MEDICAL WOMEN. The Massachusetts Medical society is waking up. A circular was recently sent to every member asking him "Do you favor the ty slaves were freed; on the 18th the town admission of women to the society on the of Pereira formed a society which is preparsame terms with men?" The society has ing to make a number of liberations. Seve-1,343 members. Answers to this question ral emancipations since last mail are reported were received from 1,132, of which 709 were from Pernambuco. In Amazonas a bill has "yes," 400 "no" and 23 "indifferent." From this it appears that a majority of the whole society, and seven to four of those who answered the circular sent to them, favor the admission of women on terms of equality. Answers to other questions sent show that 336 members have consulted with female physicians, while 684 have not; that 981 do not object to consulting with a woman on account of her sex, while 146 do object. But notwithstanding the favor with which female healers appear to be regarded by the nale healers in Massachusetts they cannot yet become members of the medical society. Dr. James R. Chadwick, who has been looking into the matter, finds that seventeen State medical societies, representing the oldest and most enlightened States in the Union, have voted that sex is no disqualification for In thirteen of the States, all but one of them (New Jersey) at the South, no women had ever applied for membership. In the other sion. Dr. Chadwick tells his brethrer that many women are already practicing medicine in Massachusetts, and he very sensibly points out that the main question before the society is whether it ought not to protect the public by distinguishing such as are fairly educated from ignorant and fraud-

ulent practitioners, at the same time giving to those whom it finds qualified the advantage of a participation in the scientific exercises of the State and district societies. There is certainly no good reason why well educated female physicians should not be admitted to whatever medical societies they choose to join. They have come to stay, and, as the Boston Herald forcibly puts it: The male societies can no more prevent women from qualifying themselves to treat the in vogue fifty years ago. Human nature is the same in Munich a dsewhere. When the street cars began running there about two years ago a placard in every car announced that children under three years of age would be carried free. Since then 200,000 children have travelled on the company's line, of whom 160,000 have paid no fare. The company accuses nobody of lying, but hereafter a different method will be employed and every child who is more than one metre in height will have to pay. If there is any dispute the conductor will measure the child with a measure provided by the company and officially tested and stamped.

The people of Russia are just now much nterested in the temperance question. Corn whisky is very cheap in Russia and the people drink altogether too much of it. At the Bank of France there are now 160 female clerks, who receive three francs a day to commence with, and whose annual salary, after a year or two's service, rises to 1,800 francs; and at the Paris offices of the Credit Foncier, where also there is a large staff of women, the remuneration beginning at 3.50 francs a day, rises in some cases to as much as 4,000 francs, or \$800 a attendance are from 9 to 4 on six days of the week; and the male and female clerks sit in different rooms-the women being superintended by officials of their own sex and thus

mind." But if an apparition had stood before him he could not have been much more surprised. "The days of 1875-6-7 seemed to have come back. His low voice was found again; his eyes were bright and his cheeks rosy; his intellect as sinewy and clear and his wit as incisive as they were when he made nothing of riding Blackstone to Harlem and back or driving the Kentucky bays from Gramercy Park to Greystone." Mr. Tilden tired Mr. Watterson out in showing him the beauties and wonders of his new house. But,

bim society commenced its existence on March 25 with the emancipation of thirtytwo slaves. On the 11th of the same month society was established at Crato when twenbeen brought in to vote 10,000 milreis to the Emaneination society of Manaos and at the opening of the library two slaves were freed.

