Extra Pure Salt It is a well known fact That Impure Salt is very injurious to health. Ordinary Salt contains more or less lime, magnesia and other impurities which occasion stone in the bladder and other painful diseases. Now as Salt enters into the makeup of almost everything we eat it becomes essential that a perfectly pure article should be used. D. M. Welch & Son have experimented on a great many kinds of Salt, and have at last found one on which they can place their name and guarantee as a perfectly pure Salt, This Salt is put up by them under the Star Brand, (Trade Mark patented), in linen bags, at 5c, 10c and 15c per bag, and in paper boxes at 5c each. The 15c bags contain nearly a peck. It will be seen that this Salt costs no more than ordinary Salt, and after once using you will have no other. Be sure and call for and see that you get the Star Brand, Put up only by

Wednesday, May 4, 1887. THE CATTLE RING. Those who eat beef, as well as those who produce it, are interested in the way the cattle business is conducted. And especially

are the beef eaters interested in the performances of the Chicago cattle ring, which pre vents them from getting their beef as cheap as they ought to get it.

\$1.500,000,000 invested, unorganized, and without a head. Five shrewd, sharp, energetic business firms in Chicago, with a capital of about \$50,000,000, handle us as they please and have us cowed as a dozen police men can cow an untrained mob." And he continued: Where has the money gone that was in the cattle business! Perhaps the Chicago stock yards, valued at \$1,500,000 watered to \$11,000,000, and paying \$55,000,-000 dividends in ten years, can tell. Perhaps the five Chicago firms, who are credited with

DRUGGISTS OR BY MAIL \$1. 56 WEST TWENTY-FIFTH ST., NEW YORK. naking over \$200,000,000, principally in the ast five years, can tell. But Mr. McGillan is not discouraged by the situation. He believes the ring can be peaten. He does not favor the establishment of new stock yards, because the ring would rush them by secret freight rates. But this is his plan: Pool the entire cattle interests of America. Let each owner give a mortgage on every animal he owns for \$5 per head, payable in five annual payments, with 6 per cent. interest; such payments to be deducted from his beef sales. Let this pool decide when, where, and how all beef shall be shipped and sold. Let no cattle be sold at

tal of \$100,000,000. This is certainly a comprehensive scheme and one which if carried out might add to the profits of cattle raisers. That it would help the beef eaters much is not very probable. But there is no doubt that something ought to be done. For, as the New York Times puts it: For three or four years the price which the ranchman could get for his cattle from the firms, that control the horse. cattle from the firms that control the beef have gained by the reduction of the price of cattle? Rays across the hand from the basis of the thumb always denotes from the basis of the thumb always denotes worries, and the age at which they occur is always shown by the point at which the rays terminate. The "line of head," which is the next great line in the hand—it extends from between the thumb and forefinger across to the third finger—should be clean and well closed, without fork, break or ramification. Pale and broad denotes feebleness or lack of intellect; but if it is long and strong it denotes self-control. The third line is the line of the heart—the line sweeping from the forefinger across the hand. If it goes right across it indicates excessive affection, resulting in a morbid jealousy. If it is choined the subject is an inveterate flirt. Very, very thin and bare it is a sign of murder. The thin and bare it is a sign of murder. The fourth great line in the hand is that of for tune, which rises through the whole hand from the wrist to between the second and from the wrist to between the second and third fingers. If it starts from the line of life it shows that fortune results from one's own deserts; rising from the wrist, it is always a sign of good luck. Twisted or ragged at the base, it indicates ill luck in early life. The line of health comes from the base of the line of life. Clearly traced, it seldom exists in a hand; but when it is found it is a sign of good health, gayety and success. There exists of course in every hand lines which do not come under any of these rules;

There is such a thing a taking too much precaution even in house keeping. It is good judgment perhaps to lock the piano when leaving the domestic alone in the house for obvious reasons; but in most families it is not considered necessary to lock up the washtubs in order to prevent the young ladies of the family from gaining access thereto. It should be the constant endeavor of the careful house keeper to remove from sight whatever is unpleasant to lock at. There is, however, danger of going too far in this as in other matters of home regulation. For example when you are expecting guests not pos-sessed of that physical gift which is said sessed of that physical gift which is said to be but skin deep, it is not good policy to turn the faces of the mirrors to wall, as your kind intention would be ble to misinterpretation.

