One of the principal topics discussed at the neeting was the Employers' Liability act, and it is interesting to see how this act from which so much was expected has worked. It is not at all probable that the Republican Germans of this State, who are, as a rule, sensible and thoughtful men, will follow the advice of the Democratic papers and vote for Waller. As the Hartford Courant says: "There are some things to be thought of in this matter besides beer."

Tom Marshall, who was nominated by Boss Cameron for Congressman-at large, but refused to accept, has spoken his mind very freely in a stump speech. Among other things he said : "Don Cameron bribed the delegates to the Harrisburg convention for William Henry Rawle, and I am responsible for what I say when I make this assertion.'

The estimate of crops in Minnesota and Ohio, largely based upon returns of the ripened grains and vegetables, are of a highly gratifying character. They show results as follows: Wheat, 35,975,758 bushels; oats, 33,897,000; barley, 6,068,407; rye, 461,405; corn, 14,761,100. In Ohio the wheat proluction is estimated at 45,787,811 bushels: rye, 406,151; oats, 18,435,779; barley, 1,337,309; corn, 87,065,280; potatoes, 89, 000,000. The farmers of these two great States will have some money this year.

The Egyptian war has got to be paid for, and the English people are just now interested in discussing how their share of the expense is to be paid. It is said that the government intends to put the bulk of the bill apon income-tax payers. This will of course make an outcry, but as the great majority of the English people do not pay any income tax they will probably cheerfully support Mr. Gladstone in this matter. It is estimated in government circles that the cost of the war to England will be at least \$50,000,000, but Sir Wilfrid Lawson insists that it will be at least \$100,000,000.

A religious paper in England takes a rather startling view of the recent Egyptian war. It is that England, in carrying on the war, was unconsciously fulfilling a prophecy of the New Testament, and that it is the prelude to the "end of this dispensation, and the ten lost tribes of Israel, and as such, are to be the agent in accomplishing the propheing up of its own Euphrates." Shopping in Calcutta.

ot Respectable Among Natives, Henc Carlously Difficult For Foreigners.

from an English Reprint of an East Indian Mirror

It is not customary with Hindu notions o

respectability to go shopping. The bazaar is the resort of the *canaille*. You procure al that you want through your factorum, the house-sirear. But the baptism of European usage has converted the domestic economy of the natives, the wheel of respectability has turned, and we have begun to make our own purchases. For all that, Chinabazaar and Chandney Chowk remain what they were juarter of a century ago, or, if at all change they are only a shade worse. Every one who has been to a European shop knows the studious courtesy with which he is treated. It is in very exceptional instances that "The Development of Constitutional Lib-erty in the English Colonies of America," by Eben Greenough Scott, is a work of great shop assistant, of mixed descent, would treat a native customer with rudeness. Otherwise the European shop world has a fixed code of manners and etiquette, from which no tradesman of standing ever cares to depart. Every one, early history of this country. The author again, who has been to the native bazaar labors to show that the United States are the knows the serious discomforts to which he is direct and legitimate offspring of the Resubjected. As soon as your carriage has your way on entrauce, and you have turned into the lane where the bazaar commences in constitutional development in England, with its motive of freedom of conscience; the era of State development in American institutions; and the era of constitutional develutions; and the era of constitutional develutions in the lane where the bazaar commences in right earnest, you are invaded by hosts of lanky, bare legged, dirty jacketted, unprosperous beings, whose cries rend the atmosphere, whose gesticulations bewilder you. They surround and run along side of your vehicle, or, if you are on foot, they make a ring around you. One would hold a photo graph to your eyes, another would thrust a bundle of cheroots almost into your mouth another would press a bottle of perfumer lose to your nose, and another would light lucifer match under your chin. They howl accost, insist, gesticulate, pull, push, jostle and hustle you into any shop. Thus many quiet, harmless people from the Mofussil are worried out of their wits and made easy vic-

real work of haggling and fleecing com-mences. Four times the prices are asked of you, bad and damaged articles are sometimes attempted to be palmed off upon you, and unless you are well experien awake you are sure to be done out of your money. Nor is this the worst. Customer are abused and ill treated. Sometimes oper violence is resorted to. You must accept his prices, you must not bargain, you must not find fault with the articles if you have any fear of ill-treatment. Some people, we might say almost every new purchaser who goes to the newsboy and the friends and acquaintances bazaar for the first time, feels impatient unhe made in city and country as he worked der these circumstances. He utters an angry that he was of good birth and heir to a large to go away. I accept the nomination thus tendered me and trust that while I am gratefully sensible of the honor conferred I am also poperly impressed with the responsibilities which it invites. The platform of principles ad pted by the convention meets my hearty approval. The dectrines therein enunciated are so distinctly and explicitly stated that their amplification seems scarcely necessary. If elected to the office for which I have been nominated I shall endeavor to impress them up a my administration and make them the policy of the State.

