Wednesday Morning February 6th, 1889.

ANNUAL HOUSEKEEPERS SALE!

Table Linens, Towels, Cottons. Gents' Unlaundried Shirts, Ladies' Cotton Underwear, together with an array of extraordinary bargains throughout our store seldom if ever itnessed on this continent. OUR values will prove conclusively that we mean business. Comparison is your opportunity and our most earnest DESIRE.

It actually makes us smile to think how our competitors will be running all over New York trying to offset our enormous values.

BUT IT CAN'T BE DONE! WE CORDIALLY INVITE ALL.

PLEASE NOTE

The remarkable bargains offered by us annually in Linens, Towels and Cottons are now looked forward to by housekeepers as the great event of the "New Year." This season we are pleased to state that Housekeepers have more reason to be gratified with our efforts than ever before. We never were laced in such a fortunate position to give them the bargains so anxiously looked for, owing to a backward season and depression in foreign markets particularly. We have bought for CASH values that (were the condition of he markets in a more healthy state) we never could expect to buy at such a

All we ask now is for our customers to look at these values. The result w know will be of lasting benefit to both of us, as no such bargains were ever offered in these goods before. McINTYRE, MAGUIRE & CO.

THE WEEKLY JOURNAL EVERY THURSDAY MORNING.

ctly in advance -Friday, February 8, 1889.

When Connecticut's fine capitol was built the State was much congratulated because it was built honestly and within the appropriation. It stands firm and does not have to be repaired every week or two. New York is having quite a different experience. The espitol at Albany has already cost eighteen or twenty millions, and is not yet done. Nobody ventures to predict when it will be. Changes and repairs are constantly being made, and if the building does not fall down before or soon after it is done many people will feel relieved.

So scandalous have some of the performnees connected with the Albany capitol become that they are receiving some attention. The ceiling of the assembly chamber is specimen. Its total area is only 8,075 square feet. It is made of iron girders with oak veneering. The spaces between the girders and cross girders are filled with papier-mache nanels. The total amount expended was \$270,000. In making this ceiling, which is not of wood, there have been used, according to the vouchers on file in the comptrol ler's office, nearly 700,000 feet of lumbernough to have completely filled the assem bly chamber from floor to ceiling. Over \$30,000 has been paid for pine, spruce, quartered oak, and white wood, for a ceiling which is made mainly of plaster of Paris. brickmasons' helpers' work, and 132 days of stonecutters' work. In August there were no less than 4,500 days of laborers' work, or 150 for every day, including Sundays. In addition to these 150 laborers, there were at the same time at work in the chamber, according to the vouchers, 15 stonecutters, 30 carpenters, 9 engineers, 9 foremen, and various other employes. And so forth and so

It seems to be hard work for some men to be honest when they have an opportunity to get at public money. The "jobs" connected with the building of the capitol at Albany

are a disgrace to the State. The amount of oleomargarine sold

Soston last year was 5,420,000 pounds. sylvania, has discarded her false teeth be cause she says that her faith will cause new natural teeth to grow. Faith teeth would be real curiosity.

The parallel road scheme before the legislature finds little support. It is a bad time for it to appear. The "object lessons" which teach what parallel will do are too many and was prohibited by a law, which was not re conspicuous just now for such a scheme to find favor.

A bill making it a penal offense for any erson to treat another to intoxicating liquors has been introduced in the lower house of the Pennsylvania legislature. "Treating" is a bad practice, but it is not probable that any law would be very effective against it. Judge Field of Kansas City, Missouri, has

efused to allow the saloon keepers there to ncorporate themselves. The application was made under the statutes granting corporate privileges for benevolent, scientific, religous or educational purposes. 1 petitioners for incorporation asked it on the ground that their object was the benevolent one of promoting industry, morality and charity by providing for the comfort of distressed mempins are of swamp elm and weigh about two
and one half pounds each. ers. The court held that it was no sufficient ground for incorporation, as it was not shown that the distress to be relieved by the proposed corporation was such as the State lesired to have relieved by corporations. It might result from offences against the law, of itself ground enough for refusing to

grant it. John Burns, mechanical engineer and So ialist orator, who was elected by over three housand votes from Battersea Division to the London county council, is described as a man of sterling character and notable ability. He is a steadfast worker at his trade, but equally as devoted to his agitation. A man of thirty, of middle stature, broad-shouldered, deepchested and compact, sturdy frame, with arge head, high forehead, dark hair and complexion, deep large dark eyes and a deep voice of a singularly musical penetrating quality, he has a fine command of language and no lack of ideas. Burns was one of these arrested for speaking at Trafalgar Square in 1886. He was tried at the Old Bailey and acquitted, making a speech in his own deense whose quality and eloquence were such as to fill the court room to overflowing. Something of its Origin and How It is