THE SCENE OF THE WRECK. fter the Explosion-Thousands Visit the Scene-The Ruined Locomotive

Thousands of people visited the scene of the wrecked locomotive house near the foot of Bridge street yesterday. Many people the boiler explosion and the crash of the falling bricks, and thereafter listened to the dismal shricking of the locomotive whistle which was set agoing by the explosion. Many thought that the noise of the explosion proceeded from some blasting operation at East Rock, done in the night, time for greater safety. A good three-fifths part of the round house was totally wrecked. The epting here and there a small jagged portion of the walls. The building was about 100

since built except Sundays and when in the shops for the occasional overhauling. Being run usually night and day, she was run by two crews. Mr. Henney, the superintendent of motive power, says she has done excellent service. Only a few days ago the boiler was put to a hydrostatic test of 170 pounds, which is equal to 300 pounds of steam, and when the explosion occurred the indicator showed only 132 pounds pressure. The Consolidated road requires a severe test of all locomotive boilers. In Massachusetts a test of only 150 pounds hydrostatic is required.

An examination of the fractured parts has failed to reveal the cause of the explosion. The rivets were found to be perfect. Henney says that possibly some part of the iron was harder than others and that a frac-ture resulted. He did not believe that the men on the locomotive, who were competent were at fault. If the machine had been out side no person would have been hurt. This was the first explosion of a Hartford division

Yesterday afternoon a torce of machinists was at work on the damaged locomotive in the Consolidated road repair shops. The rent was made about four feet behind the smokestack. For a distance of four feet smokestack. For a distance of four feet the boiler plates are blown off and the flues are slightly bent. Explosions usually take place near the fire box, and are usually attended with loss of life. The point of fracture was favorable in this case for the men. Only two of the flues burst. Superintendent Henny says the repairs, which will be completed in two weeks, can be made for \$250. Joyous Occasion at the Residence of Mr. B. Shoninger Last Evening-Over Two Hundred of the Shop Hands Surprise Ex-Alderman Shoninger On The Eve of His Sailing for a Trip in The Old World. Last evening at nine o'clock strains of excellent music were heard on Chapel street, near Olive, and crowds of people repaired to were waked from sound sleep by the noise of the scene and found the handsome residence of Mr. B. Shoninger ablaze with light and Landrigan's red-coated brass band discoursing the music from a position on the front lawn, while inside the yard also were gath-

After the band had played two selections very finely Superintendent Loomis of the manufactory came out and in behalf of the family invited the shop wrecked part lay flat upon the ground, ex- hands and band inside to partake of a generous supply of refreshments which had been provided for the joyous occasion. The affair of the walls. The building was about 100 feet long in front where the locomotives enter, 125 feet long in the rear and about 40 feet wide, while the roof slanted like a church roof, the ridge pole being about 30 feet from the ground. The walls were of brick and two feet thick. Underneath where the locomotives stood were the ash pits. The part of the building left standing locked as if it had "been through the wars" and almost ready to tumble down. The locomotive, the boiler of which burst, was "No. 100," but was formerly the "Argus." She is six years old, weighs thirty-four tons, and had an iron boiler. The boilers now put in are of steel. "No. 100" had been in constant use steel. It was a joy to him that such relations existed and it would ever be his aim as long as his health and strength permitted to provide work for all hands in season and out of season, prompt weekly payments as invariably son, prompt weekly payments as invariably hitherto, and to cultivate and cement the bonds of friendship prevailing. Mr. Shoninger's remarks were warmly greated, after which Mr. M. Sonnenberg, of B. Shoninger & Co. on Chapel street, proposed the health of the ladies of the family present, which was enthusiastically responded to supplemented by three rousing cheers for the host and hostess. After more making the ess. After more music the workmen marched in procession, headed by the band, to the old Green and there dispersed, all much pleased with the evening's performance. There has never been a strike at the Shoninger manufactory where over three hundred hands are em-

