ways as meek as they look. It now appears at in China they are capable of resenting he treatment which has been given numbers of the race in this country. The Chinese government has taken no retaliatory action, hough it is quite within its power to inflict upon us a much more serious blow than any we have given or could give; but that the first irritation of the Chinese people has settled into everlasting ill will and given rise to an effective if silent form of retaliation ppears to be accepted by our business uses as only too true. For some reason, at any rate, our exports to China have fallen and are still falling, and a recently issued vernment report shows that in the matter of our two chief articles of export to Chinacotton cloths and mineral oils—the falling off in the last nine months has been \$1,400,-000 and 1,800,000 gallons respectively.

The New York Chamber of Commerce ha paid attention to the matter. It was not to be supposed, says the annual report of that body, that an ancient and sensitive nation would submissively endure such legislation as was adopted by the last congress in regard to its subjects. The old friendly feeling which existed between our merchants and those of China have gradually changed, and our citizens engaged in that trade are already suffering from this alienation. * * * The question is delicate in many aspects but we trust that it will be finally solved in we must not be surprised to see this once

hands also, into that of the Germans, with whom there cannot arise any such race conflict as the immigration of the Mongolian has aused on the Pacific slope. This is a warning worth heeding. It is evident that if the Chinese must go they are going to take something with them. There is reported a decided reaction in public sentiment in California, where the anti-Chinese

profitable commerce pass from America, and

f England persists in her policy, from British

eeling has been the strongest. EDITORIAL NOTES.

able increase in the population of Chicago. But a St. Louis man tells how it is done "In the first place," he says, "they count in he population of all the suburban towns which are not a part of the city at all. And then when these suburban towns become a part of the city, they add their population to in the material existence." Well, we are part of the city, they add their population to the aggregate population previously claimed, so that a large number of people are counted to be informed that time and space embartwice." As a St. Louis man makes this charge it is only fair to accept it with con-

What are known by the name of iron bricks have been satisfactorily introduced as paving material in some parts of Germany. These bricks are made by mixing equal parts of finely ground clay, with the addition of 5 per cent of iron ore. The ingredients thus mixed together are then moistened with a solution of 25 per cent of sulphate of iron, to which fine iron ore is added, until the mass shows a consistency of 38 degrees Baume. After this the compound is shaped in a press, dried, dipped once or more in nearly concentrated solution of finely ground iron ore and then baked in an oven for about

forty-eight hours in a reducing flame. The final struggle in the parallel railroad fight began yesterday, and some progress was pretty thoroughly known by this time. Those have been loud and profuse in their expressions to benefit themselves at the expense of the people of Connecticut, and the Consolidated railroad. Of course they ought not to be allowed to do it. A parallel road is not wanted here. The people do not want to see any such scheme as has been planned succeed. It will not. The legislature will destroy it, as

M. Henri Guesnet of Ingelmunster, Belgium, has conceived the imposing idea of organizing a universal exhibition of the humanfamily. He desires to assemble within a space of sufficient extent representative specimens of the various races of mankind. The typical representation of each ethnographical variety is to be "a married couple, with or without offsprings," who are to be plan of the earth. The originator of this grand notion, as appears from a correspon. apparently no great way toward the realizaion of a project which would, he considers, xcite not only curiosity but direct the sentient and mind of the civilized world toward the practical advancement of the frater-nity of the peoples, and the establishment of universal peace. He deserves encouragement. Some whiskey was left, but the dinner was

A man named Royall, of Richmond, Virnia, wants to go to congress, and he plants self on the platform of disfranchisement. of course he will find no encouragement, but e says: All that is necessary is to repeal the fifteenth amendmen', and I believe we follows that the small daughter Katie is trea for a repeal of it. The fuss made by the northern men about the negro is not from a Mrs X was reproving Katle in rather fretful entimental interest in him as a man. The tones when the child looked up from South has a larger vote in the electoral col- seat on the floor to observe with preternationlege and a number of representatives in congress, based on the negro as a voter. The ma."

al gravity of three years:

"Oh, take a more comfer'ble chair, mamma." gress, based on the negro as a voter. The northern man thinks we don't let him vote as he wishes, and thus get an unfair voice in both those bodies. Well, let us give up that part of the electoral vote and those representing this story: "I notice in this morning's paper both those bodies. Well, let us give up that tatives, in consideration for the repeal of the fifteenth amendment. The South will never have peace while the negro is a voter. It will remain the bad land and the Ireland of account the soldier said that if the dog did

America for the next ten thousand years, if the negro remains a voter that long.

sibition in Iowa are given in a letter by Mr. Webster, collector of the Dubuque district (consisting of forty-nine counties in the orthern part of the State), to B. F. Wright government license a prima-facie evidence of deal. The bird was stolen. The gentleman guilt. To escape this provision of the law, arger number of dealers do business without | port on a sailing vessel. The gentleman con government license, preferring to risk ction by the internal revenue officers to

reating evidence against themselves before he State courts. After citing efforts to enforce the law, Collector Webster says: 'From these facts it may be inferred that Governor Larrabee was not correct when he said to a Nebraska audience that prohibition was enforced in eighty of the ninety-nine counties in Iowa. On the contrary, there is not a county in the district nor a town of 300 nhabitants or over for which retail liquor lealers' licenses have not been issued, and in very county the number of licenses issued, when taken together with the number of dealers as compared with the number in existence before the prohibitory law took

"You have a great country," said an Englishman to an American. "I admit it. But your climate! . . . It is averred that Americans die early." "Die early!" "Yes, sir, and especially your business men."
"And don't you know the reason! Is it to be found in the nature of our climate? No, sir. The reason Americans die early is because they know when they've got enough. Public spirited, patriotic and unselfish, they thing about it except that commun die early, sir, to make room for the rising generation."-London Tid-Bits.

SHE GOT THE WHISKEY. How a Pennsylvania Woman Mas-

There is a story from the old times when he prohibition idea was not so strong in the rural districts near here as it is to-day. At a certain farm in Moon to wnship there lived a good man who had the misfortune to be linked to an intemperate wife. She would drink, so the veracious chroniclers of would drink, so the veracious chroniclers of
Moon township inform me, any two men under the table. At harvest time in those
days it was considered indispensable to have
a barrel of good old Monongahela whiskey
for the farm help.

