GRAND STREET, NEW HAVEN.

Public opinion increases daily in favor of the prices of our goods and the genuine qualities we offer. Since the fact can no longer be disputed, and the verdict is handed in from 100,000 of our patrons, all over the State, that declare QUEPRICES TO BE LOWER THAN THE LOWEST, while our qualities, colorings and styles of darpets in all makes unquestionably superior to those of our competitors we feel in duty bound to maintain the good opinion of our friends and command the respect of competitors by putting before the purchasing public a stock of such gigantic extent as to rival fairly in elegance of senigns, beauty of texture and excellence of finish, any of the Carpet Hones of the metropolis. NEW GOODS DAILY arriving. Every mode of Carpet known to the trade can be had of us at the lowest prices that experience and that all-powerful auxiliary, CASHE, can possibly procure. Since we acknowledge no superior in the carpet trade, the public will kindly remember that under no circumstances will we be undersold, and therefore intending purchasers can with the utmost confidence rely on our prices being at all times lower than the lowest.

Dry Goods Bulletin.

Issued by J. N. ADAM & CO.

366 and 368 Chapel Street,

While busy selling off T. P. MERWIN & CO.'S stock last week we were not neglecting our own trade, and have received and put into stock in the last ten days as fine an assortment of goods in every department as we have ever seen. We shall enumerate a few: MADRAS AND CANTON GINGHAMS

These elegant goods, of which we have made large purchases, are becoming deservedly popular. They are of fine, smooth, even texture, fast colors, and in design and general effect quite equal to the finest imported goods, while they cost very much less.

CAMBRICS, FOULARDS, &C. In this class of goods the selection we are now able to show our customers cannot be surpassed. So much attention is now being paid to the production of beautiful designs for printing on cloth, that it seems the new styles for each season excel in beauty anything ever before produced. Very rich effects are brought out on cotton momie cloth, making quite a high class looking fabric at a moderate cost.

CALICOES. We have just added very largely to our stock in this department, and have, we suppose, the Finest and Largest Assortment to be found in New Haven.

DOMESTICS.

A full line of Bieached and Brown Cotton for sheeting, pillow casing, shirting and general use. Ducks. Drills, Benims, Tickings, Hickory Stripes, Shirting and Apron Stripes and Checks, Secreters, Ginghams in great variety. TABLE OIL CLOTHS.

In Wood, Marble and Fancy Designs, and in Table Cover patterns. TABLE LINENS.

The best stock we ever showed. We pride ourselves in this department, and we have satisfaction in observing that experienced buyers who look at our Table Linens and go to look elsewhere invariably come back to us to buy. We KNOW we are HIGHT every time on Table Linen.

WHITE GOODS. Piques, Nainsooks, White Lawns and Swiss Muslins are now in request, and we are well prepared for the demand.

LADIES' WHITE UNDERWEAR. To our already good stock we have added all that was fresh and new in that of Messrs. T. P. MERWIN & CO. Mr. Merwin made a specialty of this line of goods, and his stock was very choice. We sold off at his old store all that was in the least degree soiled or defective, and put nothing into our own store but what we knew to be desirable goods. We remarked everything, of course, making the prices conform to our moderate scale of profit for a cash trade.

SILKS. Our line of Black Sliks, always, as is well known, a specialty with us, contains some uncommonly good burgains just now. DRESS GOODS.

We have not space to ennuerate all the new things received in this stock, and merely request our friends to do us the favor to inspect the very large assortment of all that is fashionable and desirable in dress fabrics we are now SUNDRIES.

Worthy of note among recent arrivals are a very large lot of Embroidered Ties, Kid Gloves in the new shades, Dress and Cloak Buttons, a most magnif-icent assortment of Ladies' Handkerchie's and Silk Handkerchie's, Respectfully,

J. N. ADAM & CO

The nature of the great improvement is in its wonderful life-giving properties to faded or falling hair, and MORE QUICKLY CHANGING GRAY OR WHITE HAIR to its natural youthful COLOR and BEAUTY. L severe case of five years duration e tirely cured. Mesars. Weeks & Potter: Gentlemen,—For the benaft of the world I wish to make this statement: I have been afflicted with a skin disease for about five years, and have tried almost everything that I could hear of, without any relief whatever, until I saw your Cutteura Remedies advertisee, and concluded to try them. I certify that I only used them about six weeks until I was entirely well, but before I commenced using them, my face, breast and back were almost a soild scab, and I often scratched the blood from my body. I am now entirely well and think your Cutteura Remedies are the best for skin diseases that ever was brought before the public.

knees. A wonderful cure. Mesers. A wonderful cure.

