as follows: 10:30 a. m. and 7:30 p. m. First reader, Rev. S. E. Simonsen, C. S. R. The subject will be "Christ Jesus." Sunday school meets at 11:45 o'clock, and testimonial meeting takes place Wednesday evening at 8 o'clock.

Men's Meeting, Y. M. C. A.

The men's meeting held at the Foy auditorium, Y. M. C. A., at 8:30 will be addressed by D. J. Ranney of New York, a reformer. Every effort will be made to secure the presence of the special music at this service will be furnished by the vested choir of St. John's Episcopal church.

The City Mission House.

No. 201 Orange street; Rev. W. D. Mossman, missionary pastor. The Sunday services at the City Mission hall are held at 9 o'clock a. m., 12 o'clock p. m., and at 7:30 in the evening. Special exercises have been arranged for the Sunday evening in March, including a song service during the first quarter of an hour. Winesap hymns will be used and there will be piano and organ accompaniment for the congregational singing, and also special musical selections. To-morrow evening the United Union will hold a service by the City Mission Rescue band, and the Yale Hope mission will vocal selections by Mr. and Mrs. George E. Swady. All are welcome.

State Street Gospel Mission.

The meeting Saturday night will be in charge of W. E. Dawson, missionary. Regular singing and prayer meeting Sunday night at 7:45. The speaker at the meeting Wednesday night, March 4, will be Samuel Wilson, member of Epworth M. E. church. Every one welcome at all the services.

At the Seamen's Bethel.

Rev. Mr. Malcolm of Bridgeport, Conn., will deliver the regular meeting Sunday afternoon at 3 o'clock. All cordially welcomed.

ORPHAN ASYLUM.

Seventy-fifth Anniversary Celebration at United Church Sunday Evening. The seventy-fifth anniversary of the New Haven orphan asylum will be celebrated at the United church Sunday evening, March 1, at 7:30 o'clock. The following program will be rendered: Anthem by choir; Scripture, Rev. Mr. Stokes; Singing by children, "Saviour, Like a Shepherd Lead Us"; Prayer, Rev. Mr. Haynes; Singing by children, "There's a Friend for Little Children"; Historical sketch of fifty years read by Rev. Mr. Haynes; Address, Mr. Stokes; Address, Mr. Prentiss; Doxology—Benediction.

FILES CURED IN 6 TO 14 DAYS.

SATURDAY EVENING CANDY (ASSORTED CHOCOLATES)

29c lb.

You will appreciate the significance of the above headline. Our Saturday Evening Assorted Chocolates have a peculiarity that is all their own. It is, viz., the quality and condition are superior to the many brands that are put out as Saturday Specials, and this is due to the fact that we do not buy them already packed (no one knows how long ago some of them were packed), but have our own girls pack them every Friday afternoon.

New Chinese Minister Believes Open-Door Agreement is Observed.

BRINGS MORE STUDENTS

Favors Organization of Those Here—Wants Exclusion Law Modified.

San Francisco, Feb. 28.—Wu Ting Fang, for the second time appointed Chinese minister to this country, arrived to-day on the Pacific Mail liner Siberia, with a large retinue of secretaries, consuls and attaches, numbering seventy persons. He brought with him new consuls for Mexico, Havana, New York and San Francisco, besides three attaches, three secretaries, and seven other attaches for the Chinese legation at Washington, and twenty-four students, who will enter various schools and colleges in this country. Minister Wu denied the report that he was the bearer of an appeal to Washington asking this country to assist in procuring the interests of China in Manchuria and protesting against the alleged aggrandizement of Japan in that province.

"I have no such documents here," said Minister Wu, placing his hand to his breast pocket, "neither am I the bearer of such an appeal to President Roosevelt. I am giving no evasive answers; I am not that kind of a man. If I was bringing such a note of protest, I should either frankly say so, or decline to talk about it.

"The relations between Japan and China are cordial. There may be some friction, but it is local. That may occur in any country. As far as my knowledge goes, Japan has not violated the Portsmouth treaty with reference to the open-door policy in Manchuria."

Minister Wu said that he had no particular instructions from his government with reference to securing any modification of the exclusion act. "But I am going to see that my countrymen and their property are properly protected," he declared. He said that according to representations made to him at Honolulu, from the highest to the lowest of the white population there, the sentiment in Hawaii was unanimous for a modification of the exclusion laws, so as to permit more Chinese entering that territory, where they were much needed and wanted.

He declared himself in favor of the entrance of more Chinese students of the higher classes into the schools of this country and he said that he proposed to cause the organization of a Chinese student society having for its purpose the study of the English language, and the safeguarding of their rights after they arrive here. Such an organization exists in England, he said.

Touching upon the reorganization of the Chinese army, Wu Ting Fang said: "China is organizing a good modern army, but as to its size I cannot say. That's too long a story at this time."

Minister Wu and party will remain at San Francisco until next Wednesday morning, when he will leave for Washington. In the interim there will be numerous banquets in his honor, given not only by Chinese, but by San Francisco and Oakland mercantile bodies.

SEEN AT PEABODY

Detailed Account Suitable for Use as a Guide by Sunday Visitors.

FINE MINERAL COLLECTION

What is to be Seen in the Many Halls on Every Floor in the Building.

To-morrow will be the third time when the Yale art school and the Peabody museum will be opened on Sunday afternoon. It is expected that the crowds, which have been very great, will be even greater, provided the day is at all clear and bright. The buildings will probably attract many spectators on their way to and from the Grace hospital fire ruins, which will attract all.

The museum is expecting to have ready a small leaflet which will help visitors materially in the systematic study of the specimens in the Elm street building. Proof sheets of this little leaflet have reached the Journal-Courier. There is a chance that the pamphlets will not be ready in time for Sunday and for that reason this paper is adding below quotations from the pamphlet, which may be cut out and taken to the building Sunday and put to good use.

As is known the museum was founded by George Peabody of Massachusetts in 1866. It is now open to the public from 9 to 5 o'clock on week days and on Sunday afternoons from 1:30 to 5 o'clock.

The pamphlet reads as follows:

Hall of Minerals (First Floor.)
This collection of minerals is one of the best in America; it was begun in 1862 by Professor Silliman and later developed by Professor James D. Dana. The systematic series is in the alcove cases; case I, near the entrance, contains fine specimens of gold, silver, copper and sulphur. The other cases show special collections, many of them remarkable for beauty or size, as the agates (case A), also the Chinese art objects (case H), carved out of the very hard and precious stone called jade. The meteorites (case E and other cases) are the wonderful stones that have fallen out of the sky, perhaps once parts of comets. Some are of grey stone, others of nearly pure iron. The Gibbs iron from Texas (in center of room) weighs 1,635 pounds and the

Hall of Fossil Invertebrates (Second Floor.)
Here are shown samples of the very ancient plants, as ferns, large horse-tails and gigantic ground pines, great accumulations of which, deposited in swamps, have made the coal beds of eastern America. The coral trunks, or sago palms, are very interesting because of their wonderful preservation, retaining the microscopic structure and even the flowers and fruits of these palm-like plants. They are from South Dakota and in their time were the prominent plants of the landscape. Now they are restricted to the warmer countries and are much less abundant.

The animals of this room are those without bony skeletons, known as invertebrates. These include the sponges, corals, shelled animals like the clam, oyster and small crabs, lobsters, and insects. In the table cases may be seen the trilobites, long since extinct, the predecessors of modern crabs, etc. Against the east wall are three large slabs showing the sea bottom with sea lilies (related to the starfishes) that lived long before the giant reptiles shown in the adjoining room. These slabs are the best of their kind in any museum.

The geological aspect of fossils may be studied in a book of Geology, 1898, by N. S. Shaler.

Hall of Recent Vertebrates (Third Floor.)
The collection of recent Osteology includes skeletons representing the four great classes or divisions of vertebrate animals, mammals, birds, reptiles and fishes. It is one of the most complete collections of this kind in the United States. The series of skeletons of man, the apes, and monkeys arranged in cases I and 2 near the door, is of especial interest. It contains with the accepted theory of man's relation to the lower animals. An excellent short work on this subject is Huxley's "Man in Nature."

The birds of New England are seen in case 31 and a splendid series of New Zealand birds, the C. A. Heald collection, in cases 21 and 22. Within the enclosure may be seen the Gangetic crocodile, or Gavial common to the rivers of India and an extinct bird, the Dodo, with the people. There are also two fine ivory tusks of the male unicorn whale or narwhal from the arctic seas.

Good books on living animals are Hornaday's Natural History and Jordan's Vertebrates of North America.

Hall of Modern Invertebrates (Third Floor.)
This room contains the boneless animals of the sea and chiefly those living in the New England coast. The series of the material was brought together by Yale's great naturalist, Professor Verrill. Particularly well represented are the stone corals (now bleached) and the sea fans, still preserving much of their color. These are inhabitants of the warmer seas. Overhead is a model of an eight-armed devil-fish, the California octopus, having a diameter of twenty-eight feet between the tips of opposite arms. These animals have often figured in novels and sea yarns, but they are by no means as terrible as they have been depicted by various authors. The other great model is of the giant Newfoundland squid, with an extreme length of forty-two feet.

Books on this subject: Sea Beach at Ebb Tide, by A. F. Arnold; in the New Nature Library, vol. 6. Butterflies, 7. Moths, 8. Insects, 15. Shell, 16.

Hall of Anthropology (Fourth Floor.)
In this room are the specimens illustrating the history of man the more important exhibits being:

The oldest type of stone implements, representing theolithic industry. Stone and bone objects from Scandinavia illustrating the neolithic period. Cases of skulls of the most ancient race whose bones are preserved—as the man of Neanderthal, Germany, and of Spy, Belgium.

The Prudden collection from the ancient pueblos and cliff-dwellings of the southwest. A fine series of ancient pottery from Mexico. Egyptian antiquities from New England. Antiquities from Mexico, particularly the Calendar stone. Ancient papyrus and stone ornaments from Costa Rica. Egyptian antiquities. The Mosley collection of Indian basketry. The Hopkin Eskimo exhibit.

\$27.50 Seamless Axminsters for \$19.75.

Size 5 feet 3 inches x 10 feet 6 inches. A size that is not often found in a special sale.

6x9 Axminsters.

Best quality and Seamless. Regular price \$20. Special \$14.

This is a very usable and popular size. Very low priced at \$14.

100 Oriental Rugs, Choice \$15 Each.

Dagestanians, worth \$20 to \$20. Shirvans, worth \$18 to \$26. Beloochistan, worth \$18 to \$26. Varying in size between 2 foot 6x3 feet and 4x7 feet.

\$39 Wilton Rugs for \$29.95.

In the popular 8x12 size. These rugs are priced at about actual cost and none will be sent out on approval. A fine line of them to select from.

The Co. **CHAMBERLAIN**

Crown and Orange St. "Corner."

Open Saturday Evening.

Iron from Canyon Diablo, Arizona, 825 pounds (case U); in some of the many specimens of this fall minute diamonds have been found. There are three large collections of meteoric stones which fell in Iowa, in 1875, 1876, and 1880; of the last, great shower, that of Winnebago County, (case T) there are here about one thousand specimens.

An elementary book on minerals is Minerals and How to Study Them, published in 1896 by Wiley & Sons of New York.

Hall of Fossil Vertebrates (Second Floor.)
The rocks of the western states of our country abound in skeletons of animals that lived millions of years ago. Their fossil bones are now found firmly imbedded in rock. The museum has acquired a very large collection through the great energy and liberality of Prof. O. C. Marsh. Some of the largest known land animals are represented in this collection, namely, the Thunder saurian (Bron-tosaurus) with a length of 60 feet and a height of 15 feet. This animal is so large that the entire skeleton cannot be mounted in this museum; only the hind limbs are shown. A complete skeleton of Claosaurus, another of these large reptiles, 29 feet long and 13 feet high, is mounted in the center of the room. This animal usually walked on its hind legs, and was related to the reptiles that made bird-like tracks on the ancient red sandstones of the Connecticut valley. Some of these tracks are shown on the walls above the cases. Other interesting specimens are the horned dinosaurs (see the case with Triceratops), one of which, Torosaurus, had the largest head of any land animal; the skull was nearly nine feet long. Pter-anodon, a winged reptile, that preyed upon the fishes inhabiting the great inland sea that five million years ago covered much of western America. The largest of all reptiles, Archelon, measuring 15 feet across the extended front flippers, lived in this same sea at a later period.

The horse collection in the table case near the entrance should be seen by all, as here are shown the remains of ancient horses, beginning in forms no larger than a fox and having either four or three toes on each foot. This series shows all the stages in the development of the horse family from this many-toed ancestor to the modern beautiful and useful animal with but a single toe on each foot, the equivalent of the human middle finger. This collection was the especial pride of Prof. Marsh.

Good books for beginners are Animals of the Past, 1901, by F. A. Lucas, and Extinct Animals, 1905, by E. R. Lankester.

IN SOCIETY

Laces for the Loan exhibit have been most generously contributed by their owners. If there are any who for some reason have been prevented from sending theirs, the committee will be glad to receive them before Tuesday, March 2. In the exhibit will be some specimens which probably will never be on view to the public again. And these will be modern laces as beautiful as they are rare. Lace is the most poetic of fabrics. It stands in line with music, painting and poetry; it appeals to our finer and more aesthetically senses. This exhibit is not for any one particular "set," clique or society club, but for every one in New Haven who is interested in the subject. Neither is it for the benefit of any charity. There will be merely a nominal charge of admission in order to cover expenses.