It happened one year that when the harvest came around the old farmer's wife had
been calculating rather heavily and yet her been celebrating rather heavily, and yet her desire for ardent spirits was unappeased. The question which agitated the old farmer's

mind was how to keep the barrel of whiskey for the harvestors out of reach. He was afraid that if she and the whiskey were left alone in the house together there would not only be no whiskey, but also no dinner for the harvesters. the harvesters.

He took counsel, and the result was that
the barrel of whiskey was slung up to the
center beam of the barn and lashed from the such a place that it could only be reac and lowered to the ground by a man who could climb out to it. Then he and the help went into the field with the comfortable assurance that the barrel of whiskey was be youd the old lady's reach. But she had seen the barrel rolled out to the barn, and as soon as the men were away

with or without offsprings," who are to be located on a piece of land so marked out and arranged that it may represent a complete plan of the earth. The originator of this grand notion, as appears from a correspondence in French which he has published, has been knocking for years at the doors of French ministers; but he has hitherto made apparently no great way toward the realization. The shoulder she fired at the barrel, sending a ball clean into the center of the barrel. a ball clean into the center of the barrel.

Down came a stream of the golden ju of the rye, playing a tune on the tub, which made the old woman smile aweetly. There is no need to go into details. When

Mrs. X. is one of those by no means rar

will have a basis of fair trade with the North | ed with more or less sternness, according to

would not claim him, but if he did he would consider the dog belonged to him. When the case was called in court, the soldier spoke something in the Hindu tongue, and the dog immediately recognized him, and, running through the crowd, jumped into the witness box and fawned on the soldier."

Mr. Lincoln said that this was a similar of Charles City, the "father" of the late case to one which occured in Savanah many prohibition amendment. The Iowa law makes the possession by the defendant of a mocking bird, of which he thought a good many of the applicants take out their iter from the North who had purchased a icenses under mythical names, and still a mocking bird and was about to leave the port on a salling vessel. The gentleman con-cluded that he would go down to the vessel to see if the bird was not his. Upon reach-ing the vessel, sure enough, he found a man with a mocking bird which he at once recog-nized as the one which he lost. He told the visitor that the bird belonged to him, and the visitor asked how he could recognize the bird from any other, and was unwilling to give it from any other, and was unwilling to give

> The Savannahian finally said that would make a complaint before a magistrate, and if he did not prove by the bird itself he would not make any further claim to it. So ogether they went before Magistrate Rail-ford, who had his office at the time in a little building where the Custom-house now stands. The complaint was made and the claimant of the bird said that he would prove that the mocking bird was his by the bird itself. The magistrate was somewhat suprised, and ask-ed, "How are you going to do that?"
>
> The gentleman replied that he would whis-tle an air, and if the bird took it up and followed him, it ought to be sufficient eviden of ownership. If the bird did not follo him, then he would make no further claim t

He whistled the tone of "St. Patrick's Day

in the Morning," and the bird joined in whis-tied it ithrough without interruption. The magistrate said: "I am satsfied the bird in yours. I don't want any further evidence of the fact of ownership." The visitor was charmed, and wanted the bird badly, and of fered \$100 for it, but the owner refused to part with it for any amount. CHANGE OF MOTION INTO HEAT

Curlous Illustration of the Trans formation. [From the Boston Journal of Commerce.] The opinion is now commonly accepted by scientific men that all bodies, substances, gases and liquids are composed of multitudes of particles or molecules of almost inconceivable smallness, and these are sup-

posed to be in motion among themselves— this motion, moreover, being heat; that is to say, heat is neither more nor less than a kind of motion, and this internal vibration can be transmitted into a perceptible mechanical ovement; or, on the other hand, mechani cal movement can be converted into the invisible motion called heat.

How the change takes place no one knows but the change is none the less a fact. As illustrating this point, a writer in the Me chanical Engineer cites the fact that the dif-ference between a solid and a gas is simply that the motion of the particles or the molecules of the gas is much greater in extent than is the motion-of the particles of the solid, some gases also having a greater rang of motion than other gases; and if by an means the motion be taken out of gas, say by compressing it into a vessel the sides and ends of which reduce the range of move-ment, then, as nothing is lost in nature, the invisible and insensible motion of the gas, which it has lost, reappears as heat in a visi-ble form, and it is found that the sides of

Further, the oxygen which has combined

the vessel become hot.

internal motion, but when the oxygen has combined with the coal another gas, known as carbonic acid gas, is produced; and the particles of this gas having a much smaller ange of motion than the particles of th xygen have, the difference appears in WHY A CABLE BREAKS. he Delicate Instruments Used to As-

certain the Locality of the Breach. When the Ponyer Quertier, a French teamer built expressly for laying ocean ca-les, was in Boston harbor a week or two ago, many pleasure seekers, as well as news gatherers, boarded her, intent upon learning omething about cables and men who care for them. One inquiring person button-holed the first officer and plied him with New Lower Prices. "How do you know, when the cable liway out in midocean, when you have to re-

"Oh, that's easily explained. Deeply but ied as these cables are beneath the trackles level of the ocean's surface, the exact path n which each one of them lies is well known by series of chart indications which made at the time of their construction. means of computations based upon these sources of information a captain can guide his vessel to any spot along the tine in midocean, where no guide posts but the lights of heaven exist, and know of a certainty point directly over the enmbent cable hur was a break in the cable between Cape Ann and Ireland that the approximate position of the break could be ascertained by the opera tor at Causo. Now how could he tell any

was stopped?"
"Well, it is one of the marvelous things in
modern invention that he is able to accomplish this. The delicate instrument called the galvanometer will tell him, in the spaof a very few seconds, at what spot in th hundreds of miles length of cable, dow among the dark recesses of the ocean's be the accident to the wire has occurred. I acuteness of the instrument lies simply its ability to register with unfalling accuracy the amount of resistance the unbroken wire gives. With this information, and knowing the wire and the amount of its resistance pe mile, the operator can calculate the dista from the station at which the break has curred. If there should be two breaks of course, can give information regarding first one only, since the electrical connection is stopped there. If the operator at the outer end should make a similar test of unbroken portion, and it should be found upon comparing the two results, through some other perfect cable, that they did not supplement each other's distances, then it onid be evident that there were at least two breaks at a known distance from each othe

Such instances have not occurred, however.

