Miscellaneous. Our Little Grandchild.

leansed, Purified and Beautified by

It affords me pleasure to give you this report of the cure of our little grandchild by your CUTICURA REMEDIES. When six months old his left hand began to swell and had every appearance of a large boil. We poulticed it, but all to no purpose. About five months after it became a running sore. Soon other sores formed. He then had two of them on each hand and as his blood became more and more impure it took less time for them to break out. A sore came on the chin, beneath the under lip, which was very offensive. His head was one solid scab, discharging a great deal. This was his condition at twenty-two months old when I undertook the care of him, his mother having died when he was a little more than a year old of consumption (serofula of course). He could walk a little, but could not get up if he fell down and could not move when in bed, having no use of his hands. I immediately commenced with the Cuticura Remedies, using the Cuticura and Cuticura Soap freely and when he had taken one bottle of the Cuticura Resolvent, his bead was completely cured and he was improved in every way. We were very much encouraged and continued the use of the Remedies for a year and a half. One sore after another healed, a bony matter forming in each one of these five deep ones just before healing, which would finally grow loose and were taken out; then they would heal rapidly. One of these ugly bone formations I preserved. After taking a dozen and a half bottles he was completely cured, and is now, at the age of six years, a strong and healthy child. The scars on his hands must always remain; his hands are strong, though we once feared he would never be able to use them. All that physicians did for him did him no good. All who saw the child before using the Cuticura Remedies and see the child now consider it a wonderful cure. If the above facts are of any use to you, you are at liberty to use them. MRS. E. DRIGGS, May 8, 1885.

The child was really in a worse condition than he ppeared to his grandmother, who, being with him very day, became accustomed to the disease.

Monday, July 25, 1887. THE UTAH QUESTION. The Gentiles in Utah, who may fairly be supposed to know something about the true inwardness of the Mormon movement to make Utah a State, haven't much faith in the honesty of the convention which met last month and made a State constitution. In this constitution bigamy and polygamy were prohibited and made punishable by heavy fine and imprisonment, and a clause was added that these crimes should perpetually be prohibited in the State constitution, unless the

national congress ordered otherwise. This looks all right on the face of it, bu the Gentiles believe, and bring evidence to support their belief, that it is simply a trick to get rid of federal interference. Mr. E. J. Hollister, of Salt Lake City, writes to the Chicago Tribune as follows: I met a prominent Mormon coming from the convention and we fell into conversation. "We will see you all in hell before we will give up polygamy," he said. "We haven't a thought of merely to satisfy you, to get into the Union. It is our right to be admitted, and it is our duty to work for it by every means in our power. As the sole aim and object of Mormonism is the murmuring surf might catch the question conquest, so the Gentile panacea is to strip Mormonism of all political power. Put Utah into the hands of a commission, let the Mor mons see that political rule is forever wrested from their grasp, and we believe that their compact organization would rapidly disintegrate; that men would renounce their alleglance to a power without power, and thus in a comparatively short time the menacing danger would have passed, not to return. massed together without distinction. There is point in the remarks of Colonel W. P. Canaday of North Carolina, who asserts that most of the bloody shirt waving is done in the South. He says: As a matter of fact, the rebel bloody shirt is the stock in trade of ninety-nine out of one hundred of the orators of the South to-day. You can go to a country fair and hear an address or to a college commencement and hear orations or to a public gathering and hear a speech, or attend any kind of a public occasion where is speech-making, and you will hear the lost cause alluded to in some form or another as a thing to be glorified, remembered and treasured. It is the one thing that the southern orator keeps on hand as a sort of stock in trade, and his appeal is to the old confederate element to stand together and make common cause against northern politicians and northern policy of government.

ber of Picnics Ahead Brewer Welde man Loses a Horse. Up to the present time the attendance he shore has been somewhat anomalous to that of previous years. The cottages are, generally speaking, well filled, and persons who generally have waited until the season has well advanced, with a view to obtaining

one cheap for the remainder of the season, find difficulty in securing any accommodation whatever. The hotels, however, have their quota of guests, but the general evening attendance falls far below that of previous years. Last year the band concerts and fireworks drew many from the heated city, but the inactivity of the present season seems to result far from pleasantly to the restaurateurs, etc., who rely entirely upon transient trade. The attempt to enliven things by the proposed lantern festival and pyrotechnic display will undoubtedly bring things into life and break up the rather monotonous quiet of the evenings.