Bowling is an ancient and noble sport. At as early period it was a favorite pastime in England. It was first played on the open ground. It was the custom to clean up, shave and roll the turf and then bowl with balls which were flat on one side. It became so popular as a means of sport and gambling that during the reign of King Henry VIII it find a major who has never worn a sword or set a squadron in the field, he is very apt to

General in the highest title known in the Land of Flowers. In some few cases men are called that because they are nobody in particular, and this designation is absolutely needed to preserve their identity. Some of these gentlemen, however, won a minor title on various battle fields in the Indian, Mexico ico, and cival wars—for Florida is a land of fighters—and have since been promoted various steps by the courteous hospitality of their neighbors. The only time I have ever known this rank to be bestowed in all its primitive beauty upon one who had never even smelt gunpowder, in its most arbitrary condition, was upon a wellknown gambler.

His benign appearance, silvery hair, and long, white, venerable beard seemed to indicate his fitness more for the Sunday school and church sociable than for the faro table. As he was a man of six feet two inches in As he was a man of six feet two inches in height and 250 pounds in weight, it might have been thought that great rank was peculiarly compatible with great stature. The spectacle of a colonel milking a balky cow or sweeping out a dilapidated grocery store is not calculated to excite emulation or awe in the bosom of the rising generation. There are very few majors in Florida, and most of them have a bona fide right to the title. I have a great respect for them, for they are mostly genuine good fellows, fond of their rum and a quiet game of poker. #### THE COLD WAVE.

It Has Passed By-Coldest Snap of the Winter-Skating on the Old Green-

Sergeant Cox, signal officer, says the back bone of the present cold snap is broken. We are to have warmer weather to-day. The cold wave of the last two days has been the most severe of the winter. Yesterday morning at 8 o'clock the thermometer was at 12 degrees. The coldest was 8 degrees. The velocity of the wind was from twenty-five to thirty miles an hour during yesterday. At 3 o'clock in the afternoon the thermometer had crept up to 23 degrees and to-day the tem perature will probably be comparatively

The sudden, abrupt and great changes it temperature have set all of the old "weather the cold " birds" to talking, and many reminiscences of weather of all kinds are flying around almost as fast as the weather itself changes nowaas fast as the weather itself changes nowa-days. The open period of winter which has been scarcely broken till two days ago is par-alleled in several instances, according to the old inhabitants. The most "open" winter that we have had of late years, in the remem-brance of an old citizen, was the winter of 1869-70. During that winter there was no cold weather till the middle of February. During the month of January it was not cold enough to freeze the top of water standing in a pail in our friend's yard. The ground was not hard, and only in the early morning hours did it show any signs of winter. The last week of February was, however, exceedingly cold and March was fearful. It was one of the worst Marches in the memory of many an old resident. Spring was very late and freezing weather was endured till the second week in May. Trees did not begin to bud till about this time. The ensuing summer was very hot and dry, and weeks upon weeks passed by with no sign of rain. "We've got to have just about as much cold weather during the year anyway, no matter enough to freeze the top of water stan "We've got to have just about as much cold weather during the year anyway, no matter when it comes," said an old citizen last even-ing: "but I'd sooner have it come when it ought to, than be all summer in going." And this seems to be the prevailing opinion upon this all important, momentous and weighty question of "weather."

AN INTERESTING QUESTION

Which Is Now Before One of Our City Boards-The Question Raised By One of Our Largest Manufactur ing Concerns Regarding the Tax As sessment Upon Its Property—The Board of Relief To Visit the Cleck Establishment-What the President of the Concern Says On the Subject. The New Haven Clock company has apsaled to the board of relief for abatement of he assessment against the property of \$250,-000, asking a reduction to \$200,000, has been made well known through the columns of

the daily press. The claim is made that the company is not making any money at present, the business having been dull for some ime past. The board has not decided upon the application, but have the matter under onsideration and have notified President camp that they will make an official visit o the establishment at an early date to in vestigate the question at issue.