ployed, most of whom, excepting those living for over twenty five years. They are all old skilled workmen and many were formerly among the best men from noted New York piano factories, who find here the wages are equal if not better, while the cost of living is cheaper than in New York city. Also the firm pays the best wages and seeks carefully to promote the well being and interests of their employes. The happy occasion last evening is another pleasant chapter in the history of the establishment and a pleasing incident in these days of strikes and labor

Two Memorial Oaks Planted Yesterday on the Sperry Farm in Woodbridge. In the town of Woodbridge yesterday of the place that is known as Sperry's farm there were planted two oaks, one commem orative of General Stephen Goodyear, the other of Richard Sperry, both of whom were among the first settlers of New Haven. The land known as Sperry's farm was originally the property of General Goodyear, who deeded the same to Richard Sperry for his faithful services. Two oak trees have been planted as memorial caks on this land, the oak known as the Sperry oak being planted Goodyear oak will stand near the place about sixty feet from the other oak. The

on the site of the Sperry homestead. The latter oak will bear the following inscription: "Goodyear oak. Planted here to perpetuate the memory of General Goodyear, who gave to Rich-ard Sperry for his faithful services" the surround-ing land known as Sperry's farm." The Sperry oak bears the following inscrip

This oak is planted on the site of the homestead of Richard Sperry, one of the first settlers of New Haven. He protected the regicides and supplied them with daily food, and first occupied these premises about the year 1550. The oaks were taken from the old Sperry place near the Woodbridge ravine. The ground was prepared and laid out to-day in the presence of Messrs. William B. Good-

year, Miles H. Goodyear, L. W. Sperry, N. D. Sperry, Selectmen Roland Newton and Stephen Bradley of Woodbridge, and the Rev. Mr. Marvin.

STRIKES HERE AND THERE. The Carpenters Claim That the Bosses are About to Accede—The Hartford Strike's Backbone Broken It was claimed by an officer of the Carpenters' union vesterday that several of the bosses had given in to the strikers. This was characterized as idle talk by some of the expects to receive \$7,500 to-day from the unions of the country. Men were yesterday stationed at the railroad stations on the lookout for imported earpenters. But six of them came to the city. The strikers assert that they can get work whether the bosses recog-

nize the union or not. The Strike at Hartford. HARTFORD, May 3 .- The threatened strike of the members of the Hartford Carpenters union No. 43, at five o'clock yesterday afternoon, was a failure. Of the 250 men employed in shops working ten hours, not over twenty obeyed the order of the union, and some of these returned to their old places this morning, with the promise that they would work ten hours. Not more than half of the 250 are union men. While the union claims that 150 men are only working nine hours, it is said by the master builders that nearly all of this number have been working in shops where shorter hours have been in force for some time, and that nothing has been gained by the strike. The builders re

port that not enough men have left them to interfere with their contracts. There is considerable jealousy between the Knights of Labor and the strict trades unions. The mode of government is different and each claims to be the better. The striking painters are members of the Painters' assembly, K. of L., and were united almost to a man; the carpenters are members of a trades union and were about equally divided on the nine hour demand. This is claimed by the Knights to show the superiority of their or-ganization. Outside of a regret for the ef-fect of the carpenters' failure upon the fight for shorter hours there is little sympathy from the Knights.

The fourth week of the painters' strike finds nearly all the men at work in union shops. A few have returned to their former places and are working ten hours, while the remainder are working nine hour.

