The President's Message.

CARRINGTON & CO., tate Street, Courier Building It is not necessary to say much about the result of yesterday's election. In accordance with everybody's expectation the Democrats made a clean sweep on the town ticket, and License" was carried by 1868 majority. In the election of Aldermen and Council

men there were some surprises, and the Republicans were the ones surprised. They lost an Alderman in the First ward and also in the Ninth, and there was a tie in the Eleventh. They lost two Councilmen in the Second ward, one in the Ninth and one in the Eleventh. The Council last year stood 17 Republicans to 19 Democrats. This year it will stand 13 Republicans to 23 Democrats. The Board of Aldermen last year stood 10 Republicans to 14 Democrats. This year it will stand, if the Republicans finally the Second ward, one in the Ninth and one centennial celebration at Yorktown, that s salute be given to the British flag. succeed in carrying the Eleventh ward, 8 Republicans to 16 Democrats.

nd here the President makes some impor ant recommendations. He advises that pro ision be made for the early retirement of he silver certificates and that the act reuiring their issue be repealed, as they form n unnecessary addition to the paper curren ey. Among his other recommendations are That the very objectionable provision for the coinage of a fixed amount of silver dollars each month be repealed, and that hereafter only so many be coined as shall be necssary to supply the demand : that the Na onal banks be forbidden by law to retire heir currency except upon reasonable notice o do so; that all internal revenue taxes exept those upon tobacco in its various forms and upon distilled spirits and fermented li pors, and except also the special fax upon the manufacturers of and dealers in such articles be abolished; that the law imposing a stamp tax upon matches, proprietary artiles, playing cards, checks and drafts be recaled, and the law also by which banks and ankers are assessed upon their capital and leposits. All these recommendations will be approved by a large majority of the people. In what he says concerning the navy the ident is emphatic. He believes that ev ery consideration of national safety, economy and honor demand a thorough rehabilita ion of our navy, and he calls the especial attention of Congress to the report recently lace the navy on a footing commensurate

which that legislation was aimed. The "Indian problem," which has figured in so many Presidents' messages, is treated in this one with vigor and directness. The remmendations made will please all who desire to see the condition and standing of the Indians improved. It is recommended that the Indian be given the protection of the law and allowed to maintain in court his rights of person and property; that a law be enacted which shall permit the allotment in severalty. to such Indians, at least, as desire it, of reasonable quantity of land secured to them mmoniacal gas (better known to the public by patent, and for their protection made inanable for twenty or twenty-five years; and that liberal appropriations be made for Indian schools. For these manifestations of his favor we owe to Him who holds our destiny in his hands the tribute of our gratitude and devotion. After referring in appropriate words to the death of his predecessor in office the President takes up the subject of foreign affairs, and gives a very complete account of our relations with other countries. This part of the Message contains nothing especially fresh or interesting. the readiness of our countrymen to make successful competition in distant fields of enterprise. The presence at the Yorktown celebration of representatives of Lafayette and of his gallant compatriots, who were our allies in the revolution, has served to strengthen the spirit of good will which has always existed between the two nations. You will be furnished with the proceed-ings of the bi-metallic conference held durings of the bi-metainc conference held dur-ing the summer at the city of Paris. No accord was reached, but a valuable inter-change of views was held. The conference will next year be renewed. At the electrical exhibition and congress, held at Paris, the country was creditably represented by eminent specialists, who in the absence of an appropriation generously lent their aid, at the instance of the State department. While our exhibitors in this almost distinctively American field of achievement have won several valuable awards, commend that Congress provide for the re-

ers and delegates No new questions respecting the status of our naturalized citizens in Germany have arisen during the year, and the causes of complaint, especially in Alsace and Lorraine, have practically ceased, through the liberal action of the Imperial government in accept-ing our often pressed views on the subject. The application of the treaty of 1868 to the lately acquired Rhenish provinces has received very earnest attention. A definite and lasting agreement on this point is confidently expected. The participation of the descend-ants of Baron Von Steuben at the Yorktown festivities, and their subsequent reception by their American kinsmen, strikingly evinced the ties and good will which unite