It Made

Mother Strong "My mother has been using Paine's CELERY COMPOUND for nervous prostration, accompan ied by melancholi etc., and it has done her a world of good. It is the only me ens the nerves. G. H. BEERS,

"I am in my 64th year. Have been afflicted it several ways—could not sleep, had no appetite no courage, low spirits. I commenced usin Pathe's Celery Compound, and felt relief from the third day after using it. I now have a goo appetite and can sleep well. My spirits an courage are almost like those of a young man. S. C. Kinkam, D. D., Gonzales, La. Paine's Celery Compound

Strengthens and builds up the old, and cures their infirmities. Rheumatism, indigestion and nervousness yield quickly to the curative power of Palne's Celery Compound. A Perfect Tonic and Invigorator, It C!VES NEW LIFE. "I am now 69 years old and have tried several remedies, but none had any effect until I used Paine's Celery Compound. I feel entirely di-torent for the short time I have used it. I can walk nearly straight, sleep sound and well, and feel as though there was new life and energy coming into my whole system." H. MYLIUS, Cleveland, Tenn.

Paine's Celery Compound is of unequaled value to women. It strengthens the nerves, regulates the kidneys, and has wonderful power in curing the painful diseases with which women so often silently suffer. \$1 per bottle. Six for \$5. At Druggists. HOW THEY ARE MINISTERS. Fraduating Exercises of the Vale Divinity School in Marquand Chapel -Many Interesting Discourses and Orations-The Alumni Meeting-In-teresting Discussion of the Free Pow

A large gathering of ladies and friends of the graduating class of the Yale Divinity school listened with evident pleasure to the graduating exercises of the class in Battell chapel yesterday morning. Upon the platform sat President Dwight and Professors Seorge P. Fisher, Harris, Stevens and Day of the Divinity school faculty.

The exercises opened with prayer by the Rev. Mr. Tufts of Monson, Mass. Music by the University string quartet, which rendered everal selections during the exercises, fol lowed. Harlan Creelman of York, Me., graduate of the University of New Bruns wick, was the first speaker. He spoke on wick, was the first speaker. He spoke on "The Patriotism of the Hebrew Prophets." Henry W. Tuttle, Williams college, of Ottsco, N. Y., discoursed upon "Religious Experience in Christian Thought." "The Prophetic Office of the Christian Ministry" was the subject on which Dean Augustus Walker, Yale University, of Auburndale, Mass., spoke. Manley D. Ormes, Yale university, of Tuscols, Mich., forcibly brought out his argument. "The Chief Defect of Modern Preaching." Music followed, after which George P. Eastman, Amherat college, of Framingham, Mass., spoke on "Unity in Denominationalism." Henry Staeffer, Otterbein university, of Denver, Col., made an Denominationalism." Henry Staeffer, Otterbein university, of Denver, Col., made an address on "The Benefit to the Pulpit in Our Times of Some Deplored Modern Tendencies." Charles B. F. Peace, Williams college, of Buskirks, N. Y., spoke on the "Demand for Business Methods in the Management of Church Affairs."

Theodore D. Bacon of this city, a graduate of the Sheffield Scientific school, made an excellent address on "The Minister as a Man." Robert M. Hague. University of Pennsyl-

cellent address on "The Minister as a Man."
Robert M. Hague, University of Pennsylvania, of Philadelphia, Penn., followed upon the subject, "An Uncontroversial View of Augustine as a Theologian." "The Practical Test of Theology," was an address by Albert W. Hitchcock, Amherst college, of Kalamazoo, Mich. Frank Robinson Shipman, Yale university, of Hartford, delivered an oration upon the "Christian Missions in Canada." Manasseh Garabed Papazian, a graduate of the Central Turkey college of Aintab, Turkey, spoke upon "The Pulpit and the Times." James A. Tufts, Amherst college, of Monson, Mass., spoke on "The Value to Religion of a Spiritual Philosophy."

The "Hooker Fellowship" was awarded in the afternoon to Albert W. Hitchcock of Kalamazoe, Mich.

The Alumni Meeting-The Annual Re Pass System.

The alumni exercises of the seminary tool place yesterday afternoon in Marquand hapel. Professor George P. Fisher was chosen president and Mr. H. W. Hunt, of can Baptist Missionary union which began yesterday in Boston.

Judge Sanford was yesterday in Waterbury hearing the case of Barlow Brothers against to residing in a house of ill-fame.

Avoid paying soap makers 8 cents a pound for rosin, when it costs them less than 1 cent a pound, by using Brussels soap, which contains no rosin.

Professor Wayland, of this city, presided at the seventy-fifth anniversary of the American Baptist Missionary union which began yesterday in Boston.

Judge Sanford was yesterday in Waterbury hearing the case of Barlow Brothers against

hearing the case of Barlow Brothers against Edward S. Hayden on account of alleged defective steam heating.

The transfer of the Sheffield homestead property to the Scientific school has been completed. The building will be used for laboratories and lecture rooms.

from him. The increase of students from year to year continues. There are now 133 here, being more than ever before. For the ten years preceding this, the number has ranged from 67 to 117. Professor Day made reference to gifts to the seminary of \$9,000 and two more of \$1,000 each. He also spoke of the student mission work.

The subject of the discussion which took place was the "free pew rent system". The

that it was a bar and a hindrance to the evangelization of the unchurched masses; New York and New Eagland district of the Lutheran church which opened in Rockville and poor; that it would be a hindrance against the future prosperity of the church by keeping out the children; Miss Emms Buckmaster of New Haven, sister of William Buckmaster, pressman at A. J. Converse's in Meriden, will be married at Watertown this afternoon to Frederick Richards, of Wallingford. He advocated a systematic system of giving and showed that the church member

