for any trace of the qualities which once made it what it was. It is deplorable. There seems to be nothing left of all that was once so fascinating, so enviable, so unap proachable by less lively and clever people. The newspapers are no longer trifling, clever and bright; they are either savagely personal or intolerably dull. The Figaro, for in-stance, which under M. de Villemessant was the umbrella, as he, citizen No. 2, had but a so original and so brilliant; has fallen into step to walk. The parrator says that he reknocked all the brains out of it till it is dull as ditchwater. The Journal des Debats and the Temps are solemn and silly, most solemn and most silly above all in foreign affairs, now with bludgeons; it has descended from the refinements of the salon to the coarse accomplice to escape. I can not describe fashions; I only know what I like; and I know that, instead of being forced into admiration of whatever fashion the Parisian woman chooses to adopt, as once I was, I now see nothing in it either new or admirable—no, nor anything approaching the garb of our own dowdy, fresh, human English women with their cloth and cotton. There is a vast deal of ornamentation, but there seems to be no idea in their dress here. The headgear consists either in a hat with a broad brim broken down on one side and turned up at the other, or in a particularly ugly bonnet surmounter

"Who buys rattlesnakes, and what on earth do they want with them?" you ask. Why, for use in the manufacture of the new cure of rheumatism. A firm in Philadelphia uses the oil in their remedy, adelphia uses the oil in their remedy, and pays a good price for every rattle-snake delivered at the laboratory. Mr. Stover has contracted with the firm to furnish them two hundred and fifty of that

Sunday the sun shone cut bright and warm, which brought out the snakes in large numbers to bask in the warm rays, and, as Mr. Stover said, would be a good day to take a stroll over "rattlesnake for-ty." Procuring a good stout stick and donning a heavy pair of boots, your correspondent joined Strover and Dunn in the hunt. Dunn is a comparatively new man in the snake business, and has had several narrow escapes from being bitten by deadly reptiles, but he is learning fast. To show us how easy it is to kill a snake, he picked up a blue racer by the tail that was lying coiled up in the sunlight, in a half comatose condition, and giving it a couple of whirls over his head in a lightning manner he gracked it like deadly reptiles, but he is learning in a lightning manner, he cracked it like a whip, causing its head to part from its body and spin through the air. Proceeding a little further we came to "the mounds," little raised places on the snake farm, where the snakes burrow in winter and breed in summer. There are thirty seven of these mounds on the farm, and on the south side of one of the largest of these, where they could get the full benefit of the sun, lay coiled up, sound asleep, forty-

and or "La Chatte Sianche," the plays that delighted us when we were scarcely out of our boyhood. There are play-goers enough here; but the authors—aye, and even the ac-tors and actresses—are wanting; and bad as the play is in London, it is fresher and more clever and altogether better than the play in Paris, which we Londoners once deemed so unapproachable.

As to books there are none. The days when every week produced some new work of art, if not of genius, from Octave Feuillet Edmond About, Gustave Droz-the days o

> he is simply coarse and fithy; and the only book of any originality that the last few years have produced is Daudet's "Tartarin sur les Alpes," which is indeed quite up to the old form. But what is one book? And where are the new men? I can neither see nor find any trace of them. There is indeed a certain Guy de Maupassant who writes nov-als infanior and less desert than Famillat, but formerly pre-eminent and unapproachable, the great city has in fact disappeared. There is still the same immense and amusing selfconceit, still the same lordly contempt for every created thing that is not a "Boulevard-

Nor is it better, so far as I can judge, with regard to fashions. The Parisian glove and the Parisian boot are still pre-eminent I believe, but the dress of the Parisian woman of fashion seems to have lost its charm as comfrancs. Paris may still be believed in by those who know it or have heard of it as it was; to many it is still a convenient and ready fetish used in moments of irritation to compare with our dull old London; but to those who have known it in former times Paris has gone, and in its place there is nothing but a Jew-ridden, money-grasping, owl-crowned ruin of a city, inhabited by Anarchists and Paris can no longer make even a bonnet or a joke, and it never could make anything else. Dear Paris has disappeared, and there remains only poor Paris. Where and there remains only poor Paris. Where then, alas! are we to go when we would be wicked and amused?

The Early Days of New England. Rev. E. E. Atwater, of New Haven, read an interesting paper on the "United Colonies of New England" before the Historic Genealogical society at Boston Wednesday He said that the reason why Rhode Island did not join this primitive confederation in New England was that she did not want to join it, and the other colonies did not want her to join. It seems, however, that Rhode Island was willing to unite for the common purpose of defense against the savage, but the feeling of distrust if not downright hatred against the Roger Williams settlement was so intense that the request to enter the league was denied Rhode Island. It is a league was denied khode Island. It is a curious instance of the tenacity of historical distrust that the coldness between Rhode Island and Massachusetts lingered until this century, even in the face of political union and the common perils of war. It was stated by Dr. Cornell in the discussion that followed the cover that he experienced this lowed the paper, that he experienced this distrust when he was a student in Brown university. He applied to the president in behalf of himself and other Massachusetts students to be excused from duty upon the students to be excused from duty upon the annual Massachusetts Fast day. The president consented after a reference to the "peculiarities of Massachusetts" upon condition that they should request the steward not to provide them any meals on that day.—Springfield Republican.