Spanish government has been requested to pay the late awards of that commission and will, it is believed, accede to the request as promptly and courteously as on former occasions. By recent legislation onerous fines have been imposed upon American shipping in Spanish and colonial ports for slight irregularities in manifests. No case of hardship is specially worthy of attention. The ship is specially worthy of attention. The bark "Masonic," bound for Japan, entered an alleged shortage in her transhipped cargo. The King of the Belgians has declined to act, but I am as yet not advised of the action of the King of Spain. As we have certain interests in the disputed territory, which are protected by our treaty engagements with one of the parties, it is important that the arbitration should not proceed without our consent and this government has accordingly thought proper to make its views known to the parties to the agreement, as well as to intimate them to the Belgian and the Spanish governments.

I have not hesitated to supplement the action of my predecessor by propossing the action of my predecessor by propossing to Her Majesty's government the modifica ion of that instrument and the abrogation of such clauses thereof as do not comport with he obligations of the United States towards colombia, or with the vital needs of the two riendly parties to the compact. This government sees with great concern he continuance of the hostile station be

tween Chili, Bolivia and Peru. An early peace between these republics is much to be desir-ed, not only that they may themselves be spared further misery and bloodshed, but because their continued antagonism threatens consequences which are in my judgment dangerous to the interests of republican gov-ernments on this continent, and calculated to destroy the best elements of our free and peaceful civilization. As in the present ex-cited condition of popular feeling in these countries there has been a serious misap-prehension of the position of the United States, and as separate diplomatic-intercourse with each, through independent ministers, is sometimes subject, owing to the want of prompt reciprocal communication, to temporary misunderstanding, I have deemed it judicious at the present time to send a special envoy, sccredited to all and each of them and furnished with general instructions, which

I am glad to inform you that the treaties stely negotiated with China have been duly atified on both sides and the exchange made ratified on both sides and the exchange made at Pekin. Legislation is necessary to carry its provisions into effect. The prompt and friendly spirit with which the Chinese government, at the request of the United States, conceded the modification of existing treaties, should secure a careful regard for the interests and susceptibilities of that government in the enactment of any laws relating to Chinese immigration. The questions growing out of the proposed interoceanic waterway across the Isthmus of Panama are of grave national importance. This government has not been unmindful of the solemn obligations imposed upon it by its compact of 1846 with Colombia, as the independent and sovereign mistress of the territory crossed by the canal, and has sought to render them effective by fresh engagements with the Colombian government looking to their practical execution. The negotiations to this end, after they had reached what appeared to be a mutually satisfactory solution here, were met in Colombia had proposed to the proposed of the proposed of the Doord on a modified basis. THE FINANCES THE FINANCES.

The report of the Secretary of the Treasury represents in detail a highly satisfactory exhibit of the state of the finances and the condition of the various branches of the public service administered by that department. The ordinary revenues from all sources for the iscal year ending June 30, 1881, were—from bustoms, \$198,159,676.02; from internal reveue, \$135,264,485.51; from sales of publi bonds, \$251,021,863.17; tax on circulation and deposits of National banks, \$8,116,115.-75; from the repayment of interest by Pacific Railway companies, \$810,833.80; from sinkies, \$810,833.80; from sink \$805,180,54; from customs, fees, fines, pen ies, etc., \$225,514.86; for fees, const ters, patents and lands, \$2,244,983.99; from proceeds of sales of government property \$26,217,400; from profits on coinage, \$3, 468,485.61; Total ordinary receipts, \$360,782,292.57. The ordinary expenditures for the same period were: For civil expenses, \$17,941,-177.19; for foreign intercourse, \$1,093,-954.92; for Indians, \$6,514,101.09; for pensions, \$50,059,279.62; for the military estab-lishment, including river and harbor improvements and arsenals, \$40,466,460,55; for the naval establishment, including vessels, machinery, improvements at navy yards, \$15,686,671.66; for miscellaneous expenditures, including public buildings, lighthouses, and collecting the revenue, \$41,837,280.57; ordinary expenditures, \$260,712,887.59, leavordinary expenditures, \$250,712,887.53, leaving a surplus of revenue of \$100,069,404.98, which was applied as follows: To the redemption of bonds, the sinking fund, \$74,371,200; fractional currency for the sinking fund, \$109,001.05; loan of February, 1861, \$7,418,000; tenforties of 1864, \$2,016,150; five-twenties of 1864, \$18,000; for twenties of 1864. 1862, \$18,300,000; five-twenties of 1864, \$3,400,000; five-twenties of 1865, \$37,300, 1867, \$959,150; consols of 1868, \$337,400; Texan indemnity stock, \$100,000; old demand compound interest and other notes, \$1,830, 000, and to the increase of cash in the Treas urv. \$14,637,023,93; total, \$100,069,404.98

