A NEW PENSION BILL.

This country is not yet through adding to the expenditure for pensions. A new pen-sion bill is to be introduced by Senator Ed-soldiers. nunds, and it is not improbable that there will be others. The bill which Senator Ed munds has in charge is an ingenious and plausible one. It is said in its favor that there are a great many invalid soldiers who are pensioned at high rates (from \$24 to \$72) quivalent disabilities with families-wives and children-and no means of support, except, in some cases, the trivial earnings of the disabled soldier himself, other than the army, his widow and children are not entitled to pension under existing laws, and paupers. The community where such a penoner and his family dwell are often surprised to learn after his death that, in this country and in this age of liberal pensions, no part of his large pension is continued to

his family. The new bill does not give the widow, who has shared her husband's pension and his sorrows for many years, his big rate of penhave originated in the service. It is not a service pension bill. The presumption that death is due, directly or indirectly, to the ensioner's great and long continued disabilishown by testimony. Such pensioners with their great disabilities are deficient in power to prevent and escape the bad effect of accidents. They cannot withstand the attacks of acute diseases. They die suddenly, with the physician near to give the suddenly, with the physician near to give the suddenly with the sudden o physician near to give the required medcal history and death cause to entitle the widow or children to pension. This bill simply gives the widow and children, in stead of the government, the benefit of the doubt as to the cause of death in such cases.

But where is the pension business going to EDITORIAL NOTES.

It would hurt New England if there should e any general trouble with western farm mortgages. The loan companies of Boston alone hold 81,000 western farm mortgages on which \$76,000,000 is outstanding. The in surance companies of Hartford hold mort gages on western farm lands to the amount of \$70,000,000 on which from \$5,000,000 to \$6,000,000 interest is paid annually.

A Kentucky man is trying to reform, and ongratulates himself and the cause of tem erance on the fact that he has got down to te drinks a day. He says that he used to drink an average of twenty-five glasses of whisky a day, yet was never drunk a day in his life to speak of. His former consumption was one hundred and fifty-two gallens a year, bu now it is down to the paltry amount of sixty-

three gallons. Owners of land in the grazing section have managed to fence in large tracts of government land by purchasing sections all around a large number of sections of the public land and running fences around on their own lands. Their cattle, thus enclosed, roam where they please, and there being no outlet, no one wants to buy the land still beonging to the government. One remedy proposed is to establish a public highway, four rods wide, around every section, to be made a part of the public land system, owners being compensated wherever their land is taken. This will not only prevent the trick-

and enable the owners of sections, wherever

located, to reach rivers or settlements with-

out traveling for miles to get around their

neighbors. The last report of the British postmaster general contains some facts which have a bearing upon the discussion of a postal tele" graph for this country. This document shows that the use of telegraphic communication is by no means so extensive, proportionately, in Great Britain as in the United States, nor is its use increasing so rapidly as a normal growth of business would require. That can only be explained evidently by the assumption that the government control does not offer sufficient facilities and conveniences to induce increased traffic. Having a monopoly of the business it is not compelled, as private corporations, to meet competition by improvements and added conveniences. What s perhaps more significant is the cost of the British service. Every year there is a large deficit to make up from the public treasury. This deficit, according to the latest report, has grown from \$5,000 in 1880 to \$2,350,00

The increase this year has been about twothirds from legacies, which is an uncertain source and liable to be changed at any time.

The Missionary Herald does not inform its readers of the relative number of churches which have contributed in this first sixth of the current year.

General Butler has a good hard save and in an interview on the subject yesterday in these matters, pointed them out. "Three kinds of adulteration," he said, "are practical in these matters, pointed them out. "Three kinds of adulteration," he said, "are practical in the save and in the same and in

HOW TO DETECT POISON IN CANDY Simple Tests Given by Dr. Edson. [From the New York Tribune.] With the approach of the holiday season omes the annual array of cases of poisoning from eating adulterated candy. A few have already been reported as an earnest of what may be expected later. As usual, investigation proved that in almost all of them the sickness was due to other causes than

health board over the manufacture and sale of sugared dainties in this city, and second-

Whiting ground chalk, will cause the solution to ef-fervesce if a little acid is added to it. The test for starch is an accurate one. Dissolve a sweetmeat in a little cold water and add drop or two of the tincture of iodine; if a bluish color is developed starch is present On this point I might say that candy which has undergone adulteration for bulk, though very injurious, cannot in the strict sense of the word be called poisonous.

