Monday, December 20, 1886. SIGNS OF THE TIMES.

The signs that the greatest labor organiza ion of modern times is disintegrating are on the increase. The Chicago Knights have re. fused to pay the special twenty-five-cent as sessment ordered by Mr. Powderly, and the Philadelphia Knights have followed their example. In their rebellious course the Philadelphia Knights are supported by the Tocsin, the order's local organ. There are indications that the Knights in other places are not responding with any great cheerfulness or unanimity to the call.

Martin Iron's old assembly, No. 101, has one to pieces. Its members, who were raiload employes, could not get passes on the Missouri Pacific, and the cost of paying their ares in traveling on their business out of the ssembly's general fund has proved too big a drain. The fight between the Knights and the trades unions goes vigorously on. The nions show no disposition to yield to the demands of the Knights, and do show adecided disposition to "run things" to suit hemselves. It is announced that District ssembly No. 1,755 of the Knights of Labor of Chicago has declared war on the trades ssembly and withdrawn its delegates. The notorious assembly No. 49 is again making a stir by its attitude toward the trades unions. It will withdraw from the New York Central Labor union, which it has found some difficulty in "bossing." When it ceases to fight other labor organizations perhaps its ruling spirits will fight harder and harder among themselves, and finally lose what influence

they have left. All these and other similar have been expected by those who have paid attention to the situation. A few months ago the labor leaders were operating on a large scale. They had, or professed to have, great sums of money to work with, and their ollowers were surprisingly obedient. But their promises have not been fulfilled. Those who have blindly obeyed them have discovered that the benefits which were to flow from such obedience are lacking, and in many cases grievous injuries have resulted. They have discovered that it does not pay to submit to assessment, and they have lost much of their faith in the assessors. The trades unions have discovered that they cannot allow their affairs to be regulated by the executive board, and they are full of

The present situation is instructive. Too nuch has been attempted, and some of the nethods used to right the wrongs of labor nave not been wise. Unjust demands, tyranny, ill-considered strikes and criminal boycotting have worked strongly against the true interests of the laborers.

EDITORIAL NOTES. Unfortunately the prospect that a national ankruptcy bill will be passed at this session of Congress is not very good. The West and the South have the idea that such measure would be largely in the inter-

st of eastern capitalists. The idea of giving woman a share in the nanagement of the public schools continues to find favor. An amendment is to be made to the District of Columbia school board bill, now pending in Congress, providing that of the three trustees to be appointed rom each school district, one shall be a wo-

Chinese pheasants were introduced into Oregon some years ago, and proved so well dapted to their new environment that they creased and multiplied until they have ome so numerous as to be a nuisance by asuming more of the growing crops than the farmers are willing to allow them. But they are good to eat, and they will probably oot flourish unchecked much longer.

The executive committee of the National Protective Association of Liquor Dealers acted wisely in voting to favor a moderate cense, and to urge on all legitimate dealers the necessity of respecting the laws, by payng licenses, stopping all sales to minors and all Sunday sales, and also if possible by inducing municipal authorities to cease granting licenses to disorderly establishments.

year 1886 exceed 1.350,000 tons. The Iron Age, which has investigated the records and publishes interesting statistics of the subject, has been able to trace the sales of 1,228,000 tons, so as to determine in what States the ails are to be laid down. A few sales to ontractors, whose disposition of the rails irchased cannot be traced, and the producion of rails from imported blooms, are not cluded. The 1,229,000 tons marketed by American mills went 825,106 tons to northrn and 403 855 to southern States. But of he sales to northern States no less than 420.825 tons went west of the Mississippi iver, and of the sales to southern States 256. 482 tons went west of Louisiana and that

the Camden stakes, six furlongs, in 1:16, and the Select stakes, same distance, in 1:144, the fastest race by a two-year-old this year. In this last race he beat King Fox, who conceded him five pounds. King Fox (dead) ran two remarkable races —the Great Eastern handicap, six furlongs, with one hundred and twenty-five pounds, in 1:15, and the Flatbush stakes, seven furlongs, in 1:2734. It would appear that the Withers stakes, which is one of the ante post betting events in the East, is almost a gift for the Brooklyn stable, unless some very remarkable dark one should come to

THE DIME MUSEUM BARKER. He is Proud and Vain, But His Son rous Voice is Worth Money.