The Secretary advises that the issue be resumed, and suggests that the national banks may properly be forbidden by law to retire their currency, except upon reasonable notice of their intention so to do. Such legislation would seem to be justified by the re cent action of certain banks on the occasion referred to in the Secretary's report of the \$15,000,000 of fractional currency still out-standing, only about \$80,000 has been re-deemed the past year. The three and one-half per cent. bonds. being payable at the pleasure of the govern-ment, are available for the investment of

surplus revenue without the payment of pre-miums. Unless these bonds can be funded at a much lower rate of interest than they low bear, I agree with the Secretary of the reasury that no legislation response desirable. It is a matter for congratulation that the iness of the county has been ous during the past year as to yield by taxa-

tion a large surplus of income to the govern-ment. If the revenue laws remain unchanged this surplus must year by year increase on account of the reduction of the publi debt and its burden of interest, and bec of the rapid increase of our population. In 1860, just prior to the institution of our in is now found to exceed 50,000,000. It is es-timated that even if the annual receipts and expenditures should continue as at In view, however, of the heavy load of taxa tion which our people have already borne, we may well consider whether it is not the part of wisdom to reduce the revenues, even if we delay a little the payment of the debt. It seems to me the time has arrived when the people may justly demand some relief from their present onerous burden, and that by due economy in the various branches of the therefore concur with the Secretary in recenue taxes, except those upon tobacco in its various forms, and upon distilled spirits and fermented liquors, and except also the special tax upon the manufacturers of and des ers in such articles. Banks are required to secure their circulation by pledging with the Treasurer of the United States bonds of the general government. The interest upon these bonds, which at the time the tax was mposed was fix per cent., is now, in most nstances, three and one-half per cent. Be-ides, the entire circulation was originally mited by law and no increase was a monopoly of the business there was force has been suggested as a means of reimbursing the government for the expense of print-ing and furnishing the circulating notes. If the tax should be repealed it would certainly seem proper to require the national banks to amount of such expense to the

comptroller of the Currency.

It is perhaps doubtful whether the immediate reduction of the rate of taxation upon liquors and tobacco is advisable, especially in view of the drain upon the Treasury which

ailed suggests the intimation that some rerial diminution of the revenue. The tariff laws also need revision, but that a due regard may be paid to the conflicting interests of our citizens important changes should be made with caution. If a careful revision cannot be made at this session a commission, such as was lately approved by the Senate and is now recommended by the Secretary of the Treasury, would doubtless lighten the labors of Congress whenever this subject shall be brought to its consideration. THE WAR DEPARTMENT.

The report of the Secretary of War will make known the operations of that depart-ment for the past year. He suggests measto 30,000, the maximum allowed by law. This he deems necessary to maintain quiet-ness on our ever shifting frontier, to prefuture statements of the public debt seems worthy of approval. So also does the suggestion of the Secretary as to the advisability of relieving the calendar of the United States courts in the southern district of New York, by the transfer to another tribunal of the numerous suits there pending against collectors.