The city, town and school tax here wenty dollars per thousand, making the company's annual tax expense five thousand dollars. The company a year ago 'made a similar appeal, but ineffectually. The pres-ident of the company was interviewed on the subject yesterday by a COURIER reprethe subject yesterday by a COURIER representative, and speaking on the subject said that one of the chief grounds of objection was that the rating or valuation was excessive and that another important basis of objection was on the general issue that public policy should dictate a lower rating for manufacturing industries. Indeed, our Chamber of Commerce has, during the past two years, made special and most commendable effort to "boom" Naw Haven as a manufacturing "boom" New Haven as a manufacturing enter and induce the location of new manu turing concerns here as a source of in preased wealth and property for the city. The clock shop, as it is popularly termed, has been for over thirty years one of our leading

President Camp thinks a lower val-uation of manufacturing property both the part of wisdom, justice and far sighted pub-ile policy. Another important matter, said President Camp, is the great and excessive competition in clock manufacturing to-day as compared with that of former years. And to-day the popular taste and requireents call for a much more expensive out-

put than formerly. Once the variety of clocks demanded was small, and for many clocks demanded was small, and for many years at the clock shop only seven or eight kinds of clock movements were made, and the styles of cases comparatively inex-pensive. This simplified matters and made business profitable. Now the variety of clocks, both in movement and cases, is legion and many kinds of clocks are made at the clock shop that are quite expensive. This great variety of clocks calls for a much more costly outlay for different dies, different machines, different molds, different tools. club, orchestra and banjo club there the first

increased expense entailed by the rise in the price of copper. President Camp further said that the true value of machinery and factory buildings was a matter depender upon their wealth-producing power. If they produced no return or no adequate return in profit, that was a matter for consideration especially when the value of such a large sister, Emma Plant, all of Newark, N. J., for manufacturing concern to a city is taken into consideration. The clock shop's pay roll was about \$400,000 a year. Here then was \$400,000 annually brought into New Haven in the shape of wages paid, almost all of which was spent in New Haven. Almost all of this large

A LONG STRIDE TOWARD UNITY. The Majority Report of the Chambe of Commerce Special Committee Ac cepted-The Legislative Committee on Cities and Boroughs to be invited Here for a Hearing-The Minority Fight Well-The Selectmen's Trip to

Hartford Three Years Ago. The final bout in the consolidation much dle which has stirred the Chamber of Commerce for several months was ended last night and consolidation proudly emerged from the skirmish with carriage erect and victori-

The Chamber met to take action upon special committee. A full week had been given for pondering upon the matter, and the situation was at last clearly set before the view of the Chamber. Nathan Easterbrook, chairman of the

Chamber's committee, opened the evening's program by moving that the majority report as adopted by the committee be adopted Hobart L. Hotchkiss immediately replied y amending the resolution in that the mi nority report should be accepted and no fur-ther action taken. In support of his amendnent, he repeated many of the arguments set forth in the minority report.

Attorney J. C. Gallagher, in answering the

Attorney J. C. Gallagher, in answering the speaker, said his report was faulty from the start. "It immediately betrays its author," he continued. "It seems to begin by assuming that the Chamber of Commerce has no right to investigate or act upon this matter of consolidation at all. The purpose of the Chamber is perhaps best in the memorial to the legislature in 1872. It stated that the Chamber's business was the promotion of Chamber's business was the promotion of trade and commerce in the city of New Haven. Now if a change in our taxes does not affect our trade and commerce, the chamber has nothing to do with the matter. But it obnothing to do with the matter. But it obviously does. The principal argument of our opponents is that the Chamber should not meddle with this matter. I say, let us take a vote first to-night and decide whether this

Chamber shall do anything between meals or After a few further remarks Mr. Hotchkiss' amendment was put to vote. It was evident that Mr. Hotchkiss and his suburban neighbors were lost in the shadow of their opponents, but still they held out bravely. Their amendment was lost amid the smiles of the preponderating majority, by a vote of 33 to 12. Mr. Easterbrook's

original resolution was adopted by a like vote.