[From the New York Mail and Exp "We have trouble in getting a professional barker who is willing to assist generally,' said a dime museum proprietor on the Bowery to a reporter. "You see a barker is as proud of his calling as an actor, and when he gets through talking in front of the museum he doesn't want to do anything else. They call it their act and go through it with the same pride that Wilson Barrett acts the character of Claudian. It is no easy matter to bark for a museum; it takes training and a great deal of it. A man that hasn't got a all can be suited. good pair of lungs is not fitted for the position. The rising inflection too must be used almost exclusively, for it can be heard better. The gateman at a railread depot is nowhere beside a professional barker. The former is not so clear and distinct in pronunciation, and has a rising inflection of the voice for one or two syllables, and then a dreadful falting inflection, which has the But the barker is clear and distinct and the passing crowd can catch on to what he is saying. I confess that he is mechanical as a rule and varies his stereotyped sentences very little in the course of months. All

barkers are vain and many are as capriious as prima donnas. "I endeavored to get mine one day to bark for a special crowd passing down the street, but he would not do it because it was not his regular hour to go on. They are very exactng in their contracts as to how many hours they shall be on duty, and the proprietor time is a genius. They are somewhat inde-pendent because good barkers are scarce. Intelligent Flash. Flash, the fine pointer dog belonging Dr. C. A. Packard of Bath, in following his master's carriage through a crowded street, had the toe of his forefoot caught under a wheel. The claw after this began to grow out and the wound became exceedingly painful. One day the doctor examined the wound and said to the dog in a business-like

have that claw cut off." Flash looked up knowingly and wagged the front, like Tyrant in 1885. The best ones in it are Firenzi, Milton, Kingston, Belvidere, Raymond and Nat Goodwin. Both Tremont and Hanover must be classed as dangerous in all the fixed events in which and submitted to a painful operation with-

Not long afterward Dr. Packard was surprised to see Flash come into his office one day with a small black our following him. Flash rushed up to the doctor and back to the cur, and kept up this movement for some time. At last the doctor examined the strange dog and found that he had been wounded and was still bleeding. He dressed he wound and the dog went away. In some way, which human beings would find it hard to understand, Flash had induced the wounded dog to come to the doctor's office and have his hurt attended to.

The Late Henry C. Kingsley, Treasure of Yale College—A Tribute to His Memory by Ex-President Porter.

On the morning of Friday, November 19th Mr. Kingsley while driving to his business received a severe injury. A cart was driven against his carriage and as the result he wa thrown violently forward upon the wheel Two ribs were broken and other injuries were received. For some weeks he seemed to be in a fair way to recover, when unfavor able symptoms developed themselves and after severe and protracted suffering he passed away on Sunday morning, December

19th, about 4 o'clock. He was born in New Haven December 11 815, the son of Professor James L. and

Lydia (Coit) Kingsley. He graduated at

Yale college in 1834 and in 1835 entered the Yale Law school. Here he spent two years with the exception of the winter of 1836-7, which he passed in Columbus, Ohio. In December, 1837, he was admitted to the practice of law, which he commenced with his brother, G. T. Kingsley, in Cleveland, Ohio. He continued in active practice till 1852, when in consequence of the impaired health of himself and wife they went to Europe. On returning to this country he removed to New Haven. In January, 1854, he was elected director in the Cleveland and Pittsburg R.R. company which was then seriously embarrassed and in 1857 became insolvent. From 1857 to 1866 Mr. Kingaley had the principal charge of its affairs and in 1862 it regained the position of a sound, dividend paying company. In 1858, principal charge of its affairs and in 1862 it regained the position of a sound, dividend paying company. In 1858, being much reduced by overwork, he made a second visit to Europe, and was absent a year. In 1862, after the death of Edward C. Herrick, he was elected treasurer of Yale college, and continued in this office till his death. Besides discharging the duties of this office he has filled many public and private trusts with remarkable ability and conspicuous fidelity, being distinguished for the acuteness and rapidity of his judgment and ons fidelity, being distinguished for the acuteness and rapidity of his judgment and the singular fairness and comprehensiveness with which he estimated the merits of any

question, and the promptness and force with which he passed from a decision to action. He was a man of few words, and at times seemed abrupt in his utterances, but he was a man of many thoughts, and the positiveness a man of many thoughts, and the positiveness the was an of many thoughts, and the positiveness the was a man of many thoughts, and the positiveness that was the filed of the habits of clear and rapid thinking to which he had been schooled from his childhood. Naturally ardent in temperament and positive in his convictions he had disciplined himself to more than usu-