A lady who is giving lessons in lace-making to large classes in New York writes: "There seems to be a great movement everywhere toward the making of lace, and all seem interested in the revival of the fascinating industry." The exhibit opens Monday, March 2, at the New Haven Colony Historical rooms in Grove street.

The new organ at St. Thomas' church will be used for the first time Sunday, March 1 at the usual services, 10:30 and 4 o'clock. Professor Bonney, the choir master, will give a short organ recital before the evening service, beginning at 3:30 o'clock.

Mrs. Charles DeForest of Humphrey street, was the hostess on Wednesday for afternoon and evening bridge parties. In the afternoon there were three tables and in the evening four tables. The prizes were exquisite little fancy articles. A dainty luncheon was served at the conclusion of each game.

Mrs. Charles Treadway entertained at luncheon on Thursday and Friday at her home in St. Roman street. The table was decorated in yellow, the centerpiece being a huge bunch of daffodils. At each place was a corsage bouquet of daffodils and magnolias, tied with yellow tulle. There were twelve guests each day.

There were fifty-five members and guests present at the meeting of the Colonial Dames at the home of Miss May Mansfield in Crown street. The paper read by Mrs. Edward Perkins of Hartford was a very interesting one and there were entertaining talks by other members. The small informal tea which followed was a very enjoyable feature of the meeting.

Under the auspices of the Mothers' club, at Foy auditorium this afternoon the entertainment for children for the benefit of the City mission will be given. A most attractive program has been arranged for the little folks.

"Mazurka Dance".....Misses Gladys Carpenter, Evelyn Linnell, Charlotte Brown, Vivian Ehrbridge and Edna Conaty, queen of the Mazurkas.

Song—"See-Saw".....Miss Rosalind Brown.

"The Railroad Matinee".....Mr. E. Stanley Pratt.

Violin solo.....Miss Marion Booth.

Yesterday afternoon at her home in Bristol street, Mrs. J. F. Benham gave a reception for her daughter-in-law, Mrs. Ralph T. Benham. Assisting the hostess were Mrs. Thomas A. Wyr, young Mrs. Benham's mother; Mrs. E. E. Jones, Mrs. L. A. Bettscher, Mrs. J. H. Shaw and Miss E. B. Thompson.

The Misses Jessie Wyr, Marie Kirby, Mildred Prince and Florence Rowe were in the dining room. The receiving hours were from 3 to 6 o'clock.

The Home club met in Harmonie Hall last evening for the third of its series of informal entertainments. The special musical program by Mr. Yakov Spivakowski's orchestra was as follows:

Overture—Hungarian Lustspiel.

.....Kela Bela.

Selection—"Red Feather".....DeKoven.

Waltz—"Whispers of Love".....Williams.

Reverie—"The Voice of Chimes" Lugini.

SPEAKER FROM INDIA.

Prof. Keisher to Address Socialists To-morrow.

Professor Fudmo Doctor N. Keisher Ph. D. of Bombay, India, will speak at Socialist headquarters, 746 Chapel street, to-morrow evening on "Present Religious and Social Conditions in India." The speech will be of unusual interest at this time, as considerable rumors of social discontent in that country. His talk on religious conditions will also be out of the ordinary, toward the missionary movement. He has passed through the various stages of advanced religious thought as viewed by the natives of India, and now has liberal ideas, although not a full-fledged free thinker. He has lived in his native land most all of his life. He graduated from Bonn university, Germany, and is an authority on history. The public is invited to attend.

THE VALUE OF CHARCOAL.

Few People Know How Useful It is in Preserving Health and Beauty.

Cost Nothing To Try.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy; that the mere you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion. It whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Send your name and address today for a free trial package, and see for yourself. F. A. Stuart Co., 298 Stuart Bldg., Marshall, Mich.

FIRE DRIVES OUT INMATES

(Continued from First Page.)

to the nurses' home, which is just across the street. A complete list of the patients and where they were taken is given below.

AT NEW HAVEN HOSPITAL

The Prudential Committee in Session When the Alarm Rang.

The prudential committee of the New Haven hospital was holding a meeting at the hospital building at 5 o'clock yesterday afternoon at the time when the alarm was sent in from Grace hospital. The members listened to the bell on the Howard avenue engine house as it tolled the number, Dr. F. G. Hotchkiss, of the committee, was the first one to look up the number and find that it was the Grace hospital private box. He at once dispatched two ambulances with two surgeons and one orderly. But a few minutes later the alarm rang again. The only remaining ambulance in charge was at once sent in addition to those that had preceded and the hospital at once took steps to care for the patients which would be brought there.

Superintendent Coddington marshaled all his forces and had every possible cot made ready. It was decided to make use of the newly built

Gifford chapel as a ward. When the patients from the scene of the fire began to arrive they were first put in the chapel. Nine were made comfortable there, and then those that came later were distributed in the regular wards of the hospital.

AT ST. RAPHAEL'S

Four Wards Prepared and Grace Staff Attends Its Own Patients.

The fact that the new St. Raphael's hospital was so near to the Grace hospital at the time of the fire was very fortunate. It was the most convenient place, being next door, to take the patients, aside from its equipment as a hospital which gave it an immeasurable advantage over any other place nearby. The hospital, however, had not as yet been officially opened for in-mates. There were three or four in-mates there, to be sure, but unofficially. It was planned to have the official opening of the building very shortly.

As planned, the St. Raphael's hospital will have one feature distinctive from all the other hospitals of the city and in fact distinctive from hospitals generally. This is the fact that it will have regulations whereby a doctor may attend his own patients when he sends them there and will not have to turn them over to the regular staff of the hospital. Following out this method of procedure the staff of the new hospital made it known to the Grace hospital staff at once yesterday that the latter would be allowed to visit the Grace hospital patients while the latter were at St. Raphael's.

Drs. Sheehan and Flynn of the regular staff at the hospital worked hard making comfortable the newcomers as they arrived. Four large rooms were

taken and made use of as wards, five patients being put in each room. The increase in the number of inmates will necessitate a great increase in the number of maids and nurses and kitchen help needed. Many of the latter have come over from the burned hospital.

MANY OFFERS OF AID

Everybody Wants to Help Care for the Patients.

It is expected that there will be many who will be thoughtful enough to send out food and other needed articles to St. Raphael's hospital this morning. The hospital is not at present in full readiness for patients. For this reason its cooking apparatus is not in position. Those who send food should remember to have it fully prepared to be used. George T. White, of the Tontine, has offered to cook any food that is sent to him for use at the hospital. Last night he sent there food and soup enough for thirty-five, though but sixteen patients had been removed to the place. He will send out breakfasts this morning.

Dr. M. J. Adams telephoned in to offer the use of fifteen beds in his West Haven sanitarium and of ten more in his private sanitarium in connection with his home.

Dr. B. Austin Cheney offered the use of his sanitarium on Whitney avenue. The hotels of the town responded to the call almost like a unit. Offers of rooms and accommodations of the best order were received from the Garde, from Mr. Meyer personally, from the New Haven house and from the Tontine. There were innumerable offers from private homes to take care of as many patients as could be accommodated.

Secretary Anson Phelps Stokes, of Yale, telephoned out to put the Yale infirmary on Prospect street at the disposal of the Grace hospital authorities.

Benjamin English and other prominent men went personally to the hospital and offered any assistance they could give.

When the alarm sounded and it became known at the Yale Medical school that the fire was at Grace hospital recitations were at once suspended and all the students hastened as fast as ever they could to the scene to lend aid. Last night Professor Lang, of the school, said he thought the students should be given all credit for the work they did. They worked busy as bees from first to last at every kind of work, from administering spirits of ammonia to the patients to acting as guides and drivers on the carriages that took the patients away.

APPARATUS CALLED OUT

Eight Steamer Companies Answer the Alarm.

Box 611 calls out four engine companies on the first alarm. Companies 1, 2, 3, 4 and 5, with trucks 1 and 2, raced to the scene. Number 2 being the nearest reached the scene first, and soon had a stream playing on the blaze. While on the way to the fire Chief Fletcher met with a catastrophe, which somewhat delayed him in getting on the scene. His horse slipped while traveling through Chapel street and fell. In falling the harness was broken and the chief had a narrow escape from being killed.

When the second alarm came in engines 2 and 12 and trucks 1 and 2, and upon arriving on the scene took the nearest place at the fire, where they could find a hydrant. The third alarm brought the crippled company from number 10, which also brought the regular steamer crew are out with injuries received in the collision with a trolley car on Grand avenue. Substitutes had their places on the steamer, which was also a substitute for the regular three horse hitch which was damaged. The horse wagon from Company 19 on Lombard street.

When the third alarm apparatus arrived there was no place near the fire for them to use as already six engines were at work and some of them had to go quite a distance away to find hydrants. In all the three alarms brought out eight steamer companies. Number 11 also responding to the third alarm. Trucks 2 and 4 were also called out. A length of hose from No. 13 wagon got into trouble and burst while the fire was at its height. It was right in the middle of Chapel street, with a great crowd around, and when the hose burst there was a deluge like a miniature Niagara, which plugged a good sized crowd of the curious.

This made the biggest assemblage of apparatus at a fire here in years.

LIST OF THE PATIENTS

Those Taken to Other Hospitals and Nurses' Home.

- Following is a list of the patients registered at the hospital at the time of the fire as furnished by Miss Albaugh: Kate McMahon, Derby. Thomas McQueen, New Haven. Annie E. Mead, New Haven. Anne Morris, New Haven. Amanda Nichols, Cheshire. Fred Peter, New Haven. Jennie Rilly, New Haven. Horion Richards, New Haven. George V. Rowan, Berlin. Arthur Rowan, Waterbury. Bridget Ryan, Derby. Carlos Smith, New Haven. Reuben Simon, New Haven. Camilla Sison, New Haven. Alice Sadelle, New Haven. Mary Stone, New Haven. Rudolph Spitzer, New Haven. Anna Ulrich, Derby. Arnold Winterfeld, New Haven. Lucy Wilnot, New Haven. Daniel Webster, New Haven. Henry Wirt, New Haven. Louis Young, Derby. Abraham H. Graham, New Haven. Mrs. A. M. Baldwin, Brooklyn. Helen Hanna, New Haven. Laura Hemstock, Brooklyn. Florence Hemstock, Brooklyn. Henry Hessler, New Haven. Cora Hinckley, Bridgeport. Mary Hotchkiss, New Haven. Charles Hitchcock, New Haven. William Eden, New Haven. George Fox, New Haven. William B. Fields, New Haven. Annie Donovan, Mrs. Honson. M. Bohan. Doyle. Laura Holcomb. Charles Billings. Italian woman.

At New Haven Hospital. Those taken to New Haven hospital are: Sarah Bishop, Alice Sadelle, Mary

McLane, Annie Donovan, Mrs. Honson, I. H. Butler, F. C. Boynton, Henry Wirt, M. Bohan, J. Higgins, A. Hudson, Doyle, Louis Young, Laura Holcomb, Annie Langdon, Ella Dixon, Charles Billings, Sarah Smith.

At St. Raphael's.

Those taken to St. Raphael's hospital are: Mrs. Blancia Waterbury; Mrs. Moore, New Haven; Reuben Simon, New Haven; Mr. McCormack, New Haven; Mr. McQueen, city; B. C. Thompson, Woodbridge; Mr. Kinney, New Haven; Fred Peter, city; Mr. Spitzer, city; Mr. Fox, city; Mrs. Barrett, city; Mrs. Carrington, city; Mrs. Mary Ranning, city; Mrs. Bannette, city; Mrs. Margaret Baldwin, Woodbridge; Mrs. Aldrich, Seymour.

At the Nurses' Home.

These are those taken to the Nurses' home: Maggie Esellen, Baby Boretti, Florence Hemstock, Helen Hanna, Nellie Coleman, Camilla Siso, Mrs. McCabe, Mr. Creka, Bridget Ryan and baby, Cora Hinckley, Daniel Webster.

THE FIRE AND TROLLEYS

Transfers Issued from One Side of the Fire Lines to the other.

The results of the fire to the trolley service on Chapel street was necessarily bad. With scores of fire hose stretched across the street as well as the fire lines established by cordons of police with ropes. At least four of the cars were caught in a position that lines of hose in such a position that they could not be moved either one way or the other until late in the evening.

Superintendent Judge and his right hand aide were on the scene almost with the fire apparatus. Under his direction the best sort of service that could be established under the circumstances was put into effect. The nearest switch to the west was one at Norton street; the nearest switch to the east from the fire was that just off York street. This being the case, the only thing to do was to run about the cars from the east to the west, both directions as far as these switches. From the hospital to York street the Bradford cars and one Waterbury and Derby car which was caught at the time of the fire when at the east of the hospital took the north track. The regular Norton street and Steamboat cars took the south track. The cars were run in both directions successively on these tracks. At the scene of the fire the passengers in them were given transfers to the cars beyond the fire. The hospital was made a temporary station.

It is safe to say, however, that there were very few people who did not remain at the fire regardless of any dangers that might be getting cold at home during the hour from 5 to 6 o'clock. Every car that came but swayed the sum-total of the crowds that looked on as the firemen and the hundreds of volunteer helpers did all that humans could under the circumstances. It was next to impossible for those who wanted to continue their journeys to get through anyway.

In Charge Last Night.

At the hospital last night two patrolmen were in charge during the temporary absence of the occupants. These were Officers T. E. Dunn and P. Sullivan of the Howard avenue station.

Baker Remembers Sufferers.

Gray, the Grand avenue baker, sent out a large consignment of bread and cake for the use of the hospital people and their patients.