The following resolution was then offered by Mr. Easterbrook:

Voted, That Messrs. N. Easterbrook, jr., T. At-water Barnes, Frank H. Sperry and John C. Gal-lagher be appointed a committee to prepare a bill in accordance with the plan for the consolidation of our town, city and school governments, as sub-mitted by the majority of the special committee, and to present the same to the present session of the General Assembly, and to advocate its passage. This measure aroused considerable discus sion, the minority bitterly opposing it, and finally Hon. Lynde Harrison amended the res-olution so that it read as follows:

Voted, That the president of this chamber be, and he is hereby instructed to request the committee on cities and boroughs of the present General Assembly to hold such hearings on the subject of the consolidation of the town, city and school governments as the committee may deem necessary, in a suitable room or hall in this city.

Voted, That the president be directed to provide some suitable cour room or hall in this city for the use of the sommittee on cities and boroughs, and to give proper notice of the time and place selected for the first hearing. If the committee agrees to visit New Haven for that purpose.

Attorney Gallagher, in remarking upon

Attorney Gallagher, in remarking upon this measure, said that if anything in this way was done it ought to be in perfect fairness to those who oppose the measure in the matter of expense and obligation of going to Hartford to appear before the legislature. He considered the motion as a fair compression. Hartford to appear before the legislation considered the motion as a fair compromise.

Captain James M. Townseud said he didn't think the legislature ought to have anything the town. "We whatever to do with taxing the town. don't want to have to come over here to the common council at every meeting to lobby and wait around in the hope of opposing some scheme concocted by the city to jeopardize our interests."

Attorney Kleiner said it would be much sum was also money brought to New Haven from other parts of the United States and

and passed by the chamber:

Voted, That the executive committee be author-zed to pay the expenses of the committee on cities and boroughs while in New Haven holding hearings bursuant with vote heretofore passed. This was also objected to by the minority They declared that the committee would not be their guests and as the chamber was di-vided they should not have to pay for the entertainment of those invited by the larger part. The minority here forgot that the coming of the legislative committee to this city would save them the trouble of a trip and probably an extended stay in Hartford. Colonel Cowles, in remarking upon the matter, said that he remembered when the subject was before the legislature three years ago those who went to Hartford in support of consolidation had their expenses paid. He asked if anyone could inform the chamber whether the other side did also.

Ex-Town Agent Reynolds explained that he selectmen who went to Hartford at that me all drew pay and full expenses for the After a few further remarks the important business of the evening was over. Four new members were voted into the chamber. They were Attorney Livingston Cleaveland, Chas. Fleischner, Samuel F. Punderson and R. A.

The Battalion Drill Last Night. The drill of the city battalion at the armory ast evening was commanded by Col. W. J. Leavenworth assisted by Major F.T. Lee and Adjutant T. T. Welles. The five companies were divided into two companies each, which were commanded by Captains Sucher, Brown, Gutt, Callshan and Embler and Lieutenants Walker, Gill, Miller, Creed and Beach. The manual and marching were well executed. Better seats should be placed in the galleries for the accommodation of the many spectators that attend the drills of the battallon. The members of the regiment frequently discuss the excursion which the boys will take in May or June. The particulars of the excursion are not definitely settled yet. ## Read Our Story.

We find it absolutely necessary to continue our Closing Out Sale during the month of February. While our January sale has been a phenomenal one and our stock greatly reduced, we still have thousands of dollars' worth of choice goods upon our shelves which Must Be Sold. It is imperative with us that our stock be reduced below a certain figure, and to effect that we have cut prices still more-offering everything at first cost, and less than cost, besides offering from day to day special drives which can but create excitement even greater than that during January. We urge all those that have visited the sale to visit us again, and in this city. all those that have not to do so at once.