The Reception and Tea. The ladies of the faculty and many othe who are interested in the seminary presided at the collation and reception which followed the alumni meeting. The senior recitation room was bared of the desks and other in-signis or school life, and tasty tables were arranged around the room and placed down the center. The occasion was a happy one. It is the parting incident in the seminary life. It is the time when, above all others, life. It is the time when, above all others, the seniors who are now graduates have their ladies here. Around the festal boards were Mrs. Day, Mrs. Stevens, Mrs. Dwight, Mrs. Richards, Mrs. Mersick, Mrs. Cady, Mrs. Champion, Miss Munger, Miss Bushnell, Miss Jones, Miss Gady, Miss Skinner, the Misses Deming, Edward S. Parsons of Colorado, Walter S. Ufford, Rev. Samuel W. Barnan C. W. Park of Birminoham, Frank R. num, C. W. Park of Birmingham, Frank R. Luckey of this city, D. E. Jones of Broadbrook, Conn., G. H. Pelton of Watertown, W. H. Gilbert of South Norwalk, Prof. Ladd of this city, L. F. Johns, and a host of other leasant friends of the seminary. The even-

ing was passed in a social way. In the cor-ridors, recitation rooms, chapel and library were cheerful scenes of happy groups, happy in a certain sense, but sad because the part-ing was so soon at hand. No Business Transacted. A meeting of the committee on ordinan ces was held last evening. Alderman Kleiner and Councilmen Asher and Sonnenberg were present. No business of importance was transacted, and all matter before the

THE NATIONAL GAME. w Haven Defeats Yale 8 to 2-A Well-Contested Game-The New Havens Play an Errorless Game-Swor-back Boes Good Work - O'Rourke Makes a Fine Impression—Phenome-nal Fielding on Both Sides—Stagg Declared Out for not Returning to His Base When the Umpire Called

"If you only beat Yale you are all right." That was the expression of the New Haven people when it was known that there was to be a ball team here. The New Havens have now defeated the Yale team twice. There seems to be no doubt now but tha the New Havens will take a brace and win some games. For two successive games they have played a fine fielding game.

Their fielding yesterday was errorless Every one seemed to do well, and there seemed to be some heart to their fielding. Besides, there seemed to be a head to the team in the person of Captain Corcoran. Sworback was put in to pitch, and O'Rourke to catch him. The latter was O'Rourke to catch him. The latter was a great help to him. This was the first game that O'Rourke has caught this season, and he made an excellent impression. His throwing to bases was heartly applauded. He has been ceaching Sworback, and the latter several times tried a new style of delivery that O'Rourke has been teaching him. Sworback also hit the ball hard, three times knocking a long fly to centre field.

The New Havens outbatted and outfielded the Vale team. O'Rourke showed that he is ne Yale team. O'Rourke showed that he i

the Yale team. O'Rourke showed that he is a heavy hitter, and Galligan dispelled the delusion that some people have that he cannot hit, by lining the ball out for a home run and a two bagger. Lally also got his eye on the ball and so did Sheehan.

Walsh did great work in centre field. One fly he got by jumping high in the air and pulling it down as it passed over his head.

The Yale team started in by playing a fine fielding game. Calhoun and McBride made some phenomenal stops of hits that looked safe. Stagg was very unfortunate. In the third inning he made a hit that was good for a home run, but he turned his ankle at first base and did not get further than third. Later he had to retire in favor of Poole. The Game.

New Haven was first at the bat. Brady was given his base on balls and easily stole second. Walsh's sacrifice sent him to third. and second on Lally's hot drive to Travers

Stagg hit a fly which Walsh made a long run for and got. Calhoun was given his bases on balls. He attempted to steal second, but O'Rourke's throw caught him several feet off the base. McClung hit safely, and he was put out on O'Rourke's throw to second. SECOND INNING. New Haven-Galligan fould out to Mo-Bride, who made a good run for it; Fitzgerald struck out; Sheehan hit a short fly in to center, which Dalzell made a brilliant run

for but did not get; O'Rourke got his base on called balls, but Sworback flied out. Yale—McBride hit hard to Fitzgerald, but the latter threw him out to Lally; Fitzgerald also took Noyes' grounder; Dalzell hit to Sworback and was retired to Lally. THIRD INNING. New Haven-Travers made a splendid stop of Brady's hit, and McBride by a nice pick

up saved him from a wild throw; Walsh and Lally went out at first. Yale—Graves led off by hitting safe inteleft field, and he took third on Traver's sac rifice and O'Rourke's passed ball. McClintock sent a hard grounder to Corcoran, who cut Graves off at the plate. Stagg's three bas hit sent McClintock home. As Stagg hurt himself time was called by Umpire

Mahoney.

When call for "play" was made Stagg was off his base and he did not return, but went home on Calhoun's single. Had Stagg remained on his base until after the umpire Isboratories and lecture rooms.

Ex-Senator Carlos Smith is in Indianapolis as a delegate to the annual convention of the Supreme lodge, Knights of Honor, now in pew rent system was a device for making pew rent system was a device for making consistent the pew rent system was a device for making that called "play" was made Stagg was off his base and he did not return, but went home on Calhoun's single. Had Stagg remained on his base until after the umpire mained on his base until after the umpire had called "play" the run would have counted. As it was

Haven-Retired in one, two, three Yale-Sheehan took McClung's foul fly by running clear to the line, and he was heartily applauded. MeBride hit a long fly to center field, which looked as if it would go over Walsh's head, but after running back he made a high jump and captured it. That possibly, was weak fielding, but everybody present thought it was phen Noyes flied out to Fitzgerald. FIFTH INNING.

New Haven-Sheehan started the bal rolling by hitting to Calhoun. The latter fumbled the ball and Sheehan was safe. He stole second by a nice slide. O'Rourke made a beautiful hit just over first base for made a beautiful hit just over first base for two bases, on which Sheehan scored. Dal-zell made a magnificent cstch of Sworback's fly, and O'Rourke took third on it. Brady's hit to Noyes was so hot that the latter could not handle it and O'Rourke scored. Brady stole second and also third. Walsh was hit by a pitched ball and stole second. Lally hit a fly near the right field foul line which Stagg muffed and Brady scored, Walsh go-ing to third. Walsh scored on Corcoran's Stagg musted and Brady scored, Walsh going to third. Walsh scored on Corcoran's sacrifice. Lally was caught napping at third by Travers. Result, four runs.

Yale—Dalzell was thrown out, Sheeban to Lally. Cushing, who had taken Graves' place, made a single and took second on Travers's sacrifice. McClintock was hit by a pitched ball and Sworback gave Stagg and Calhoun their base on balls, forcing in a run.