Waterbury Strikers. WATERBURY, Conn., May 3 .- There is nothing new in the strike here of three hundred carpenters. Only some of the smaller men and taken about fifty of them back to work. The large employers met last night secretly, but it is understood to day that they are determined to fight it out if it takes

sure-The Anniversary Exercises-Alumni Meeting. The New Haven East association of Con gregational clergymen met yesterday morning at 10 o'clock in one of the lecture rooms of the Yale Divinity school. Candidates for licensure presented themselves at that time The following were licensed to preach, all being members of the middle class in the Yale minary: John Edward Herman, Warsaw, N. Y.: John G. Smith, Oberlin: Alexander Milne, Westerly, R. I.; James B. Reynolds, North Haven.

At the same hour the New Haven West association met in the Marquand chapel Thirteen received licensure as follows: John H. Muller, Zurich, Switzerland; Henry E. Bourne, Sharon and Ward T. Sutherland, of the senior class and H. H. Morse, Plants ville; Fred G. Greene; Charles S. Dinsmore Woodstock, Vt.; Frank R. Luckey, Pough keepsie, N. Y.; John C. Wilson, Philadel phia, Penu.; Empson Cory, Crawfordsville, Ind.; Frank V. Stevens, Vermontville, Mich. Charles Loomis, Charlestown, O.; Lewis F. John, Dayton, O.; and Charles N. Severance all of the middle class.

The anniversary exercises of the seminary will be held on Wednesday, May 18, in the Battell chapel. Twenty-six will graduate at that time. Of the class, some have arranged definitely where they will settle; some will engage in mission work in the West for the amer and a small number expect to ente the foreign missionary work. The examina-tions at the close of the present term will begin on Saturday, May 14, at 9 o'clock and continue until the Tuesday evening follow-ing. The alumni meeting will follow the

Bequeathed to Yale College The will of C. Wyllys Betts, who died re ntly in New York and who was a member of the law firm of Betts, Atterbury & Betts, has been admitted to probate. He gives to Yale college a cabinet of rare and ancient coins, some old cannon recovered from lost ships of the Spanish Armada, five antique carved wooden chests made in Connection in the seventeenth century and an old oaken chair brought from Lancaster castle. To the "Scroll and Key" society of Yale college he gives a remarkable collection of silver cups which once belonged to members of various royal families of Great Britain, a ollows: Oueen Elizabeth, one of 1569 an another of 1586; cups bearing date of 1667 1669, 1677 and 1684, once owned by King Charles II.; a cup that belonged to King James II., dated 1686; two cups of Queen Anne, 1702 and 1711, and several others of ater date and less interest. Many other imilar articles are given to relatives. Mr. Betts was born in this city and was son of Judge Betts, who lived opposite St. Paul's church on Chapel street where Mr. B. Shoninger now resides, and is now deceased. Americans are said to be a carcless, money spending people, who disdain or do not care to practice those small economies which the French and German nations, for example, find necessary. There is probably some truth in this charge, for in America money comes easier than in the old countries, and also goes easier. Yet America is the land of inventions, and of new ideas, and of universal progress. Among the new ideas, one which has occasioned a good deal of talk, is the adaptation of Lactart and Homey to the cure of coughs and colds. This preparation is put up by the Avery Lactate company of Boston, the manufacturers of the famous Lactart (acid of milk) and is meeting with wonderful success in the cure of coughs, colds, hoarseness and sore throat. Lactart being the pure acid of milk, compounded with honey in certain proportions, is found to possess a true curative power. There is nothing very mysterious in this result, for people have always been in the habit of using "a sweet and sour" for throat difficulties. But nothing in this line as effective as Lactart and Honey has before been tried. Dr. O. S. Sanders, one of Boston's distinguished physicians, writes: "I recommend Lactart and Honey for coughs, colds, sore throat, etc. It aids the bowels in constipation and has a like effect in diarrhea;" and his testimony is supported by many others. Lactart and Honey is exceedingly pleasant to take and is sure to benefit the user.

JOHN DILLON DEMANDS JUSTICE. Charged With Falsehood by the London Times He Demands that the Editor be Brought Up to Prove His Charge.