This he deems necessary ness on our ever shifting frontier, to preserve peace and suppress disorder and marauding in new settlements, to protect settlers and their property against the Indians and the Indians against the encroachments of intruders, and honorable, peaceful immigrants to establish homes in the most remote parts of our country. The army is now parts of our country. The army is now necessarily scattered over such a vast extent of territory that whenever an outbreak ocheavy cost for transportation of men, horses, wagons and supplies. I concur in the recom-mendations of the Secretary for increasing the army to the strength of 30,000 enlisted men. There is need of legislation to prevent trespass upon the lands set apart for the Indians. A large military force at creat expense is now required to partial apart for the Indians. A large military force at great expense is now required to patrol the boundary line between Kansas and the Indian Territory. The only punishment that can at present be inflicted is the forcible removal of the intruders and the imposition of a pecuniary fine which in most cases it is impossible to collect. The first case set down for a hearing was that of William S. Kelly vs. George S. Wiard, but because Attorney H. C. Baldwin was not quite rendy it went over till afternoon. The next case, that of Edward S. Rowland vs. Smith & Co., was taken up, Hamilton and Case for plaintiff, Alling sand Wagner for defendants. The finding of facts in the lower court showed that on October 15, 1877, Crofut & Co., of this city, executed a note for \$2,000 to E. S. Rowland, the same being endorsed by Smith & Co. As security Rowland had Elias Smith, the father of James M. Smith of Smith & Co., and the father-in-law of Crofut, execute to him a promissory note together with a mortgage on his farm in North Haven. In December, 1877, Crofut & Co. went, into bankruptcy and falled to pay said note at maturity and Rowland had to take it up. Thereupon the defendants became liable to him for the amount of said note, which they have never paid. The same month Smith & Co. also failed in business. It was soon after discovered that the Elias Smith note and mortgage were invalid and then a now mortgage

THE NATIONAL CAPITAL. he House Adjourns Until Friday-No.

-Favorable Comment on President Arthur's Message-Heports About the Com mittees-Other Matters. WASHINGTON, Dec. 6 .- The House has aken a recess until Friday in order to allow Speaker Keifer time to prepare his commit ees. It is stated that when the House meets on Friday it will immediately adjourn for House J. B. Beck received 72 votes, White some purpose until next Tuesday. It is not | 20 and Cook 4.

expected business will be transacted to any extent in the House until after the holidays. The Senate being ready for business will of course do considerable committe work at once. No attempt will be made at present to change the present officers. Prominent Senators think that no Cabinet nominations, except probably Frelinghuysen for Secretary of State and Brawster for At-torney General, will be sent in before January. These two, and possibly some one as Postmaster General, are expected to-morrow

or Thursday. A pair was secured to-day for Senator Ma hone for the first time since he has been Sen-ator. Senator Rollins has paired with Sena-tor Gorman, reserving the right to transfer his pair in the event of either being present. He accordingly made the transfer to Senator Mahone. Some of the Democrats, since Mahone has received the endorsement of his State as the opponent of the regular Democracy, are disposed to recognize him and a to the jail. News of this plan had, however, pair could probably be secured by him at in some way leaked out and the yard before

Comment regarding the President's message where it can be obtained is quite favorable. Comparatively few persons outside the members have read it, and many members are unwilling to express an opinion regarding it until they have more carefully read and thoroughly digested it: With those who speak of it, however, the expression is that it is a clear, concise, business-like document and able. It is especially commended for its pointed business-like qualities, and when the fact becomes generally known that it was written without the aid of, Cabinet officers, save such information as their reports af-\$55,172.50 for the same month last year, being an increase in one month of \$14,588.-55. If a proportionate increase continues save such information as their reports af-forded, it will doubtless be more highly com-mended. With Republicans and the majori-

In Somerdo not agree with the President's views, but from these expressions of difference come with generally kindly expression. Much anxiety was felt in regard to the message and it was a subject of much inquiry during the early portion of the day. The length of the document, however, prevented a sufficiently close reading to give general expression to-night. In Springfield E. W. The air is full of rumors to-night concern

committee organization. It is generally seded that Kelly will go to the Ways and Means, Hiscock to the Appropriations, Dun-nell to the Commerce, Kasson to the Foreign Relations. Harris, of Massachusetts, will probably go to the Naval committee; Neal, of Ohio, to the District of Columbia; Sherwin, of Illinois, the Census. The latter has a resolution prepared recreating the Census committee which will frame a reaportionment. The bill also provides for a deficit in the census bureau. Young, of Ohio, will have

