WARD T. CARBINGTON. JOHN B. CARBINGTON, J. Tuesday Morning, Nov. 30, 1880.

THE CHINESE QUESTION AGAIN. Prof. James A. Whitney is not one of those who look upon Chinese immigration with indifference. On the contrary, he is much disturbed by it and thinks it high time that something was done about it. He gives his reasons for his opinions on this subject in an able and interesting article in the National Quarterly Review.

Prof. Whitney asserts that Chinese immi

suppose. Although many Chinese return each autumn to their country a still larger number make their advent in the spring, the annual surplus of immigrants over emigrants being from 18,000 to 20,000, which insures a constant increase of the Chinese population. The Chinese in California now number about 150,000, and only between 5,000 and 6,000 of these are women. From these figures Prof. Whitney makes a curious calculation. Each Chinaman is inspected before leaving with a care equal to the inspection of volunteers for active service in time of war. Without this they cannot be shipped. They are therefore healthy, active and enduring,-as much so, probably, as the average military force of any country. As concerns the white community, the number of men fit to bear arms may be estimated by the same rule that obtains in European countries, which is one in five of the total population. Therefore, of the 600,000 whites in California, there may be counted 120,000 men capable of actual service. From this it follows that in the number of men fit to bear arms in Cali-

city more." fornia to-day, China is 20 per cent. stronger than the United States. A very strong reason for opposing Chinese immigration is found by Prof. Whitney in the change which has taken place in China. He considers the signs of Chinese aggression neither few nor obscure. Some of these signs he recounts, as follows: The Chinese Steam Navigation Company is about to establish a steam line direct to Havana, which at once will control the Chinese trade with the Atlantic sea-board and the Spanish main, and ders for 103 engines and 6,593 cars, to be supbut not an evangelical Christian. He was at provide a means for the easy transport of Chinese immigrants to the United States, the West Indies and South America. One hundred and forty thousand of these, it is stated on apparently good authority, have already found a place in Cuba. Within the past few weeks we have witnessed the inauguration, with the steamer Hochung, of direct trade with Chinese steam vessels between Hong es and 66,607 freight cars, the outlay being Kong and San Francisco. The opportunities offered by a favorable public opinion and thoughtless governmental action, both in this rails and ties laid since the 1st of January. country and in Europe, have enabled China Steel rails were laid on 1,770 miles, requiring to avail herself of the latest and most im- 156,306 tons, which, at an average of \$60 per proved resources, whether for peaceful or ton, cost \$9,378,360; the iron ralls laid have rlike purposes. Armories \$14,992,290. have been established on Chinese soil for the manufacture of improved firearms for Chinese troops. China has defeated the Russians in Kashgar with muskets from the arsenals of

Europe, and has mounted Krupp guns on the earthworks that guard the inlets to the great rivers. And within the past few years she has equipped a navy which with the single exention of that of Great Britain, carries heavier and more effective ordnance than that of any other nation in the world. "It is this nation, bemmed in on all sides, save that of the sea, and whose soil has already reached the limit of productiveness for its people; it is this nation, whose sway has never permanently receded from any region over which it has once been held; it is this nation with which we are now brought face to face, and which we smite with one hand, while with the other we open wide the gates to its inflow upon our territory." In order to escape what he considers this

great danger, Prof. Whitney would have all sentimentality and all technicalities woven by diplomacy, or, rather, the lack of it, set aside and the most direct method adopted. "Chinese immigration should be stopped with all the power of the government and the elimination of the Chinese from our borders should be secured with the least possible delay." He would not mind anything about treaty obligations which might happen to exist. On this point he argues : The same paragraph of the Constitution which provides that treaties made in accord-ance therewith shall be the supreme law of

the land, also declares that statutes made is accordance therewith shall be the supren law of the land. A law of Congress, there-fore, stands upon the same level and has the same force as a treaty with a foreign power. It has been judicially held that a federal statute, contrary to a provision of a treaty, repealed the treaty itself And this is sound law as well as sound com mon sense. In order to secure a change in the Constitution, the favorable action of Con-gress and the consent of three-fourths of the separate Legislatures of the States are required. When such care was exercised to prevent the hasty change of any of the pro-visions of the organic law, it cannot have been the intent of its framers that a treaty, entered into by a single plenipotentiary and ratified by the President and Senate, should have a power binding as that of the Consti-tution itself, and be capable of disturbing our This is both bold and interesting. industrial, social and political equilibrium To say that the Senate and an envoy appoint ed by the President possess a power greater than that of both houses of Congress and

than that of both houses of Congress and the President together, is to reverse the principles and traditions that have controlled the operation. the government and expressed the will of the people from the beginning. Of course if the danger from Chinese immigration is really as great as it seems to Professor Whitney and those who think with | the collection laws of the different States and him the sooner it is stopped the begree. But there is much that can be said ne other side. The facts of the case for the only basis upon which action should be taken. These facts, it seems to us, have not yet been

fully collected or fairly judged. * EDITORIAL NOTES.