A citizen of Missouri sued a railroad compe. ny for injuries received at a crossing and reovered. The plaintiff just before reaching the crossing stopped, looked, and listened for the train at the most favorable point for seeing and hearing one. He was in his wagon drawn by mules, and neither seeing or hearing the train attempted to cross. Just as he approached he observed the train right upon him, when his mules became unmanageable and the engine struck the wagon and team, killing one mule and inflicting on plaintiff injuries rendering him a cripple for life. The bell was not rung, nor the whistle sounded. The Supreme court affirmed the judgment, holding that to ring the bell or sound the whistle is an imperative duty for which no excuse is receiva ble. Holding also, that though the statutory signals should be given by the railroad company, if they should be unheard or uneeded, and a traveler undertake to cross, it would still be the duty of those in charge of the train to avoid a collision, if the danger was discovered by them in sufficient time to enable them to do so. And on the other hand, when the statutory signals are not given, if the traveler on the highway, by looking along the track of the railroad, could discover an approaching train, and thus get the same information by the eye that would be imparted through the ear by the statutory signals when given, fails to look, but rushes neadlong to the danger, and suffers injury,he would be guilty of contributory negligence, which would prevent a recovery for damages for injury received.

C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1878, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help serntching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla in the summer of 1876 they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am.

Very truly yours.

Lowell, Mass., Jan. 15, 1878. MESSRS. C. I. HOOD & Co., Lowell, Mass. o be heard I hasten to put in my word. New Haven has deferred doing anything i the way of erecting a monument until neary every city and village throughout our broad land has taken action. This is not due to a feeling of apathy, as some suppose but from a desire to improve on them all, so if last she may be best. We do not need anything ourselves to make us remember our brothers who went to the field and died that we might live; but it is the generations to come after us, and the world at large, whom we wish should know of them and their deeds. How can this purpose be best ac-complished? As an instance of what others have done let us visit Cambridge, Mass. There you enter the Memorial Hall of Harvard University, where, under its arched roof, which is the perfection of architecture, you halt in admiration and delight as you Hood's Sarsaparilla look upon it as a whole. Owing to the number of vocalists and the length of the well arranged programme it would be impossible to mention in detail the many excellences which were noticeable. The singing was excellent, much of it artistic. In these recitals the efforts of a careful, painstaking instructor are patent to all. The pupils are to be congratulated upon these inestimable helps to their musical training, for it is by these public recitals that the ability to do one's best is developed. Next Week's Military Events. The Grays' Excursion and Visit to the Empire State-The Coming Charleston Military-The Coming New Orlean

The Grays leave for Albany and Saratogs next Tuesday night, returning on Friday. They take the night boat to New York and next take a sail up the beautiful Hudson. Other details of the trip have been given The company at their meeting Monday night favored increasing their band, the famous Wheeler & Wilson, by five pieces more. The Grays will be absent when the Charleston visitors are here, a matter much regretted by the organization, as the two commands have various bonds of union. They were Centennial Legion companies together at the great centennial at Philadelphia and a numthem. Also twenty years ago or more a popular ex-Grav removed to Charleston and be came a member of the W. L. I. and through that connection various courtesies were interchanged between the two commands. It was found impossible or impracticable to alter the programme of either the Grays or the W. L. L. and hence the dates of departure of both remain unchanged. The two companies being away from home simultaneously prevents a few prominent citizens, ex-Grays, from going to Albany with the Grays. Mayor Lewis, who was booked for one of the lions to be one of the Grays' guests at Albany, remains at home, having so many Charleston associations. Col. Fox also remains in New Haven to help entertain the Charlestoners. owever, the Grays will be largely repre inted at Albany, both veterans and actives, enthusiasm prevails in the command man for the trip is twelve dollars. It will be one of the most nota-ble and memorable of the numerous ex-

cursions in the history of this old and noted command. The Foot Guards will leave noth ing undone to entertain the W. L. I. and re-turn, principal and interest, the noble hos italities they received two years ago.
The Continental Guard of New Orleans who are soon to visit this city on their northern tour, arrived at Boston yesterday morn-ing by the Old Colony line. They were re-ceived by the National Lancers and the Charlestown Cadets. A salute was fired and after the usual courtesies the company marched to the City Hali, where Mayor marched to the Lancers' armory, partook of breakfast and then went to the Revere

ouse. The Continentals remain ten days in Bos on. Various companies take turns in enter-taining them. They next spend one day in Hartford, the 22d, next coming to New Ha-ven, staying here two days. They will get here on Saturday of next week and remain over Sunday. They give no exhibition here as far as is known. There will be a street parade on Saturday. He said that there were no such number as had been stated. There were only eight by actual count. He said that as a rule the trees were protected from damage by pieces