Guiteau's Defense Closed-Written Ques-tions to be Submitted to President Ar-WASHINGTON, Dec. C .- In the Guiteau trial C. B. Farwell, of Chicago, testified to knowing Guiteau two years ago in Washington when Guiteau came to him and asked him to advance \$200,000 for establishing the Inter-Ocean, promising to make witness President of the United States. He thought Guiteau then was not sane, but as to his power to distinguish between right and wrong he thought there was not irresponsible insanity. Mr. Gorham now being present took the stand and was given Guiteau's political speech to look over. Meanwhile Guiteau was per-"Truth," to the amusement of the spectators. Mr. Gorham having at length been asked his opinion of the speech, answered that it was a tolerably fair statement of the situation, neither remarkable nor ridiculous.

Guiteau again interrupted with almost un-bearable insolence. It was suggested by the prosecution that certain written questions might be submitted to President Arthur and his written answer accepted, thus obviating the necessity of calling the President into court. Mr. Scoville acceded to the suggestion, but left the impression that the matter would be dropped, and then proceeded to read from some of Guiteau's literary efforts.

John Guiteau took the stand to make corrections and additions to his testimony to show the exact time when he changed his mind as to his brother's sanity. show the exact time when he changed his mind as to his brother's sanity.

Mr. Scoville then said that the testimony for the defence was closed, but as he proposed to use the prisoner's book in his argument, it was ruled necessary to introduce it now, and Guiteau was set to reading it.

Mr. Scoville interrupted to call Mr. E. C. Spitzer, who failed to answer, and the reading continued with increased thetorical em-

favorable seat. Young, Morrison and Blackburn also fared well. Kelly, of Pennsylvania, was given his old seat by his colleague. Orth, Burrows, Haskell, Seil and Blount were the last called, and will listen to the prayers of their political opponents in the "Amen corner" in Sleepy Hollow.

After the reading of the message, which occupied two hours and fifteen minutes, Mr. McKinley, of Ohio, introduced a resolution that a committee of one from each State be appointed to act with a similar Sanate committee to provide proper recognition of the President's death.

At 500 p.m. the House adjourned until Friday.

Doorkeeper Brownlow to-day appointed R. W. Austin, of North Carolina, assistant doorkeeper, and Mathan Pickard clerk. Postmaster Sherwood appointed George McNair, a son-in-law of Representative Burrows, assistant, and William Thuge and John H. Lytle clerks under Sherwood during his former occupancy of the office. Most of the old employes of the House are about the capital ready to occupy their old positions. It is probable that many of them will be disappointed.

An Alarming Spread of Smallpox.

CHICAGO, Dec. S .- The Medical Record for ecember says "Smallpox seems to be sweeping over the country from the Atlantic coas westward to an extent not before observed GUITEAU CLOSES HIS DEFENSE during the present decade. The health reports indicate that almost every city and country village throughout New England and the Middle States is infected, while from Chicago west the alarm is quite general. The mild weather so far has been favorable, but with the coming month there is reason to apprehend serious trouble. It is estimated that 30 per cent. of the 400,000 emigrants who landed here in 1881 are susceptible to the infectious smallpxx. who shot Father McCarthy, reached Green field at 6:45 to-night in charge of Office Fitzgerald. Fears were entertained of an attempt on the part of some of the enraged parishioners of Father McCarthy to lynch the prisoner, and by permission of Assistant Superintendent Turner of the Fitchburg road the train was stopped some one hundred rods below the depot, and the prisone with Officer Fitzgerald and another officer was taken into a carriage and driven rapidly pair could probably be secured by him at any time now that the ice is broken.

The business of the patent office since the beginning of the fiscal year, July 1st, has shown a steady and rapid increase. The statement made to-day shows the receipts for the last month to be \$69,761.05 against guarding the prisoner. The crowd was in earnest and closed around the team with shouts of "Pull him out." "Pull him out."

PENNSYLVANIA. Verdicts Against Star Routers.