Admiral Foote post, G. A. R., have decided to hold their picnic at the Rock Au-

The American and Wheeler & Wilson's bands have been engaged. At the shore there will be several base ball games for prizes and much will be done to make the day a gala one.

A party from out of town spent the Sab bath down at the shore yesterday and seemed to have had a quiet but pleasant day. F. J. Hennison, who was lately convicted of selling liquor on Sunday, has been sum-moned by Prosecuting Attorney Tuttle to appear before the commission. An attempt will be made to revoke his license. Miss Dutton of Grove street will shortly

receive a number of Hartford people as guests at her cottage.

Mesers. Hartigan and Alling, of the Diamond cottage, will build a more commodious shore house in the near future. Savin Rockers may now enjoy a new privilege in the shape of hot salt water baths, at Mr. Skeeles' bathing pavilion. Quite a number have already availed themselves of this

For several seasons past some of the cot-tagers have attempted to excite interest in the building of a chapel for Sunday services at the shore during the summer. The movement has never been very heartily encour-aged, but the idea has apparently never been given up, and the subject is again being actively discussed.

Mr. Weideman, of West Haven, lost a valu able horse by death recently.

A VALUABLE TRUCK Successful Test of the Truck in Fron of the City Hall and Elsewhere Satur-day-New Haven's Lead-Distinguish Firemen From Elsewhere the Exhibition-Albany Decides a

Once to Have One.

A large crowd witnessed the exhibition of the new \$3,000 aerial truck in front of the City Hall Saturday afternoon, and it proved to be a complete success and will be a valu aqle addition to the New Haven fire depart ment. When the ladder is to be raised th rear wheel and the seat for the tillerman are swung over to one side. The ladder is se cured by a hinge at the forward end, and is raised by screws manipulated by a big crank on each side of the machine. After the ladder is raised almost perpendicularly it can be turned around to any point without movng the truck, and if not high enough an extension ladder can be run out about fortyfive feet, making the total length of the lad der ninety feet. The ladder will accommodate as many men as can get on it, while standing erect in the sir, and also as many lines of hose as necessary. Underneath the truck is an iron basket designed to hold a big net which is to be used as a life-saving device. The net is round and requires from fifteen to twenty men to hold it. In case of a fire where people are obliged to jump to the ground from any considerable distance the net will be stretched and the people to be rescued invited to gently fall into its meshes. The truck will be a great convenience to th department, as they can work at some dis-tance from a fire, which is an important item in these days of networks of wires in front of buildings and from it water can be put from any direction desired. Then, too, when raised to position an extension ladder can be shoved out, making the ladder long enough to reach to the top of high buildings and so enable firemen to rescue people from the top stories. This is the first truck of the kind

stories. This is the first truck of the kind ever used and was purchased from the model, which was exhibited here last February. Its merits were at once recognized by our fire department authorities and New Haven enjoys the distinction of being the first city in the Union to adopt it. Cincinnati will have the second one, which is now partly made, and Chicago, Terre Haute, Knoxville and St. Paul have each ordered one. The weight of the truck is 7,200 pounds. At the Center street exhibition at C. M. Loomis' Temple of Music Saturday the ladder when elevated in air with a man at the top was swung around, with a man at the top was swung around, showing how a fireman when on the top of the ladder can be swung from one side of the street to the other. Our fire suthorities are perfectly satisfied with the working of the apparatus. The truck will be housed until We have in our large corset department. after the next meeting of the fire commis-sioners (when their official action will be taken in the case) in No. 7 supply house. After that it will be kept in No. 2's engine house on Artisan street and the hook and adder there will be sent to steamer 5's house Fair Haven, and the hook and ladder there will be kept in reserve. Last evening Sheriff Matson drove up to the County jail in his buggy, got out and disappeared in the building, reappearing with McGarrigle. The two entered the vehicle and drove north. The wonderful efficacy of Swift's Specific as a remedy and cure for rheumatism and all blood disases, has never had a more conspicuous illustration than this case affords. The candid, unsolicited and emphatic testimony given by the venerable gentleman must be accepted as convincing and conclusive. The writer is a prominent citizen of Mississippi. The last of his stage driving was done between here and New Haven, but when the railroad was opened it put an end to that route. The story of his experiences would fill a book, but there are one or two incidents that have a local interest. On one of his return trips from Boston he drove upon the East Hartford bridge about eight o'clock in the evening. The water had been so high all day the bridge was in danger of being swept away at any time, and as the stage with its eight passengers shut up inside enwire the sound of the stage with its eight passengers shut up inside enchants.