Mesers, Weeks & Potier: Gentiemen,—I have had a
most wonderful cure of Seit Rheum. For seventeen
years I suffered with Sail Rheum; I had it on my
head, face, neck, arms, and legs. I was not able to
walk, only on my hands and knees, for one year. I
have not been able to help myself for eight years. I
tried hundreds of remedies; not one had the least effect. The doctors said my case was incurable. So my
parents tried everything that came along. I saw your
advertisement and concluded to try Cuticura Remedier. The first bor of Cuticura brough the Humor to
the surface of my skin. It would drop off as it came
out, until now I am entirely well. All I can say is, I
thank you most heartily for my cure. Any person who
thinks this letter a fraud, let them write or come and
see me and find out for themselves.
Yours truly,

A rather amusing incident is told as having occurred recently at a church not many miles from Fairfield. The oboe recembles a clarionet very much as a rake resembles a hoe, all the difference is at one end. The voice of the oboe is very much like that of a man trying to whistle with his head under water. The erchestral composers use the obee on account of its sim-ple, honest quality to express a countryman going into a bank and asking the banker to lend him \$200 until Tilden is elected. In Jacobini's beautiful creation, "Sounds from the Kitchen," you will remember the oboos are used to convey the remarks that pass between the cook and the grocer's boy, who has just brought home two gallons of maple Japanese again. Bogardus Defeated Rising Western Lad Beats Him Ter Out of a Hundred,

Western newspapers are giving considerable space to the late shooting match in which young Fred Erb, ir. of St. Louis, Mo., defeated Captain A. H. Bogardus, champion wing shot of the world. The match was for a wing shot of the world. The match was for a purse of \$200 and 50 per cent. of the gate money; each to shoot at 10 birds from five traps. The traps were arranged in a sort of semi-circle, the marksman not knowing from the enemy, also opened fire. Hearing the noise of the firing, Marshal MacMahon rode pastily up and found the two received as much interest as this one did. Members of clubs of the Missouri valley, and clubs in the north and

This rather as-tonished the backers of Bogardus, who were in a majority, while the many backers of the St. Jo. boy, who had predicted his winning from the start, were jubilant, but not boisterously so. Young Erb had to make fifty shots yet with the great marksman. As the shoot-ing continued the birds favored the boy a little, and the veteran experienced hard luck. He said the wind and dust troubled his eyes. The boy had never shot before under the five trap rules. Each dead shot gave him the greatest confidence. He stepped to the score, and as the birds rose at any part of the semiircle, he took his range with lightning rapidity, bringing them down with unerring aim. When his last bird fell the score stood, Erb

How it is Made and How It May be Detected.
The manufacture of artificial butter or oleohusband is probably the oldest fire escape on record.

Take the church of the in weight, and caused them in weight, and caused butter, leaving still the query, "Where did it come from?" He believed it was produced to be communicative. He would be communicative. He will be come from the fat of the animal, which, being carried into the circulation, was deprived of its stearine by respiratory combustion, and furnished its oleomargarine to the cow's udder, where, under the influence of butter, and of agreeable tasts. He then transformed this same fat into butter by a process similar to that of nature. This process was similar to that of nature. This process was by grinding up the fat of the best quality of newly-slaughtered beeves between two cylinders, which, falling into a deep vat heated by steam, and containing for every 1000 kilogrammes of fat 200 kilogrammes of water, and I kilogramme of potassic carbonate, besides two sheep's or piga' stomachs, in small pieces. The temperature was raised to 45 degrees, and the mass carefully stirred. At the end of two catch a sight of the welcome stranger, and the mass carefully stirred. Oleomargarine shows a mass of what appears to be fan-shaped and fibrous crystallizations entirely different in character and appear-ance from butter. Professor De Smedt tests and other poured on sufficient to cover and dissolve it, which is hastened by stirring when the liquid mass is poured off into a sau-cer, or, what is better, a small glass plate o saucer. The work of evaporization begins at substance openly exposed, with its offensive odor and appearance. The character or ap-pearance of good butter is not changed by a similar test, the fatty substance left after the evaporization of the ether retaining the odor ffpure butter, totally unlike that of the stear ine from eleomargarine. This test Professor De Smedt thinks better and every way more satisfactory than by the microscope. As a general thing, however, any person used to marketing can satisfy themselves, from the greasy smell of the artificial butter, of its character. It is not, as a general thing, so