THE STRIKES.

The Striking Carpenters in This City-Would Not Work With Italians-At tempt to Set Fire to an Italian Board ing House.

The striking carpenters held another meet ng yesterday morning. They reported no change in the situation. The Central Labor nion on Sunday voted to contribute \$110 to the building trades of this city to help the strikers.

The carpenter work on quite a number of buildings in the city is delayed owing to the

Boss plumbers in this city yesterday speaking of the plumbers' strike in New York CPNTS. ONE WEEK, 15 CENTS; SINGLE said owing to the failure of that strike as many New York plumbers could be had as were wanted here and that it was a long and bitter strike and was aided by the other ouilding trades, over 1,200 plumbers being out on strike for a long time. Other men were, however, obtained until at last the STRIKE IN SOUTHINGTON.

Southernorm, May 9.—This morning at about ten o'clock eight boys or young men at the Ætna Nut company's rolling mill went on a strike because the company would not discharge five Italians who worked in the mill yard. Saturday afternoon an Italian struck with iron tongs Patrick Welch, who was under the influence of liquor, and this is the reason why the demand was made that the five Italians be discharged. The strikers said that they would not work with Italians because they would not work with Italians because they were too treacherous. George B. Finch, treasurer and general manager, said that the eight boys demanded the discharge of five Italians who were in no way connected with the assault made upon Welch. He would not for a moment entertain proposition. such a preposterous proposition The Italians were honest, faithful, industri ous men and always minded their work. If ous men and always minded their work. If
Welch had not been drunk and had not meddled with the Italian he would not have received the blow. In the spring when the
mill hands requested an advance of ten per
cent. in wages it was granted, but such a demand as this present one could never be acceded to. The eight hands are employed on
the eight and ten inch train of mills and
their release semptor readily he filled and this their places cannot readily be filled, and this puts the company to much inconvenience. It would not be surprising if the strikers should pay attention to good advice and go to work

During Sunday night an attempt was made to fire the Italian building at the foot of High street. A number of rags were found blazing in a box close to the building.

JOTTINGS BY THE WAY. Prominent New Haven Gentleman's Trip in Southern California-Two Years of Journeying for Pleasure in Colorado and California-Glimpses of Santa Barbara, Canons, Valleys, Ocean Shore Rides-A Startling Discovery and a Very Fortunate One-

> nearly two years in California and Colorado has given some opportunities for observation. A drive from the present connection of the Southern Pacific road from Los Angeles at of aldermen. Newhall, thence through "The Ohi valley" spelled "Ajai", one of the most beautiful and well renowned valleys in the "great State,") to Ventura upon the Pacific ocean, is only equalled by what I may hereafter S. Thompson; for top dressing of Howe stree state. Then highly interesting is a side drive through the famous Camalos ranche, where the scenes of Ramona's famous stories were founded, all of intense and equal interest, as pictured by "H. H.," Helen Hunt Jackson, in Ramona. The famous residences, the identical fields of mustard through which one can ride horseback and not be seen, the little chapels, all in sight, as also the residences and the various canous of the mountains, numerous here as is the case all over California—all these meet the traveler's eye and claim his attention.

California's Wonderful Climate.

SANTA BARBARA, Cal., May 1 .- A stay of

But to return to the trip. We drive on-ward from Ventura to Santa Barbara on the ocean beach, driving from fifteen to twenty miles, our wheels frequently in the water and the ocean waves fretting about the heels of our four-in-hand and occasionally rolling n shore with much spirit. Now and then we turn a rocky point and mentally wonde how the driver does it so neatly and rejoice that we have trained horses and experienced

drivers. On we go, here and there turning out for big boulders. The Southern Pacific Railroad company is building its road to Santa Barbara by this route and it is now nearly finished. Cars will run on it in a few months, thanks to the 1,000 Chinamen whom we saw at work nearly as high up as the top of East Rock, excavating a course for the cars on the side of the mountain, rolling down rocks of the size of many which we passed which had taken a similar plunge at the hands of these busy bees and now strew the beach.