Two new mill dams up the stream had burst and came down just in time to strike the stage. Crawling down upon the pole Tudor cut the traces and freed the horses and then he and the squire after struggling about in the water up to their necks and buffeting with floating logs and lumber, finally got out upon solid ground. They went up to the hotel for help and came back with lanterns. The wheel horses got out of the stream without much trouble, but it was a long while before the

After a few hours delay the trip was resumed, the only damage to speak of being done to the squire's bank meating.

The Hartford Steam company in a rec meeting decided to run its plant another year, either on its own account or under a lease. The only offer received is from the notes, which were thoroughly soaked. The cold that Tudor caught at that time resulted in a severe it of sickness and he soon after gave up stage driving for good. He has made his home for many years in Vernon, living by himself most of the time. His death probably removes the last of the old stage drivers who were of a much literature. Saturday's Half Holiday Knocks Out Speculation-The Result of the Dealings a Small Decline in the General Owing principally to the Saturday half holiday there was practically no market to-day. Prices naturally sagged and the net result of keeping the Exchange open was that the active list lost about 14 per cent. This was not significant, however, and

The only news furnished the street to day was that relative to the efforts to change the management of the Northern Pacific company and bring it into closer relations with its company and bring it into closer relations with its neighbors and competitors, the Union Pacific and the Oregon companies. LIVER, BLOOD AND LUNG DISEASES.

LIVER
DISEASE.

G. W. LOTZ, Trudhomme, La., writes: "For four years I suffered from liver complaint and attacks of billous fever; loss of appetite, nausea, constipation, sometimes diarrhea, pain in the back of the head, right side and under the shoulder-blades, fullness after eating, general debility, restless nights, tongue and Medical Discovery' and 'Pellets,' I find I am as well as I ever was. GASE.

SAMANTHA GAINES, Lockport, N. Y., writes: "For six or eight years previous to 1880, I had been troubled with a sovere pain in the small of my back, also across my shoulder-biades, with considerable bloating of the stomach from wind; was so nervous at times I could hardly sleep; also troubled with dizziness and hard breathing spells. I was induced by my step-daughter, Mrs. Warner, of Olean, N. Y., to try the 'Golden Medical Discovery.' The effects were marvelous. After taking three bottles I was entirely cured." BEBILITY.

S. L. FISHER, Sidney Platns, N. Y., writes: "Dr. R. V. PIERCE, Buffalo, N. Y. Dear Sir—My wife suffered for several years from general debility. She had become a confirmed invalid. The physicians who attended her failed to help her, and it seemed as if she must die. On reading one of your Memorandery might help her. I procured a bottle, and, after its use, a change for the better was noticeable, and after using five bottles, she was a well woman. I have recommended it to several, and in every case, it has produced good results. I can never feel too grateful to you for the saving of my wife's life."