"As regards the adulteration practised for color—this is frequently a most dangerous fraud, in consequence of the poisonous pig-ments used. Some of the manufacturers whom I detected practising this form of aculteration asserted that the amount of col-or used was so small that it could not possibly be injurious; but this is not true, as is indicated by the eye alone and confirmed by chemical analysis. Preparations of lead copper, mercury and arsenic are poison To day we offer another lot of such as are termed by the medical profession cumulative in their effect—that is to sa 50 of those satin lined Elyslan they accumulate in the system little by litt until enough is present to act poisonousl Cases are on record of lead-poisoning cause

To test candy with respect to poisonous colors one needs a few ounces of alcohol, about an ounce of bleaching soda in solution (hypochlorite of calcium), a little white wooler out by alcohol; if it can immerse the woo en yarn in the solution, and should th color adhere to the yarn and dye it th probabilities are that it is a coal-tar color low price of \$15 each. This is a new lot we have had come in this week, and we say, if a red it may contain arsenic. If the alcohol produces no effect apply a drop of the bleaching powder solution to the surface of the sweetmeat: if the color fades out it is probably of vegetable origin and without fear of contradiction, that as good

Contagious Blood Poison.

Mr. D. B. Adams, Union, South Carollina, writes: "I was afflicted with a terrible case of blood poison for about thirteen months. I was treated by the best physicians, and used various kinds of remedies, but received no substantial relief. I finally tried the Swift Specific, and about four bottles cured me sound and well."

MRS. CLARK'S Question in One Breath.

Can it be done? How does he do it? Was it just as good Was it just as good?

Does it seem possible?

Mrs. Jackson, have you tried it.

Answer—Tried it? Yes indeed. And I
tell you honestly that R. W. Mills, 382 State
street, is selling as fine tea at 35c pound as I
ever bought for 50c or 60c, and, Mrs. Clark,
if you will go and get a pound of Mr. Mills? tea, then judge it on its merit and not by the low price, you will find what I tell you to be true.

Rheumatism

We doubt if there is, or can be, a specific remedy for rheumatism; but thousands who have suffered its pains have been greatly benefited by Hood's Sarsaparilla. If you have failed to find relief, try this great remedy. "I was afflicted with rheumatism twenty years. Previous to 1883 I found no relief, but grew worse, and at one time was almost helpless. Hood's Sarsaparilla did me more good than all the other medicine I ever had. H. T. BALCOM, Shirley Village, Mass. "I had rheumatism three years, and got no relief till I took Hood's Sarsaparilla. It has done great things for me. I recommend it to

others." Lewis Burbank, Biddeford, Me. Hood's Sarsaparilla is characterized by three peculiarities: 1st, the combine remedial agents; 2d, the proportion; 3d, the process of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence. "Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. Thompson, Register of Deeds, Lowell, Mass. "Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. Barrington, 130 Bank Street, New York City. Hood's Sarsaparilla

M. JULES FERRY SHOT AT. Revolutionist Fires Three Shots at Him Slightly. Paris, Dec. 11 .- Yesterday morning a man

who afterward gave his name as Berckens

he made the attack on M. Ferry he was ac-

companied by an accomplice, who was to have shot M. Goblet, but who flunked, giving as his reason that his revolver dropped to the floor. When Aubertin was searched by

the police a paper was found on him which indicated that he and his confederates had

drawn lots yesterday to decide who should do the shooting. The paper ends: "Death to intriguers. Our path is marked out to form an intelligent, disinterested and patriotic

Aubertin appeared in the hall of the Chamber of Deputies and asked to see M. Ferry and M. Goblet. The former responded, when Aubertin drew a revolver and fired three shots at him, two of which struck him. The first passed around the chest, slightly penetrating the flesh. The second struck M.