Fifteen miles more and Santa Barbara is reached. Santa Barbara is beautifully laid out in blocks of 450 feet at right angles; surrounded by the mountains, offering more beautiful sites than can be imagined, except by one used to the wealth of natural attractions in this part of the world. The drives are without number and alluring; the climate always genial. The hotels are unable to ac-commodate all who would like to be there. The Spanish population is quite considerable. But to pass from Santa Barbara is now he question. We have taken the drive over the question. We have taken the drive over the beach on the ocean three times. What next shall we do? We will go over Cazitas Pass, equally wonderful but of a different kind—a high mountain road affording great delight to the lover of fine scenery. The Cazitas Pass having been accomplished and disliking to take a back track, enquiry is made if no other route is practicable. Yes! Over the Southern Barbara mountains, two

Over the Southern Barbara mountains, two thousand five hundred feet elevation, through the Fremont or San Marcus route; or through the Gariota Pass, which is not as bard but is larger. The first is decided upon. With a four-in-hand on a splendid morning the trip is begun. It is twenty miles around and it is two thousand five hundred feet upward. As we ascend the old missions and the hotels can be distinctly seen. The ascent is heavy, where grooves have been cut for horses' feet for miles. We walked a distance and after

inching the trip was resumed.

The ascent required nearly six hours. The descent on the opposite side, through such rocks as are only equalled in the Garden of the Gods, required but one-half that time.

Fortunately at the only house within ten miles either side the occupants discovered "Santa Inez." It rained that night and one of the party slept calmly in a pool of water which had leaked through the roof. But all

ended in great fun. But such glorious sights of mountains, of Luis Obispo" by railroad, then by team through and over another mountain pass towards "Passo Robbs." We pass through the Patrick Murphy ranche of fifteen or twenw miles in extent and the Bradbury ranche of ten or sixteen miles in extent, entirely unenltivated, but used for grazing. I can give contivated, but used for grazing. I can give no idea of it except by comparing it to a pri-vate gentleman's park of oaks of a hundred or more years' growth. "Passo Robbs" is destined to be one of the noted watering places of the Pacific. It is already a well

nown resort. Through all this country to Santa Cruz the route is one of special beauty. For one hundred or two hundred miles the land s susceptible to great production.

The Southern Pacific railroad is extending to branches thitherward and then the region. will bud and blossom. At present it is as nature made it. But the interests of parties will soon develop its resources. Along the Salinas river are already towns of prosperity

which will multiply, as has been the case in other similar localities. The rapidity with which towns have prung up and are springing up in Southern Salifornia is magical. One must see it to be onvinced. The smallpox scare did not keep

people from coming to Los Angeles where we passed four months of the healthiest part f our existence. The trip to "Ajai Valley" probably saved is from the fire at Del Monte, as otherwise we should have been there instead of having been in Santa Barbara and learning in the express office that the fire was just then rag-

Many of our friends were there, and their plight was truly pitiable as we have learned from their own lips.

The climate of California is truly wonderful; too much cannot be said in praise of it; and yet many who arrived during the wet season of February this year—generally two or three months earlier—were disgusted and wished they were home in the East. I could write for a month about the beauties and wonders of this region, but perhaps this will do to show New Haven friends how we like

Many petitions

were granted in concurrence with the board

Petitions were referred as follows: For building lines on Reynolds street, Ellsworth avenue, Norton, Nott, Hobart and Brownell streets; for renumbering Pearl street; of S. and Howard avenue; of George P. Miller fo services; for crosswalk on north side of Laurel street, corner of East; for curbing and grading of Grace street; for top dressin of West street, from Columbus to Congres avenues; for hardening and top dressing Oak street, between Park and Greenwood streets: to amend the walk for a sidewalk on Ann street; for a sidewalk on Cedar street, be tween Washington street and Columbus ave nue: for a crosswalk on south side of Beach street, corner of East street; for a sewer in Prince street, between Lafayette and Hill streets; for a sewer in Woolsey street, be-tween James and Lloyd streets; for a sewer in East Pearl street, from Grand avenue to Exchange street; for a sewer in Dixwell avenue, between Munson and Henry streets; for Bristol street, between Dixwel avenue and Canal street: sewer in Lafavett street, between Congress avenue and Princ street; of Fire Marshal Kennedy for mor exits for Carll's Opera House; for grading Gibbs street; of Alexander McDonald as special constable; report of board of compen-sation on pavement on Whitney avenue, from Sachem street to city line.

The following was read from Patriarch Militant, I. O. O. F.: Hon. Samuel A. York:
Dear Sir—You are respectfully invited to be present with the Court of Common Council and other city officials and review the Third brigade division of the east on Wednesday, May 25, at 4 p. m. in front of the City Hall.

C. B. FOSTER, Brig. Gen. The invitation was voted accepted. Extraordinary expenses of the board of ealth were referred to the committee on finance with power to act.

The proposed ordinance de firing of cannon was indefinitely postponed. President Kleiner stated that although the ordinance passed it would not have the desired effect as the matter is entirely regulated by statute.