PHILADELPHIA, Dec. 6.-The prosecution f civil suits against the Star routers to rewas commenced in the United States District Court to-day. A verdict was obtained against Benjamin B. Wiley, bondsman for Thomas Davitt, for \$5,700, and in three cases a verdict was obtained against McDavitt for \$8,700. \$6,000 and \$4,000 respectively. In the suit against Black, Blackman, Turk, Arbuckle and Cosson, by agreement between counsel, a verdict was rendered against each defenda verdict was rendered against each defendant on contracts in which they were invalved
of \$1,975, \$44, \$4,156 and \$3,018. A number of intricate law points and questions
were taken into consideration by the judge,
who will determine them upon arguments
for new trials in all cases. The case against
C. Price, one of the sureties upon Wiley's
bond, went over because no Washington authorities were present to prove that the contract was not performed.

NEW YORK. New York, Dec. 6 .- The White Star mitted to read aloud from his book on days overdue. She reports having a most stormy passage. One lifeboat was washed away, the chocks going by the board like pipe stems. November 26 a heavy iron door leading to the quadrant house was stove in the situation, neither remarkable nor ridiculous. Guiteau began to ask him in regard to certain editorials in the Republican last spring. Mr. Gorham referred to the files for answers and was sustained by the court. Much time was consumed by obstreperous and insolent outbreaks by the prisoner, the most violent of which was directed against Mr. Scoville, and must have tried that gentleman's temper and patience severely.

Pain Killer.

This remedy is not a cheap Benzine or Petroleum product that must be kept away from fire or heat to avoid danger of explosion, nor is it an untried experiment that may do more harm than good. Pain Killer has been in constant use for forty years, and the universal testimon from all parts of the world is, It neve falls. It not only effects a permanent cure, but it relieves pain almost instantaneously. Being a purely vegetable remedy, it is safe in the hands of the most inexperienced. The record of cures by the use of Pain KILLER would fill volumes. The following extracts from letters received show what those who have tried it think:

Edgar Cady, Owatonna, Minn., says:
About a year since my wife became subject
to severe suffering from rheumatism. Our

Charles Fowell writes from the Sailors'

I call your especial attention, also, to the appendix of the report of the advisory board, which he convened to develop suitable measures for increasing the efficiency of the navy and particularly to report as to the character and number of vessels necessary to place it upon a footing commensurate with the necessities of the government. I cannot too strongly urge upon you my conviction that every consideration of national safety, economy and honor imperatively demand a thorough rehabilitation of our navy. The soting Attorney General calls atten-ion to the necessity of modifying the 'pres-ent system of courts of the United States, a necessity due to the large increase of business, especially in the Supreme Court. Litigation in our federal tribunal became greatly expanded after the close of the late war. So long as expansion might be attributed to the abnormal condition in which the community found itself immediately after the return of peace, prudence required that no change be made in the constitution of our judicial tribunals. But it has now become apparent that an immense increase of litigation has directly resulted from the wonderful growth, increase and development of the country. There is no country. There is no country and increase and development of the country. There is no country and increase and development of the country. There is no country and increase and development of the country. There is no country and in the Executive in his annual message to Congress has urged the necessity of stringent legislation for the suppression of polygamy in the Territory of Utah. The existing statute for the punishment of this odious crime, so revolting to the moral and religious sense of Christendom, has been persistently and contemptuously violated ever since its enactment. Indeed, in spite of the community formation of our judicial tribunals. But it has now become apparent that an immense increase of litigation for the suppressity of stringent legislation for the suppressity of stringent legislation for the suppressity of stringent legislation for the suppressity of the necessity of the community formation of our judicial tribunals. But it has now become and the constitution of our judicial tribunals. But it has now become in the community of the part of the suppression of polygamy in the Territory of Utah. The existing statute for the punishment of this odious crime, so revolting to the moral and religious sense of Christendom, has been persistently and contemptuously violated ever since its enactment. Indeed, in spite of the community of the punishment of the existing statute for the punishment of this odious crime, so revolting to the re growth, increase and development of the country. There is no ground for belief that the business of the United States courts will be less in volume than at present Indeed, that it is likely to be much greater is generally recognized by the bench and bar. In view of the fact that Congress has already given much consideration to this subject, I wake no suggestion as to detail but exercise the law has in very rare instances been enforced, and for a cause to which reference will presently be made is practically a dead letter.