Journal, There are a number of applicants here who seek to fill the place occupied by the late Judge Hays. One of the aspirants was in Washington when he received the news of the vacancy at a late hour on the evening of Mon-day. About midnight a member of Congress and his wife were aroused by a ring at their door. A note was handed to the half awake member. He read: "Judge Hays is dead; advise me promptly what to do to secure the place." The answer was: "Better not disturb the President to-night; it would be a little more decent to wait until after the fune-ral." The Republican State convention for the hoice of delegates to the National convention at Chicago takes place to day at Peck's Grand Opera House, opening at 10 o'clock. Quite a large and interesting convention is indicated. dquarters last evening were at the New Haven House, where 150 to 200 of the delegates stopped. By seven o'clock the spacious hall way of the hotel and its sitting rooms were thronged with delegates exchanging greetings and opinions. Some had no opinions to offer and were non-committal, having no openly expressed preference for either of the names now so prominently mentioned for the Republican nomination for the Presidency. Among those well known in the Repub lican ranks of the State present were ex-Gov. Jewell, Charles Dudley Warner of the Hartford Courant, the noted author of "Back Log Studies" and other noted works; Hon. Sam Fessenden of Stamford ; Hon. Amos Treat of Bridgeport; Hon. N. D. Sperry of this city; Mayor Bigelow of this city; Mr. Bulkeley, whom the Hartford Republicans so triumphantly elected Mayor on Monday; T. M. Maltbie, ex-Deputy State Insurance Commissioner; ex-Speaker Dwight N. Marcy of Vernon; Joseph Sheldon of this city; Gan. S. E. Merwin of this city; Postmaster Hubbard of Walling-

ford; ex-Congressman Brandegee of New London, Charles J. Cole of the State Central Committee; S. A. Hubbard, of the Hartford Courant; Mr. Hayward of Colchester; Col. Osgood of Norwich, and various others too numerous to mention. Mr. Bromley of the Tribune was for a time in the busy throng of politicians; Mr. Carroll, of the New York Times was present; R. H. Smith represented the Springfield Republican and Mr. Curtiss the New York Herald, Editor Chapin of the Waterbury American, E. A. Tucker the Hartford Post, A. S. Hotchkiss the Hartford Courant, Mr. Maples the Westport Hour, and numerous others of the State papers were

represented. It will be understood that the convention to-day sends twelve delegates to the Chicago convention, one from each county and one from each Congressional district. A tour among the delegates elicited some points regarding the convention as follows: New Haven county delegates favored Mayor H. B. Bigelow, of this city, for a

member of the delegation. Mr. John Douglas, of Middletown, was also named for delegate at large. For county delegate the names of Hon. F. J. Kingsbury of Waterbury, Colonel W. B. Wooster of Derby, and Hon. George H. Watrous of this city, were canvassed. Middlesex county will present the name of

William C. Hough, of Essex, for county delegate. He is a member of the State Central Committee and a prominent manufacturer. In the First Congressional district the name of Hon. Henry C. Robinson, twice the standard bearer of the Republican party for Gov ernor, is prominent for delegate at large. He is pronounced to be in favor of Edmunds. On the other hand the name of Hon. John L.

Houston, of Enfield, is urged. Mr. Houston is president of the Hartford Carpet Company, a large concern, and has been two terms in the lower house and once Sanator. For Hartford county delegate, Mr. T. According to Vennor, May will be cold and M. Maltbie, of Hartford. The Tolland men

Gallup for delegate at large, and is partly for E. S. Boss for county delegate. He is agent of the Willimantic Linen Company, and has been a member of the House. Grant is reported quite strong in old Windham, Edmunds second choice. Windham also talks of Sabin L. Sayles and Jeremiah Olney for county men. The Fourth district's voice is strongly for

Mr. Cole said the committee were to report to-morrow, being the committee for the con yention. The list of delegates was committed to their care. The caucus then adjourned Announcements of county caucuses were then made.