causing a contusion. The thigh was not penetrated. The wounds were very slight. MR. BERRY WILL NOT ACCEPT Apbertin is twenty years old and is a member of a band of revolutionists who drew lots as to who should commit the crime, with the result that it fell to Aubertin to do the deed. The bystanders tried to lynch Aubervented with difficulty from carrying out their intention. After the shooting a scene of great confusion ensued and the police immediately formed a cordon in the vicinity, preventing even reporters from gaining access to where the attempted assassination took

Freshman Takes Polson, Turns on Three Gas Jets and Lies Down to

Boston, Dec. 11 .- Henry J. Powell, nine

een years old and a member of the freshman class at Harvard, committed suicide last night at his room, No. 5 Holworthy. The ircumstances connected with his self destruction show that the act was premeditated. He first swallowed a dose of poison and then to make doubly sure of his work turned on the three gas jets in his room and laid down upon the bed to await his death. He was first discovered by a fellow student who came to call upon him about 11:30 p. m. Medical Examiner Durrell, of Somerville, was called and made an examination. He found that death had resulted from gas asphyxia before the poison had had time to operate. Mrs. Powell, the mother of the dead young man, was summoned as soon as possible from her stopping place in Boston and arrived about 2 o'clock Sunday morning. The family live in O'clock Sunday morning. The family live in New York, but it seems Mrs. Powell had within a few days come east to interview her son on some business matter. She had met her son Saturday afternoon and had a talk with him and when he parted he said he would call again in the evening. Powell en-tered college last year. He is spoken of as being a bright, interesting young man, but noticeably depressed of late. His body was embalmed, after which it was sent to New

WATERBYRY, Dec. 10 .- Henry Lovey went to the apartments of Xavier Guerdet, at orrington, yesterday, and with a revolver pened fire on Mrs. Guerdat. She tried to get to a bedroom for safety, but on the way a bullet lodged in the back of her head. After a desperate struggle Lovey forced in the door and the woman fied in the direction of the barn. Lovey followed her, keeping up will be assassinated." In Aubertin's pocket continual firing, one of the bullets entering the head over the left eye and coming out on the right side. She fell to the ground, and while there the assassin fired two more shots, one of which lodged in her left elbow, the other injured her little finger. Her condi-tion is serious. There is no clue to Lovey's whereabouts. The families of Lovey and Guerdat have lived at the same farm at Tor rington, and the trouble yesterday was the result of frequent quarrels. A few days age Guerdat had Lovey indicted for breach of the peace, and this did not have the desired efect. Gnerdat was on the way to the police station when the shooting occurred to com-plain of Lovey. It is thought that the rascal

has fled to the woods and hung or shot him self. A posse is in search of him. Lovey Hangs Himself in the Woods HARTFORD, Dec. 11 .- Henry Lovey, who shot Mrs. Xavier Guerdat at Tozrington, Ct. on Friday and escaped was found by searching party Saturday night in the wood about a mile from his house. He had hang ed himself to atree and had been dead a con-siderable time when found. The woman is

Pastor. NEW YORK, Dec. 11 .-- The small congrega ion present at Plymouth church in Brooklyn this morning was unpleasantly surprised by Rev. Dr. Lyman Abbott's announcement from the pulpit that Rev. Charles A. Berry of Wolverhampton, England, had declined the call extended to him by Plymouth church. After lengthy prefatory remarks in which he deplored the announcement he had te make Dr. Abbott enlightened the audionce, not a half dozen of whom knew what was coming, by reading the following cable
gram to Professor Rossiter W. Raymond:
"Charles Albert Berry greets Plymouth, ap
preciates its confidence, reciprocates its affection, prays for its prosperity, but canno accept pastorate. Home claims inexorable duty here commands. I God bless and guide you. here commands. Letter mailed you