The fact that the adherents of the Mormon church, which rests upon polygamy as its corner stone, have recently been peopling in large numbers in Idaho, Arizona and other of our Western Territories, is well

States. I will add that in the event of a request from the territorial government for protection by the United States against domestic violence this government would be powerless to render assistance. The Act of 1795, chapter 36, passed at a time when Territorial governments received little attention from Concress and over the Act of the United States against domestic may be proposed to that end.

Although our system of government does not contemplate that the nation should pro-

THE INTERIOR DEPARTMENT.

Although our system of government does not contemplate that the mation should provide or support a system for the education of our people, no measures calculated to promote that general intelligence and virtue upon which the perpetuity of our institutions so greatly depends have ever been regarded with indifference by Congress or the Executive. A large portion of the public domain has been, from time to time, devoted to the promotion of education. There is now a special reason why, by setting apart the proceeds of its sales of public lands, or by some other course, the government should aid the work of education. Many who now exercises the right of suffrage are unable to read the ballot which they cast. Upon many who had just emerged from a condition of slavery were suddenly devolved the responsibilities of citizenship in that portion of the country most impoverished by war. I have been pleased to learn from the report of the Commissioner of Education that there has been lately a commendable increase of interest and effort for their instruction, but all that can be done by local legislation and private general step and the processity should be supplemented by such aid as can be constitutionally afforded by the national government. I would suggest that if any fund be dedicated to this purpose it may be wisely distributed in the different States, according to the ratio of illiteracy, as by those means those locations which are most in need of such assistance will reap its especial benefits.

Families: an live better for less money at the Grand Union Hotel than the start ernments received little attention from Congress, enforced this duty of the United States only as to State government, but the Act of 1807, chapter 39, applied also to territories. This law seemed to have remained in force until the revision of the statute, when the provisions for the territories was dropped. I am not advised whether this alteration was intentional or accidental, but, as it seems to me that the territories abould be offered the protection which is accorded to States by the Constitution I suggest legislation to that end Constitution, I suggest legislation to that end. It seems to me, too, that whatever views It seems to me, too, that whatever views may prevail as to the policy of recent legislation, by which the army has ceased to be a part of the posse comitatus, an exception might well be made for permitting the military to assist the civil authorities in enforcing the laws of the United States. This use of the army would not seem to be within the alleged evil against which that legislation was aimed. From the sparseness of the population and other circumstances it is often quite impracticable to summon a civil posse in impracticable to summon a civil posse in places where the officers of justice require as-sistance and where a military force is within THE INTERIOR DEPARTMENT.

The report of the Secretary of the Interior, with accompanying documents, presents an elaborate account of the business of that department. A summary of it would be too extended for this place. I ask your careful attention to the report itself. Prominent among the matters which challenge the attention of Congress at its present session is the