SCHOOL BOARD SPLIT OVER TRIP

Members Think Salaries Should Not be Paid While Teachers Are Absent in England.

SITE FOR NEW SCHOOL

Increase in Attendance Laid to Business Depression, Which Keeps Many Children from Work.

At the meeting of the board of education held last evening the members voted on the matter of European trip of five selected teachers to the committee on schools for recommendation. The committee also recommended that the trip be a return visit. The teachers would have to pay very low rates for passage, but only the very limited number could go.

The proposition of paying the teachers while on the trip met with comment from members of the board, who thought that if the teachers were allowed to go it would be enough without paying their salaries while away. This led to the matter being referred to a sub-committee.

As one of the members said last night, when the time comes for the vote to be chosen, there will doubtless be considerable of a scuffle on the part of the teachers to be one of the five, and more so should the salary be paid while on the trip.

New School Site Chosen. The committee on new school buildings last night reported that it had practically secured a site for the new school to be erected in the Fourth ward. The committee recommended that it be authorized to procure plans for an eighteen room building with an assembly hall. The report was accepted, and the recommendations adopted. The committee further reported that it had made a final inspection of the 17 school, and recommended that the building be accepted as satisfactory from the contractors.

Two Teachers Resign. The committee announced the resignation of the following teachers and recommends their acceptance to take effect on the dates standing against their names: Cecile T. Shea, Scranton street school, room 6, grade III, February 19, 1908. Carolyn S. Tibbals, Fair street school, room 2, grade 1a, P. M. session, March 5, 1908.

Transfers of Janitors. The committee on school buildings recommended that George W. Beebe, janitor of the Worthington Hooker school, be transferred to the Ivy Street school without change of salary; that James L. Kehoe, janitor of the West Street school, be transferred from the West Street school to the Worthington Hooker school at a salary of \$300 per annum; and that Frank J. Butler be appointed janitor of the West Street school for two months at a salary at the rate of \$500 per annum.

The increase in the attendance and registration at the schools of the city shown in Superintendent Beede's report was due upon members of the board as a result of the business depression which has kept the children

"The Pace That Kills"

from getting work. The largest increase in the factory parts of the city. The increase of pupils registered over last year is 14.7 per cent. The average attendance has increased 1.957. The average daily attendance has increased 14.7.

ELECTRIC SERVICE MAY 1

High Authority for New York-Stamford Run.

It is now expected that the electric service on express trains between Stamford and Grand Central station in New York city will be fully installed on May 1 next. The power house of the New Haven company has now developed its full contract power of 100 per cent, and is sufficient for the express service. The delay in installing the service is due not to a lack of power but to forewarding against any possibilities of failure after it is once established.

The New Haven company has by agreement until the first of July in which to complete its electric service between Stamford and the New York terminal.

"BARBARIANS" AT HARVARD.

New History Professor—Faculty Member Not a Harvard Grad.

Cambridge, Mass., Feb. 23.—The Harvard College office to-night announced the appointment of William Scott Ferguson to the assistant professorship of history for five years beginning September 1, 1908. Prof. Ferguson will be one of the very few members of the Harvard faculty who is not a graduate of that university. He received the degree of A. B. from McGill in 1886; A. M. from Cornell in 1897, and Ph. D. from the same university in 1899. Prof. Ferguson has been on the faculty of California University.

Plays and Players at the Local Theaters

AT N. H. THEATER

Scientific Jail Breaker Opens Monday—Phantom Detective Coming.

"Cunning," the scientific jail breaker, who appears at the New Haven theater Monday, Tuesday and Wednesday nights, March 2, 3 and 4, and at the matinee Wednesday, in Harry Clay Blaney's latest and most successful melodrama, entitled "From Sing Sing to Liberty," is in a class all by himself, as he is not only a good actor, but can beat all the wrennall benders and chain snappers in the world, if he makes up his mind to do so. He can snap any pair of handcuffs ever made and can walk out of any cell in which he has been locked. He tells a story of an exhibition he gave in Buffalo, about a year ago for the benefit of the police officials, which mystified them greatly. The superintendent of the Erie County Penitentiary doubted his ability to get out of a cell, and he agreed to stay in anyone he could not get out of. So they put him in the dungeon which held "Czolgosz," who shot President McKinley. The superintendent considered it the safest and strongest cell in the institution and remarked to Cunningham, "You must be a dandy, if you get out of it." Opening the solid iron door, the superintendent pointed to the inner door with the heavy bars. "No man can saw his way through those bars," the door was unlocked. "Cunning" stepped inside and the door was relocked, the outside door was also locked and Cunningham was locked securely in a dungeon as dark as it is possible to make it—in exactly one minute and twenty seconds he was out. He was perspiring freely and breathing heavily and these were the only signs of his struggle against the iron and mechanical combination. "Allow me to congratulate you," said the superintendent. "That cell door has a blind lock with no key hole on the inside and I will give any ordinary person the key to the door and lock him in the he will not get out."

JULIA MARLOWE IN "AS YOU LIKE IT," At the Hyperion.

MISS LEARY WINS.

Captures the "May Ward Doll" at Poll Matinee Yesterday.

Little Miss Mary Leary, aged four years, daughter of Mr. and Mrs. Dennis Leary, 22 Osborn street, won the "May Ward Doll," at the Poll matinee yesterday afternoon by having in her possession the lucky marked program. Miss Ward handed out the programs personally at the matinee, giving to each patron a book program. One of these programs was specially marked, containing a picture of Miss Ward opposite the place assigned her on the page in the program. Little Miss Leary soon found out she had a different one than her friends in the balcony and needless to say the little girl was very much overjoyed.

At the conclusion of her act Miss Ward asked for the marked program and the little girl stepped on the stage. The audience applauded vigorously for it was soon evident that the lucky holder was the most popular being in the theater. The little one promised Miss Ward she would name the doll, which stood higher than the lucky recipient, "May Ward."

CELEBRATED BIRTHDAY.

Chamberlain Company Treasurer is Given Party by Class.

The twenty-fourth anniversary of the marriage of William M. Parsons, treasurer of the Chamberlain company, was celebrated by his Sunday school class at the ladies' parlor of Plymouth church last Thursday.

The members of the class, with the husbands of a large part, and the members of the connected home department, made a gathering of about 100. There were speeches by Mr. Parsons, Mr. Saunders, George R. Chamberlain and Mrs. Johnson, and a few words from Mrs. Osgood, a former member of the class. Hilda Rawson played the piano and Miss Eleanor Booth enlivened the occasion with songs.

There was a welcome letter from Mrs. E. M. Munger, for a long time confined to her house. Mrs. Harris spoke of Mrs. E. Julia Thompson, a member of the class till lately, deceased.

The closing speech was made by Dr. McLane, and the occasion was also the anniversary of his twenty-fourth year as pastor of the church. Altogether it was a most enjoyable occasion.

DEMOCRATIC POLITICIAN DEAD. Bridgeport, Feb. 28.—Nicholas J. Phelan, a brother of former secretary of state John J. Phelan, and one of the most prominent residents of Irish birth in the city, died to-day after an illness of several weeks. He long was a strong factor in Democratic city politics, and had served in the city council.

ESCAPE FROM DEATH BY GAS. New Britain, Feb. 28.—Valentine Kirner and Rio Bromadeno narrowly escaped death early this morning from accidental asphyxiation at their boarding place, 185 Main street. Bromadeno was resuscitated quickly, but Kirner had not regained consciousness up to noon time, though he was expected to recover. The men roomed together, and it is thought they did not turn the gas off the way off last night when they retired.

FOUND DEAD IN RIVER. Danbury, Feb. 28.—William Wheeler, colored, fifty years old, who had been missing from this city two weeks, was found dead to-day in the Still river half a mile below the city limits. It is believed that he fell into the stream from a point near the White street bridge during a recent freshet and was drowned.

SAYS PRIEST FEEL DEAD. Slayer of Father Leo Repudiates All Previous Statements. Denver, Feb. 28.—Giuseppe Aho, the slayer of Father Leo, after conferring with counsel appointed by the court to conduct his defense, has repudiated the signed statement made by him in jail at Colorado Springs as well as all his other confessions.

"I did not kill the priest, he fell dead. Also declared last night, 'I am a Catholic and had gone to church to pray. I did not go there to receive the sacrament. While I was kneeling the priest came along and put the sacrament into my mouth. It is against the rules of the Catholic church to take the host without first having been to confession, so I spat it out. The priest fell back and I heard everybody jump up. It being a strange placeto me I was afraid and I ran out."

"The Phantom Detective."

Hypnotism plays a unique part in that musical melodrama, "The Phantom Detective," a part that has caused endless discussion by the believers or incredulous in the wonderful occult art. There are many who claim that no person under the influence can do wrong; other claim they can, and the villain in "The Phantom Detective" supplies an endless topic of discussion by exposing in a complete manner many of the theories held for and against hypnotic influence. The melodrama is sensational to a degree of constant thrills and surprises; seldom a minute but the unexpected happens; the dialogue is snappy, full of action, comedy and effect. Thirty people are in the cast; a chorus of exceptional talent and good looks; the greatest of all quartettes, the American Newsboy's quartet; a cage of real lions and two carloads of special scenery, electrical and mechanical effects are used in "The Phantom Detective," which comes to the New Haven theater, March 5, 6 and 7, with matinee Saturday.

"The County Fair."

Nell Burgess in "The County Fair," to-day, matinee and night. This will be the last popular play to see this popular actor and popular play.

MARTHA IS AT HAND

Singers Are Resting Preparatory to Grand Opera Event Monday and Tuesday.

The singers who constitute the Morris Steiner Grand Opera company, are resting to-day preparatory to the big full dress rehearsal of "Martha," at the Hyperion theater, to-morrow afternoon. The cast has been hard at it steadily and need these few hours of breathing space to prepare themselves for the hard work of to-morrow. The big orchestra will be present too, and the last touches will be put upon the opera by the directors, Max Dresser, and Frank D. Nelson. Then on Monday evening the company will make its bow to the public, and for the first time in its history, New Haven will hear grand opera by a cast made up entirely of New Haven singers.

The costumes arrived yesterday. Many of them by the way have been made especially for this production and are very handsome indeed.

NOTED SINGER DIES OF CANCER.

Vienna, Feb. 28.—Baroness Pauline Wallhoffen-Lucca, the famous Austrian singer, died here to-day of cancer. She was born in 1841. From 1872 to 1874 she traveled in the United States giving a series of concerts.

WU TING FANG ARRIVES.

San Francisco, Feb. 28.—Wu Ting Fang the new minister to Washington from China, arrived to-day from the Orient on the steamship Siberia. He was attended by several servants and a secretary. He will probably remain in San Francisco a few days before leaving for the east.

AT THE HYPERION

Miss Julia Marlowe in Two Special Performances of "As You Like It."

Miss Julia Marlowe will appear at the Hyperion theater, Thursday and Friday nights, March 5th and 6th, in two special performances of plays selected from her repertoire. Thursday night, March 5, she will appear as Rosalind in Shakespeare's comedy "As You Like It." Miss Marlowe has not appeared as Rosalind in a number of seasons, and her reappearance in this delightful part will, no doubt, please her admirers. Miss Marlowe recently revived "As You Like It" in Boston, in response to numerous requests, and achieved a veritable triumph. During her three seasons as a Shakespearean co-star with Mr. Sothorn, Miss Marlowe several times planned to revive "As You Like It," but something always intervened. In London, last spring, Miss Marlowe and Mr. Sothorn appeared in this comedy for two performances, and their presentation was highly praised. Miss Marlowe brings with her the special scenic production which will have the assistance of a large company of well-known players, under the management of the Messrs. Shubert. It is not often that the opportunity to see this delightful artist as Rosalind is presented to local theatergoers, with a company and the scenic investiture provided by Miss Marlowe, and the event may easily take rank as the most important theatrical occasion of the entire season.

Friday night, March 6, Miss Marlowe will be seen in "Gloria," her new comedy success, in which she appears as a vivacious Italian girl of the sixteenth century, who mocks at love and flouts her suitors until the most ardent of her admirers determines to curb her impetuous spirit by harsh methods. The treatment he employs is to take her in a corner and whip her. The cure effected is astonishing, for Gloria learns to love the man who masters her. The play is handsomely mounted, the scenery and costumes being vivid pictures of life in Italy during the sixteenth century.

Maude Adams in "The Jesters."

The scene of "The Jesters," Maude Adams' new play, which comes to the Hyperion on Saturday, March 14 for one night in the province of Touraine in France in the year 1537. There are four acts and three scenes. The atmosphere, the locale, and the times of the play demand a picturesque scenic investiture and this has been made by Charles Frohman. The first act opens in a hall of the castle of the "Baron De Mautpre," a fine Gothic interior. The second act is laid in the grand hall of the castle. This makes an especially fine stage picture, the mimic hall being a copy of a famous old interior in France. The action of acts three and four take place on the terrace of the castle. Great oaks throw their shadows upon the scene and lovely vines creep about the walls of the castle. It is here that the famous tournament of the jesters is held. The "Baron De Mautpre" sitting as umpire, surrounded by his household, a faint breeze that stir the leaves suggesting the climatic test of the jesters' powers.

"The Lion and the Mouse."

There is individuality to every one of the characters in "The Lion and the Mouse," which concludes its engagement at the Hyperion this afternoon and evening. There is something unique—something striking about them all, and they all have a real purpose

LIST OF PATENTS.