ent followed the announce ment. Several ladies in the congregation Dr. Berry's Reasons for Declining. LONDON, Dec. 11 .- Rev. Mr. Berry has de dined the call to Plymouth church. The desision was announced from the pulpit of the Queen street chapel in Wolverhampton today. Mr. Berry in a letter which was read to the congregation referred to the Plymouth pulpit as one of world wide influence, there being associated with it in undying lustre the glory of a famous name. The question of acceptance, he said, had to be decided or acceptance, he said, had to be decided or acceptance, a logorous explusion of all party, local under a rigorous exclusion of all party, local under a rigorous exclusion of all party, local and personal interests. The charge could be taken only under the sacred sanction of duty to religion and humanity. The broad question thus submitted to him fact been the occasion of long perplexity and study. He gratefully acknowledged the counsel of members of the congregation and some trusted leaders of English national life. Their representations concurred in referring to the

resentations concurred in referring to the growing need in England of a broad evangel-ical pulpit which would make religion credtable and effective in solving pressing prolems. The proposal of the congregation to give him additional help in his pastorate of-fered him a chance for national work in England. Although the call to Plymouth church was a strong one he felt that he must remain in England, giving on at any cost with the work to which he had consecrated He trusted that his decision would meet with approval and that the brethren i America would sonquer the regret. He Will Probably Hereafter Conduct an Independent Church. NEWARK, N. J., Dec. 11.—Rev. Hugh O. Pentecost this morning resigned the pastorate of the Bellville avenue Congregational church, to take effect January 1st. In the course of the address announcing his resignation he said he surrendered his charge Ferry on the right side near the lowest ribs, to prevent dissentions in the church. Although the recent church meet ing called to consider his case had esulted in his favor there was a strong minority against him. There would have been no trouble he said if he had not advocated the views of Henry George, taken part in the tin after he had fired the shots, but were pre- anti-poverty meetings at New York and entered politics at the charter election. The last straw had been his expressions of sympathy for the slaughtered Chicago Anarchists. He had nothing to regret in his course which had been a source of spiritplace. In consequence of the attempt upon the life of M. Ferry there were many heated quarrels in the lobbies of the Chamber of usl joy to him. His politics were a religion and his sense of the false position of the church to Christ was deepened. The opposi-tion to him had been that of prejudice. The Deputs between moderates and radicals.
M. Rouvier joined in the discussion, accusing the radicals of provoking weak-minded persons to deeds of violence. Several scuffles ensued and it is expected they will lead to newspaper reports that he was in affluence because he had a rich wife were, he said foolish. In conclusion Mr. Pentico said he had reached a culminatir point which made it impossib Berckens Aubertin, M. Ferry's assailant, is a native of Rombach, in Moselle. When

The usher who carried Aubertin's American asylum for the deaf and dumb in America where Gallaudet first introduced instruction in the sign language in this country and of which he was the head. This morning there was an appropriate address at Mr. Job Williams. The monument to Mr. Gallaudet in the asylum grounds was tastefully decorated and yesterday afternoon, the actual centennial day, the whole deaf mute placed upon the grave a sprig of evergreen. Afterwards they visited the spot (now a part of the City Hotel) where the American asylum gathered its first seven pupils in 1817 and later the house on Prospect street where the school was afterward kept before the present buildings were erected in 1821. From the beginning in Hartford seventy years ago with seven pupils under Gallaudet's instruc-tion there have come sixty-six institution, instructing seven theusand deaf mutes, oc-cupying property worth \$7,000,000 and ex-pending annually one million seven hundred thousand dollars. New Year's Calls.

A lady writes as follows: Dear Counten-As the State House question s decided and the New Year approaches, w wish to sgitate the subject of call making, and we can think of no better way than through your valuable journal, trusting you will do what you can to assist us. We man times last year heard the remark that we did not wish to receive, so the gentlemen wer obliged to make the club rooms the principal attraction—only selfishness, we think. We hope this year the pleasant practice of calling will be general, for it is decidedly pleasant to meet our gentlemen friends once

year and have a pleasant chat. Please speak a good word for making calling general, so that the club may not be the only attraction. We have no doubt that the club is very enjoyable, but they should not monopo every moment of spare time of our gentlemer friends.