The State Central Committee then held a meeting, and agreed upon Alexander Warners of Pomfret, for temporary chairman of the nvention to-day.

A strong Edmunds feeling is manifest among the delegates-stronger than was anticipated The voice of the convention will be, it is be lieved, to send the delegates uninstructed. A somewhat exciting topic was whether the onvention would abrogate the old plan of electing [delegates, viz, by counties and districts, and substituting instead the selection of delegates irrespective of territorial limitations. The prevailing sentiment appeared to be against any change. The subject of increasing the representation of the large towns and cities in the party State conventions will probably receive some attention and discus sion in the convention. Prayer followed by Rev. S. Dryden Phelps. f Hartford, formerly of this city. Rev. Dr. Samson, father of the new minis ter, was then introduced. He said there were ings new and old for the gospel minister The gospel of truth was promulgated four hundred and fifty years before the law of Moses, and while it was not new there was omething new in it. In his experience in training young men for the ministry he had tried to get hold of the Saviour's sentiments,

both in teaching and in preaching. The direct work of the spirit upon the heart in regeneration is a truth that is not new; it is an old doctrine. The Saviour exhibited new illustrations of truth. He urged his followers to love one another. Love to God and love to man; it grows in the church and grows in the community. Just as in the indi-vidual so in the generation. In closing he said that they could rejoice that the word of God is not to pass away. Creeds shall vanish, but the word then is our joy, then is our strength. We may trust it and it will redeem and save.

Road Bed Gives Away-Forty Passengers-No One Hurt-Quick Resump tion of Schedule Time. The express mail leaving Boston at 10 p. 5.55 yesterday morning, was wrecked at a New Haven district: point some three miles north of West Meriden | Presiding Elder..... and a short distance below the Hartford Ice Company's ice houses. The train wrecked is one of the heaviest that runs over the road, carrying large amounts of express matter, and an exceptionally heavy mail, though the passenger traffic is not so heavy as on the midday trains. There were on this train, Conductor Dickerman's, an engine, No. 75 the "Planet"-Engineer Bradford-and tender, two Adams express cars, a postal car-Connecticut,-a baggage-car, smoking-car, one passenger coach, and three sleeping coaches.

The tracks are perhaps twelve would be of an informal character. He said | feet above the water. There was something he was glad of an opportunity to welcome wrong with the ice house machinery, and for Brother Samson to this large field of labor, the first time in several years it became necessary to draw off the water that formed the pond, to the east of the track. This caused the embankment to crumble and both the east and west tracks to settle. In an instant the entire train was wrecked, and the road-bed and rails for a distance of 15 or 20 roads were gone, and partly buried out of sight in sand and water. The locomotive stuck to the rails. The hind wheels of the tender got off. The first car, one loaded with express matter, had turned a complete somer lt, was thrown from the trucks and landed on the side across where the east track once had its resting place. The next car, also an express, was also thoroughly shaken up and vas thrown down an embankment a distance f about twelve feet. Following this was nail car, which was also thrown some dis hance from the track, after being loosened from its trucks. This car landed bottom up in a pool of water, one end of the car being thrust some distance into the mud. The bag-gage car, the next to follow in the wreck, was lifted bodily from the truck and went against the side of the mail car with considerable suddenness. When it ended its flight through the air one end rested on the mail car and the other on the ground. The smoking car found a resting place, after leaving its own set of trucks, on the trucks which had previously done service for the baggage car. The pas-senger coach and two of the sleeping cars were derailed and loosened from their trucks and went crashing against one another with nsiderable force, but other than shaking up the passengers very unpleasantly and smash-ing the cars somewhat, no great damage was one. Some of the passengers asleep in the eeping car were not aware that an accident had occurred until quite a long time after the accident. Conductor Dickerman and Palace