The petitions of the Grand Army veterans for an appropriation of \$1,500 and of Grand Army posts of this city for \$300 for use of June 17 were passed in concurrence with the

SEASIDE PROPERTY Exceptional Opportunity.

THE owner offers for sale about 10 acres—the largest undivided and most beautifully the largest undivided and most beautifully Woodmon!—over 560 feet shore front.

ADVANTAGES—it can be reached so easily and quickly—only 23 minutes from New Haven to the shore. One mile from N. Y. & N. H. RR. station, postoffice and telegraph office; 17 trains daily. It has a charming slope from the rear to the bank on the shore, which is 8 feet high; thus every foot of it overlooks the Sound. If you want a lovely place for a summer home, with ample grounds for walks and drives, commanding views, high, dry, quiet, healthful, no dust, sea breszes, adjoining the water, bays on either side, this is the place. If two or more persons wish to unite, this is their opportunity. One-half can be bought (conditionally).

FACTS—Woodmont is growing fast. \$250 was paid for a lot now valued at \$4,500. Land near by selling for \$20 per foot 100 feet deep. A few years ago only one cottage, now over 60. A lovely Union chapel erected last year. A large, new hotel and three new cottages now being erected. More than half the shore front already occupied. The price of 100 feet square at Savin Rock will buy this elegant site. The adjoining property sold recently for \$4,000, divided last spring and five of ten corner front lots sold. They sell for \$15 per foot 100 feet deep, while this has an average depth of 784 feet, (rising ground), AND ONL Y \$22 PER FOOT.

A REPUBLICAN WARDEN. Birmingham's Borough Election Yes

terday-A Resume of the Situation

The Result of the Voting-An Impor tant Borough Election. BIRMINGHAM, May 9 .- To-day the free men of Birmingham determined on their borough officers for another year. It is not every spring that the public pulse beats rapidly on such an election. In fact there is little excitement felt, particularly among the Republicans, who are in a minority. The Democrats cross swords in the caucus and are sure of election if the copes for a nomination are dexterously handled. This year the situation has been strangely interesting. The bone of contention is the wardenship, the office of burgess being a non-lucrative sinecure. It was safely predicted on the delaration of the retiring incumbent of the nayoralty that his name would not appear to ead another ticket, and the many friends of George S. Arnold were assured of the latter's successful candidacy (although a Republican) when McManus was no longer his foe. At the Democratic caucus the name of McManus was again perched on the Democratic gonfalon and a ticket running as follows adopted: DEMOCRATIC TICKET.

For warden - Patrick McManus.
For burgesses - Thomas J. O'Sullivan, Edvendon, William Houlthan, E. F. Schmidt.
For bailiff - John W. Nolan.
For treasurer - Charles H. Coe.
For assessors - John J. Leonard, Robert May. None of the burgess candidates have had any experience—two of them conduct a saloon for a livelihood, one is a doctor, the fourth is a superintendent in the Bassett fron foundry and earnest for the good of the public school in this district. The peculiar combination or surprise was the consent of McManus to run after the presumably honest desire on his part, as put in language, to quit the field. McManus had never objected to a place among the aldermen and the Republicans were quite willing to accord him heir support there. The pressure of friends, it appears, was so vigorous that the honor was not declined, and when the polls opened the ballot was spread with the ticket as bove given and the following or citizens ticket to beat it if possible:

For Warden-George S. Arnold.
For Burgesses-Albert W. Phillips, Noyes D. Baldwin, Almon B. Glover, Charles N. Downs.
For Assessors-Sidney A. Downs, John J. Leonurd Robert Man. Baldwin, Almon B. Glover, Charles For Assessors—Sidney A. Downs, ard, Robert May, For Balliff—John W. Nolan. For Treasurer—Charles H. Coe.

The result of the four hours' voting was the triumph of the straight Republican tick-et. Arnold for warden received 220 votes; McManus, Democrat,got 174. The following are the elected burgesses, the first four being Republicans: Phillips 207 votes, Baldwin 171, Glover 205, Downs 175, and O'Sullivan 182, Condon 185, Houlihan 198.