THE MILFORD FIRE of Incendiary Origin-A Library, Grocery and Drug Store Burned and the DELIVERED BY CARRIERS IN THE CITY, 15 toffice Damaged-A Loss of Over

Ten Thousand Dollars. The fire in Milford, which was exclusively reported in the Courier of Saturday, turned out to have been the largest which that town

burned except a cherry desk, 150 years old, which had descended to him from his greatgreat-grandfather. The desk belonged orig-inally to one John Stowe, the man who took care of the sick soldiers taken from British ships during the revolution. Their disease was ship fever, which Stowe caught, and dying from it was buried with them near where the soldiers' monument in Milford

cemetern now stands. Over Mr. Gunn's office was Stephen Glenny's photograph rooms. His total loss was \$500. The post-office was invaded by the flames and for a time its destruction was imminent. Post master W. B. Brotherton was on hand and removed all mail matter to the town clerk's removed all mail matter to the town clerk's office across the street with only slight damage. No letters were burned. The morning mails were made up and forwarded Saturday without delay, the office of the town clerk for the time being serving as a mailing room. S. T. and M. C. Ford, undertakers, over the postoffice, were slightly damaged.

A word of praise should be said for the Arctic engine company, for its members fought the flames bravely. The town will offer a reward of \$500 for the detection of the guilty parties and Mr. Gunn says that he will offer \$250 in addition. There is positive proof that the fire was of incendiary origin. Between the bottom of the door at the foot of the stairway and the sill there is quite an opening, and through this had been poured quite a quantity of kerosene. Most of the oil appears to have run through to the floor of the grocery as the smell of the oil was the strongest there. The odor and other traces of the oil which was used to set fire to the ouilding are still very apparent.

FASE HAVEN. At the Churches Yesterday - Where Be Launched-General Notes of In

The Rev. A. H. Goodenough, the popular pastor of the East Pearl street Methodist church, preached yesterday morning from the subject: "The True Method of Living." There was also a communion service at this church yesterday. On Christmas evening the ladies of the church propose to hold a concert, and the evening following to give an oyster supper.

Local oystermen will be interested in the nformation that the season in the Delaware

Bay is a very poor one. Oysters are very scarce there and the cultivators have but few to meet the demand. Latest advices say that there is almost an oyster famine there, if the term is allowable. To morrow evening there will be a basket festival at the First church.

Mr. W. S. Bailey of Norwalk, an able tem perance speaker, made the address at the meeting in the Quinnipiae rink yesterday

The young ladies of the Y. W. C. T. U are making extensive preparations to mak-their coming reception a success. The re ception will be held in their club room in the Central hall block Thursday evening rom 7 to 10 o'clock. The society now has suite of four rooms and is contemplating add-ing another room soon. The young ladies will serve refreshments on Thursday night and extend a cordial reception to all intersted to call and see how nicely they are nuartered in their new rooms. There will be a tea party in the parlors of the Methodist church Thursday evening.

General State News. FUNERAL. The funeral of William Gilbert of Winsted tool lace Saturday afternoon, Dec. 10. Deceased was no of the most respected citizens of the town. MIS EIGHTIETH BIRTHDAY.

There will be a family gathering at the residence of Dr. G. W. Sanford of Tariffville on the 30th inst. it being his eightlich birthday. Dr. Sanford was the local medical practitioner for fifty six years, but for the past two years has been totally blind. He otherwise seems well preserved for a gentleman of TEMPORABILY INSANE. Last Monday John Dunn, an unmarried employed Ives & Miller of Mt. Carmel, died suddenly from yphoid malaria. James Dunn, a brother of the decased, was greatly affected by his loss and soon beame deranged and disappeared. It was feared that he had killed himself, but he reappeared Friday, lothed in his right mind again.

STOLEN BY A MOUSE. A party of men were enjoying themselves at David Hayes' restaurant in Meriden on Thursday when Mr. Hayes missed a \$5 bill from the till. Search was made and it was found that a mouse had taken it behind the large looking glass that stands back of the counter, having pulled it through a small opening in the back of the drawer.—Meriden Journal.

THE BOARD OF PARDONS The board of pardons has disposed of twenty-four of the twenty-eight applications for release from the State prison by refusing to grant them. The remaining four cases are to be considered at the meeting of the board to be called sometime this month. The board withholds for the present the names of those whose cases are still under consideration—in fact refrains from aunouncing conclusions in any of the cases. THE GLAZEBROOK CASE.