The Elections — Complexion of the A large delegation of ladies visited the garden — Latest Returns. this afternoon to witness the walk and ap-plauded young Hart as he gradually drew up with Dobler. Hart is the favorite and at one pool table they will only bet one to five against his winning. The best score at 3 p. m. on a Tuesday (Brown's in London) is 191 miles and I lap. Late this afternoon it was announced that Wood had withdrawn from the contest Late this afternoon it was announced leaving eleven of the eighteen starters to battle for the belt. Pegram, who has been improving in condition since yesterday, made Gladstone, who had held that constituency in some fine spurts this evening and his backers and friends are still confident that he will give a good account of himself before the close of the contest. Score at 7 p. m.: Dobler 207, Pegram 186, Hart 207, Allen 183, McIntyre 170, Merritt 178, Howard 178, Williams 162, Krohne 156, Hanwaker 155, Jaybee 92.
At 7:30 p. m. a lively brush took place be-

tween Pegram and Allen, which resulted in a victory for the "dark horse" from Boston, who now appears as fresh as any of the others. Allen is also doing good work and will finish well. Merritt, from whom so much was expected, still brings up the rear guard and his chances of winning are now sonsid- land. of winning. At 9:15 Jaybee completed his 100th mile and was rewarded with derisive applause from the spectators. After completing another mile he quit the track for the night. Krohne, the tail Prussian, walked for some time at a six mile gait, and some lively spurts were made between him and Morritt, in which the latter came out second best.
At 10 o'clock the record stood Hart 220,
Dobler 219, Pegram 199, Allen 195, Howard 191, Merritt 189, McIntyre 177, Williams 173, Hanwaker 163, Krohne 168, Jaybee 101. At 11:05 Dobler completed his 224 miles and left the track for a long rest. Hart completed his 225 miles at 11:15, and retired to his tent for three hours' rest. Hart's per-formance equals within a few yards the best on record, made by "Blower" Brown. At 11:30 all the walkers, with the exception of record stood: Hart 225, Dobler 226, Pegram 200, Allen 200, Howard 195, Merritt 196, Mc-Intyre 181, Williams 175, Hanwaker 165,

Tilden Still in the Race. NEW YORK, April 6. - The story telegraphed from Washington to the effect that after a nference with his friends and a number of prominent physicians Tilden had formally withdrawn as a candidate for the presidency and had named as his choice Judge Payne, of Ohio, to-day was the subject of conversation about town. Tilden's friends on every hand ridiculed the statement, pronouncing it an ingenious but exceedingly gauzy yarn. The tor Hill, moved to dismiss the suit for se-Republicans thought there was something in duction brought against him by Jessie Rayit and the Tammany men were unusually ex- mond. Merrick based his application for disultant. A reporter called at Mr. Tilden's house for the purpose of ascertaining the by Mrs. Lockwood, Jessie Raymond's countrath of the report. The reporter sent in his card, but Tilden sent word "that he was too busy to be seen to-day." Captain Rynders called and was admitted. The Cohoes Strike-No Change in the Situation. CCHOES, April 6.—The situation regarding the strike is practically unchanged. The rumors that the spinners would to-day make concessions and compromise proved, on investigation, to be without foundation. Secret meetings were held, but no decisive action was taken. They say, in an interview on the subject, that \$1,000 per week has been promised from Fall River as long as necessary. Many families of weavers are making preparations to leave the city if a speedy set-tlement is not effected. The merchants are nuch agitated over such action, but unnecessarily, it is thought, as their places can be quickly filled when work is resumed. The company to day closed a contract for 50,000 pounds of filling, to be delivered in lots of 10,000 pounds daily, and orders have been sent to daily, and orders have been sent to their agents in the East to buy up all that can possibly be procured until further orders. Unless it can be obtained in large quantities the amount already purchased will not last long, as Number One mili alone uses two tons daily. Some few spinning frames are days for a charter for a company to construct running, however, and the amount turned a tunnel under the St. Lawrence river be off by them will help. Great Britain. LONDON, April 6 .- Mr. E. Clark, the recent Conservative candidate for Southwark, who with his Conservative associate Colonel Beresford, was defeated in the recent election, has been appointed Queen's counsel by Earl Beaconsfield. It is now believed to be improbable that Herbert Gladstone will contest the city of Leeds in place of his father W. E. reserve in case of his own defeat for Midlothian. The Liberals propose to put up Mr. Edward Barnes in the candidacy vacated by Gladstone, senior, in conjunction with Al-derman John Barron, who represented that place in the late Parliament. Mr. Barnes is a man of decided ability and will probably make a good run, although two out of three members for Leeds in the late Parliament were Conservatives. Leeds has a registered vote of 49,545. House,—Mr. Atkins, chairms of the Committee on Appropriations, reported the naval appropriation bill. The bill appropriates \$355,328,75 more than was appropriated in the bill for the current year. The bill was ordered printed and recommitted.