- List of patents issued from the U. S. Patent Office, Tuesday February 18, 1908, for the State of Connecticut, furnished us from the office of Seymour & Earle, solicitors of patents, 568 Chapel street, New Haven, Conn.
- W. T. Adams, Sound Beach, drill attachment.
- W. M. Ammerman, assignor to E. J. Toof, New Haven, ruffler attachment for sewing machines.
- H. M. Barber, Stonington, assignor to C. B. Cottrell & Sons Co., collecting and folding machine.
- P. M. Bush, Hartford, assignor to Whitlock Coal Pipe Co., West Hartford refrigerating apparatus.
- H. L. Colt, New London, drill-chuck.

NO JAPANESE MONEY PANIC.

Tokio Denies Exaggerated Reports of Business Depression. Tokio, Feb. 28.—Special cable dispatches from New York and London published in the Tokio newspapers have created astonishment in financial circles because it is evident that certain influences have determined to misrepresent and exaggerate existing conditions in Japan. These dispatches say that the decline of Japanese securities is due to a financial panic.

CONGRESSIONAL SUMMARY.

Senate Considers Indian Appropriations—House on Army Bill.

Washington, Feb. 28.—The consideration of the Indian Appropriation bill and a speech by Senator Reed Smoot of Utah on the Currency bill consumed nearly the entire time in the Senate to-day. The Indian bill was passed. The Senate adjourned until Monday.

In the House.

By the narrow margin of one vote to-day the House or Representatives rejected an amendment by Mr. Foster (Illinois) to the Army Bill appropriating one million dollars for joint manoeuvres of the militia organizations and the regular troops. The vote was 59 to 60. Earlier in the day the House bill special rule restored the provisions to increase the pay to non-commissioned officers and men and to prohibit the private employment of army musicians for pay, both of which went out on points of order yesterday.

On account of the protracted debate on the Foster amendment, but little progress was made with the bill.

Sometimes great savings of great men don't seem entirely pertinent. For instance, Macaulay's remark that no man need ask for better food than plain roast beef and baked potatoes.

MR. AND MRS. DREW

Headliners of Star Vaudeville Bill at Poll's the Coming Week.

Next week's headliner at Poll's will be Mr. and Mrs. Sydney Drew and their company in Kenneth Lee's sketch Billy's Tombstones. Mr. and Mrs. Drew need no introduction to local vaudeville devotees standing at the very top of the profession. Their offering this season is said to be the most laughable vehicle they have ever presented.

With such a good headliner to top off the bill, Manager Poll has also secured a special added attraction, Will Rogers, in some cowboy pastimes. Mr. Rogers will introduce what has been termed the most distinctly novel act in vaudeville. He gives a realistic presentation of the cowboy's pastimes, chief among which is some clever juggling.

Julius Tannen, who has imitations of a superior merit, will head the olio forces. Friend and Downing, with their comedy number which introduces the Jew with the funny eyes and the man with the voice. Great Scott, who does all his juggling on the top of a ladder and is known as the London Freeman, Burke, Touhy and company in the comedy, "The Birthday Party," Montgomery and Moore with many ideas of entertaining and the electrograph with The Nurses' Strike and other views will close the bill. Seats are now on sale for the entire week.

Grace Van Stuedford Coming.

Grace Van Stuedford, the famous prima donna of the Red Feather and former member of the original Bostonians will soon head one of the Poll bills.

GOOD BIJOU PLAY

Tennessee's Partner Will Delight Next Week—Story of Western Knighthood.

Few plays appeal to American audiences as do the plays which depict the life of the west during those periods when mining towns flourished. The sturdy manhood and womanhood which those days developed, days when the fittest survived, but above all days when pure, unadulterated knighthood was in flower, just as truly as when knights went out to fight in armor clad, are the things which stir the blood of every true American, old or young.

Such is a story of western life in "Tennessee's Partner," which the Bijou Theater Stock company will play all of next week. The romance of the old road and ready west lingers only in fiction and drama and of the stage stories of this life "Tennessee's Partner" is said to be one of the best.

Too many western plays depend entirely upon "gun play" and lynchings, fancy, fantastic cowboy dress and "fire water" for their semblance of "local" color but "Tennessee's Partner" needs none of this.

Of course the picturesqueness of western dress in those days of mining camps is drawn upon for it is a part of the story, just as the glorious scenery of the Rockies is a live portion of the real west. The extent, however, to which is atmosphere is borrowed is extremely consistent with the action of the play and is not exaggerated.

Gertrude Shipman, the charming leading lady of the stock company, finds in the role of "Tennessee" just such a character as supplies her with the opportunities to best display her talents. It is a delightful character, one of those characters which appeals to and become a matter of personal interest to every person in the audience as to the outcome of the story.

And the story. Never was it more truthfully said that a play contained a story of "heart interest." A worn-out phrase, used for melodrama and legitimate drama alike but nevertheless entirely justifiable when used in connection with this play.

A young girl left an orphan, her support her father's interest in a mine and that support entirely dependent on the honesty of her father's partner. The girl is most devoted to her father's death, she goes to Nevada, to see him and there she plays upon the rough miners in consternation over the girl's arrival, and at a loss how to acquit her of the news of her father's death.

Incident follows incident in the rapid development of the story, villainy and treachery play their part but truth and love conquer and all ends happily and well.

To-night the last performance of "Her Double Life."

WHEAT PIT BOOM.

10,000,000 Bushels Change Hands in Chicago in Two Days.

Chicago, February 28.—There has been immense trading in wheat dunes the last two days. Yesterday more than 10,000,000 bushels were bought by local and Eastern shorts, the Lichtenstein interest covering 4,000,000 bushels. Bartlett-Frazier, who bought 2,000,000 bushels early on Thursday, had the selling to-day. They are the leading holders, and are running another bull campaign. The price has risen to 95 cents, or 9 cents advance in eight days. **WU**

Shorts have become alarmed at the small receipts and reducing stocks, and are covering. More than 50,000 bushels of wheat is under orders here to go to mills.

The tramp had related to the lady in the wayside cottage the world story of how he was tied to a tree by bandits and left to famish.

"But, my poor man," protested the good woman, "if you were tied so tightly how did you get free?"

The tramp wiped away a tear.

"Ah, lady, that is a strange story."

"A strange story?"

"Yes, my dear, while I was tied to the tree my old girl passed and looked down at me. I took her daggers and cut myself to freedom. But how I am here to-day."—Chicago News.

New Britain Breaks Pawtucket's String of Victories—Springfield Defeats Bridgeport.

NATIONAL LEAGUE STANDING.

Table with 3 columns: Team, W, L, P.C. Rows include New Britain, New Haven, Bridgeport, Springfield, Pawtucket, Waterbury, Providence.

Referee Doherty's imperious method of handling the polo players last night at the Quinapiac rink saved the 2,000 fans...

New Haven, led by Bone, played their best game of the season. The poor defensive work which up to this stage of the season has caused the local's weakness is a past chapter...

It was Bone's playing which especially bordered on the coast of brilliancy for his agility, remarkable dexterity, and superb driving and wonderful passing...

Providence feeling defeat a certainty after the first period, began to rough it. Hardy and Doherty were the most prominent in this method of hiding incompetency.

Providence made two goals but lost both of them on fouls. Hardy kicked four and Doherty three. New Haven caged five goals but lost one of them on a foul.

After the game Farrell and Hardy started to fight outside the rink but the police stopped them.

Table with 3 columns: Name, Position, Team. Rows include New Haven, Bone, Thompson, First Rush, Warner, McGilvray, Second Rush, Farrell, Center, Hardy, Woods, Doherty, Half Back, Mullen, Mallery.

THIRD PERIOD.

No goals scored.

OVERTIME.

New Britain. 25. Providence. 25. Score. New Britain 2, Pawtucket 1.

Rushes, Cunningham 5; stops in goal, Bannon 3, Pence 58; fouls, Jean, Pence; referee, Kough; timer, O'Brien.

ROVERS PLAY WELL.

Springfield, Mass., Feb. 28.—Playing the best combination game it has shown since leaving here, the Springfield polo team tonight defeated Bridgeport, 10 to 4.

Rushes, Lincoln 11, Lewis 6; stops, Sutherland 28, Harper 67; foul, Coggeshall; referee, Rorty.

NEW YORKERS WIN.

Alexander and Hackett Outclass Opponents in Tennis Doubles.

New York, Feb. 28.—F. B. Alexander and H. H. Hackett of the West Side club, this city, won the National Indoor championship in lawn tennis doubles to-day in the tournament on the courts of the Seventh Regiment armory.

The remaining bracket of the singles in the final round was won by G. F. Touchard, who defeated W. B. Cragin, Jr. in straight sets, 6-4, 6-3. Touchard and W. G. Grant will meet for the singles title to-morrow.

CLINTON NOT TO PLAY.

The game, which was scheduled for tonight at the Boys' club, between the Clintons and Naval Reserves has been cancelled by the Navals, who claim that they will be unable to play tonight on account of injuries received by some of their members of the quintet.

TWELVE PLAYERS SELECTED.

Philadelphia, Feb. 28.—Twelve players selected from the several cricket clubs in Philadelphia, left here to-day for New York to sail to-morrow for Bermuda where they will play a series of cricket matches.

EIGHTH WARDERS WIN.

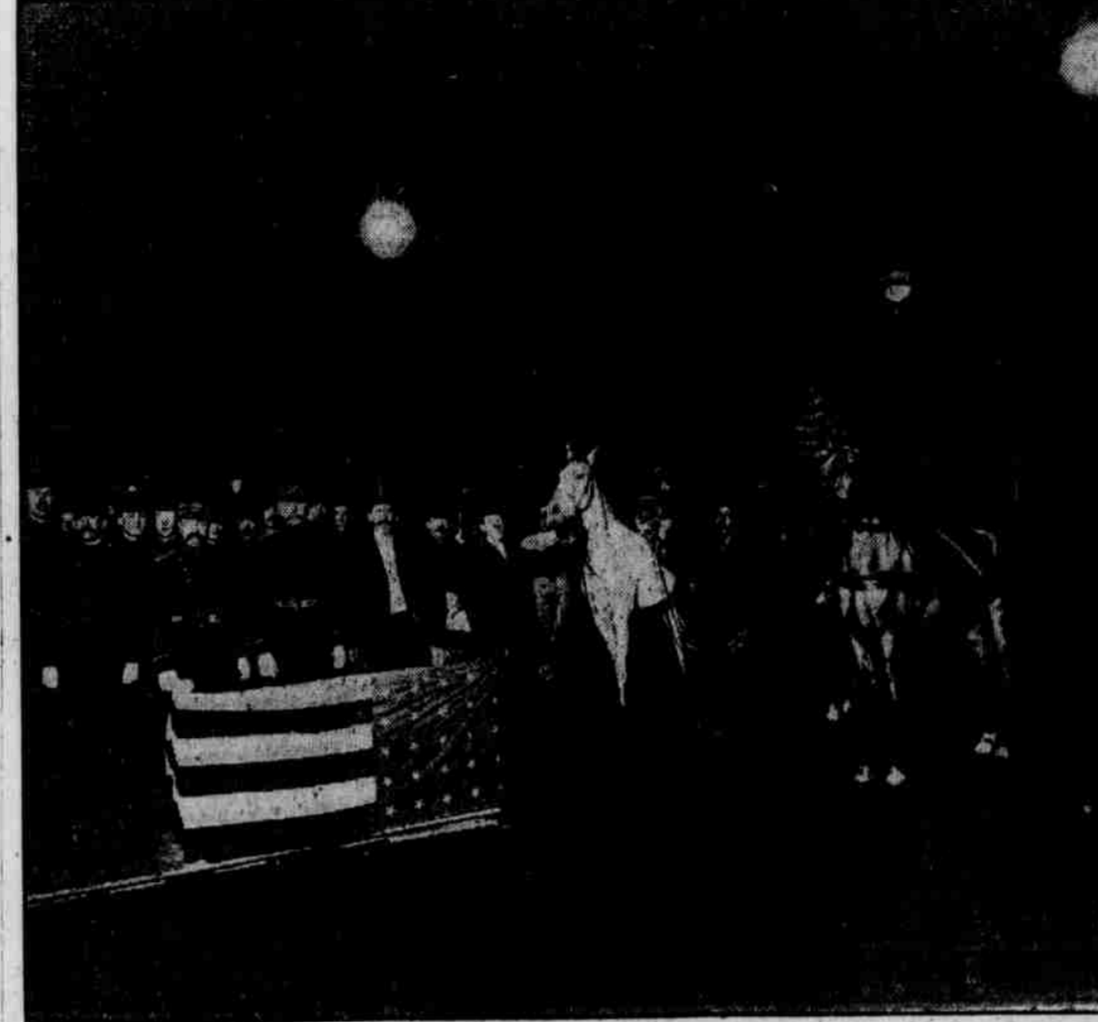

Stelze and Reed Take Remarkable Championship Pool Exhibition.

Last night at Stelze's cafe, 908 State street, championship pool was played between Thomas F. Ryan and Alexander Trudo, and George Stelze and Frederick Reed.

RETURN MATCH WEDNESDAY.

The return bowling match between Mix and Buchter and Collett and Huber will be rolled at the Y. M. E. C. alley on Wednesday night.

SCENE AT TROOP A HORSE SHOW.

Those in Uniform—Members of Committee of Troop A Horse Show. Reading from Left to Right in Front Row—Lieutenant William J. Bradback, Captain Luzerne Ludington, and J. C. Keith, Judge of the Show.

Horses, Reading from Left to Right—CLAIR, Mrs. George B. Buntion, MACBETH, C. M. Du Pay; won blue ribbon (first prize) and handsome three-handled silver cup in Jumping Class Wednesday night.