Bishop Sharp says that the Mormons are still anxous to have Utah made a State, and that if there is any chance to accomplish anything in that direction in Congress this winter Del egate Cannon will not fail to improve it. He replied as follows to the question whether the Mormons are not anxious enough to have by G. P. Putnam's Sons, and the book is for sale in this city by Judd the bookseller. Utah a State to give up polygamy: "No, that will never be done. Not only is polygamy a part of the Mormon faith, but it is obigatory. Those who say otherwise are not

true Mormons, or do not know what they are talking of. Some make their onsciences easy with only one wife on one pretext or another, and doubtless in some individual cases polygamy is improvident or perhaps impossible. It is not ompulsory, as there are no penalties, but it s obligatory; a part of our religious faith and it cannot be rooted out. Since the decision of the Reynolds case there has, perhaps, been a comparative decrease in polygamy, but that is not due to that decision any nore than it is to the fact that the Mormon girls are devotees of style and fashion as nuch as New York girls, and the young men find it somewhat harder to support more than one family than their fathers and grandfathers did. Before the Reynolds decision was made we did not believe that the antipolygamy law of 1862 was constitutional, and paid no attention to it. But of course now it is the law and it has a certain effect.'

Mr. Lucius Hotchkiss passed away yester

day morning at about 10 o'clock, at his resience on the corner of Chapel and Academy streets, his home for nearly 40 years past and but a few moments before, his wife, Mrs. Catharine Ladd Street Hotchkiss, had also assed away. Mr. Hotchkiss' serious illness, hitherto spoken of had from the first, left little ground for hope, but the death of his loved partner was an event most unexpected. The intelligence of the sad and touching event was soon about the city. Two persons mited in their lives by the holiest ties, whose lives had been interwoven for so long and who had so long filled a prominent place in divided. The tender bond of loving affection | following witnesses: could not endure the pang of separation and side by side they sleep in death. Mrs. Hotchkiss had been for several years more or less subject to malaria and nervous prostrations. For the last week or more she had seemed unusually active, forgetful of her own remarks to the children from their father. Just before ten o'clock the deceased lady, glimpse revealed to her that the separation was close at hand, and she sank upon the floor, expiring instantly. The nurse attendglimpse revealed to her that the separation attendant and the son, Mr. Justus Hotchkiss, immediate attendance. Dr. Gilbert, residing near, and Dr. Robert S. Considered and Decided Upon. The Board of Finance held an adjourned meeting in the Mayor's office last evening to further consider the estimates of the different departments for the coming fiscal year. The Board had previously heard from the heads of the different departments in regard to their needs, and it was only to decide in reate residence of the deceased, where they gard to the amount which should be appropriated. After a full discussion of the whole matter they decided on the following: Asked For.

WASHINGTON, Nov. 29.—Speaker Randall

on the House side of the Capitol to-day.

There have been so far comparatively few

to come in rapidly within the next few days.

As soon as Senators and Representatives ar-

rive they report the fact to the postmasters

of the Senate and House respectively, in or-

der that they may promptly receive their

mails, and up to this time not more than

thirty arrivals all told have been reported.

The Capitol has been prepared for the recep-

Coming Changes in the Army. An Extra Session Predicted by Washington, Nov. 29 .- There are all the surface indications of a number of retirements of army officers at an early day. These retirements have been talked of for two years past and been considered from time to time. It now looks as if a number of changes will take place soon after Congress assembles. There are a number of officers in the army eligible for retire-

down. It is not known who are being con-sidered for vacancies that will thus be made. General O. O. Howard has been ordered here. He is now a brigadier-general. He has arrived here and was busy in his room will be promoted to major-general by the re-tirement of McDowell. General Hazen is spoken of as a probable successor to General Meigs. The Only True Malarial Antidote. Dr. Holman's Pad is no guess-work remedy-no fee ole imitative experiment—no purloined hodge-podgf some other inventor's ideas; it is the original and only genuine curative Pad, the only s an honestly-acquired right to use the itle-word "Pad" in connection with a treatment or chronic diseases of the Stomach, Licer and Spicen By a recently perfected improvement, Dr. Holman as greatly increased the scope of the Pad's useful By a recently perfected improvement, Dr. Holman is greatly increased the scope of the Pad's useful less and appreciably augmented its active curative

ness and appreciably augmented its sctive curative power.

This great improvement gives Holman's Pad (with its adjuvants) complete and unfailing control over the most persistent and unyielding forms of Chronic Disease of the Stomach and Liver, as well as Maiarial Blood-Poisoning.

Holman's Pads have cured—and are daily curing—diseases of so many kinds that the list is well-nigh interminable. It includes Malarial Poison of every type, from Aching Bones and Low Feeers to Chills and Dumb Ague; Stomach Diseases, such as Dysepaia, Indigestion, Sour Stomach, Chronic Disrrhees, Flatulency, Heartburn, &c., &c.; Liver Disrorders, like Biliousness, Bilious-Coic, Dangerous Feeers, Sich-Headache, Pains in the Side, Bilious-Feeers, Toypid Liner, &c., &c. Well does this mighty remedy justify the eminent Professor Loomis' high encomium:

"It is nearer a Universal Princera than anything in Medicine!"

The success of Holman's Pads has inspired initia-lors who offer Pads similar in form and odor to the genuine Holman Pad. Beware of these Bogus and Imitation Pads, gotten up only to sell on the reputation of the GENUINE Holman Pad.