The report of the Commissioner of Agriculture exhibits the result of the experiment in which that department has been engaged during the past year, and makes important suggestions in reference to the agricultural development of the country. The steady increase of our population, and the consequent addition to the number of those engaged in the pursuit of husbandry, are giving to this department a growing dignity and importance. The Commissioner's suggestions touching its capacity for greater usefulness, deserve attention, as it more and more commends itself to the interest which it was created to promote. tion of Congress at its present session is the management of our Indian affairs. In my letter accepting the nomination for the Vice Presidency I stated that in my judgment no man should be an insumbent of an office the duties of which he is for any cause unfit to perform, who is lacking in the ability, fidelity or integrity which a proper administration of such office deusands. This sentiment would doubtless meet with general acquicescence but opinion has been widely divided upon the wisdom and the practicability of the various reformatory schemes which have been suggested and of certain proposed regulations governing appointments to public office. The efficiency of such regulations has been distrusted mainly because they have seemed to exalt mere education and sharrest tests above general business capacity and even special stness for the particular work in hand. It seems to me that the rules which should be applied to the management of the public service may properly conform in the main to such as regulate the conduct of successful private business. Original appointments should be based on ascertained fitness. Positions of responsibility should, so far as practicable, be filled by the promotion of worthy and efficient offices. The investigation of all claimants and the punishment of all official misconduct should be prompt and thorough. The views expressed in the foregoing letter are those which will govern my administration of the executive office. They are doubtless shared by all intelligent and patriotic citizens, however divergent in their opinions as to the best measure which, with slight variations in its details, has lately been urged upon the attention of Congress and the Executive, has as its principal feature a scheme of competitive eramination. Save for certain exceptions which need not be success which has attended that system in the country of its birth is the strongest argument which has been urged for its adoption here. The fact should not, however, he oversooked that there are certain features of Perritories applicable to the Indian reserva-tions within their borders, and extending the laws of the State of Arkansas to the portion civilized tribes. The Indian should receive zation. Second, and of even greater impor-tance, is a measure which has been frequently recommended by my predecessors in office, in furtherance of which several bills have been, from time to time, introduced in both general law permitting the allotment in severalty, to such Indians at least as desire it, of a reasonable quantity of land, secured to them by patent, and for their own protection made inalienable for twenty or twenty-five years. This is demanded for their present welfare and their permanent advancement. In return for such considerate action on the part of the government, there is reason to part of the government, there is reason to believe that the Indians in large numbers would be persuaded to engage at once in in interests to conform their manner of life to the new order of things. By no greater in-

prominent a feature of savage life, and tends so strongly to perpetuate it.

Third, I advise a liberal appropriation for the support of Indian schools, because of my confidence and belief that that course is the railway mail service as a serious difficulty in the way of making the department self-sustaining. Our postal intercourse with foreign countries has kept pace with the growth of the domestic service. Within the past year several countries and color as have declared their adhesion to the Postal union. It now includes all those which have an organized postal service, except Bolivia, Costario, New Zealand and the British colonies in Australia.

Among the most uncultivated Indian tribes there is consistent with useful economy. Among the measurement for on the part of the chiefs and older members for the education of their children. It is an unfortunate instance of this fact that during the past year the means which have been at the command of the Interior department for the command of the Interior department for the purpose of Indian instruction have proved to be utterly inadequate. The success of the posticular extensives application which embraces certain features of the English system but excludes or ignores others of equal important for the command of the Interior department for the comman schools which are in operation at Hampton, Carlisle and Forest Grove should not only encourage a more generous provision for the support of those institutions, but should prompt the establishment of others of a similar character. They are doubtless much more potent for good than the day schools on the reservation, as the pupils are separated from the surroundings of savage life and brought into constant contact with civilization.

There are many other phases of this subject which are of great interest, but which cannot be included within the becoming limits of this communication. They are discussed ably in the reports of the Secretary schools which are in operation at Hampton, Carlisle and Forest Grove should not only

Appended are a few testimonials, want of space forbids the publishing of more. Their names will be cheerfully given to those desiring them by calling at the Doctor's office. Case I is that of a lady who was pronounced by three or the most prominent physicians of her native city to be in the last stage of consumption, and told that her case was helpless and hopeless. After being restored to sound health by Dr. Lyon she sent the following letter, earnestly requesting that it should be published in the hope that it might reach others similarly afflicted:

To all who may be afflicted with that common discase. Consumption, or any weakness of the lungs, I would appeal to them to immediately consuit Dr. John L. Lyon, of New Haven, Conn., feeling sure that by so doing they may be restored to health. For several years I was troubled with a cough, hemorrhage of the lings and the usual symptoms of Gonsumption. I consulted and was treated by some of the most eminent physicians the country afforded, without deriving any permanent beneat whatever. In the spring of 1865 the disease made such rapid progress that my attending physician and friends gave up all hopes of my recovery. On the 16th of May, 1863, I oftinulted the above named Doctor. I was at that time reduced to a perfect wreck of my former self, coughing increasntly, and it would seem just on the verge of the case was incurable; that I had but a few mouths to ease was incurable; that I had but a few mouths to ease was incurable; that I had but a few mouths to ease was incurable; that I had but a few mouths to