FLIP, Pierre-Pont, R. Foster; winner of first prize, blue ribbon and silver cup, in Model Class for Saddle Horses. BELMONT, Mrs. George B. Buntion; winner of a ribbon in Model Class for Saddle Horses. ISHUA, D. J. Cummings; winner of a ribbon in the Ladies' Driving Class.

JOHNSON PUZZLED

American Negro Fighter Does Not Quite Understand Burns' Terms.

London, Feb. 28.—Mr. Kelley, representative of the syndicate which is endeavoring to arrange a fight between "Tommy" Burns, holder of the heavyweight pugilistic championship, and "Jack" Johnson, the American negro fighter, received the following cable despatch from the United States to-night:

"Johnson is puzzled at Burns' terms. Will fight in England if Burns insists. He wants a thousand dollars for expenses. Send full particulars of the offer of the British syndicate."

To this Mr. Kelley replied: "Will give Johnson \$5,000, with or lose. This amount includes expenses. Jeffries to referee and the ring to be sixteen feet as Burns insists. I insist on Johnson posting \$2,000 or this match is off."

Burns in discussing Johnson's reply to the offer of the syndicate, said: "We will see who is crawling. Now, my forfeit is up and it shows what I mean. If I only get the chance I will make Johnson jump out of the ring. He won't get a chance to run as did Philadelphia 'Jack' O'Brien in California, for the ring will be only sixteen feet square."

Burns said that he would fight Johnson anywhere if he was offered the same inducements as held out in England.

KNICKERBOCKERS BEATEN.

Excelsiors Take Two Out of Three Games by a Close Score.

The Excelsiors won two out of three from the Knickerbockers last night, at the Tuxedo alleys.

AT THE RINGSIDE.

Jack O'Brien and Jim Bonner will meet in Philadelphia next Monday night.

Tommy Quill and Jim Bonner were practically matched yesterday to box at the armory A. A. March 17.

Phil Brock and Kid Dalton will meet in the preliminary to the Britt-Nelson bout at Los Angeles March 5.

The international match between Matty Baldwin of Boston and Spike Robson of England, which has been hanging fire for several days, was clinched yesterday by the directors of the Armory A. A. for March 18.

Joe Jeannette, who is to meet Sam Langford at the Armory A. A. Tuesday night, will, if he wins, go to England for a match with Tom Burns.

OUR CONTEMPORARIES.

A Child on the Throne.

(The Louisville (Ky.) Times.) The folly of the King system of government is illustrated in the case of Portugal. Because an 18-year-old boy happens to be the son of his father he becomes the head of the nation.

Book Reviews and Notes of Publishers.

THE LADY OF THE MOUNT, by Frederick S. Iham, author of "Under the Eagle..."

A charming story from beginning to end. The scene is France and the time that momentary French history when the rumblings which immediately preceded the French revolution were heard and the French nobility were beginning to sit up and take notice...

The captain was now the Black Seigneur, a man feared and hated by the nobility and idolized and obeyed by the downtrodden peasantry.

The Mount was a second Bastille for its impracticability. The story now develops rapidly with the discontent of the people more insistently and more openly expressed.

ARKINSAW COUSINS, by J. Breckinridge Ellis, Henry Holt & Co., \$1.50; at Judd's.

A story full of genuine heart interest, told with ease and replete with incident—a story of everyday people, chiefly Thornberries in a village which is the Ozark mountains overlook which is the only connection the Ozarks have to do with the story.

keeping Mary whose virtues and beauty are endearing to all except Goldie and who loves the wrong man but is awakened suddenly from her error by a series of surprising incidents...

THE LOST GODDESS, by Edward Barron, 341 pages; Henry Holt & Co., \$1.50; at Judd's.

All aboard with Capt. Winthrop for a trip to the inland waters of Brazil's wildest regions to rescue "The Lost Goddess" and all your patriotic fervor is stirred to the heroic and perilous mission for is not the Lost Goddess herself not only supremely beautiful but in imminent peril of being forever immured in those foreign wilds among savages and to top all off she is not an American No wonder Capt. Winthrop, immensely rich, young former college athlete, has his pulses stirred at the recital by Guata, the dark skinned, half breed of the story of how he came to see this mysterious and beautiful American who was held captive in an almost inaccessible spot...

The interest in Mr. John L. Givens' "The Making of a Newspaper" (Holt) is so keen that a third edition of this book has already been called for.

Messrs. Henry Holt & Company have just concluded arrangements by which they will become the American publishers of "The Comments of Bagshot," a rather remarkable book, by Mr. J. A. Spender, editor of the Westminster Gazette, in which an analysis is given of the English civil service...

The good indication of the literary quality of Edward Barron, whose novel "The Lost Goddess," Messrs. Henry Holt & Company are just publishing, is given by the fact that a magazine of the high grade of The Century has been glad to publish a number of poems by him.

Margaret E. Sangster has added her tribute to the many who have enthusiastically praised "Hallett, The Comstock's new novel, "Jane of the Dunes," (Little, Brown & Co., Boston) She says: "The breath of the sea is in it, and the freedom of the dunes. The heroine is an exquisite creature, a girl who takes the heart by storm, and the delightful old captains with their other worldly wisdom and adorable unselfishness add another joy to life. The book is one to be read without a pause and to take its place among the books on shelves to lend and to give away."

Little, Brown & Co. have just issued also "The Louise M. Alcott Reader," a new book of supplementary reading for the fourth school year selected from the writing of Louise M. Alcott. This school reader consists of ten of this author's charming short stories, simpler than "Little Women."

President Roosevelt having publicly endorsed "Aunt Jane of Kentucky," it is not strange that a minister should classify its busy author with more notable writers who overcame the lack of early advantages. In a recent sermon on "The Joy of Overcoming," the Rev. J. Frank Thompson, pastor of the Church of God, Kings, Jersey City, N. J., said: "Family cases are a hindrance to literary work, but the author of 'Aunt Jane of Kentucky' has more reason to be proud of her book than if greater leisure had been granted her for writing it."

In one school in Nebraska, where there are several copies especially for the use of the young students, it is always "out." "In fact," says the official in charge, "several copies have been worn out completely, and 'Freckles' is engaged several weeks ahead. I believe it has a great influence among the boys, and helps them."

Two novels which will be published next month by Dodd, Mead & Co., New York, are as follows: "The Fair Moon of Bath," by Elizabeth Ellis, author of "Barbara Winslow." Of course, Bath is the famous English watering place dear to more than one novelist, and in this instance it forms the setting for plenty of strenuous adventures through which Tim, the hero, passes before he wins his Celia. The other novel is of a decidedly different type from the foregoing, since the theme is its leading motive. It is called "The Vigil," and is by Harold Begbie, author of "The Penalty." It chronicles the development of character and belief in the case of a young clergyman in whom are mirrored many of the current religious tendencies of the day.

Mifflin & Co., Boston, have just arranged for the publication this spring of the following books. In April they will issue "The Breaking in of a Yachtsman's Wife," by Mrs. Mary Heaton Vorse, an outdoor book recounting the diverting experiences of a clever woman on Long Island Sound, Massachusetts Bay and the Mediterranean. In the late spring they will publish Prof. Arlo Bates' new book, entitled "The Intoxicated Ghost, and Other Stories." They also have in press two interesting books of travel: "The Soul of Spain," by Havlock Ellis, the well-known psychologist, and "Leads of Summer," by R. Sullivan, dealing with the countries bordering on the Mediterranean.

Houghton, Mifflin and company's next publications will be: A history of "Elizabethan Drama" in two volumes by Prof. Felix E. Schelling, a philosophical essay on "Personalism," by Prof. Borden P. Bowen; "The Federation of the World," by Benjamin F. Trueblood, general secretary of the American Peace Society. They announce further "A Life of Alice Freeman Palmer," former president of Wellesley college, by her husband, Prof. George Herbert Palmer of Harvard; and they will issue in book form the interesting papers by Ernest Hamlin Abbott, "On the Training of Parents," which have appeared recently in the Outlook.

While Winston Churchill's lucky letter, as shown by "The Celebrity," "Richard Carvel," "The Crisis," "The Crossing," "Coniston" and "Mr. Crew's Career" (to be published soon), is "e," other authors have different favorites. Louis Joseph Vance believes that for him there is good luck in the letter "b." Last year he published the very successful "Brass Bowl," and this year he names his new novel "The Black Bag." Vance says he has gone the spelling reformers one better in that he spells success with a "b."

Three novels written from plays will come from the G. W. Dillingham company, New York. They are "The Round-Up," by M. M. Miller and John Murray; Denman Thompson's "The Old Homestead," and James Forbes' "The Chorus Lady," novelized by John W. Harding. Arthur Hornblow has with this firm "The Profligate," and other novels in press are "Gertrude Elliott's Crucible," by the author of "Katherine's Sheaves;" "As the Hart Panteth," by Halle Erminis Rives, and two new novels by Ferguson Hume.

Upton Sinclair's "Scathing and terrible" novel, "The New York Society," "The Metropolis," will be brought out on March 1 by Moffat, Yard and Company, New York. The same publishers will issue immediately "William Jordan, Junior," a new novel by J. C. Smith, author of "Broke of Covenand."

A further installment of volumes is being added to "Everyman's Library" (Dutton), which now includes more than three hundred titles. Among the new issues are several works not commonly reprinted in popular series; for example, Lewis's "Life of Goethe," Voltaire's "Life of Charles XII," Mignet's "Princes," Defoe's "Memoirs of a Cavalier," and "Journal of the Plague Year," Melville's "Omoo," the "Annals" of Tacitus, Creasy's "Fifteen Decisive Battles of the World," Herberich's "Temple," Herberich's "Hesberichs and Nobe Numbers," Lane's "Modern Egyptians," Hakluyt's "Voyages" (Vols III and IV).

The Scribners, New York, have a number of interesting books to bring out next week. The list includes Prof. William Trumbull Ladd's account of his experiences and observations in Korea with Marquis Ito; a history of early Virginia, "The Old Dominion; Her Making and Her Manners," by Thomas Nelson Page; the third and final volume of the "Memoirs of the Comtesse de Boigne"; "Mind in the Making: A Study in Mental Development," by Prof. Edgar J. Swift; a treatise on "Practical Bridge," by J. B. Elwell, and "The Footprint and Other Stories," by Gouverneur Morris. They also have in press "The Sentimental Adventures of Jimmy Bulstrode" by Marie Van Vorst, and a romance of Long Island by Frances Powell called "Old Davenant's Money."

annual double gardening number, nearly all the article being devoted to practical horticulture, the planning of home grounds and the growing of flowers, fruit, shrubs and vegetables.

"Art versus Artifice in Landscape Architecture," by Alden Partridge, describes and pictures a charming estate at Bryn Mawr, Pa., as illustrative of certain principles of good taste.

"Hardy Roses from May till November," by Leonard Barron, shows how the amateur rose-grower can have a continuous succession of bloom after the month of roses.

In "A Thousand Dollars and An Ace from Pedigree Fruit-Trees," George T. Powell, one of the leading pomologists of America, explains a new method that works wonders.

Other articles are: "Landscape Gardening in a City Yard," by Thomas McAdam; "Blending the House and the Landscape," by Henry H. Saylor; "The Show Garden of the South," by Wilhelm Miller; "Shrubs That Will Bloom This Year," by Frances Duncan; "Annual Flowers for Every Place and Purpose," by W. E. Pendleton; "Three Successful Vegetable Gardens," by Leslie Hudson; "Why There Are So Few Women Automobileists," by Mrs. Andrew Cuneo; "The Terrace versus the Porch," by Russell Fisher; "The Barn That Found Itself," by Mabel Tuke Priestman; "A Shore Bungalow for \$2,800," by A. Raymond Ellis; "An Old Homestead That Has Been Kept Beautiful," by Lillian LaMonte; "Asparagus Culture in Brief," by S. T. Maynard; the usual departments, and numerous shorter articles.

A sure cure for worry, and a practical article on bad habits and how to break them in others, distinguish Elizabeth Towne's editorials, in The Nautolite, (Holyoke, Mass.) for March. Other practical articles by discerning writers are "The Habit of Beauty," Adelaide Keen; "God, The Servant of Man," Wallace D. Wattles; "To Make Yourself Valuable," William E. Towne; "White Lies in Social Life," Grace McGowan Cooke. Lovers of the occult will gain by reading Karl von Weizsacker's sensible article on "The Art of Crystal Gazing." Scientific sides of new thought are presented by Ella Adella Fletcher, "Color in the Visible and Invisible Worlds," and Prof. Edgar L. Larkin, "Psychology." Edwin Markham contributes a new poem, "The Broken Sword," and W. J. Colville an interesting article about advanced thought movements in Los Angeles, said to be the Mecca of new thought workers, Florence Morse Kingsley contributes a "new thought treatment" for the gripe.

The editors of Putnam's Monthly; and The Reader, which have joined forces in one magazine, announce several important contributions for the current year. Antonio Fogazzaro, the Italian novelist, will contribute a romance in two parts called "Shattered Idylls." Thomas Wentworth Higginson will give his recollections of "Emerson's Footnote Person" Bronson Alcott. The Rev. Francis H. Stead will reveal the father of Robert Browning as a modest, earnest, and a gifted caricaturist. Other articles in Los Angeles are "Napoleon's Return from St. Helena," by Katharine Prescott Wormeley, who was in Paris at the time; "How London is Governed," by George Laurence Gomme, clerk of the London County Council, and "Dante's Workshop in Florence and Elsewhere," by Dr. Guido Biagi, director of the Laurentian library.