These newly-chosen officials will probably organize as a board this Friday eve. At this session a borough clerk, collector and chief of police are to be chosen, as well as the vapolice departments and nuisances. SILVER WEDDING Joyous Affair at the Residence of

The committee considered the names of ignitaries to whom invitations will be exnded for the armory reception on the evening of June 16th. A few of those who will e invited are: Department Commander Henry E. Taintor of Hartford, Commandern-Chief of the Grand Army Lucius Fairchild of Madison, Wisconsin, members of ommander Taintor's staff, Governor Lounsoury and the members of his staff, General Sherman, Sheridan, Terry and Hawley, Ad-niral Porter, H. Clay Trumbull, the fighting parson of the Tenth Connecticut; General George B. Dyer of Boston, General Fred T. Locke of New York city, General C. A. Carlton of New York city, General Henry W. Birge of Red Bank, N. J., General Horatius G. Wright of the Sixth Army corps; Rt. Rev. Bishop McMahon, who did gallant service Bishop McManon, who did gallant service during the war in a Massachusetts regiment; Captain C. A. Stillman of Hartford, Ensign Aaron Vanderbilt of West Brighton, L. I., General A. Cady of New Haven, Major Lyman Bissell of New Haven, Major B. S. Corbin of Brooklyn, Corporal Joseph Tanner of Brooklyn, General Brayton Ives of New York city, General E. S. Greeley. The above is only a partial list of those who will be invited on the 16th. The committee has decided to invite all the Grand Army organizations of the State. The question of inviting the members of the C, N. G. to the reception has not been fully decided on yet. The armory will undoubtedly be filled to its utmost ca pacity in either case. The chairman and secretary were authorized to invite distinguished guests.

The petition, in due course of time, was referred to the committee on bath houses. Shortly before the committee considered the petition some of the members received anonymous communications which tender to place Mr. Reynolds in an unpleasant light before the committee. The writer of these letters, which were disgraceful in the extreme, has not been discovered. The aldermen voted to appoint Mr. Reynolds, but the council las evening voted to recoramit.

FAIR HAVEN.

The Borough Election Yesterday-On ly one Ticket In The Field-Other Notes of General Interest. Yesterday would hardly have been known as election day in Fair Haven. The annual election of borough officers took as there was only one ticket in the field there was little chance for any electioneer-ing. The ticket elected was the one printed in the Courier last week and was headed by the name of Captain W. A. Wright for war-den. This is considered a very favorable ticket to the advocates of the fire depart-ment, and they expect to see still further

mprovements in the apparatus and equip Miss Mamie Bradley of North Quinnipia street, daughter of I. N. Bradley, who has been ill with heart disease for some time, was very low at last accounts and hardly expected to recover. Charles H. R. Miller of Springfield, Mass was in town last night.

The Yale University crew are rowing in fine form this year, the old boatmen say, and they ought to know as they have watched every crew critically for years. Mrs. Parsons, of the Annex, is visiting friends in Worcester, Mass., for a few weeks. Tickets for the Grand Army benefit at Bunnell's Grand Opera House may be found at Alvah Granniss' restaurant. A farmer's team from Northford ran awa on North Quinnipiac street and created con-siderable excitement for a time, but was finally captured before any harm was done.

In this court Saturday on the application of M

Morwin to be made guardian of Jesse R. Franci even years old, the court found upon enquiry tha the father of the child, who is in another State, had never paid a dollar for its support after the divorce had been granted, although the order of court called for \$10 per month, and the custody of the child was in consequence given to Mrz. Merwin, its aunt. In several of the papers the report was that the child was given to another party. Court Notes.

To pronounce his impersonation a flawless gem is but the obvious duty and plain justice of criticism Mr. Booth seems at his best this season. His step is light and quick, his action animated and his voice fresh and resonant as in earlier years and he seems to have cast away since last year the burden of a decade. His sup port was excellent, Mr. John Lane giving nanly ring to the lines of De Mauprat Emma Vaders acting Julie gracefully and with delicate reserve." Mr. Booth invests the curse scene with a terrible grandeur. His eyes flash, his whole being seems to struggle against his failing strength for the final blow, and his trembling voice grows steady

The play will be pre-sented with a most excellent cast comprising several superior artists from the metropolita theaters.

A Startling Fact.

It is not commonly known that a larg roportion of the rheumatism and neuralgi-extant is traceable directly to the disease ndition or imperfect action of the kidney and liver; therefore a remedy which cur the resulting disease must have found an smitten the first cause. Many persons using Athlophoros for rheumatism and neuralgia have been surprised to find that chronic dis-orders of the liver and kidneys have also been greatly relieved and they have written been greatly relieved and they have written for an explanation. The fact is, that the remedy acts directly on these organs, cleans-ing them from all irritating substances and regulating their action. Taken in connection with Athlophoros Pills this is, without ex-ception, the most valuable kidney and liver remedy in the world, and will cure a large proportion of those who have these diseases,

It is owing to Athlophoros that I am alive.
I have suffered with inflammatory rheumatism for years, most of the time being perfectly helpless. But one bottle of Athlophoros has cured me. Tuesday, May 10, 1887. NEW HAVENS IN SECOND PLACE. Defeated Vesterday by the Hartfords— Young Weckbeeker's Fine Playing— The New Havens Sadly in Need of ing of Canfield-Other Games. New Haven six.