New Haven-Galligan led off with a nic two bagger. Calhoun made a fine running stop of Fitzgerald's hit. Sheehan got his base on balls. Sworback knocked a shor

fly to Dalzell, who made a magnificent throw to the pitcher, cutting off Galligan. Yale—McBride got first on balls and took second on Noye's single. Dalzell flied out to Fitzgerald, who had to run into short cen-In the seventh Lally got in a three bagger and scored on a passed ball. Galligan made a home run in the eighth

iew Haven vs. Easton—Ladies Admi ted Free To-Day. The Eastons will play the New Havens here this afternoon. The time of calling the games hereafter will be 4 o'clock instead of 3:30 as heretofore. Handiboe or Sullivan will pitch for Easton. . It will be ladies' day, and all who attend will get good seats in the grand stand. An awning has been ordered to be put up in front of the grand stand. Notes.

Turner pitched for Easton vesterday.

Captain Corcoran should keep his men LEADING SHIRT MAKERS nustling to day. Galligan is quite a coacher. The Wilkesbarre's had a hard time to defeat the Harvards yesterday, and did not do it until eleven innings were played.

The Worcesters and Newarks played a thirteen inning game yesterday. got but one safe hit off Burkett.

A Disturbance in Grange. Deputy Sheriff Wheeler brought to the police office from Orange last night William Kiernan, Richard Otis and Dennis Howard for a breach of the peace against Ella Cook on Monday last.

Entertainments. SPEAR'S CIRCUS. Spears and company's circus draws crowd to every performance. The exhibition of erobatic feats, tumbling and other interest ing attractions is one of the finest ever giver in the city. Performances will be given every afternoon and evening for the rest o

SOUTHDOWN MUTTON THE NIGHT OWLS. There will be no performance at the Grand he rest of this week. On Monday next the Night Owls will open for a week's engagement, with matinees on Wednesday and Sat urdsy. The company is a strong one throughout and one of the best burlesque companie on the stage.

.YALE'S NEW GYMNASIEM. Street, Near Peabody Museum, Purchased by the College Corporation For the Site of the New Building-It Will Soon be Erected. It now looks as if Yale would soon have

he much-coveted gymnasium for which he ons have long looked with eager eyes and towards which a great mass of the com ment oratory of last year was pointed i evident expectation. The sale of the lot upon which the new structure will stand was completed yesterday. It is the Dr. Alfred Munson property on Elm street, between York and High streets, and the price paid by the Yale col

lege corporation was about \$30,000. The sale was effected through the agency of Charles H. Webb. The property has a fronting of 138 feet on Elm street and is 320 feet in depth. The old Dr. Munson homestead now stands upon the estate, but this will be torn down or removed as soon as building preparations are completed.

The building that will be erected as a gymnasium will be one of the finest of the kind in the country. It will cost \$180,000. It will be a mammoth structure and will, without a doubt, rival any of the Yale buildings which have been thus far erect It is expected that in a few months wo already \$100,000 of the required sum his been raised and Yalensians, both young an old, who have a love for Yale and athletic are exerting themselves to their utmost to hasten-the completion of the structure. It is thought that the remaining \$80,000 can be soon raised by the large number who are now working actively in the matter. The new building will stand nearly opposite Pea-body Museum and will be a notable addition to the college buildings and the city in that

SPRING TOURNAMENT f the New Haven Lawn Club-H. P.

Yesterday's Contest. The spring tournament at the Lawn club grounds was continued yesterday, and great to witness the game. The home runs of Gore | interest manifested in the closing matches. and Twitchell and Hatfield's pitching were In the semi-finals R. Huntington won from the features. The scores:

R. V. Beach, starting off with four straight games. Beach took the next two and Huntington the seventh, making the score 5-2. Beach then took a decided brace and brought the games to 5 all, and was twice within 1 point of the set, but Huntington's surer play won him the first set, 6-5, and the second more easily, 6-3. F. Huntington won from E. E. Hall, jr.,

by default, the latter being unable to appear. The finals were then played off be-8-6, 5-4. E. E. Hall, jr., beat L. C. Sanford, 6-3, Gloves, 6.5. F. Huntington beat F. D. Pavey, 6.2, 5 6, 6 3.

THIS WEEK AT Second round—R. Huntington beat R. Beach 6.5, 6.3; F. Huntington beat Hall by default.

Final round—R. Huntington beat F. Huntington 6.4, 8.6, 6.0, 9.7.

This afternoon R. Huntington plays the 799 CHAPEL STREET.

CONNECTICET ODD FELLOWS. Grand Lodge-The Continued Pros-perity-Hartford Hospitality-Officers HARTFORD, May 15 .- The Connection

Grand lodge of Odd Fellows met in annual ssion to-day in this city. About four hunired members were present, representing the sixty-seven lodges in the jurisdiction. Grand | eight, died at his home in Baltimore at cretary Botsford in his annual report preinted the following statements and statistics elative to the condition of the order. Six new lodges have been added during the year, two of which are located in eastern Connectiout, and give promise of good work in that ocality, where the order has been so long without representation. The present number of lodges is sixty-seven. The total reeipts of subordinate ledges were \$106,847.09, from which there was paid for relief \$48,-031.91, and for expenses \$49,128.32, leaving a balance of \$9,686.86, which, added to the previous surplus, makes the total fund \$306,-

There were initiated during the year, 1,027 members, admitted by card 53, and reinstated 34, making a total of 1,114. From this there are to be deducted 122 withdrawn by card, 236 suspended, 7 expelled and 108 deceased, leaving 641 as the net gain for the year. The membership January 1 was 11. year. The membership January 1 was 11,-847. The number of weeks sickness was 9,650, or an average of six days, two hours and forty-one minutes per member. The death rate is one in 102—a little less than

one per cent.

Three lodges of the Daughters of Rebekah have been added during the year. There are now twenty lodges of this degree, with a membership of 1,930, and a fund of \$16,028.98. The receipts of the Grand Lodge were \$2,308.70. The secretary suggests the were \$2,308.70. The secretary suggests the re-printing of volume I, bound journal of the Grand lodge, now out of print.

All the grand officers were present as follows: Ralph Burnham, of Hartford, grand master; James Bishop, of New Haven, deputy grand master; Frederick S. Hunt, of Bridgeport, grand warden; Frederick Botsford, of New Haven, grand secretary; John W. Smith, of Waterbury, grand treasurer; William H. Comley, of Bridgeport, and Bradley S. Keith, of Winnepank, grand representatives to the Sovereign Grand Lodge; Henry F. Payne, of Hartford, grand marshal; Henry Inglis, of Middletown, grand conductor; T. D. L. Manville, of Ansonia, grand guardian; the Rev. D. G. Ashley, of Lyme, grand chaplain; R. H. Johnson, of New Haven, grand herald.