One of the best magazine stories of the month is "In the Land of Her Fathers" by William B. MacHarg in The Red Book Magazine for March, which is published in Chicago. This number has also a story that will touch the heart somewhat as does the story of David Warfield, "A Lone Hand in Camp Despair," by Water Archer Frost. John S. Lopez also has a story that in point of quiet drama has not recently been surpassed. It is entitled "In the Light of Understanding." When Rudolph was kidnapped by a tramp things did not "come out" as the tramp had expected. The story appears in The Red Book Magazine. Porter Emerson Browne wrote it and it is called "The Kidnapping of Rudolph Nothing." A story of arctic exploration written from a new and extraordinary point of view by Albert Dorrington is "On the Middendorf Glacier," also in The Red Book Magazine for March.

The humor of the picture on the front of the March American Boy representing two grinning boys teasing a friendly but very smart looking dog, will appeal to all boys. The contents of this number cannot fail to interest every reader. The fine serials presently running in the magazine are each continuing two or more chapters. Among the entertaining short stories are: On Georges' Banks, telling of the dangers attending deep sea fishing; What the Trap Caught, a hunting story and a boy's bravery; The Great Gold Cup, a fine story of basketball; and Chico, Tito and Pepto, a peer animal story. There are a large number of pleasing and instructive articles, among them

being: When King Edward was a Boy; The Two Smallest Republics in the World; Raising Shetland Ponies in the United States; The Rabbits of the New York Zoo; Ducks; A Hermit Toad; The Boy's Poultry Yard, and Wireless Telegraphy. The boys will also be deeply interested in How to Train the Hearing; Some Every-Day Poisons; The Boy on His Muscle; Forty Stunts in Magic for Amateurs; and Trapping Hints for Boys. The regular departments of Popular Science, Mechanics and Electricity, Stamps, Coins, and Curios, Photography Tangles and O. A. B. are replete with the practical information and interesting matter in which boys take delight. Eighty-four illustrations. The Sprague Publishing Co., Detroit, Mich.

South of the Golden Gate and geographically an integral part of that great empire of the west lies a vast peninsula whose coast line is almost as extensive as our Atlantic seaboard, possessing deep harbors, inexhaustible mines, fertile valleys, big game, an Italian climate—a mysterious country with a romantic past, no present, but a future to be reckoned with. Even now the American fleet is hastening toward one of these harbors, the great Bay of Magdalena, for target practice and fuel, while the advance of the Isthmian canal is rapidly intensifying the federal desire to purchase from Mexico this important peninsula which reaches from San Diego down toward Panama.

Apace with the awakened interest in this hitherto little known region, is the announcement by Paul Elder and company, New York and San Francisco, of a forthcoming volume upon Lower California, under the title of "The Mother of California," by Arthur Walbridge North, being an historical sketch of Baja California from the days of Cortez to the present time, depicting the ancient missions, the mines and the physical, social and political aspects of the country. The work will be illustrated by thirty-two photographs of scenes and persons and will furthermore contain the most accurate and only complete map of the country ever made.

Paul Elder and company announce for early publication a volume by Cora Brown Potter on the subjects of "Health" and "Beauty" that promises to be of considerable and permanent worth because of its practical common-sense view point. The volume is to be issued under the title of "The Secrets of Beauty and Mysteries of Health," and is to be illustrated with a series of photographs of the author in various prominent dramatic characterizations.

NO FIRM IN NEW ENGLAND BETTER SKILLED IN ARTISTIC EFFECTS, BETTER EQUIPPED IN MATERIALS, MORE REASONABLE IN PRICES.

Our materials on hand would decorate the Armory to a finish six times over and not such hosts of materials used for special purposes. Have our own artists; use our own brains. New Haven is not slow in our line. Let us figure for you.

NEW HAVEN DECORATING CO. 493-501 State Street. Telephone 704-4.

Sore Throats are prevalent now. Protect yourself against an attack, or relieve soreness in the bronchial tubes or vocal cords, with Hale's of Honey Horehound & Tar. A safe and effective remedy for sore throats, coughs and colds. Pleasant to take. Relieves throat irritations, then Soothes and Heals. Drugists sell it. Pike's Toothache Drops Cure in One Minute.

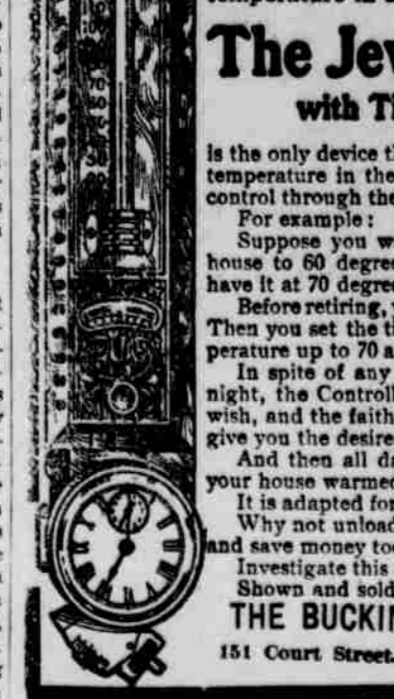

GAVE MONTHLY RECITAL. Pupils of Mrs. I. N. Gardner Play Classics. The regular monthly piano recital of pupils of Mrs. Idella Nichols Gardner of West Haven was given last night at the home of Mrs. Edwin Smith on Washington avenue. The February subject of study was Mendelssohn, as this composer was born in this month. A sketch of his life was read by Miss Ruth Gardner, and selections were rendered from Mendelssohn, Beethoven, Schumann, Kuhlman and Clementi. The following pupils participated: Miss Marguerite Graham, Miss Greta Bailey, Miss Brown, Gladys Stacey, Marie Somers, Evelyn Wandlerlich, Mary James, Miss Lillian Eaton, Annie May Rockwell and Allen Smith.

WINTER IS HERE. HERE'S SOMETHING YOU WANT TO READ. Keeps Heat "Just Right" Both Day and Night. This "boss" of the heating plant looks after your comfort, stands guard over your coal bin and safeguards the family from colds due to uneven temperature in the home.

The Jewell Controller with Time Clock attachment is the only device that automatically provides for a higher temperature in the morning without losing thermostat control through the night. For example: Suppose you want to reduce the temperature of the house to 60 degrees during the night, but would like to have it at 70 degrees by the time the family arises. Before retiring, you set back the controller to 60 degrees. Then you set the time clock attachment to bring the temperature up to 70 at seven o'clock. In spite of any sudden changes out-doors during the night, the Controller will maintain the temperature you wish, and the faithful clock will open the drafts in time to give you the desired warmth in the morning. And then all day the Controller goes right on keeping your house warmed "just right."

It is adapted for use with steam, hot water or hot air. Why not unload your heating worries on the "Jewell" and save money too? Investigate this wonderful device. Shown and sold by THE BUCKINGHAM-ROUTH COMPANY, 151 Court Street.

The Range of Thought. Backed by forty years of expert stove-making, the Fortune gas ranges are the embodiment of careful thought, study and skill in this special line. Not expensive gas ranges, but practical popular ones. When it comes to the comparison of ranges no one can speak so authoritatively as the maker. You want a range simple and economical in operation; superior in cooking; modern, convenient and durable in construction. These are pre-eminently the features of the Fortune. When it comes to the appearance of the range that speaks for itself.

The Fortune Range. Made by Thomas, Roberts, Stevenson Co., Philadelphia.

THANKFUL.
New Haven is deeply thankful that she has escaped such a horror as she feared when the news that Grace Hospital was burning was spread around. The damage done is bad enough, but that can be and will be speedily and generously repaired. It was fortunate enough that the fire did not break out in the night.
The display of good will and kindness by all who could help was most inspiring. Human nature is pretty good nature, as is frequently seen. The exhibition of it made by those whose hearts were touched by the sad plight of the helpless driven out of the hospital by the fiery danger was cheering indeed. Of course it will not be surprising if the shock to some of the patients proves disastrous, but we have mercifully been spared that which would have made great and general sorrow.

FOREST PRESERVATION.
The opening period of a new country is always attended with considerable waste. The bounty of nature is so generously displayed that the early settlers yield easily to the temptation to use lavishly the resources at hand. It never appears to them to be at all necessary to replace the resources prodigally consumed. This particularly applies to the forests of the country.
If the land is sparsely settled it may seem for the time being practically impossible to exhaust the woodland. The idea that the present population would ever inhabit the land must have been quite unknown to those who earlier hewed away the forests. There seemed to be no realization of the need of coming generations. The supply of forests of almost every kind was abundant, enough for ages to come. When the industrial era of the country was developed and well under way the demand for timber for building purposes and wood to use in manufacture increased many fold and the thoughtless and wasteful attack on the forests began in real earnest until a crisis in the situation has been reached. It is found that the depletion of forests has effected changes in climate, and especially doing damage to navigable rivers, entailing a continuous expense greater in some cases than the value of the forests on the watersheds.
Naturally there has been aroused a public interest in the matter. Some States have set aside forest reserves and are building new ones. The aid of the national government is sought especially in a way in which logically it can help. New Englanders and Middle States and also southern people are particularly interested in the effort to save the forests of the White mountains and the Appalachian system, for these provide the watersheds for navigable rivers, individuals, and corporations, who own forests see only the immediate use to which they can put the wood they are after. It may be all they want to see, or they are incapable of taking a long range view of the matter. It is just here a State, or the nation, can act in the interest of the larger public need. The nation in particular has jurisdiction over navigable rivers. It is always spending money for dredging rivers that they may continue to be used for commerce. It is to be expected therefore that the national government will take a lively interest in the preservation of forests that have so important a function in making our rivers.

REAL.
It appears that the holdings of gold coin and bullion by the treasury of the United States are more than one billion dollars.
A billion dollars in real money and material to make real money out of is a big amount. It is the biggest amount the United States treasury has ever had. And when we remember that this great and rich country is now preparing to produce about \$7,000,000,000 of real wealth in the shape of crops we get a glimmering idea of what a country it is. It will not be long in the dumps. Its gold, its crops, its courage, its enterprise and its hope will give it a new start and it will go from glory to glory, even as it has done in the past. There is no sign that it has begun to reach its top yet.

UP AGAIN.
The jury system is again up for discussion. It is almost always up for discussion, because it is almost always exhibiting some of its possibilities of trouble or wrong. In New York city the other day a jury tossed up a coin to decide what its verdict should be. The foreman of the jury told the court about it with apparently no thought that anything wrong had been done. Then the judge fined each member of the jury \$50, and in that way tried to teach all concerned that jury duty is duty and not gambling.
Many verdicts have been arrived at in this way, or in some other way no more sensible or just. In fact, perhaps the number of verdicts arrived at as they really ought to be is comparatively small. The Buffalo Commercial asks some pertinent questions about another way of getting at a verdict. It says: But to what degree is the flipping of a coin worse in its effect than the way some judges have of keeping a jury in their room with the declaration that they have got to agree upon some sort of a verdict even though the division of opinion among the twelve is quite marked? In that action what respect is shown for that "reasonable doubt" that is supposed to be so important and impressive in behalf of the defendant?
So it goes. Evidently the best way for a man to do who can do it is to keep out of the immediate neighborhood of the jury system.

Mr. Looney of Texas has retired from politics, thus showing his sanity,

they are inclined to resist the movement toward the public possession of the forests. However, it is a principle of law that ownership is not absolute but for use and a man has no right he can exercise in a way detrimental to the rights of all others. What is for the interests of the larger number must prevail finally.
Both State and national action are called for in a situation like that which presents itself in the bare watersheds of many a river. Not alone is it a question of the wanton destruction of timber and the filling of river beds with gravel, but floods and ice jams are more noticeable and the losses to property that these cause annually are a considerable item. The forests serve in holding the snow so that the melting process shall be gradual. Many of those who suffer loss from river floods are innocent parties, victims of the lack of knowledge in the proper care of the forests on the part of those who own them or that thoughtlessness that has little regard for the rights of others. In New England the White mountains are the source of almost every important river, but a prodigious cutting away of the trees has been going on, laying bare the side of many a mountain of that system. In some sections destructive fires have consumed thousands of acres. The demand for government action comes none too soon, somewhat belated if anything.
Of course it was to be expected that objection would be raised on constitutional grounds. But if the national government can maintain jurisdiction over navigable streams it can have jurisdiction over the forests necessary to protect the rivers. If it is questioned whether the national government can enter upon the ownership of forests, it may be said that it is no new thing for the nation to own lands for other needs in the public interest. If a Yellowstone Park can be set aside as a reserve forest lands can be held for as good a reason as reserves. There have been times when congress has made appropriations for undertakings not anywhere near as promising in results as the preservation of the forest. The whole question is being ably argued before the judiciary committee of the house of representatives. Attorney John K. Beach of this State has clearly stated the case so that debate need not unnecessarily be prolonged. A constitution is good when the spirit of it can be discerned and followed, but those who framed it lived under a quite different environment and outlook from the present. As wise as they were they could not be expected to foresee our problems and specifically mention in the constitution forest reserves and a few other things. But then what would some people do if they could not have an opportunity to raise constitutional objections?