with his pen, but whenever he appeared in the role of a controversialist or a critic his ability was conspicuous. We hardly need say that he was admirably fitted to the duties of the office which he filled in Yale college for twenty-four years, and that it will not be seen to find a man who will discontinuous. The says he has undisputed evidence that the man was murdered. Dr. For fifteen years the writer of these lines has been intimately associated with him as a witness and to some extent as an associate in these duties. During all these years scarcely an hour has elapsed during the office hours which were common to both in which some words have not passed between them which words have not passed between them which have not been more or less characteristic of the man. Upon all these words simplicity and godly sincerity have been distinctly stamped, and every one has had the ring of honesty and truth. Those who have sough to criticise his acts or his methods have us ually confessed to his ability, thoroughness and his honesty. Those who have found

and his honesty. Those who have found fault with his caution have not infrequently confessed that his foresight was directed by true financial wisdom. Those who have become acquainted with the enormous amount of petty details which are incident to such an office when satisfactorily administered have confessed their astonishment that a man of such extraordinary capacity for great enterprises should concern himself with transactions so minute. All without exceptransactions so minute. All without excep-tion who have had dealings with him have, however, felt the force of his honest and out-spoken manhood, and not a few have discern-

and aims.

It scarcely need be said that Mr. Kingsley loved the college for which he labored so assiduously and sacrificed so much, and that to care and sacrifice for it had become the passion of his life. This passion was the product of high principle and loyal devotion to duty—of Christian principle animated by Christian faith. In the church of which he was a member there were few whose faith was a member there were few whose faith was a member there were few whose faith was more firm, whose patience was more exemplary, whose benevolence was more willing and whose zeal for the kingdom of Christ was more sustained. He was loyal to its communion, loyal to its pastor, loyal to its missionary enterprise and its domestic charities, and above all loyal to Christ was the hone and rest of his own soul as the hope and rest of his own soul. But, perhaps, most conspicuous of all was his patience under manifold bodily infirmi-ties, and such as consume the life and waste the energies and mar the usefulness of not a

few, but which in his case were a constant discipline "to the peace of God which pass-eth understanding" and a blessed foretaste and preparation for the rest which remaineth for the people of God. UNDOUBTEDLY MURDER. What a Coroner's Investigation Re lated Body Which Was Found Nea Bye Station Placed on the Track by His Murderers-Clubbed to Beath in a Fight-The Inquest to Conclude Tues

day Night. [Special to the JOURNAL AND COUNTER.] NEW ROCHELLE, Dec. 19 .- The inques ver the remains of Engineer George Byrnes who was found horribly mutilated on the east bound track of the Consolidated road last Wednesday night, was commenced here last night at 8 o'clock and resulted, so far as it went, in proving beyond a shadow of a doubt that the unfortunate man was mur dered and then placed on the track, after which a train ran over him.

At the time of the finding of the body Wednesday night (as exclusively reported in the Courier Thursday morning), it was first thought Byrnes had been accidentally killed on the track, but an investigation which was begun by Coroner Ties, of New Rochelle, revealed numerous facts which pointed convincingly to murder. Byrnes was engineer of a stationary engine which has been in use by the Consolidated

The three seemed to be quarrelling between themselves. They were evicted from several saloons on account of their boisterous conduct. The three men

passed over it. The train was the Wasnington express and made ne stops between New York and New Haven. Conductor Phillips telegraphed back to New Rochelle about the accident and Engineer Frank C. Faylor of the early evening freight was notified at New Rochelle to pick the body up. He did so and brought it to New Rochelle. It was then taken to Undertaker Davis' office where the inquest was blunt instrument and not by the cars passing over him. The wounds found on the man were as follows: Skull fractured and crushed

he had disciplined himself to more than usual taciturnity as the outgrowth of a singular shyness or reserve, which was native of the man. Though warm in his affections and tender in his sympathies, the force of neither was respected, even by many who seemed to know him well, till on some rare occasion his feelings broke forth into a fervid flame. A chronic invalid for all of his active life, he expended the surplus energies which are so lavishly wasted by many in a constant strife with bodily adiscomfort and nervous unrest, never complaining, always on the alert with his powers ready for action and equally ready to dismiss a subject when it was disposed of. As a writer he was distinguished by rare conciseness, directness and force. He did not often enter into extended discussions with his pen, but whenever he appeared in the role of a controversialist or a critic his billity was constituted to the matter. Rheumatism

It is an established fact that Hood's Sarsaparilla has proven an invaluable remedy
in many severe cases of rheumatism, effecting remarkable cures by its powerful action
in correcting the acidity of the blood, which
is the cause of the disease, and purifying
and enriching the vital fluid.