H. P. Frost for the telephone company ap-peared in regard to guys to trees. He said that while pleading guilty he did not see how they could avoid guying to trees in some in stances. He said that about fifteen of the telephone company's poles were guyed. The matter was referred to the committee on telegraph poles to act as they deem best. Alderman Klenke appeared before the Board and asked that overflows for the East street sewer at Grand and Greene street sewers be built to relieve the main trunk sewer, which set back and overflowed

and others' cellars.

At this point Engineer Hill informed th board that a large number of people had been waiting in rooms 10 and 11, City Hall, to be heard ou the order for the extension of Mulberry street and that many of them had gone away supposing there was to be

City Engineer Hill read the order and called upon parties in interest to state their views in regard to the improvement. John Gallagher, J. Gardiner Clark (representing Hezekiah Gilbert) appeared in opposition to the proposed layout. John Richardson favored the extension to Orchard street, but opposed the extension to Day street.

John M. Emerich favored the extension to Cachen detect. He said he would favor the on the north side. Allen aix favored the extension and thought the width should be 60 feet instead of 50 feet. Max Jacobs opposed the extension. L. B. Hinman opposed the extension further than Orchard street. He the extension further than Orohard street. He said if it was opened into Day street it would depreciate the value of land, whereas if the extension stopped at Orchard street it would impreve the value of land.

The petition for a change in the proposed layout and widening of South Water street was read and a hearing of parties in interest was ordered four weeks from last evening.

Orders for sewers in Wall street and Whalley avenue, from Garden street to University Place, and Nash street, from Eagle to Lawrence, street were read. The city engineer

"Is there a physician in the room?" screamed the bailiff. Water was procured and a physician stepped forward. Mrs. Peck, wife of the dead defendant, fainted and for a moment it seemed as though there would be a panic. But order was finally restored, and the judge directed that the jurors be taken to their room. When Vernon had recovered the jury returned to the court room. Judge Wylie said: "This man has been drinking a good deal. He is a hard drinker. In the course of the trial I have given him a sharp admonition. I suppose the effect of measurably cutting off his supplies is serious, but he is not fit to be on the jury now." Dr. Sauers said he was all By going to Durant's right now. There is considerable comment over Judge Wylie's remarks to day, and it is interpreted y many to mean that he will discharge the iry in the morning, declaring it a mistrial. This, it is alleged, would leave the government's case in better shape than to rely upon a jury which, as now seems probable, will disagree and fail to bring in a verdict. District Attorney Corkhill said to night that in view of the condition of Juror Vernon if a verdict of guilty was brought in Vernon if a verdict of guilty was brought in ents. Episcopal Diocesan Convention.

The Doings Yesterday—Various Ecclesi astical Matters Discussed—An Interest-ing Occasion. liocese of Connecticut at Trinity church

closed yesterday noon. The convention opened yesterday at 9:15 with devotional exercises. Bishop Williams presided over the clude a fine delivery and scholarly acquirements, would render him a superior man in any ecclesiastical body; and the affectionate regard and genuine respect in which he is held by the church and the clergy throughout the diocese amount to enthusiasm. His presence inspires zeal and quickens devotion to the church. I think we are specially blessed in having such a bishop as Bishop Williams." At the session yesterday forencon a few new faces appeared in the convention net present the day before and a number of the delegates present the day before had gone home. Hon. Benjamin Stark of New London, reported among other facts that \$7,103.02 was expended in the missionary department.