During the noon recees a dinner was ten-

grand herald.

During the noon recess a dinner was tendered to the representatives at Germania hall by the local lodges of the order: Charter Charter by the Deade No. 13 Hartford. Oak, No. 2, Tycho Brache, No. 13, Hartford,

The grand officers and several distinguish ed visitors were entertained by Hartford lodge, No. 82, at its regular meeting Tuesday evening. The first degrees was exemplified in a creditable manner, following which brief speeches were made by Past Grand Sire James P. Saunders of Yonkers, N. Y., Past Grand Master John Medole and clusion of the lodge room exercises the mem-bers of Hartford lodge and their guests, to the number of nearly three hundred, marchserved. The tables were tastefully decorat ed with flowers and potted plants. After the menu had been discussed and cigars were

Grand Master Bishop made the following grand Master Bishop made the following appointments: Grand marshal, Charles B. Ware, New London; grand conductor, S. G. Blakeman, Birmingham; grand guardian, Henry Meyers, Bridgeport; grand chaplain, the Rev. D. G. Ashley, Gardner's Lake; grand herald, R. H. Johnson, New Haven. Eulogies were pronounced and appropriate resolutions adopted on the deaths of Stephen Terry of Hartford and Past Master Tolles of New Haven.

Past Grand Sire Sanders, of New York, and John Medole and James McIntyre, grand presentatives from that State, were pres nt and made addresses. It was voted to cold the next session in New Haven on the third Wednesday in May, 1890. ANOTHER RAHWAY MYSTERY. Drugged and Outraged Woman

Roadside-The Victim of a Foul Crime Rahway, N. J., is intensely excited to-day Placards have been posted in many warning peaceful citizens to remain ver another alleged mystery. At 5 o'clock this morning the body of a handsome woman was found lying near a clump of trees on Main street, near Hazelwood avenue. She was still breathing, but life was nearly extinct. The woman had been evidently heavily drugged and ontraged. She was stylishly dressed and is about 25 years old, 5 feet 4 inches tall, and finely developed. She was placed in a wagon and taken to the station house. Mayor Hyer declared that he the Bavarian Brewing Co., the Endrea nitted and that he intended to spare no

effort to hunt down the perpetrators. There was nothing in the woman's pockets to identify her, and her features were not recognized by anybody who viewed the body.

A later dispatch says: This evening the young woman still lies in a critical condition although during the afternoon she recovered sufficiently to give a description of the young men who assaulted her. The description corresponds with that of two young men from New Brunswick, who are employed in the Later Steel Works here and sequired plast night. ed in the Johnson Signal Works here and who disappeared to-day. The police are making a diligent search for them. It is believed some of the "toughs" here are implicated in the affair.

WAS RISHOP DEAD? The Great Mind Reader's Mother and

Wife Claim That the Physicians Killed Him While in a Trance-A Coroner Will Investigate. NEW YORK, May 15 .- The wife and mothr of Washington Irving Bishop, the mind reader, claim that Bishop was not dead, but merely in a trance when the physicians made their post mortem examination, and that his death was caused by the surgical instruments. It seems but four hours elapsed from the time of his reported death until Drs. Irwin, Ferguson and House were making a post mortem examination of the body. The widow of the mind reader states that he had suffered several times from cataleptic attacks and has lain in a trance apparently dead for periods varying on the company's lines and the service so unfrom six to fifty two hours. On one occasion in Malta, she says, physicians pro-nounced him dead and preparations were ad-vised for his interment. His friends held a

Thomas S. Robertson of No. 28 East 20th street, this city. While at the doctor's house he had a cataleptic attack and remained in a trance-like condition for two days. The physicians who performed the autopsy, however, say there can be no possible doubt of Bishop's death before the autopsy was decided upon.

A later dispatch says that the mother and widow of Washington Irving Bishop still insist that he was not dead when the doctor dissected him, but simply in a trance. They say that he was murdered in the name of say that he was murdered in the name of selence. A coroner will investigate the case.

Captain Block's Voyages.

A large gathering, fully one-half of which about West Haven. The fellow gave hi was ladies, attended the last meeting of the name as Murray. He is about twenty-five New Haven Historical Society for the present season at the society's rooms last even-Eggs as Food. ng. The event of the evening was th Eggs are most invaluable food for they reading of a paper by Mr. George R. Howell ontain all that is required for building up of Albany, N. Y., upon "Evidence of the and maintaining the body. The white of an French Discoveries in New York previous to egg is nearly pure albumen and water while ne colonization by the Dutch." the yolk, the richer part, consists of albu Mr. Howell gave an interesting ac the discoveries and explorations of the early voyagers, and told many pleasant details of their voyages. He also showed several old mans over 300 years old, of the eastern coast men with minute particles of oil in it-s small amount of salts. Albumen which 54. 3carbon, 7.1 hyrogen, 15.8 nitrogen, 21.0 oxygen, and 1.6 sulphur exists in the blood maps over 300 years old, of the eastern coast lines of the continent. Upon one of them can be seen the harbor of New Haven and other near geographical fixtures. He related many details of the voyages of the old navi-gator, Captain Block, after whom Block Island is named. This hardy sailor explored n the proportion of 75 parts to 1,000, in les much of the sound, landed on Long Island, which he evidently thought was the main land, noted numberless peculiarities of the country, explored New Haven harbor and Quinnipiac river, and took especial observations of East Rock and the neighboring hills, which he called "Rodenberg" because of the

quantities in nymph and chyle, juice formed in the process of digestion, and is trifling amounts in other quices of the body. To supply this albumen in the body it is necessary to use aliments that contain it. That group of foods, of which eggs are the foremost are called albumenoids. The characteristic common to all is that they a both when raw and properly cooked, are never too costly a food per se. The pure nutriment in them is one-third of their entire bulk, while that in beef is only one-quarter and that of oysters one-eight their respective bulks. So that with eggs at 25 cents a dozen, round steak at 16 cents and mutton chops at 20 cents a pound both food and money are saved by eating the eggs.