That is good, isn't it! Hartford ---. Whisper it gently, please. Hartford thirteen. And so it was. The result of yesterday's

game turned out badly for the home team. There were about 2,500 people on the ground, the largest that has been there to a game yet this season. In the grand stand were many ladies. The New Haven team started off well, and consequently got the expectations of the spectators up to a high pitch. It was in the sixth inning that New Haven lost the game. The team seemed to get demoralized. The makeup of the team was changed. Weckbecker, the new catcher, went behind the bat, and Murphy played short stop in place of Donnelly. The change at short stop did not seem to help matters any, in fact, Murphy played a prefty poor game. Lauten. Murphy played a pretty poor game. Lauten-bach in this inning muffed a fly which clearbach in this inning muffed a fly which clearly belonged to Leary, but Captain Troy called out for Lautenbach to take it.

Up to the sixth inning it was a closely
contested game with the New Havens one
shad. After this the Hartfords seemed to
get onto Lautenbach's pitching, and the loud
coaching of the Hartfords seemed to make
him at times wild in his delivery.

new members last evening. Ike Bromley '81 delivered the address. Weekbecker led New Haven at the bat and Farrell the Hartfords. Every time Weekbecker went to the bat, excepting once, he made a base hit. Farrell made two singles and a home run. Sullivan made two three-Westville, the following officers were elected: The New Havens were first to the bat.

The New Havens were first to the bat.
Troy led off with a three-bagger, and Burns'
singles to left field brought Troy home.
Burns, in attempting to steal second, was
put out. Then Mellon made a two-bagger
and the crowd yelled with delight to think
the New Havens were batting Gruber's
pitching so well. Crowley flew out to Dicharge of the parish during the past year, was unanimously elected rector, and a vote of thanks was tendered him for his services, which have resulted in bringing to the parish greater prosperity than it has had in years vens. Leary made a base hit on which Mellon scored. Brill was thrown out at first. In this inning Hartford was blanked.
In the second inning Murphy went out at first. When Weckbecker, the New Haven's A committee was appointed to take charge of painting the church and rectory, funds for which have been raised by H. C. Pardee and new catcher, stepped to the plate he was cheered. The very first ball that came through he hit and made a clean base hit. Gruber made a motion to pitch the ball and the ladies of the Parish Aid society. Weckbecker started for second. But Gruber made a clean balk, and turned around and threw the ball to Farrell. Weckbecker Officers of the St. Patrick's Y. M. L. A.

threw the ball to Farrell. Weckbecker stopped rnnning at this move and Captain Troy asked Umpire Canfield if it was not a balk. Canfield, to the utter astonishment of everybody, called Weckbecker out after Brady had touched him with the ball. In Hartford's second inning Sullivan started off with a three bagger and came home on Hackett's out to Burns.

In the third inning the interest becan to months: President, James B. Martin; vice president, John J. Lane; recording secretary, A. J. Bowen; financial secretary, John Mc-Namara. The following were elected mempers of the board of directors: Charles Splain, In the third inning the interest began to wax warm. Divens was hit by the pitcher, and he went to second on Beecher's base hit. Then Murphy played a neat trick. Johnson batted a fly to him at short stop. Both Divens and Beecher thought of course that he would catch it, but he didn't. He dropped it and then they will be the story. William Tobin, Edward Purcell, George Goebel and John Cohane. The association voted to charter the Elm City for its seventh annual excursion for Thursday, August 11, to New York and Coney Island. It promises he would catch it, but he didn't. He dropped it and then threw it to Troy, who threw it to Leary, making a double play. Both Divens and Beecher were forced out. Johnson, however, got first. Leary fumbled Sullivan's hit, and on a base hit and attempted put out Johnson and Sullivan scored.

Leary, in the fourth inning for the New Havens, grasped the willow, bound to hit the ball, for Hartford was now alread. He was hit by the heally stole to second and to surpass any of its former excursions. STATE CORRESPONDENCE.

however, got first. Leary fumbled Sullivan's hit, and on a base hit and attempted put out Johnson and Sullivan scored.

Leary, in the fourth inning for the New Havens, grasped the willow, bound to hit the ball, for Hartford was now ahead. He was hit by the ball, stole to second and came home on Murphy's and Weckbecker's fly outs to center and right fields. The score was now even.

In the next inning Burns made a base hit and got away round home on Brady, at first, letting a ball go by him thrown by Gruber.

The Hartfords were blanked.

The Tuttle Brothers' Printing company elected officers for the ensuing year: President, F. C. Bradley; secretary, George H. Cooper; treasurer, Fred, Blakeslee. This company is doing a good business. A dance was enjoyed in the sixth district one evening last week. Hamden, Wallingford and Cheshire were all represented. Fred Warner was the musician. Refreshments were served and all pronounced the occasion a very happy one. Miss Annie Pierpont, for the last tour years employed at Joseph Pierpont's store, left on Friday for her home in Waterbury and is not to return.