LONDON, May 3 .- Mr. Lewis, Conservative, in the House of Commons this afternoon called the House's attention to the breach of privilege committed by the London Times harging Mr. Dillon with having told a falseood when he denied the paper's allegations that he was an accomplice of Sheridan, the Invincible. Mr. Lewis concluded as follows: "These wholesale charges of lying against Mr. Dillon constitute a distinct breach of privilege. I move that the House take notice of them." Mr. Muntz, another Conserrative, seconded the motion. Speaker Peel answering Mr. Dillon, said that if the House decided that the article quoted by Mr. Lewis was a breach of privilege a motion could be made calling the offenders to the bar of the House to answer for their conduct in committing the breach. The Rt. Hon. W. H. Smith on behalf of the government moved that the House adjourn in order that the question of fact might be argued. Mr. Dilon said he desired to have the question brought to an issue right off. He denied the right of Mr. Lewis to take a course putting him on the defensive until his accuser was brought to the bar of the House. When the publisher of the Times stood at the bar he Dillon) would prove him as base and cowardly a liar as ever existed. (Parnellite heers.) Mr. Sexton said the Irish party had een challenged much lately and had been taunted with not taking up the challenge; now they took it up and insisted upon au in-

idea of their position, but beyond this it was absolutely impossible to make any attempt to reach the steamer. CLEVER JAIL BREAKERS. ix Men Escape From Confinement a Worcester.

Worcester, May 3.—Six men escaped fron

the county jail here early this morning. George A. Barton, serving time for polyga my, had been trusted to work in the corrido and cells and had a cell key during the day. Yesterday he had a fight with George French, another prisoner, and both were put in the solitary, where was also another prisoner The fight was part of the plot. The three men by the use of Barton's key, which had been concealed in the solitary cell, opened the doors and concealed themselves. At midnight, when Fred A. Hammond visited the solitary as usual, they jumped on him, bound and gagged him and locked him in a cell. The solitary is so far from the guard room and officers' sleeping rooms that no sound could reach there. With Barton's key three other prisoners were let out of the cells. They then went to the guard room and secured a jimmy and the Sam Perris jackscrew kept in the museum and returned to the solltary, where they could work without being heard. They pried the passage, where they tore the casings off from a door and entered the blacksmith shop. Here they attacked another grated window, pried the bars apart and got into the yard and over the fence and away. The watchman was seized at midnight and the men got off probably about 3:30 o'clock. The He is not much injured.

watchman was found about a quarter of 5. now they took it up and insisted upon an inquiry by the House. (Cheers.) Mr. Sexton, continuing, said it was for an assembly of English gentlemen to say whether for the future its Irish members were to be exposed to the attack of every ruffian calling himself the editor of a newspaper. The House should let the assailed members have an inquiry by committee. "Then," said Mr. Sexton, "let the Times bring forward its battalions of forgers and liars. The Irish members will prove that they have been subjected to a system of moral assassination. They will be able fully to justify themselves." (Cheers.) The men are described as follows: Harry ing that the unknown craft was in need of assistance. The ship was only about four hundred yards from land, but a heavy gale and a tremendous sea prevented boats being sent to the rescue. Torches and tar barrels were burned along the beach and bells sounded in order to give the imperilled people an idea of their position, but beyond this it was absclutely impossible to make any attempt to reach the steamer. The signals made from the shore could be seen on board and heart-rending cries from those in distress were covert method of accusation by one section. Brookfield. Casey was serving three years for burglary. A Mountain Rendezvous of Thieves. BAKER CITY, Ore., May 3 .- A deputy sher ff named Newman has found the rendezvous

of a band of horse and cattle thieves who for years past have committed depredations on the ranges of southeastern Oregon, particuclaimed any intention of postponing the de-bate for party purposes. If the publisher of the Times was at once called to the bar of the House the House would be unable to hear evidence in support of the charges Newman found himself in the midst of refagees from justice numbering twenty-five or thirty men well armed and equipped and ready to set anybody at defiance. The place selected is well adapted for this use. A series of small valleys lie between high cliffs and mountains, some of them affording an abundance of bunch grass for the stock. Their outlet is across the Snake river into Idaho and by this passage hundreds of cattle and horses are run off, from the upper counties and disposed of to unsuspecting purchasers in the States and territories East. addition of guards at the entrance the rendezvous of this band would answer well the description of the valley which sheltered the Doones in "Lorna Doone,"