The albumen of egg coagulates at 160 degress of heat and, when the boiling point 212 degrees is reached, it becomes insolu

ble. At 160 degrees the albumen whitens but remains tender and delicate and perfect An egg properly cooked is, then, one which has not been subjected to too great heat. The simplest method is boiling, which is best done by pouring boiling water into a saucepan, then drawing to one side of the range that it may not boil, and, putting the eggs in, cover and let stand ten minutes. The heat will thus thoroughly penetrate the entire egg and make it thick and creamy like custard. The poached egg is merely egg boiled without its shell, and the greates are must be taken that the water in which t is cooked is a little below the boiling point. Violent boiling not only tears the egg to pieces while cooking, but makes it tough and indigestible. When properly cooked in a clean saucepan and daintily lelicious meal for the invalid, the child or

OFFICE HOURS 9 A. M. to 5 P. CATARRH TO CONSUMPTION.

Catarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is refore, singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Deceptive remedies concected by ignorant pretenders to medical knowledge have weakened the confidence of the great majority of sufferers in all advertised remelies. They become resigned to a life of misery rather than torture themselves with doubtful pai-

rather than torture themselves with doubtful palliatives.

But this will never do. Catarrh must be met at
every stage and combatted with all our might. In
many cases the disease has assumed dangerous
symptoms. The bones and cartliage of the nose,
the organs of hearing, of seeing and of tasting so
affected as to be useless, the uvula so elongated,
the throat so inflamed and irritated as to produce a
constant and distressing cough.
Sanford's Radical Gure meets every phase of
Catarrh, from a simple head cold to the most
loathsome and destructive stages. It is local and
constitutional. Instant in relieving, permanent in
curing, safe, economical and never falling.
Sanford's Radical Cure contains one bottle of
the Radical Cure, one box of Catarrhal Solvent and
one Improved Inhaler, with treatise; price \$1.

for New York.

Can anyone imagine that it is necessary to the New England or Housatonic business bound for New York that there should be a parallel road from New Haven to Norwalk, when they already connect with the three SUMMER TRIPS TO EUROPE.

I shall vote against a parallel road because I believe there is no necessity for one. The road now running from New Haven to New York has never failed in furnishing accommodations for the business brought it. There has not been one particle of evidence proving the incapability of the existing road. There has been evidence of friction, but nothing for what there is ample remedy on our statute books, either through our courts or the railroad commissioners. BUNNELL & SCRANTON, 108 ORANGE STREET.

ANDREWS NOMINATED FOR CHIEF JUSTICE-

I have the honor to submit the following nomin

STATE OF CONNECTICU

apital invested in the two roads.

To-day we hold in our hands the control of tion was made that the ballot be taken at this matter. If the Consolidated roads are earning too much from their franchise, exernoon to-morrow, but Representative Mc-Crone moved that the debate close when it can the control, and proscribe their rates and was finished. The motion was passed by fares. But do not endeavor to right an exwas finished. The motion was passed by isting wrong upon the unstable and false ground of competition.

The whole world was searched to find lowthe house, ridiculous as it was. At the close of the first day's struggle on the floor instead er rates of fare and freight and better ser-vice than the people of Connecticut enjoy to-day, and the only instance shown to your committee was in Belgium, where the railof in the lobby both sides claim the supremacy. If the debate indicated one thing more than another it was that the leadcommittee was in Belgium, where the rail-roads are owned by the government, which wend support them by taxation if the fares were not sufficient.

Now. Mr. Speaker, I ask in all fairness, ers, the men whom the house is ac-

customed to follow, oppose the parallel scheme. Before general discussion began Mr. Holden of Derby, offered an amendment to the bill for a public act reported by the railroad committee (the majority), which places the power of deciding whether public necessity requires new railroads in the hands of a judge of the Superior court, instead of the railroad commissioners. The amendment was adopted. Mr. Brown the House. ment was adopted. Mr. Brown, the Housatonic, champion on the minority of the the railroad committee, attempted to amend the bill with the whole of the minority report, which the house sat down upon. Mr. Brown hen read from voluminous manuscript his

ong speech which occupied nearly half an nour and followed the lines of the Housatonic's lawyers before the com-mittee. He said that the legislature is expected to cow down in submission to the Consolidated road, which was the keystone of the whole subject. He insinuated that the majority report and argument preceding t were not prepared by any member of the the late William H. Barnum, in which he disapproved of the management of the Housatonic as a disastrous policy.

Dwight Tuttle made one of his characteristic rhetorical efforts in behalf of the parallel scheme. He trusted that the name of the Consolidated road and the State of Connecticut would be synonimous. He appealed fervently to his hearers not to heed the "aubsidized press."

Mr. Bryant, of Orange, said that if a railroad was to be built it should be built with committee; that many of the statements made in the majority report were false and none knew their falsity better than the members of the committee themselves. The selfish greed of the Consolidated road and seins greed of the Consolidated road and brazen effrontery of its attorneys was un-equalled anywhere. Mr. Brown asserted one of his most vehement flings at his col-leagues on the railroad committee, which Mr. Bryant, of Orange, said that it a railroad was to be built it should be built with
money, not by the inflated issue of bonds.
Then when it comes to the question
of a parallel railroad, he would never vote for
such a thing until there was a guarantee that
construction should be begun at once and
that there should be no selling out. He indignantly refuted the insinuations thrown
out by Mr. Brown and speaks of Sanator was that they preferred to serve a monopoly rather than the interests of the people. Mr. Ambler of the railroad committee defeated the majority report, and when he closed was applauded. He said: I signed the majority report of the committee because, among oth er reasons, I am opposed on general princi-ples to any road being built in this State

that is not necessary, and I firmly believe that it is for the best interests of the State that some competent body should determine the common convenience and necessity for vote against. Mr. Bryant dissected some of the petitions that had been gotten up by at-torneys for the Housatonic scheme. Mr. Near, of Bridgeport, spoke eloquently against the parallel scheme and said that the common convenience and necessity for building a lailroad as in the case of an ordinary highway. If it is necessary that the common convenience and necessity should first be determined in the case of an ordinary highway, as our statutes now provide, how much more necessary that this all important question should be determined before such an enterprise which involves the expenditure of milestance. prise which involves the expenditure of mil-lions should be started upon, saying nothing about the rights of the people which are sac rificed by the remorseless exercise of the right of eminent domain by ruthless specu lators over the property of the people of thi