It is certainly fair to assume that what
Hood's Sarsaparilla has done for others it
will do for you. Therefore, if you suffer
the pains and aches of rheumatism, give
this potent remedy a fair trial.

A Positive Cure. "I was troubled very much with rheumatism in my hips, ankles, and wrists. I could hardly walk, and was confined to my bed a good deal of the time. Being recommended to try Hood's Sarsaparilla, I took four bottles and am perfectly well. I cheerfully recommend Hood's Sarsaparilla as one of the best blood purifiers in the world." W. F. WOOD, Blogmingtor, Ill. For Twenty Years

I have been affileted with rheumatism. Before 1883 I found no relief, but grew worse. I then began taking Hood's Sarsaparilla, and it did
me more good than all the other medicine I
ever had." H. T. BALCOM, Shirley, Mass.
"I suffered from what the doctors called
muscular rheumatism. I took Hood's Sarsaparilla and am entirely cured." J. V. A.

> DUBLIN, Dec. 19 .- The Lord Lientenan as formally proclaimed the anti-rent campaign. The proclaiming is accepted by the eaders of the National league as a step on the government's part towards the suppression of the league. The funds of the league have already been transferred to France, in order to prevent their seizure by the authorities, and the rent moneys deposited with trustees will also be secreted to guard them against government designs. The proclamaion warns all persons that the inciting of enants to refuse to pay or to withhold rents s an illegal act, and that the anti-rent move nent, by whatever means carried out, is a criminal conspiracy. In addition it says hat all moneys, receipts or documents given or received for the purpose of such conspiracy are liable to seizure, and that persons in whose possession the same are found shall be arrested. This sweeping measure is the production of Lord Ashbourne, Lord Chancelton of Treland, and assent to its promulgation was obtained at Friday's Cabinet council. The Unionist papers now clamor for the im mediate suppression of the National league and even demand that trial by jury be sus pended in Ireland if the juries refuse to con vict the advocates of the anti-rent move

LONDON, Dec. 19 .- Mr. Parnell, who has just arrived in Lendon, is slowly but cer-tainly recovering from the acute gastric at-tack from which he has suffered for some time. His physicians have assured him tha he will be able to resume his parliamentary duties at the beginning of the next session of the house if in the meantime he will take good care of himself. To-night he aid he did not intend to expres an opinion concerning the plan of campaign of the league or the action of the government against it until he had first gone to Ireland and consulted with the romoters of the plan, whom he had not seen ince the last session. He also desires to btain a fuller knowledge of various matters pefore making public his views ann for these ourposes he will visit Ireland shortly shortly.

fr. Patnell declared that he was not aware that the plan of campaign against rack rents had been devised until the fact had been published throughout England and Ireland. Harrington called attention to the fact that no priest's were present at the meeting and while lamenting the fact strongly condemned the clergymen who were expected to attend and whose duty Mr. Harington said it was to attend. CONGRESS DEMORALIZED and But Little Likely to be Accom plished Before the Holiday Becess. - 84.488.220.70 Washington, Dec. 19 .- Congress is so de noralized over the near approach of the hol. idays and the disposition of the Morrison tariff bill, which the House refused to take ip for consideration yesterday by a vote of 148 yeas to 154 nays, that it will accomplish but little this week. It is believed that it will adjourn on Wednesday afternoon until Tuesday, January 4, and several senators and epresentatives left for home last night and o day not to return until the opening in the new year. Quite a number of the member and their satchels ready for departure a soon as they were recorded in the vote on the Morrison bill and scarcely waited to learn he result. Those who voted with the victors were so well pleased that they did not care for the subsequent proceedings, while those among the vanquished were sufficiently lisgusted to "let the thing take care of itself." Mere matters of routine are on the erogramme of the House for the three days before the holiday recess. After the call of the States and territories to-morrow for the introduction of new measures there will be the usual suspension of rules for the passage of bills from committees. The call rests on the Committee on Militis. Mr. Forrests on the Committee on aintia. Ar. PROFESSOR BARBOUR'S LETTER. Professor Barbour's resignation is as fol

Professor Barbour's resignation is as follows:

To the Church of Christ in Yale College:

In accepting the pastoral care of this church, now nearly ten years ago, although the greater part of those who were urgent on my coming are gone, those of you who remain are aware that it was with considerable reluctance that I left a situation very much to my own mind in order to accept it.