He got to second and Brill to first because Farrell lost his head and did not cnow which way to throw the ball. He could easily have made a double play. Crowley stole third and came home on Weckbecker's pase hit. But the sixth inning, which is a bad one or the New Havens, was no exception this ime. Sullivan made another three bagger.

Farrell, the next man to the bat, hit the ball for a home run. Then a passed ball by Murphy gave Hackett his base. Murphy threw Leahy out at first. Gruber hit a high fly. It was clearly Leary's ball, but Captain Troy called out for Lautenbach to take it. He muffed it and another error by Murphy off Brady's hit and a base hit by Divens gave the Hartfords three more runs. This irtually settled the game. The New Havens made their last run in the last inning. Weckbecker, for the third time, made a base hit. He stole to second, Flower thieves have begun work in Hartford Boys have been seen to reconnoitre private ground and then to rush in and snatch flowers by the hand fuls, tearing up shrubs and tender plants in doin so and traupling on the flower beds. They need prison cell for a few days, and came home on Lautenbach's drive to center field. For one thing the game was notable, and

General Thomas McManus was given a complimentary banquet at Hartford Saturday night, the occasion being his contempiated departure from that city to accept a responsible position in the Treasury department at Washington. Hon. William Hammersley presided, having General McManus on his right and the Hon. A. E. Burr on his left. A number of good speeches were made. that was the utter ignorance of the rules dis-played by Umpire Canneld. New Haven did not lose the game on any of his decisions, so that is not the reason we refer to him. As the game progressed Canfield seemed to get more and more into the mire of imbecility. "That man will never umpire another game where Hartford plays," said Manager Daniels of that team. "He don't know how to umpire a game of ball. Both sides are getting it healts." Preparations are being made for the State Saer gerfest, which is to be held in Waterbury on Jun 20 21. On the 20th the singing for the differen prizes will take place at City Hall. Although Hartford was then five runs ahead, Daniels was riled, and rightly. Captain Troy got out the rules, but he could not convince Canfield of anything. It would be a most commendable act on the part of somebody if Canfield was relegated back to Bridgeport and made to stay there. He has no business whatever to umpire. Dog poisoners are at work in the vicinity of the South Green and have already killed off some the best dogs in that neighborhood. On Saturd Mr F. W. Shackley, the farmer on Park streswent into that neighborhood on an errand, takin with him his noble Newfoundland dog Jack. Fro the box, but he shouldn't be blamed for it, as it is quite evident that he is pretty well worked out. He is not an old experienced pitcher and he has done remarkably well to with him his noble Newfoundiand dog Jack. From there he went home and in an hour the dog was dead. He had undoubtedly picked up poisoned meat while Mr. Shackley's attention was drawn away from him. The dog was a splendid animal that money wouldn't have bought and the sneaking cowardice of some mean person has worked a very cruel piece of mischief.—Hartford Courant. old good the responsibility put on his houlders since the season opened. THAT SUNDAY DOG FIGHT. The following is the score:

WATERBURY, May 9.—Opposing Waterbury sport ing factions fought dogs at Meadow's End, near Bridgeport, yesterday at noon for \$200. One side showed a New York white bull owned by John Cas and weighing thirty-five pounds, the other a lemos and weighing thirty-five pounds, the other a lemos and white bull weighing sixty-seven pounds, a New Haven animal. The big dog shook his adversary around the pit "like a dish-rag" for nearly twenty minutes when the little fellow began to get the upper hand and inside of four minutes had punishes the big one so severely that he refused to scratch and lost. The fight was to have come off Saturday evening, but the big dog failed to show up and dis appointed one hundred men, sixty of whom wer from Bridgeport, where the men met and rearranged the fight yesterday. The winning dog is matched to fight again in New York May 30. HON. DWIGHT MARCY.

AN ANSWER DEMANDED. Tale to Play Trinity To-Day at the Is There a Hidden Cause for Most Suffering? & Careful Investi-Field-Professor Thompson on Pro-

gation.
The inhabitants of Boston and New England have been considerably awakened the pastweek over some important facts which have come out in articles in the papers as Yale will play Trinity at the Yale Field to the real cause of most modern diseases Tourtelotte, '86 S., is spending a few days Professor Thompson, of the University of Pennsylvania, delivered his fifth lecture on protection in North Sheffield hall last evening. The lecture was unusually interesting,

have come out in articles in the papers as to the real cause of most modern diseases. Every one has known that there has been some mysterious cause for unexplained suffering, that even the doctors could not account for. A hidden disease has been shown to be the real cause of most so-called pneumonia, convulsons, apoplexy, etc. If this is true, it is of the greatest importance that we understand it thoroughly. With this end in view, a representative of this paper has collected facts from various sources which are given herewith:

Dr. J. H. Cutler, who resides at 20 Poplar st, said: "I have, in common with all physicians, observed the alarming increase of kidney disease for general seeking for the proper means of meeting it. I have been prescribing Hunt's Remedy for a great many of my patients and with great success. I also administered it to my mother, and with much benefit."