The committee in charge of the Rector Glazer brook inquiry were in session in Durham all day Friday. Judge Hubbard appeared before them as sounsel for the boys. This is the first official inquiry that has been made by Bishop Scarborough. There is very little doubt among many but their report will lead to a tial of the minister before a regular authorized tribunal of the church.

A NEW HAVEN VESSEL DAMAGED.

NEWFORT, R. I., Dec. 10.—The three-masted schooner Day Star of New Haven, from Baltimore to Boston with soft coal, lost her main and mizzen masts and sails at 11 a.m. to-day five miles east of Block Island. Reports of her condition reached Captain Waters of the Third life saving district and he sent the tug Gertrude and revenue cutter Dexter to her relief. The schooner was found in West passage and was towed in.

The Great Increase of the Curse in the United States-Whole Families Being

To persons unacquainted with the facts in the case, the figures that are recorded of the amount of opium and morphine smoked and used, and the number of opium habitues in the United States to-day, would look like pure fiction. Last year over ninety-two thou-sand pounds of opium were used in this country, but thirty-six thousand of which was for purely medicinal purposes. A can-vas of the drug stores and facts in the posession of opium experts reveal at the lowest stimate fifty-seven thousand opium takers, of which seventeen thousand six hundred are sic was rendered by the Austin family. One pleasant feature of this gloomy subject is that a remedy has at last been found that can take a sufficiently powerful hold on the brain and nerves of opium takers to replace the drug while they are recovering from its effects. This is Buckland's Scotch Oats Fasence, that by trial in hospital and other provides a variety and proved itself to have a

MR. KAERCROSS' LUNACY. Compromise Effected in the Case of the Bruggist Who Drew a Lottery Prize.

The case of Edward H. Kaercrosss, who i w fair have been received at the headquarters alleged to be an habitual drunkard and not of the soliciting committee during the past mpetent to take care of his estate, came up before Samuel E. Cavin, the examiner appointed by the court, yesterday afternoon. No witnesses were present and no testimony was taken, and after the jury were got to gether the case was adjourned until next Monday, when a meeting will be held in the grand jury room in the new court house.

Mr. Kaercress is the proprietor of a retail drug store at 24 South Second street, and several years ago was a big advertiser of a preparation called "Aspargo." A short time ago he purchased a ticket in the Louisi-ama State lottery, which drew a prize of ten thousand dollars. As soon as it was an assured fact that the money was en route to this city his relatives went into court, and on their petition a commission in lunacy was appointed. Mr. Kaercross is unmarried, and the principal party to the petition for the commission is his mother, Louisa J. Morgan. Mr. Cavin said last night that a compromise had been offered by Mr. Kaercross, but mise had been offered by Mr. Kaerer he was not at liberty to state just what it was.—Philadelphia (Pa.) Press, Dec. 6th.

Result of the Small Transactions, New York, Dec. 1 There was practically no market for stocks t ange was open for business a few of the room raders engaged in swapping small quantities of stocks among themselves. Aside from this there was really nothing done. So far as prices are con erned the final transactions were at slightly lowe gures than yesterday, but this result was not sig ificant except as reflecting the dullness. The bank tatement, which is now about the only importan statement, which is now about the only important news on Saturday, made a fairly good showing, and the chances are that the real condition of the banks to-day is much better than the statement indicates. According to the figures compiled by the Financial Chronicle the small interior movement last week was more than offset by sub-treasury disbursements. The bank statement, however, shows a net loss in meney of \$159,500. The leans have been reduced during the week nearly \$1,500,000, resulting in a decrease of deposits of \$2,055,000. The surling in a ferrase in the surplus, which is now over \$2,000,000 larger than a year ago. The statement appeared to have no influence whatever on the limited speculation.

THE use of grease-paint by actors and actresses is disastrous to the complexion, and unless thoroughly removed from the pores of the skin, pimples and blotches appear. Eminent members of the profession say, IVORY SOAP removes paint thoroughly and quickly, and restores the complexion to its natural freshness.

A WORD OF WARNING. There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it. Copyright 1886, by Procter & Gamble.