Our clitizens for the most pars attach themselves to one or the other of the great political parties, and under ordinary circumstances they support the nominees of the party to which they profess fealty. It is quite apparent that under such circumstances the primary election or caucus should be surrounded by such safeguards as will secure absolutely free and uncontrolled action. Here they put their own hands to the machinery of government, and in this place should be found the manifestation of the popular will. When by fraud, intimidation or other questionable practice the voice of the people is nere smother-d a direct blow is aimed at a most precious right, and one a high the daw should be swift to protect. If the primary elec ion is uncontaminated and fairly conducted, those there chosen to represent the people will go forth with the impress of the people will upon them and the benefits and purposes of a truly representative government will be attained.

Public officers are servante and agents of the people will upon them and the benefits and purpose of a truly representative government will be attained.

It is in the hands of the sovereign people for settlement, and as the question is thus rem ved from State legislation any statement of my opinions at this time would I think be out of place. I am confident that the people will carefully examine the merits of the subject and determine where the preponderance of interest lies.

The expenditure of money to influence the action of the people at the polls to secure legislation is calculated to excite the gravest concern. When this pernicious agency is successfully employed a representative form of government becomes a sham and laws pass d under its baleful influences cease to protect, but are made the me and by which the rights of the people are sacrificed and the public treasury despoiled. It is uscless and foolish to shut our eyes to the fact that this evil exists among us, and the party evening. The Amphibious Captain Webb. Boston, Oct. 9.-This afternoon at 3:4. Captain Webb entered the tank of water a Horticultural Hall, in which he is to remain one hundred hours except a few moments at o'clock each evening. The depth of water in the tank is 5 feet 10½ inches and the captain's height is 5 feet 7½ inches. Thus he cannot rest himself by tiptoeing the bottom of the tank. For his dining table Captain Webb uses a board about 30 inches square with an edge raised about to prevent the water from splashing up and wetting the food and also prevent the food from slipping into the water. In the center of this board underneath is a handle similar to the handl of a mortar board, and with this he steadie and supports it with one hand and feeds him-self with the other. When nature demands that he should sleep, the captain draws his legs into about the position they would be in if he was sitting down, folds his hands be hind his head and sleeps the sleep of the just. The physicians say that thirty six hours is as long as human life can be sus-tained in the water, but the gallant captain proposes to remain in for one hundred hour, and time will tell whether he or the physi

Mr. Appleton of Cambridge did not get here until Wednesday at 9 o'clock, his rse being weary, so he tarried all night at Reading. Your brother Thomas says ye blace has grown very much since you lived here and that ye church has got 40 members, who came off from Mr. Noyes' church in Salemtown (13 men and 27 women) and ye town has granted ye Precinct 5 acres of land, and ye Promise £5 a year for five years, for ye support of ye Gospel in ye Precinet. Ye church have made choice of ye Rev'd Benj. Prescott for their Pastor, and have voted salary when single, and £75 when he shall be married. Mr. Prescott is the oldest son of sq. Jonathan Prescott of Concord, and is remising man about 25 yrs. old, and be rothed to Elizabeth Higginson, a comely aughter of Mr. Jo n Higginson. Ye new deeting House is situated in a pleasant valley near a stream of water in ye village and about a mile from Town bridge. Ye services in ye meeting house began by reading a part of ye 119th Psaim by Rev. Cotton Mather. After which he read a portion from Thos Allen's invitation to thirsty sinners. Mr Hubbard, your excellent minister, then of