Mr. Samuel Littlefield, 1482 Washington street, said: "I was troubled with kidney disease for years, which finally turned to gravel. I would be free from suffering for a long while, and then have the most terrible pains in my back. I also hed inflamma-

be delivered to-night.

The most promising candidates for the Mott Haven team have been measured for suits. They will consist of a sleeveless white jersey with a large blue Y on the breast and blue and white serge running trousers.

This afternoon at the Art school Prof. Hoppin will lecture on "Early Christian Architecture". Prof. Robinson will give a recitation to his ptional law class next Monday in place of gravel. I would be free from suffering for a long while, and then have the most terrible pains in my back. I also had inflammation of the worst kind in my bladder, and I was altogether in a fearful condition. I went to several physicians, but all to no purpose, and I found I was growing very feeble. A friend in Malden urged me to use Hunt's Remedy. He had been cured of gravel and liver complaint by its use, and believed it would help me. Well, its effect was wonderful, and I cannot too highly thank my friend for the timely recommendation he made. I wish I could make every one know and understand what a valuable

one know and understand what a valuable medicine it is."

Mrs. William Gray, 1416 Tremont street, said: "I was troubled wth kidney disease for a number of years, at times being so bad from swollen limbs and pains in the back, that I was completely under the doctor's care. I received only temporary benefit until I began using Hunt's Remedy, which cured me entirely, and I caunot say too much in its favor."

Captain Joseph L. Hayden, connected with the Walworth Manufacturing Co., residing at 924 East Fourth street, South Boston spoke in the highest terms of Hunt's Remedy. "Many of my friends in En field, Mass. have used it with unusual results, and would not be without it. I employed it in my family when other remedies had proved wholly useless, and it was remarkable in its results. It completely any wife of pain one know and understand what a valuab Westville, the following officers were elected:

was remarkable in its results. It completely cured my wife of pain in the back."

Mr. H. Barney, baggage master of the Eastern railroad, declared that he had used well without; Dr. Hunt's Remedy in his INO WITHIN. family for a long time, and would not be without it. He had not only found it good for kidney complaints (a trouble with which all railroadmen are more or less afflicted) but his wife had used it successfully in a severe case of what was, apparently, despepsia.

severe case of what was, apparently, despepsia.

The uniform testimony which was given to the worth of this Remedy in Boston was born out by equally strong statements from residents in the suburbs.

Mr. Joseph G. Bedrnell of Cambridge port asserted that he had been a great sufferer. The fluids he passed were thick with brickfdust sediment, and were voided with the greatest pain. Within four days from the time he began using Hunt's Remedy he passed a gravel stone larger than a pea, followed by other smaller ones. A speedy cure was the result, and he cannot recommend the Remedy too highly.

Mr. George P. Cox, proprietor of the last factory at Malden, had seen such wonderful effects of Hunt's Remedy gemong so many of his relatives and friends that he was enthusiastic in its favor. He had not only used it himself with the greatest benefit, but two cousins, william W. and John F. Cox, had experienced untold relief. He would not be without it if it cost 85 a bottle.

Such statements lead us to the inevitable conclusion that, while Bright's disease of the kidneys is the concealed and actual conclusion that, while Bright's disease of the kidneys is the concealed and actual cause of many complaints which bear other names, it can be both met and cured. Let all readers look to their condition at once, and thoroughly convince themselves whether they are or are not in perfect health, and then use that means which has been proven, and is known to be both pure, efficient and good.

Dull Day on 'Change-Prices See-Saw Listlessly But Show Up a Little More Steadily Toward the Close. The stock market to day was dull and nearly fea tureless. A variety of causes including the bad bank statement and the election of Stock Exchange officers, which occurred to-day, contributed to this effect. The sensation of the day was a drop of eight per cent. in Fort Worth and Denver. The reak was caused by a settlement with the shorts and the pool in the stock is believed to have dis-banded. The opening was steady this morning, first prices being either unchanged or only insigni-ficant fractions different from Saturday's final figures. There was a moderate business at the pening, but the market soon became extremely ull with activity only in Reading and New England. The general market was about steady until noon, after which time it became firm, although afected somewhat by the drop in Fort Worth, which occurred at that time. There was a steady though ight appreciation of values toward the close and he market closed dull but firm. Railroad bonds vere dull and without feature of importance. The ousiness of the day amounted to only \$1,188,000. Closing prices show irregular changes, mostly for insignificant fractions.