authorized to expend next year a sam not ex-ceeding \$8,000 was opposed by Mr. Stark, who thought the society should not be restricted to any stated amount. He also wished to see removed the regulation making the maximum assessment per communicant 50 cents per year. This would raise \$10,250, and a larger sum than that might be requir-ed, although this was not probable. The directors did expect, however, to be called upon for \$9,000. Rev. Dr. Harwood said the sentiment of the New Haven archdeaconry was opposed to any change in the present rule. His own church—Trinity—having 500 members, was

required to give only \$500, but actually con-ributed more than \$500. He did not like to have New Haven taunted constantly with her deficiencies in the matter of her mission-ary contributions. Rev. Mr. Seymour, of Litchfield, inquir ed if the diocese wanted to keep its missionary work down to its lowest point. In Litchfield county many of the ministers were paid such a miserable pittance of a salary that life was not worth living. A very little more would better their circum. very little more would better their circumstances wonderfully, but they certainly would not get it unless they asked for it and the means were at hand to provide it.

The motion that the directors be author-

ized to apportion \$9,000 was carried. Bishop Williams appointed as directors of the soci-ity Rev. Messrs. Torrington and Goodwin and ex-Governor Minor.

Rev. Dr. Vibbert, of the committee on the proposed b'shop's fund of \$50,000, moved that last year's resolution for a special collection in November for the fund be re-en-acted and the motion was carried. Dr. Vibbert said it was a great pity the appeal had not met with a more liberal response. In sixty-eight parishes no collections had been taken up.
A committee of three was appointed by

the chair to nominate a committee of laymen to associate with the board of directors, Rev. Mr. Yerrington, Mr. Goodwin, ex-Governor Minor being the committee. Rev. Dr. Tatlock of the committee on expenses introduced a resolution that the cler-ical delegates to the general convention be paid by the treasurer of the diocese their traveling expenses and \$2.50 a day while atwas opposed by Rev. Dr. Harwood. He said the diocese, already burdened, should ot be put to this extra expense. He also thought the delegates generally preferred to pay their own expenses. And then it was a half-way measure, because board at a hotel could not be obtained for \$2.50 a day. It was much the more dignified way for the delegates to pay their own expenses. Rev. Dr. Beardsley said that while he had always paid his own expenses, he was in favor of the pro-posed change. Other States took care of their delegates and so should Connectiout. A motion to indefinitely postpone the resonation was carried.

The committee on constitution and canons reported adversely on the amendment providing that rectors should not continue to be he presiding officer ex officio at vestry meetmatter was continued to the next conven To fill three vacancies caused by deaths

To fill three vacancies caused by deaths during the year Rev. R. W. Micou, Prof. Andrew W. Phillips and Dr. Gurdon W. Western Union, Denver, Erie, Lake Erie and Western, Louisville and Nashville, Vanderbilt stocks and Wahash preferred, in addition to the coal stocar, were very strong features of the dealings to-day. Western Union, on the publication of its quarterly statement, which was favorable, the declaration of the usual quarterly dividend and a renewal of the reports of the placing of the stock on the London market, soon displayed great strength and closed to night at an advance of 1% per cent. over yesterday's osing figures. Louisville and Nashville closed : per cent, higher on an active buying attributed by merous calls on the stock outstanding. Other brekers refute this statement, saying stock is being generally bought and is advancing purely on its merits. THE old reliable, most celebrated, skillful and successful physician in this country, permanently located in New Haven since May, 1854, takes pleasure in announcing to the clinical states and elsewhere that he has removed his office from 195 Chapel street to 49 Church street, Room 11, Hondiey Building, opposite the Postoffice, up one flight of stairs; entrance either at 49 Church street or 67 Crown street, where the afflicted cin consult him in private upon all diseases that first is heir to from 8 m. to 9 p. m. ir. Lyon will continue us heretofore to treat all diseases of every name and nature with that marvelous success which long years of experience has given him. Thousands of testimonials from grateful patients snatched from the brink of the grave now redecing in the perfection of health attest the unstring skill of Dr. Lyon. He especially invites those whose diseases under other methods of treatment have remained intractive to call upon him. Visit him and he will at once describe your condition. Perhaps you would have been cured if your physician had understood your case.

If you have tried for health and failed it is no reason why you should not try shain. Health is pre-Grand Medical and Surgical Office.