fered prayer and a Psalm was sung to a most solemn tune, ye oldest deacon reading line by line in solemn voice, so that ye whole congregation could join. Mr. Bowers of Beverly next offered a prayer of Ordination and consecration, with ye laying on of ye hands of ye elders. Mr. Appleton of Cambridge preached ye sermon from 2nd Cor., 2nd, 16 verse, last clause, "Who is sufficient and the Rev. Mr. Greene of ye village ye hand of fellowship, and Mr. Garnish of Wentham made ye concluding prayer. There was an immense concourse of people in ye house, so that every part of ye house was crowded and some were on ye beams over ye heads of ye congregation. Ye Governor was in ye house and his Majesty's Commissioners of ye Customs, and they set together on a high seat by ye pulpit stairs. Ye Governor appeared very devout and attentive. Altho' he favors Episcopacy and tolerates ye quak-ers, and Baptists, he is a strong opposer of ye Baptists. He was dressed in Black velvet coat bordered with gold lace and puff breeches and gold buckles at ye knees, and white stockings. There was a disturbance in ye galleries, when it was filled with divers, ne-groes, Mulattoes, and Indians, and a negro called Pomp Shorter belonging to Mr. Gard-ner was called forth and put in ye broad aisle, where he was reproved with great awfulness and solemnity. He was then put in ye Deacon's seat between two Deacons in view of ye whole congregation, but ye sextor was ordered by Prescott to take him out be cause of his levity and strange contortions of countenance giving great scandal to ye grave deacons, and put him in the lobby under ye stairs. Some children and a mulatto woman was reprimended for laughing at Pomp Shorter. When ye services at ye house were ended, ye council and other dignitaries were entertained at ye house of Mr. Epes on the hill near by and we had a bountiful table, with bear's meat and venison, the last of which was rom a fine buck shot in the woods near by. Ye Bear was killed in Lynn Woods near Reading. After ye blessing had been craved by Mr. Garnish of Waltham, word came that ye Buck was shot on ye Lord's day by

We are receiving frequent testimonials of what the WILSONIA MAGNETIC GAR-MENTS are doing. Mr. C. L. Bement, for twelve years contractor at Sargent & Co.'s works, sends us the following statement:

Dear Sir: I have worn your Magnetic Appliance since the 18th of March, and have received decided benefit. I was troubled with Dyspepsia very badly my food distressed me greatly, and for hours after eating had no natural appetite. My bowels were very much constipated, for which I took medicine almos every day; have also had Catarrh for years. All m troubles have been relieved; can now eat and digest well. The constipation is entirely gone and the Catarrh very much improved. In fact I am better in every respect than I have been for a long time pas C. L. BEMENT.

To all who may be afficted with that common discase, Consumption, or any weakness of the lungs, I,
would appeal to them to immediately consult Dr. John
L. Lyon, of New Haven, Conn., feeling sure that by so
doing they may be restored to health. For several
years I was iroubled with a cough, hemorrhage of the
lungs and the usual symptoms of Consumption. I
consulted and was treated by some of the most eminent physicians the country afforded, without deriv
ing any permanent bonent whatever. In the spring
of 1863 the disease made such rapid progress that my
attending physician and friends gave up all hopes of
my recovery. On the 16th of May, 2653, I consuited
the above named Doctor. I was at that time reduced
to a perfect wreek of my former self, conguling incossantly, and it would seem just on the verge of the
grave. After the usual examination, he kindly but
plainly informed me as others had done, that my dis
ease was incurable; that I had but a few months to
live. Having great confidence in his skill, I insisted
to perfect week of my former self, conguling incossantly, and it would seem just on the verge of the
grave. After the usual examination, be kindly but
plainly informed me as others had done, that my dis
ease

ed from a patient treated and cured of seminal weakness.

DR. LYON—Dear Sir—It is impossible for me to fully express my gratitude to you concerning the effect
which your medicine has produced upon my system.
I have just inished the medicine you put up for me
and can truthfully say that I feel a different being.
My appetite is very regular, and I am not troubled
with that dull headache that I once had and sleep
never was so refreshing, as I am not disturbed with
dreams. Before I came to you it was difficult for me
to confine my thoughts for any length of time to any
subject undeubtedly owing to that complaint, and
the contrast is quite noticeable. If I ever know one
troubled with that complaint, I shall immediately direct them to you as an effectual means of sunn couns,
for it seems to me that I almost owe my life to you
for if it had been allowed to grow upon me the time
could not have been far distant when that incurable
disease (consumption) would have been deeply scated
n my system. Flease accept my sincere thanks for
our treatment thus far. I remain yours trair.—