The House refused to dispense with the morning hour and the committees were called for reports, which were referred to the appropriate calandars. At the expiration of the morning hour Mr. Clymer moved that the House go into Committee of the Whole on the Army Appropriation bill.

Mr. Springer antagouized this with a motion to take up the Curtin-Yocum contested election case. After discussion the question was put upon taking up the Curtin-Yocum case and it was defeated.

The House then went into committee on the Army bill, Mr. Springer in the chair. Mr. Clymer explained the provisions of the bill. The estimates upon which the bill was besed, as furnished by the department, called for \$37,527,475.78. The gross amount of the bill reported for passage is \$25,20,800, being \$12,016,750 loss than the bill of last year. The bill was then taken up for comideration by clauses. Mr. Dibrell, of Tennessee, moved to amend so as to provide that the number of majors shall be 218 instead of 233, and that the paymasters of the army shall consist of one brigative general, two colonels, one lieutenant and twentyfive majors. The object of the amendment was to reduce the number of paymasters from fifty to twentyfive. Mr. Dibrell said it would result in a saving of \$162,000 per annum, and the service would not be at all injured by it, as the paymasters were not employed many days in the months, there being too many of them. After discussion the amendment was rejected by a spraced on the mandment was rejected by a spraced on the ammy of medical examination, or engaged on the employed until all the commissioned surgeons shall hot be employed until all the commissioned surgeons shall he change of until all the commissioned surgeons shall be commissioned on the surgeon shall no

Senate.—Pending consideration of the bill to put non-commissioned officers on the retired list, the morning hour expired. The Chair appointed on the part of the Senate a conference committee on the Senate at the bill relative to the taking of the census Messers. Pendieton, Harris and Morrill. He also announced the appointment of Messrs. Hamiliand Beck a visiting committee to the National Military Academy.

Mr. Voorhees said that he had given up his intention to c.ll up his financial resolution on the expiration of the morning hour to-day, but as the pending bill was important, he would not insist upon its present consideration, but would call it up at an early date.

Unfinished business came up, being the bill to accept and ratify the agreement with the Ute Indians Property holders under the laws of the United States.

The letter said it was the duty of the Government to move in this matter without consulting the will of the Indians. There was but one way to satisf the Indian and ougstion, and that is for the Government to take absolute control of the Indians, put them on farming land in a congenial climate, where the Government cakes be the min control.

Mr. Hill, of Colorado, said that while the bill, migh not be a finality, it would open the reservation to min ra who are now pressing upon it. The system of giving lands in severalty to the Indians is now be not seen to be the only system likely to secure the safet and welfare of the Indians and se thes. He estimate that the eatire outlay enquired by the bill would only 5449,000.

Mr. Coke said he would try and reach a vote to-

The Hudson River Shad Fisheries.

in Old Fisherman's Forecasts and Disquisition on the Eagle.
[From the Poughkeepsie Eagle.] In all probability we are to have shad from the waters of the Hudson hereabouts much earlier than usual. An old-time fisherman at New Hamburg, being interviewed on the sub-ject yesterday, made quite an interesting

"Yes, shad are comin' a good deal earlier this spring than usual. The boys have their nets out every day now, and the yellow perch and herrin' are comin' in quite lively, and herrin' generally come only a week or ten days ahead of shad. "And too, now and then a white perch is