Of "Shaun Rhue" an exchange says: This is a companion piece to "Kerry Gow," but is thought by many to be superior to it both in plot and action. It certainly gives Mr. Murphy a fine chance to display his ability as an Irish comedian. The situa-tions are all strong and so arranged as to give the whole company the fullest opportu-nity to show to good advantage. Taken as a whole, "Shaun Rhue" is funnier and comes nearer the popular idea of Irish comedy than

FOR POLICEMEN ONLY. thief Bollman's New Store-To Opened in the Police Building-The

Commissioners Dismiss the Charges Against Officer Stewart—Dr. Chesley Before the Board. The police commissioners met last night Commissioner Gallagher was ill and could not be present. Lewis J. M. Clair was examined for a position on the police force. Chief Bollman was instructed to buy cloth from a New York firm, so that the members of the force would not hereafter be obliged to go to New York to purchase their uniforms. The chief will therefore turn his office into a sort of clothing store and buy cloth by the wholesale and deal it out to the members of

the force as they may need it. Commissioner Benton made an amend ment. It was tabled until the next meeting of the board, according to the rule. It pro vides that all the members of the force shall have their uniforms out and made from goods o be furnished by the department at cost Charles A. Stevens appeared before the commissioners. He had had a little trouble with Officer Stewart and had made a complaint against him to the commissioners. Mr Stevens' little daughter Bessie, aged thirteen bars of a grated window open seven and a half inches with the jackscrew and got in a children's scramble in which they pulled each other's hair. The two live near togethe Officer Stewart arrested Bessie at the time. Bessie told the police commissioners last night that she had been attacked by Stewart's children. While defending herself against them Officer Stewart came out and took firm hold of her. He shook her hard and then choked her. That was the reason Mr. Steven made a complaint.

Officer Stewart to the commissioners sa that he did not choke the girl. He had not even slapped her. He said that for a long time his children had been shamefully abused by the Stevens children. This last time the Stevens girl had snocked some teeth out of the mouth of one of his children. He saw Bessie in the act of pounding his children, and had hurried out to stop the fracas. He thought his children had be maltreated about enough-seven years-by the Stevens children, and he had stood i but he thought, to put a stop to it, he would procure a warrant for Bessie's arrest. She had been brought before the City court and case nolled on payment of costs.

A Startling Fact.

It is not commonly known that a large proportion of the rheumatism and neuralgis extant is traceable directly to the diseased condition or imperfect action of the kidneys and liver; therefore a remedy which cures the resulting disease must have found and smitten the first cause. Many persons using Athlophoros for rheumatism and neuralgic have been surprised to find that chronic dis-orders of the liver and kidneys have also been greatly relieved and they have written for an explanation. The fact is, that the remedy acts directly on these organs, clean ing them from all irritating substances and regulating their action. Taken in connection with Athlophores Pills this is, without exception, the most valuable kidney and liver remedy in the world, and will cure a large proportion of those who have these disease

It is owing to Athlophoros that I am alive I have suffered with inflammatory rheuma tism for years, most of the time being per-fectly helpless. But one bottle of Athlo-phoros has cured me. NEW HAVEN'S ADJUSTMENT BILL It Comes Before the Senate at Hart. ford and is Killed-To be Referred Back to the House-A Date Fixed For Final Adjournment - Bills Passed by the Senate and House-Senator Gallagher to Endeavor to Secure Barges on the Free Shipping List-The Free Pass Bill Again. HARTFORD, May 3.