Another long discussion took place as

whether the board of pension appeals should be increased to six. The change was made. The salary of chief clerk of the department of justice, on motion of Mr. Jones of Arkan sas, was increased to \$2,500. Mr. Gorman moved to increase the salar of the assistant doorkeeper of the Senate b \$500, so long as the position is held by th present occupant, who has been in the service of the Senate fifty-eight years and who was "as modest as he was faithful." Mr. Hoar suggested that the name of Mr. Bassett be entioned in the amendment, "so as to embalm the name of that excellent and hono ed public servant in the annals of the Senate

the foremast of the Largo Bay was pulled out and fell across the deck-house, crushing it. A wild tempest was raging at the time, and snow was falling so thickly that it was mpossible for the lookout on either vessel to see the lights of the other until the collision was inevitable. The Glencoe forged ahead, trying to cross the Largo Bay's bow, but failed to do so and ran at full speed into the bark, demolishing ten feet of her bow. The Largo Bay would also have sunk had she not been provided with water-tight sec-tions. The suddenness of the shock dazed the crew of the bark. They saw nothing fur-ther of the steamer, but could make out her crew struggling in the water. It was, however, impossible to render them any assistance, all of the Largo Bay's boats being The wind blew with such force that the sails of the bark were torn to shreds, and s carried overboard. ment. CUMBERLAND, Md., Feb. 7 .- Some tim ago a white girl named Grueber, aged 16 went to work in Mr. Tearney's family of this place. While the family were absent one evening a negro servant named Douglass assaulted the girl, and threatened that if she ever uttered one word about it he would cut her throat and use her like "Jack the Ripper." The young girl recently informed her ather of the negro's crime. States Attorney Sloan had the grand jury indict the negro last week. Before the war-rant could be issued for his arrest Douglass fled from the city. The sheriff is making search and if found he will be lynched.

The Inhuman Attempt of a Plumbe to Disagure His Spouse.

LYNN, Mass., Feb. 7.-Oscar Magenson, a plumber by trade, employed by the Boston, Revere Beach and Lynn railroad company, was arrested to night for throwing vitriol a his wife last night. About three weeks ago his wife left him on account of alleged crim nal treatment. About nine o'clock last eve ning Magenson called at his wife's lodgings and demanded that she return with him. She refused, whereupon he dashed a bottle of vitriol at her, which fortunately did not such her face or hands. Her dress where the steel gun was tested this afternoon at the liquid touched was turned to a blood red color. Magenson escaped for the time being, but was arrested to night and will be arraigned to morrow. He is about thirty years old and has been in court upon two previous

PROF. BRISTOL'S EQUESCURRICULUM. A large audience attended Prof. D. M. Bristol's exhibition of trained horses, ponies and mules at the Hyperion last evening. The orses are well educated and marvelously well trained. They perform their many acts with alacrity and an apparent eagerness to execute the commands of the professor, who gives the orders in a pleasant tone, and throughout the performance talks to the horses as if feeling for them a warm degree of kind regard. The horses evidently understand their instructor perfectly, and perform their tricks, many of which are difficult, very readily. Matinees will be given at the theater this and to-morrow afternoon at 2:30. After the matinees an opportunity will be given to children to have short rides on the ponies.

A Dozen Skillful Physicians Fail. "Lougee's Vitalizing Compound the Conqueror."

A REMARKABLE STORY. Manchester, N. H., Sept. 13, 1887. Lougee Medicine Co., Lynn, Mass.: Gentlemen-For the past five years I have been afflicted with Scrofulous Humor, which appeared in the form of unsightly eruptions on the face, and affected my general health so badly that I was obliged to leave my place of employment, and in

fact give up labor altogether for the last two years. I was under the care, successively, of at least a dozen skillful physicians, but their efforts gave me no permanent benefit. Various patent medicine were also tried, but to no effect. tn May last a friend called my attention to Dr. R. W. Lougee's Vitalizing Compound. I began to take it at once but it was not until I had used nearly two?bottles that any good results were noticeable. From that time, however, I began to gain and have continue to improve ever since. The blothes that so disfig ured my face have now largely disappeared, my strength has returned in a great measure, and my weakened nervous system is repaired. In fact, I have so greatly improved in every sense, by mean of the Vitalizing Compound, that I shall continue its use in the fullest confidence that it will com JENNIE M. CRAWFORD, 92 Laurel street.

Spring medicine means more now-a-days than it

spring memerine measurable through the series and did ten years ago. The winter of 1888-89 has left the nerves all fugged out. The nerves must be strengthened, the blood purified, liver and bowels regulated. Paine's Celery Compound—

The Best "In the spring of 1887 I was all run down. I would get up in the morning with so tired a feeling, and was so weak that I could hardly get around. I bought a bottle of Palne's Cellery Compound, and before I had taken it a week I felt very much better. I can cheefully recommend it to all who need a building up and strengthen.