On coming here I prophesied to myself that if I might be spared to serve the church and college for ten years. I should think that my ministry here would be fulfilled.

The 10 years I gave myself are now nearly completed, and as I am still of the same mind on the length of my pastorate. I desire here and now, and by this act, to resign the pastorate of this church, the resignation to take effect on the completion of my tenth year of service, that is, at the close of the present year. June, 1887.

In recommitting to your trust that which you have honored me to hold so long, I can assuredly say that only by the grace of the great head of the church, and by your kind forbearance, has it been possible for me to serve you in these bygone years. For this I can only praise him and thank you.

It is no matter of regret with me that by your counsel and by the indications of divine providence I was led hither; for, personally, I have enjoyed my ministry among the young men of the college, with whom I have been in the most friendly relations and from whom I have had nothing but the most marked respect. Coming with a sincere desire (as I trust) to do what might be done for the gospel among the young. I am going with the same end in view, with just as sincere a desire that by some other and better ministry than mine, more and better may be done for the cause of Christ in this honored university.

Thanking you all, officers, members, households of the church, and college, and wishing you all

ind better may be cone for the character his honored university.

Thanking you all, officers, members, households of the church and college, and wishing you all grace, mercy and peace from our common Father Saviour, comforter, I am, with high regard, your in the bonds of the gospel,

It is expected he will preach there on the first Sunday in January, and he will no doubt have a large congr gation, weather permitting. He is spoken of in the highest terms. He is a graduate of the Trinity school at Hartford, and is highly

commended by the presiding bishop. He connected with prominent Hartford fam is connected with I ilies, the Morgans. REV. MR. TITUS AT CALVARY BAPTIST CHURC Rev. Mr. Samson of Calvary Baptist church exchanged pulpits yesterday with Rev. H. F. Titus of Newton, Mass. Yesterday morning a large congregation at the Calvary Baptist church listened to the discourse of Rev. Mr. Titus, which was on the full growth of the Christian. Last evening, n a sermon similar to the morning discourse r. Mr. Titus illustrated some not referred to in the morning. His tex was from Hebrews x, 19: "Having therefore brethren, boldness to enter into the holiest, by the blood of Jesus." The speaker invited follow him in his line of thought and try follow him in his line or thought and try it possible to accept the gospel. "Many Christians," said he, "do not have the peace and joy which they think Christians ought to have. A Christian's chief joy should be in being a Christian. Christians should have the boldness referred to in the text. Jesus says the apostle to the to in the text. Jesus, says the apostle to the Hebrews, is the great high priest who is able to save to the uttermost all who make intercession through him. God gave his only begotten son that whosoever believed on him should not perish, but have eternal life. God will receive the sinner without any

change on his part." The speaker urged his hearers to try to realize this great truth. During the sermon Mr. Titus referred frequently to the text and by several illustra-tions from real life explained the principle tions from real life explained the principle that Christ died for sinners. The speaker stated that he had taken his illustrations from people of humble circumstances, as those people often appreciate the truth in a beautiful way. Taken altogether the sermon was not only beneficial, but very pleasing. CHRISTMAS PRAISE SERVICE.

One of the most successful praise services ever held in the Davenport church occurred last evening. The audience taxed the seating capacity to its utmost limit and many stood up in the aisless during the entire service. All seemed to enter heartily into the services. The programme was as follow The entire choir rendered "Hark! Hark!" The entire choir remover by the pastor; a beautiful manner; prayer by the pastor; "O Holy Night," by the choir; impressive scripture reading by the pastor; hymn by the andienne, prayer; Messrs. Sage, Jones, Conners and Underhill rendered a quartette nars and Underhill ren in their usual excellent manner; the choir then sang "Resound Again;" responsive reading by pastor and congregation; another hymn, following which "Sing, O Heavens," by the choir. Monday, December 20, 1886. NOT ANTAGONISTIC. The Coming Relations of the New Eng Line-The Lower Rates of Fare on the Consolidated-The Housatonic