GIVEN UP TO DIE. Springs, Ala., writes: "Miss ELIZA GLENN, of this place, had been sick for more than a year with a severe affection of the liver, but when she was at the lowest, she bought three bottles of "Golden Medical Discovery" from me, and, all though before using the medicine she was given up to die by all the attending physicians, her father assures me that she has now fully recovered." MALARIAL

"I have been troubled with symptoms of malaria, with fever, for three years, but after using three with fever our Golden Medical Discovery' and 'Pleasant Purgative Pelets,' I am happy to say that I am entirely cured, and to-day I am perfectly well and able to do my own work." Dyspepsia.—Lucy A. Wood, Taylor's Store, Vo., writes: "After many years of great suffering from the evils of dyspepsia, I was induced to try your folden Medical Discovery, and I cannot express the gratitude I feel for the great good it has done me. I do not suffer any pain from eating, and I enjoy life as well as anybody can wish." enjoy life as well

Mrs. Curris Bogue, West Enceburg, Vt., writes: "Two bottles of your 'Golden Medical Discovery' cured my cough and chronic diarrhea. It has worked like a charm in my case, It is truly wonderful. I walked over a mile lest week to recommend your medicines."

ABSCESS OF LIVER.

ISAAC GIBSON, Kenwood, Pa., writes: "My wife is getting well fast. When she began to use your 'Golden Medical Discovery,' our best doctors in Indiana County said she would die. They said your medicine would do her no good; that she had an ulcer on her liver as large up phlegm for some two weeks, and then commenced spitting up corruption and blood (it looked like what comes out of a blood boll) for some ten days. She now has been well for weeks." Boils and Carbuncles.— J. Adams, Esq., Toledo, Ohio, writes: "I have used nine bottles of your 'Golden Medical Discovery,' and the result is I am to-day free from boils and carbuncles for the first time in many years." Constipation and Ulcers.—Mrs. A. D. Johnson, Georgetown, Ky., writes; "The 'Golden Medical Discovery' relieved me
at once. I had a very bad sore on the back of my left hand for
five months, and it cured that, as well as constipation and indigestion, from which I was suffering very much."

Scrofulous Tumor and Sore Eyes.—Mrs. S. E. GrayDON, of Greenwood, S. C., writes: "My daughter has been entirely

the use of your 'Golden Medical Discovery.' I have great faith in

He hay helpless for five months, when great absesses at the time he commenced using your 'Golden Medical Discovery' under your advice. Now, after having used four bottles of the 'Discovery,' he is almost well and walks three-fourths of a mile to school every day. A Wonderful Cure.—Daniel Fletcher, Esq., Gloucester, Mass., writes: "Nearly five years ago, I Gloucester, Mass., writes: "Nearly five years ago, I was taken sick with a disease regarding which the three physicians who attended me were unable to called it a tumor of the stomach, and treated me for that, nearly killing me with physic; another, a homeopathie physician, thought I had consumption. When taken sick. I weighed 137 pounds. I suffered from a heavy cough, night-sweats, kidney troubles, etc., and was reduced so rapidly that my physicians gave me up. They were unable to help me in the least. At that time I weighed but nincty pounds, and had not been able to lie down, but had to sit up in order to breathe. I had been confined to my room for six months, expecting to die. I was so bad at times that I could not allow any one to come into my room, as I could not talk; nor was I able to walk. I picked up one of your memorandum books on the floor of the hotel where I was boarding, and after reading it I began taking your 'Golden Medical Discovery,' and the up, and gained so rapidly that it astonished me. I have taken no other medicine since then, and have used perhaps twenty bottles in all of this medicine. I stopped taking it in August, one year ago. I feel that it has saved my life. It certainly is worth its weight in gold, and I consider it a wonderful remedy from its effect in curing all my ailments."

JOHN E. EARLE. No. 868 Chapel Street, New Haven, Conn Patents for Inventors.

UNITED STATES AND FOREIGN COUNTRIES?
A practice of more than thirty years, and frequent visits to the Patent Office has given him a familiarity with every department of, and mode of preceeding at, the Patent Office, which, together with the fact that he now visits Washington semimonthly to give his personal attention to the interests of his clients, warrantshim in the assertion that no office in this country is able to offer the same facilities to Inventors in securing their inventions by Letter Patent—and particularly to those whose applications have been rejected—an examination of which he will make free of charge.

Preliminary examination, prior to application for patent made at Patent Office, at a small charge.

His facilities for procuring Patents in Foreign Countries are unequaled.