gilled, and white perch steer the way for shad. Then the ducks are all gone, and the eagles have left. All that is another sign for an early season. I've shot six or seven eagles early season. I've shot air or saven eagles
the past winter; just wounded them so as to
catch them alive, for parties in New York
and sleewhere. You see eagles come to the
mouth of Wappinger's creek to feed on carp;
that's the kind of fish that supervisor from
northeast was talking about in the Board all
winter. Well, these carp are red—they look
like gold fish. There's lots of 'em' at the
mouth of the creek both this side and the y like gold fish. There's lots of 'em' at the mouth of the creek both this side and the other side of the Drake drawbridge. Did you ever see an eagle go for one of them? You didn't? Well, you ought to see the big American emblem hover for a carp. The higher he gets over the creek the better he can see. Yes, that is strange, but it is just the same with trout fishing. If I am on a trout stream and think there are trout about, and I can't see them, I always scale a tree and get out on the branches and look down, for I tell you you can see a good deal better than you can from the bank of the stream. I don't know why, but it is so. I've seen an eagle just akim why, but it is so. I've seen an eagle just akin the top of the Hudson River Railroad drawbridge, flying to the eastward, and when he reached the cove inside he'd rise a hundred feet and just stay still and 'hover' till he spied a carp in the water below, when he'd circle down like a pair of spiral stairs, and he'd make a 'swoop' right into the water and come out with Mr. Carp in his beak, and as he'd rise again he'd shift the carp to his talons and fly away, the Lord knows where. I tell you kingfisher can't beat an eagle on a fishing ex August Spijacosasi, burg'ary at Horace Authin's in Wallingford, March 10; not guilty.

Neil Estram, tramp in Meriden, March 14; Strouse coursel; not guilty.

Herbert T. Razee, assault on Joseph P. Isbell with intent to kin! him at Militord, Sovember 2; W. B. Stoddard counsel; not guilty.

A 3 o'clock a jury was impanneled in the case of the State vs. John G. Pinnsy, charged with bigamy. As alleged, he was married to Mary E. Buckminster, in Vernon, on March 2th, 1869, and on September 9th, 1873, he was married to Kate Bond in this city. Pinser.

FEMALE COMPLAINTS.

Temale weaknesses, so common to our best from male population, are generally manifested by the uneasy restless sensation of the patient. The stomach and nervous system are all sympathetically disordered in most diseases of the uterus. There is also a dull heavy pain constantly felt in the lower portions of the back, or a severe burning and sharp pair that is almost unendurable; a soreness through the loins, public or lower portions of the abdomes, and through the upper portion of the thighs; names it the stomach is of frequent occurrence; pain and gid diness in the head, a serse of confusion or weakness and constant running from one or both eyes, sometimes follow as a sympathetic symptom of diseases thereis, and with the weakness of the nuscles there is a constant bearing down pain, a pulling from the bowels that renders it very painful to walk or stand for any length of time. for any length of time.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

It restores the blood to its matural condition, directs the vital power aright, strengthens the muscles of the uterus, and lifts it into place, and gives it tone and strength, so that the cure is radicant and ensire. It strengthems the back and pelvic region; it gives tone to the whole nervous system; it restores displaced organs to their natural position. That feeling of bearing down, examing pain, weight, and backachs, is always permanently cured by its use.

The patient who could before walk but a few steps and with great pain, can, after the use of this remedy, walk several miles without discomfort. It permeates every portion of the system, and gives new life and vigor. It removes Dyspepsia, Faintness, Flattlency, destroys all cravings for stimulants, and relieves weakness of the stomach. It will cure entirely the worst forms of failing of the Uterus, Lemoortheas, Painful Monstruation, Inflammation or Ulceration, Irregularities, Fleedings, etc. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

Office hours from 9 a. m. to 9 p. m.

The doctor examines and prescribes for the sick with great success. He will locate every disease and describe your feelings better than you could yourself, and prepares medicines from the best of selected roots for the speedy cure of all chronic diseases of whatever name or nature. The doctor has been located in New Haven for nearly five years, and is highly spoken of by all who have consuited him. His wonderful cures have secured for him a world-wide fame. The savantage of patients putting themselves under Dr. Fiske's care will readily be seen, namely: his long and successful experience for over a quarter of a century, his gift of second sight for seeing the exact condition of his patients, and his pure vogetable medicines which contain nothing poisonous and are prepared expressly for each case. His medicines are furnished by the week or month, thereby saving patients the expense of a physician's daily visit, making it the cheapest, surest and most convenient method by which the sick can be cured. The doctor also gives valuable advice on ANTIQUE & MODERN EMBROIDERIES. 649, 651, 655 Broadway. \$66a week in your own town.