A TRUE SAYING.
Mr. E. H. Harriman doubtless thinks that he has been misunderstood and misrepresented. He is if he has been animated in his work by the principle which he put into words the other day when he said: "What we have got to have in political and business life is the man who is willing to work for others and doesn't undertake to move the pieces on the chess-board solely with a view to what he thinks to be his own interest."
Even if Mr. Harriman hasn't been always powerfully under the influence of this spirit, the fact that he perceives that those who would keep things going right in this country must be shown soundness of thought and accuracy of perception. There will have to be less greed and selfishness. The evils they have already wrought are so general and appalling that all well-disposed people are seeing the absolute necessity of a change. The change has already begun, and it is beginning to be perceived that Christian Socialism is better and safer to live with than the other kind.

THE NEW STAR.
It seems to be really true that Raisuli, the famous Moorish brigand who captured and kept in captivity for seven months Kaid Sir Harry MacLean and in the end secured from the British government a generous ransom and official recognition, is to make his debut as a more or less legitimate actor. As the outcome of negotiations which have taken place since the release of Sir Harry MacLean between the management of the London Hippodrome and Raisuli, arrangements have been made for his appearance within the next few weeks at that place of amusement. Raisuli will appear in the Arab and Moorish equestrian game called "Powder Play."
Of course there will be powder play enough in "Powder Play" to make it interesting and exciting, and doubtless Raisuli will succeed in the drama as well as John L. Sullivan and others have. He will "draw" in London anyway, and will draw also in this country, where he will doubtless appear when he has tired London out. He has had a strange and dramatic career, and if he has come to the conclusion that it will no longer pay him to be a real brigand he is probably right in thinking that it will pay him to be a theatrical one. We shouldn't wonder if it paid him much better. His experience has doubtless taught him to value himself highly enough, and if it hasn't, he may know enough to have a "manager."

IT IS WELL.
What is to become of that artesian well? Only a little time ago it was the thought of the average citizen that he was to be especially blessed in a supply of water. If he had any particular objection to reservoir water he could turn to the driven well and quaff to his satisfaction of the water bubbling up from subterranean depths. But, behold, this pleasant anticipation is blasted. The average citizen is simply obliged to gather about the fountain and take of reservoir water or go without. No pump for him. It is out of date. The New Haven Medical Association is solicitous about his health. If next Monday night the city fathers shall agree with the doctors, the artesian well may become only a memory and a hole in the ground. Some money is there too and cannot be got out. It would be well, however, to put the transaction on record, for some future generation may like to locate that well in some time of drought.
The communication of the Medical Association is based on a wider knowledge than that of the average citizen and expresses an interest in the general health of the community, and for this reason will be given considerable weight in any discussion of the matter. Physicians everywhere are watching more carefully than ever for anything that may appear to be detrimental to health, especially in the more populous centers. It is well that it is so.

A LARGE PROGRAMME.
Things are moving rapidly in this country. One big plan succeeds another, and our busy President finds nothing too big for him. His approval of the inland waterways plan was expected. Should it influence congress to legislate according to recommendations made, there will be a permanent commission named, which will bring into co-ordination the corps of engineers of the army, the bureau of soils, the forest service, the bureau of corporations and the reclamation service. This combination will have to do with the development, improvement and utilization of all of the country's water ways; the conservation of the natural resources relating thereto; the irrigation of lands having effect on streams; the reclamation of swamp and overflow lands; the clarification and purification of streams; the prevention of soil waste; the utilization of water power; the preservation and extension of for-

ests; the regulation of flow and the control of floods; the regulation of transfer facilities and sites, and the consideration of the relations between water ways and railroads.
Truly a large programme. Too large, perhaps, to be carried out very soon. But it will be carried out sometime and there can be no doubt that it is, as the President characterized it, conservative, sane and just.

CHURCH CLINICS.
In these days of investigation in every field that invites the human mind to enter it is not surprising that at last the field that is offering some promise of success is the mind itself. The study of psychology has made considerable progress in the past twenty-five years. Then it was largely pursued by the text-book and memoriter method. Now, as a subject it has its laboratory and is studied in true scientific fashion, with delicate instruments for measuring thought-speed and doing other things that seem surprising. But the whole study, pursued with new vigor, has given incentive for investigation in ways not at first contemplated. We are hearing occasionally about "psychic therapeutics." There are facts about the mind itself and its relation to the body, we are told, that reveal a psychic law that may be used in a curative way in diseases, especially nervous disorders. At any rate, this subject has been attracting the attention of an increasing number of clergymen. What is now called the "Emmanuel movement" in Boston has for sometime been watched. A Protestant Episcopal church has introduced "clinics" for nerve troubles as a part of its work for the past two years. The pastors of the church, Rev. Drs. Worcester and McComb, have found plenty to do and have met with considerable success. This is the particularly interesting thing about it. Bishop Fallows has established a clinic in connection with a prominent Episcopal church in Chicago. Now a Baptist minister of Brooklyn is taking hold of the subject.

MOVING.
First Passenger—I never saw a train move as slow as this.
Second Passenger—The engineer is the village checker champion—Philadelphia Telegraph.
"Where's the boss?"
"Europe."
"Back soon?"
"Depends on his lawyer."—Cleveland Plain Dealer.
Friend (in whisper)—The toastmaster wants you to get off a good joke.
The Bashful Man—Beg pardon—er—I didn't know I was on.—Chicago News.
"Do you believe that all things come to him who waits?"
"Er—yes, but for him, but usually some man who hustles overtakes them before they get to the man who waits."—Houston Post.
"Bigging thinks he knows more than anybody else on earth."
"You state it mildly, answered Miss Carynes. "Since the assertion that Mars is inhabited he goes further than that."—Washington Star.
Knacker—"What is the meaning of that quotation. The mind of man runneth not to the contrary?"
"Blacker—"It simply shows the difference between the mind of man and the mind of woman."—Cleveland Leader.
Man—Did you say your mamma whipped you because you wouldn't tell a lie?
Boy—Yes, sir. She wanted me to tell me teacher I was sorry I played "hooky" when I wasn't.—Chicago News.
My five daughters are all married now.
I suppose you had considerable difficulty in getting so large a number of girls off your hands?
No. The difficulty is in keeping so large a number of husbands on their feet."—Boston Herald.

What's in a Name?
See the New York directory.
The modern "Hall of Fame."
The scroll of men of greatness.
And ask, "What's in a name?"
George Elliot is a coachman.
John Ruskin is a cook.
And Byron a milkman.
Who never wrote a book.
Petraza peddles rootbeer.
And manufactures pop.
Rossini is a fiddler.
And runs a barber shop.
Carlyle, a colored healer.
Relieves you on the spot.
A fish and oyster dealer.
Is Mister Walter Scott.
Herr Schiller is a butcher.
And has a sausage stand.
Herr Strauss leads on the East Side.
A little German band.
Scarlatti sells bananas.
And Verdi drives a hack.
Bellini sweeps the highways.
And works the railroad track.
And Rubenstein, the tailor.
Makes coats and pants galore.
And Mendelssohn sells clothing.
And has a dry goods store.
Herr Wagner is a baker.
Franz Schubert heals the sick.
Shakespeare is undertaker.
And Poe sells time and brick.
Tobaccoist, Herr Leasing.
He makes Havanas clear.
And Heine, what a blessing!
Sells some one's lager beer.
Darwin has geese and chickens.
Dumas is selling fish.
Fine furniture sells Dickens.
Made in Grand Rapids, Mich.
If all these famous authors,
To advertise their names
Have chosen our directory.
Tell me, who is to blame?
—Joseph Steinberger in Brooklyn Times

IN MEMORY.
It will be in the way of a heart's ease for an old and loving friend of Mrs. Minott E. Osborn to pay this open tribute to her memory. In girlhood, and life together in the school days, in dearer and closer relations after, ever was she loyal and loving—a comrade tried, "fonder and true."
The void made by her passing will not easily be filled, but the flower of memory will grow sweeter and sweeter as time goes on which brings nearer the reunion beyond. It is much in this life to have filled fully the various relations here—to have been a daughter, sister, wife and mother in fullest meaning. All these she who has gone "home" surely did and it is now for all who knew and loved her to rejoice for her entrance into the freer, grander life, and to be brave as she was brave. Eternal rest give unto her, O Lord! Let perpetual light shine upon her. May she rest in peace!
"Was she, if you are faint,
Sunshine still must follow rain;
Only not at death—for death.
Now I know, is that first breath
Which our souls draw when we enter life, which is of all life center.
He who died at Azan gave
This to those who made his grave."
New Haven, Feb. 28, 1908. xxx

SAVINGS AND DOINGS.
There is being built in the city of Mexico the largest bull ring in the world. When completed it will seat 22,000 people. The framework is of steel and the cost will be \$750,000.
J. F. Hocking of St. Clair, Cornwall, England, has just lost a goose, of which a careful record has been kept, showing the bird to have been fifty-three years of age. The goose laid and hatched regularly, last year rearing eight goslings.
The immense increase of Germany's economic power during the last twenty-eight years is strikingly illustrated by the increase of coal consumption in that time. In 1879 it aggregated 52,204,000 tons, and by 1895 it rose to 108,877,000 tons, thus doubling itself in sixteen years, but last year it reached 208,167,000 tons, having nearly doubled again in twelve years.
Word comes from Amsterdam that the Cullinan diamond, the Transvaal's gift to King Edward of England, has been cut into three sections. The largest weighs 1,040 carats and will be pear shaped when polished. The stone originally weighed 3,025 carats and, even since it has been cut, it is by far the largest gem in the world. It is not quite free from blemishes, but the experts say these will be removed in polishing.

PER-ADVENTURE.
Your Shirt Department is stocked for a while yet—for two months more or less. Yet it may not be wise to defer the selection of materials. Everything is here now, but everything cannot stay here always. The stock may remain large for a long while; but the very particular people are apt to come early, and sometimes one very particular person takes just the things another particular person would have liked to take for himself. Then it does not seem to make any difference or offer any compensation that there are a thousand other designs and all answer equally well the canons of good taste and seem to other people just as effective. Come when you can.

Correct Framing
A PICTURE is made or marred with the framing, and if it is worth the framing it is worth doing right. The framing of pictures is our pet specialty. Every picture left with us to frame receives special attention and the order is executed by experts. You fix the sum you wish to expend and we guarantee the greatest value in framing for the amount expended. We are always glad to be consulted regarding the framing of pictures, whether you leave your order or not.

SATURDAY SESSION

Beardsley Case Against Road to be Continued This Morning.

FIVE DIVORCES GRANTED

Commissioners to be Appointed in Stevens Condemnation Case.

Yesterday was short calendar day in the court house again. The superior court with Judge Roraback on the bench ended with its usual number of ex parte divorce cases. There were six of them in all and of these every one that was heard was granted. The sixth was not heard.

In the suit of Elizabeth C. Lindley against her husband Edgar Russell Lindley the charge was one of desertion on November 5, 1906. The decree of divorce was granted by the judge.

The second case was that of Emil J. Caron vs. his wife, Marie Caron. The charge was habitual intemperance. The decree was granted.

In the suit of Edith M. Russell against her husband, Albin W. Russell, the charge was again one of desertion, the date given being May 1, 1901 or thereabouts.

Edith Mae Fletcher brought suit against her husband, Leslie Calvin Fletcher through her attorneys, Alcorn & Smith and got her decree. The date of the desertion was asserted to be July 2, 1904. The custody of her child, Elsie, aged four, was given her.

The case of Lottie M. Patterson vs. Manly H. Patterson was postponed until next week's short calendar, next Friday.

The last divorce case was that of Riccardo Ciantano vs. Antonia Ciantano, his wife. It was granted. The husband was given the custody of the three elder children, Frank, aged 10; Rosina, aged 8; and Zito, aged 2. The youngest child, Dominick, aged 1 was given the mother. The charge in the case was one of adultery. Antonio Nongillo being named as co-respondent.

Short Calendar.

Most of the regular cases in the short calendar in the superior court were postponed. In Bird vs. Francke, motion for leave to file a substitute answer and counterclaim, the motion was granted by agreement.

In Ramo vs. Assad, motion for bond to prosecute, the bond was set at \$70 in two weeks.

The following motions were all granted: St. Francis Orphan Asylum's appeal from probate, motion that the appeal be consolidated with case No. 4389, same motion that this appeal be consolidated with case No. 4372 and that time to plead be extended one week; Weinberg vs. The Weinberg Wallack company, motion to accept the receiver's final account, which shows claims of \$10,170, and for the discharge and dissolution of the corporation; Kilbanow, et al. vs. Cohen, motion to transfer the case to the Waterbury docket; and Rosefield vs. same motion to transfer the case to the Waterbury docket.

Commissioners to be Appointed.

The suit of the New Haven road against Samuel A. Stevens, a farmer in Woodbury, by which the road has been trying to condemn certain property held by the defendant which is in line with the road's new line between Woodbury and Waterbury was finished before Judge Roraback this week. The judge announced yesterday that he was to leave the settlement of the matter to a committee of three commissioners. The names of these commissioners are to be proposed by the judge by the opening counsel in the case.

Session in Court To-day.

The suit of Charles F. Beardsley vs. the New Haven road was continued all day in the superior court before Judge Wheeler again yesterday. At the close of court at 5 o'clock the judge announced that he would continue the case at 9:30 this morning. Seldom is a Saturday session resorted to by the superior court. The case has to do with the drainage from the railroad tracks upon certain farm land owned by the plaintiff in Milford.

New Jury Panel.

The superior court presided over by Judge Wheeler will have a new jury panel next week. The sheriffs are busy now setting the papers on the men whose names have been drawn.

Criminal Common Pleas.