President Watrous of the Consolidate oad said on Saturday, when asked regarding the present and possible future relations of the New England road to the Consolidated, that he had no idea that Charles P. Clark was to again assume the presidency of the New England. Such an event would not accord with the purpose of the recent meeting in Boston. "What that purpose is I can only gness," said Mr. Watrous, "but I do not think the new management will become antagonistic to the Consolidated road. Mr. Bostwick, the new president, is a man of wealth, which indicates financial ability. As to Mr. Stevenson, my impression is that he will remain with the Consolidated. I have not as yet conversed with him on the subject. I think the result of the meeting at Bridgeport on Friday was a compromise. You see the Housatonic's old board was re-elected with the arcention of two. It will work rather to Friday was a compromise. You see the Housatonic's old board was re-elected with the exception of two. It will work rather to prevent the two roads clashing in their interests than towards a consolidation. I can guess what the purpose of the new movement is aiming at, and it may be only a guess. That is that a track be built from what is known as the State Line station to Lebanon, in the vicinity of Rutland, and there connect with the Rutland and Burlington road and thus give them a line to Monon road and thus give them a line to Montreal. In the scheme also may be what is known as the New York, Danbury and Boston line, but an important factor in that problem will be how to get into New York." As to double-tracking the Air Line, Mr. Watrous said it would cost \$2,000,000 and would be a needless expense, and if incurred would simply benefit the New England road. "The Air Line now barely pays its own ex-penses. The reduced rate of fare on the Consolidated goes into effect January 1 and under the present conditions of the road can be made to pay. The public ought certainly to be satisfied with the management of the New York road. We have or shall have the

and body conspire to make my report this week rather small. Business men, too, seem to have their minds so thoroughly absorbed in closing up their accounts, etc., for the year that matters of enevolence with great difficulty reach their ears. Hence Mr. Miller is often pleasantly and politely informed that it would suit bet ter for him to call next year after their stock

of goods has been inventoried. Then again Christmas, with its sacred and social memories, is beginning to catch the date popular ear and one is reminded of the truth-fulness of this saying, "There is a time for dred more copies to be added at Christmas everything." Yet in the midst of all these dissipating and counteracting influences it is to be hoped that friends will remember our John's parish in Memorial Hall the Welnes cause, which still appeals to Christian hearts and consecrated pocketbooks for help.

perators were cautious and the business was of a and-to-mouth character until it was found that the otwithstanding the disturbance during the week, had suffered a merely nominal loss in surplus re-serve. The latter seemed to afford encouragement to the bulls, and during the afternoon a much stronger tone prevailed. The rise was stimulated by the advance in rates by the trunk lines which ill go into effect on certain classes of freight on Monday and on others a week from that day. The reports of an increase in the Northwest earnings also had a favorable influence. The Vanderbilts led the advance in the active stocks, Canada Southern rising the most and selling up 2 per cent., to 5414, but Lackawanna, Louisville & Nashville and Northwest were not far behind. Outside of the eneral list Manhattan sold up from 156 to 160 exlividend. The fact that there was a simultaneous dvance in New York and New England from 51 to 35% was looked upon as rather significant. Philaelphia Gas and Chattanoega each rose about 3 coints. New York, Susq. & Western, Cameron Coa_l and Hocking Valley were among the strongest stocks. Tennessee Coal and Iron broke 434 per cent., to 74, rallied to 7834 and reacted to 76. There was some reaction in the closing dealings, when Union Pacific declined from 63% to 61% on advices from Washington that the House had refused to take up the Pacific railroad funding bill. The ex ct amount of stocks traded in to-day was 814,611 pares, including 67,462 Reading, 31,620 St. Paul and 21,140 Lackawanna. The total yesterday was 526,-707, on Thursday 614,627 and on Wednesday 1,195,-

the incredulous. NEW HAVEN, Conn. NEW HAVEN, Conn.

I have for twelve years been a great sufferer from rheumatic neuralgia, subject to attack suddenly without warning, either day or night, destroying all hope of sleep or rest, making it almost impossible for me to walk or attend to my business and often compelor attent to my business and often competing me to remain at home a day or two and suffering the most excruciating pain as every sufferer knows. Remedies are not wanting, and I have tried hundreds of them faithfully, until when I come to review the list, and find I am still alive I look upon myself as a miracle. With the exception of Athlophor-os, not one of them afforded me slightest benefit. Eminent physicians in this and oth er cities have labored faithfully and honestly to help but without affording any perma-neut relief. After much persuasion and long opposition, I at last decided to try Ath-lophoros, but without one particle of faith. As the result can truly say it has done me more good than all other remedies combined. The first two doses relieved the pain entirely, and since I commenced its use some four weeks ago I have had but one slight attack.

Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of the druggist the Athlophoros Co., 112 Wall st., New York, will send either (carriage paid) on receipt of regular price which is \$1 per bottle for Athlophoros price which is \$1 and 50c for Pills.