[Special to the JOURNAL AND COURIER.] The legislature will adjourn May 11 at four months and over occupied seats in Connecticut's finest. The farms of the farmer members of the House will soon receive their much needed attention and only too soon the agricultural statesman, who for so many weeks has mingled with railroad magnates, senators and other notables may be seen trying to catch up on his corn planting SENATOR GALLAGHER OPPOSED.

The bill concerning taxes, assessments and liens in New Haven was acted on in the Senate this morning. Senator Walsh, chairman of the judiciary committee, explained its provisions and said that persons in authority had advocated the bill before the committee which resulted in the favorable report. Senator Gallagher arese and said the bill was en-tirely uncalled for and that there was no need for any such act. He then moved to indefinitely postpone. Senator Graham endorsed the view expressed by Senator Galla-gher and hoped the bill would be voted down. The nays carried and the bill was killed. It will now go to the House. The most important sections are as follows: Sec. 1. The board of aldermen of the city New Haven, the board of selectmen of the town New Haven, and the board of selectmen of the town New Haven, and the board of education of the N Haven city school district, shall each, on or bef July 1, 1887, elect by ballot one person, who si be a member of the board electing him, to be of a committee to be known as the tax committen to hold office until July 1, 1888.

TO PREVENT DISCRIMINATION. The bill to prevent discrimination of pas senger rates by railroad companies, which was defeated in the House, was passed in the Senate this morning. There were no dis-senting votes. The bill now goes back to the House for concurrent action. The House will not change its action. The text of the

bill is as follows:

Section I. No railroad company in this Statshall carry or offer to carry any person upon i road or over any part thereof free of charge or a lower rate of fare than that at which the san right or privilege is offered to every other person or shall, by its agent, servant or officer, give offer to give to any person any pass or tick whereby such person shall be entitled to ride any part of such road in this State free, or at lower rate than is demanded of every other person Sec. 2. The provisions of this act shall not apple to any railroad officer or employe, or to any State official whose duty it is to inspect and report the condition of the railroads of this State.

Sec. 3. Any railroad company violating any of the provisions of this act shall forfeit to the State not less than one hundred nor more than five hundred dollars for every such violation, and actions thereon shall be brought by the State's attorney for the county in which such violation occurred. bill is as follows: Senator Walsh said the bill ought to pass

The Market Not Very Brisk-Western Union the Principal Point of Attack— Reading and New England Also Raided-The Market Closes Bull and NEW YORK, May 3.

The stock market to-day except for three or four

tocks was fully as dull and featureless as yester-

day, although the operations in the few active

stocks gave more character to the trading. There

was no news of importance and the operations were little more than the manipulations by the cliques and the usual purchases and sales by the room traders. Fluctuations in the general list were unusually small. Western Union was the principal point of attack in the forenoon, but gave place to Reading and New England. Many conflicting stories in regard to the first named stock continue to be circulated. The efforts to depress New Eng and met with but small success to day and it strength in the forenoon was, considering the influ ence brought to bear against it, somewhat remarkable. Fort Worth and Denver was the most conspicuous strong stock of the day, but it had no effect upon the general list. Money was again bid up in the afternoon and in conjunction with the ad vance in sterling rates of exchange had some little effect upon the market. The opening this morning was generally firm, most stocks shewing advances of the American public. The stomach of from 16 to 16 per cent. The market soon weak ned, however, and fractional declines were estab lished in the general list, while New England was specially weak for the first few minutes. A gen-eral rally occurred before noon, although Western Union continued weak through most of that time The fluctuations in the general list were confined within a range of % per cent, and after 12 o'clock the market became extremely dull. Fort Worth and Denver was strong and the general list re-sponded feebly, but later the improvement was entirely lost, the heavy tone prevailing until near the close, which was dull and Gatureless. Money loaned at 454a7. The closing rate was 3 per cent.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocca, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills It is by the judicious use of such articles of diet that a constitution may be gradually built up untilstrong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