The jury panel for the criminal session of the court of common pleas has been drawn and the papers served. The panel is as follows: East Haven—Frank B. Hitchcock, H. Walter Childsey, Guilford—James R. D. Boyd, William F. Long, Hamden—Edward C. Yale, George W. Thompson and Charles A. Clark.

Madison—W. W. Pardee, Ezra S. Kelsey and Gustave Stegeman. Meriden—Frank C. Andrews, Elbert A. Bell and A. Ellsworth Austin. Middletown—Albert W. Buell, Charles H. White. Milford—Herbert E. Swift, Hart N. Sperry and Morton P. Tibbals. Naugatuck—Thomas Scott and R. R. Loomis, Sr.

Common Pleas Court.

In the short calendar session of the court of common pleas, civil side, yesterday in the case of Lewis Hawthorne vs. George E. Hall, motions for permission to file substituted complaint and for an order citing in new party defendant, both of which were granted.

Decision was granted in E. A. Miller vs. Stephen Orsag, motion for leave to file an answer.

Mrs. Lyon's Estate.

The inventory of the estate of Mrs. Josephine B. Lyon, wife of former City Clerk Richard F. Lyon, was filed in the probate court yesterday. The estate is valued at \$15,966.87, of which \$11,000 is in real estate.

Cannon Estate.

The inventory on the estate of the late Margaret Cannon was filed in the probate court yesterday, and it shows a total of \$5,782.10. Real property amounts to \$5,000; cash in banks to \$882.10, and furniture to \$100.

Schurig Estate.

The will of Ernest A. Schurig, who died at 24 Bishop street, has been filed in the probate court. The estate amounts to \$8,000.

CARROLL MAY WITHDRAW.

Gets That Result for One of His Petitions.

At a meeting last night of the committee on retrenchment and reform, it was decided to refer the petition of Anthony Carroll, an inspector of the Scranton street school, that he be reimbursed for necessary expenses incurred in his work, amounting to \$94.50, to the claims committee.

This same ex-inspector was given leave to withdraw his petition, asking for an investigation into the material used in the same building.

Action on another petition presented by Anthony Carroll, was deferred until a later meeting. This one asked that the city clerk, James J. Devine, be compelled to furnish the petitioner the complete specifications of the Bennett memorial fountain. As the city clerk was unable to be present, and give his side of the case, the committee, with the consent of the petitioner, postponed action. After a short executive session, the meeting adjourned.

ED. C. BURNHAM DEAD.

Prominent and Wealthy Bridgeport Resident Dies at Eighty-one.

Bridgeport, Feb. 28.—Edward C. Burnham, one of the most prominent men in business and financial circles in this city died this afternoon aged eighty-one years. He was the founder and for years one of the firm of Eaton, Cole & Burnham which concern was, some time ago, absorbed by Crane Brothers of Chicago. Complications followed an attack of grip from which he failed to rally. Mr. Burnham who was one of the wealthiest men in the city leaves a son, William E. Burnham and two daughters, Mrs. John B. Ten Eyck and Mrs. John Henshaw.

NEW YORK'S WATER POLICE.

Force of 2,000 Men to be Provided to Guard 108 Miles of Aqueduct.

New York, Feb. 28.—Creation of another city police force was begun this morning by the board of water supply, Rhinecliff, Waids, formerly first deputy police commissioner under General Bingham, was made chief of the new aqueduct police force, which is to police the line of the Catskill Aqueduct, to be constructed between the Ashokan Dam and New York city, a distance of about 108 miles. There will be from 1,500 to 2,000 men, many of whom will be mounted. Douglas L. McKay, formerly a lieutenant in the army, was chosen deputy chief. The chief's salary is \$2,000, the deputy's \$2,000.

BETTER THAN SPANKING.

Spanking does not cure children of bad habits. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

ANNOUNCEMENT.

I desire to announce to my friends and the public generally, that such a readjustment of my affairs, as intended for me may be sent to Messrs. Lewis & McCoy, No. 1112 Canal Street. All work will receive prompt and careful attention. Telephone 675.

ROBT. H. BURWELL, Undertaker.

DEATHS.

SPERRY—In this city, February 26, 1908, George R. Sperry, in the 82d year of his age. Owing to illness in the family the funeral will be private. Burial services will take place in the Woodbridge East Side cemetery, Saturday afternoon, February 28, about 2:45 o'clock, to which friends are invited. Please omit flowers. 729 11

KILBORN—Suddenly in this city, February 27, 1908, Benjamin Hart Kilborn, in the 70th year of his age. Funeral services will be held at his late residence, 723 State street, on Saturday afternoon at half-past two o'clock. Friends are invited to attend. 729 11

MUNSON—In this city, February 28, 1908, Emma Larson, wife of Ambrose A. Munson, aged thirty-five years. Notice of funeral hereafter. 729 11

CIGARETTE

SMOKERS may remember the old time Imported Cigarettes, made in Havana—with heavy paper, ends turned in and that required re-rolling. They went out of fashion when rice paper Cigarettes came in—still—not one of the new fangled brands ever had quite their flavor.

Now comes the big combine of the Havana Factories, **Henry Clay and Bock & Co.**, each with a Cigarette containing straight high-flavored Havana Tobacco, made in modern style—in a foil lined box, cork tip and thin rice paper wrappers.

Light one—and miss the familiar odor of a burning Turkish rug.

We Announce Another Arrival

Of these miniature ears of corn packed in taragon vinegar, called "Indian corn a la taragon." If you were fortunate enough to receive some on your order when they first came out, some months or so ago, you will gladly welcome this announcement. For those who were less fortunate, and to whom this product is unknown, we describe its uses herewith:

Salad a la taragon. A few ears of "Indian Corn" served on lettuce, chiecy or endive, French dressing.

For garnishing any salad a few ears placed on top before serving adds a better appearance. The flavor of "Indian Corn" is quite distinctive when packed in taragon vinegar.

TAFT'S PROBABLE PLATFORM.

Secretary Holds Conference With Ohio Men for State Document.

Washington, Feb. 28.—Ohio is the first of the northern states to adopt a platform for the campaign of 1908, and the politicians have been curious to learn how the question of tariff revision is to be treated. If Ohio is to set the pace, it will be a very moderate one, for at a platform conference held here yesterday, the only tariff declaration that stands out above another is the mild one that "the principle rather than the schedule should be held sacred." As this conference was attended by Secretary Taft, Secretary Garfield, Representatives Burton and Longworth, and Attorney-General Ellis of Ohio, and its purpose was to frame a platform, the full text of the document will be awaited with unusual interest.

It is understood that the child-labor plank will be one of the strongest in the platform, while the temperance plank, though not declaring for prohibition, recognizes the force of the prohibition wave that is sweeping the country.

President Roosevelt's policies will be endorsed to the last detail, but the United States Senators will be ignored. A movement is afoot to name Governor Harris in place of Foraker.

THE STOCK MARKET

News Factors Favorable, But They Fail to Induce Buying.

ACTIVITY IN FIRST HOUR

London Purchases Increase—Metal Stocks Make Best Prices of the Day.

Influencing news factors to-day were mostly favorable, but did not induce much buying of stocks. Reports from Pittsburgh to the effect that two rail mills of the Edgar Thomson works or the Carnegie company would resume operations next Sunday night, taken in connection with recent receipt of rail orders, had a reassuring effect, as did the steady progress at Washington in the matter of currency bills.

American stocks in London were generally higher to-day.

Dealings in the first hour were 46,000 shares greater than for the same time yesterday, with a firm tone from the start. American Car and Foundry gained 1-1/2. Smelters 1-3/8, Atchison 1-1/8, St. Paul 1-5/8, Delaware and Hudson 2, Granby Mining 4-5/8, Great Northern 1, Kansas City Southern preferred 1-1/2, Lead 1-3/8, Northern Pacific 1-1/2, Reading 1, Rock Island preferred 1, and St. Louis and San Francisco second preferred 1. U. S. Steel sold up to 29 1/4. Transactions to 10:30 were 70,708 shares, and to 11 o'clock 128,822 shares.

The market became exceedingly dull after the first hour, the trading being mostly confined to the floor traders, who do their best to scalp small profits from each other.

While it was generally assumed to be true that the Oregon Railway and Navigation company had declared an extra dividend of 75 per cent. on its preferred stock, all but a nominal amount of which, \$2,500,000, would accrue to the Union Pacific, the semi-official admission that it was a "book-keeping affair" removed the incident as a stock market factor. In fact, Union Pacific, after an early rise of 3-4 point to 114 5/8, sold off to 114 again. This stock compared with some other active issues, has been relatively heavy. In fact, traders regarded it as the heaviest of all, because, as a ten per cent. issue, it might be expected to sell much higher than 114.

The clearest traders on the floor are nonplussed by the action of the market. Many of them have been badly whipped and are content to look on for a while. It is a strange situation. On any decline there seems to be heavy buying orders in sight, but when the traders put up prices they are flooded with stocks.

London bought about 15,000 shares, taking a good deal of Amalgamated, Anaconda and Northern Pacific. There was a little insignificant foreign selling of Union Pacific. A better London market is expected for Americans next week if there is any encouragement from this side, such, for instance, as an assurance of cessation of corporation baiting.

The metal stocks made the best prices of the day in the last hour, while the shorts in Western Union were squeezed. Just toward the end the market eased off again under heaviness in Union Pacific and closed steady. Transactions were the largest for the week.

Sugar had quite a demonstration yesterday, being bid to about 115. Some short covering occurred. Traders found stock offerings limited. There was an advance in refined sugar back to the recent basis.

A rise of about four points in National Lead amount to 45 yesterday, with some large purchases, was thought to represent a renewal of manipulation by a pool which formerly put the price from below 50 to 55 3/8 on January 15, 1908. Considering that dividends are being maintained, some content that the stock is relatively low compared with other industrial issues. Incidentally, it was contended that the lead business has begun to show a moderate recovery.

STOCK MARKET REVIEW.

Continued Lethargy Broken by Short Period of Animation.

New York, Feb. 28.—For an hour today the stock market took on an appearance of reviving animation. It then relapsed into its recent condition of lethargy and scarcely moved for the rest of the day. The grounds put forth for the operations which advanced prices during the first hour had to do with unconfirmed rumors for the most part and betrayed the professional origin of most of the activity. Copper mines in Butte, it was said, were to be reopened and an extensive combination was to be effected among copper interests which were still working independently of each other. Inquiry in official quarters failed to verify these assertions. The price of copper metal in the London market suf-

THAT YAWNING WASTE BASKET.

How it Yawns for Foolish and Useless Advertising.

If business men who use circulars extensively for the purpose of making sales of goods or manufacture articles would sit down and do a little hard thinking, they would doubtless save themselves a lot of trouble and a considerable sum of money each year.

There seems to be prevalent an idea that circulars are the cheapest and best mediums for reaching the public and that if they are well written and beautifully printed they will pull business out of a stone.

How many of those who cherish this fond delusion have definite facts to support it? Not one in a hundred. In some lines of business, especially in the retail trade, good results have been secured from an intelligent use of circulars, but experience has shown that in approaching manufacturers, wholesalers, jobbers and others who conduct large commercial enterprises they are almost worthless.

How, then, can the advertiser get the attention of the men he desires to reach? Through the newspapers and the trade papers. If he will frame up his selling arguments in attractive form and place them in the evening or the morning newspapers he can rest assured that they will be seen and read by the very men who refuse to examine his circulars.

Just as soon as the business men of the country wake up to the above fact, the freighter waste of money and effort, as represented by circulars, etc., will be stopped and a deeper appreciation of the true value of news and trade paper advertising will prevail.—Editor and Publisher.

GUIDEPOSTS IN FRANCE.

A Striking Feature of the Roads Throughout the Country.

A feature of the roads of France is the ever present guidepost. These guideposts consist of an iron plaque about two feet long and a foot high securely mounted on sturdy posts or fastened to some substantial wall. They are painted in white and blue and show without any possibility of mistake not only the commune or township in which they stand, but the next important place in either direction as well as the distances between all the chief points upon that route.

In addition to these guideposts the Touring club of France has put on the chief roads a series of signs and symbols to indicate to motorists and bicyclists what sort of a road they are approaching. The sign "routier," which translated into good United States means to "let up," has caused many a motorist who is familiar with the road he is traveling to slow down and to find shortly after the sign had been passed that it was well that he had attention to it because of a steep grade or some abrupt turn.

The Union Trust Co.

NEW HAVEN. Chartered by the State of Connecticut with authority to act as Executor, Administrator, Guardian, Receiver, or Trustee, under will or deed.

It is legal depository of money paid in Court, and Public Trust Funds, and as Trustee for Municipalities, Corporations and Individuals, and administrator of Trusts of all kinds. Empowered to act as registrar of Stocks, Bonds or other evidences of indebtedness, manage sinking funds, and do all business such as is usually done by Trust Companies.

It also does a general banking business, collecting checks, notes, coupons, and receives deposits. The principal of each trust is invested by itself and kept separate and apart from the general assets of the Company. This Company is by law regularly examined by the Bank Examiner of the State of Connecticut. HENRY L. HOTCHKISS, President. EUGENE S. BRISTOL, Treasurer.

Lomas & Nettleton BANKERS AND BROKERS

A Clean Record of Sixty-Four Years.

No law suits or unpaid loans under any policies issued by the North Agency since it was established in 1843. Should this mean anything to a property holder who wants to get the benefit of an experienced and reliable agency to look after his insurance business? Our rates are exactly the same as those charged by others.

Why not look into this matter a little? Perhaps you take less pains in selecting your insurance than you do your cigars. JOHN C. NORTH. 70 CHURCH STREET. First Building North of the Post Office.