They say that in the case of building s railroad the principle is different because the money spent is not the people's money, but the money of the speculator, or dupe of the speculator. But let me answer that speculi tors do not construct railroads for philan thropic purposes, and that just as mucmoney as is expended for railroads must be supported, sooner or later, by the people by rates and fares, which is largely if not wholly

I am opposed, under the present state affairs, to granting the Housatonic company any further power because I believe that its anagement is such that will (if it has not lready) lead to its financial ruin. Since the change in the management of that road, which took place in 1887, nearly \$4,000,000 have been added to the liabilities of the ompany, and during that time the actual cost of construction has been increased by less than \$400,000. What has become of this immense amount of money! Much of it has gone into the pockets of those directors has gone into the pockets of those directors who control this road, and own the majority of the stock, in the shape of cash, bonds and new stock. All of which, with due respect to those learned gentlemen who have given opinions otherwise, I claim were illegally issued. To offset and cover up this remarkable increase of the liabilities, the apparent assets of the company have been increased. But how? All of these assets except four or five hundred thousand have been created by marking up the books and by revaluing the property of the company.

in the following communication: STATE OF CONNECTICUT,
EXECUTIVE DEPARTMENT,
HARTFORD, MAY 15, 1889.)
To the Honorable General Assembly:
I have to aunounce to you that the term of office of the Hon. John D. Park as judge and chief justice of the Superme Court of Errors and judge of the Superior court has expired by constitutional limitation, and also that the term of the Hon. Dwight Parises as judge of the Supreme Court of Errors and of the Superior court will expire February 9th, 1890, and the term of the Hon. Elisha Carpenter as judge of the Supreme Court of Errors and of the Superior court will expire February 11th, 1890. property of the company.

The general law relating to the issue of bonds by railroad companies limits the amount of bonds outstanding at any one time

to one-half the cost of the construction of the one-half the cost of the construction of the road because that is a sure and safe basis and can be easily determined from the con-struction account. While the present value of the road would fluctuate, thus forming a a most unstable basis upon which to limit the issue of bonds. As is shown by your committee's repor the amount of bonds outstanding for which

mmittee had not far to go to find fraud and

canning stamped upon the very petition of the Housatonic company. At the very first hearing it was drawn out that underside this

eemingly simple petition was a determina-ion to use these simple grants for other and

far greater purposes. They ask for power to build branches when under that power they intend to build a main line. To trifle in the

strongest sense of the word with the governing power of this State. These petitioner

namely: The right of eminent domain," and obtained by fraud! An insult to the intelli-

gence of the general assembly of this State.

I ask again if it is to such management and to such men that you will grant increased powers, together with the right to invade our homes and to ruin franchises already

If the general law regarding branches can

be construed by such management to mean main lines, then I am of the firm belief that

The object of the Housatonic is to build a parallel road from New Haven to New York. They say in order to accommodate the increase of business brought from their connection with the New England and destined for New York

ities of New Haven, Bridgeport and Nor-

I shall vote against a parallel road because

It has been charged on the same ground that the Standard Oil company owns largely in the Consolidated stock. I ask are they

nopoly?

It is charged that we are not treating the

Housatonic road the same as we do other

I have the honor to submit the following nominitions to fill sain vacancies, to-wit:

To be judge and Chief Justice of the Suprem Court of Errors and judge of the Suprem for the term of eight years from and after the date of appointment, Charles B. Andrews, of Litchfield. To be associate judge of the Supreme Court Errors and judge of the Superior court for Errors and judge of the Superior court for the term of eight years from and after the 9th day of February, 1830, David Torrance, of Deby.

To be associate judge of the Supreme Court of Errors and judge of the Superior court for the term of eight years from and after February 11, 1890, Elisha Carpenter, of Hartford,

Morgan G. Bulkelley, Governor, the company is liable are over \$1,500,000 in excess of the cost of construction of the road, and taking the whole amount of the property of the road, all together even as it is marked up and revalued, the bonds outstanding equal over half the total.

Is such the management to be trusted with ncreased franchises!

GENERAL BUSINESS. The Greenwich court bill was vetoed by Is such the management that is likely to put the road on the honest basis of earning the Governor to-day on the same ground a the veto of the Derby court. Both senate lividends, or is it the management of stock and House concurred in striking out the ob jactionable clause. The report of the fisheries committee on the shell fish commission I for one do not blieve it to be the policy of the State to grant any further power to such management. Nor do I think it is the policy of the State to grant further power to was recommitted to change several unimpor issue stock and thereby legalize that stock, which I believe is illegally issued. There are other reasons why the managers of this road are not to be trusted. Your

THE FARMINGTON MATTER. The senate voted, 16 to 4, not to divide the town of Farmington.

GRADE CROSSINGS The senate passed a resolution instructing the railroad commissioners to report the cos of eliminating all the grade crossings on all roads before May 21. The bill establishing another State Normal school east of the Connecticut river was passed.

Oleemargarine. The action of the legislature concerning oleomargarine is very unpopular in New Haven, judging from the unbiasced comments of many of our active and prominent citizens who are entirely disinterested observers in the matter and strongly criticize the action. One New Haven industry has been knocked out by the legislature's action, and the remarks of an interested party on the subject, Mr. Nathan, of I. Nathan & Co., oleomargarine manufacturers here, are worthy of

note. He says: hote. He says:

"It is persecution that has driven me out of the business. If the governor should veto the prohibitory bill I do not believe that I should start again. Not that I fear anything from the government's case against me. I am sure that if I wanted to fight it no jury would ever convict me of violating any of the laws. What others may have done is no fault of mins. I still maintain that I have never violated any of the government's statutes. Shall I settle? Well, I have not said so yet. What I would mean by saying 'settle,' is to have the government let me off without my paying any money. that is, to withdraw the case. To do otherwise would be for me to acknowledge a guilt that I deny and shall continue to deny. for me to acknowledge a guilt that I usuy and analycontinue to deny.

"I believe in the strict enforcement of the existing laws, and I have always advocated even more stringent measures for the sale of cleomargarine. I have never tried to sell cleomargarine for butter, but have always represented it for just what it was.

"The law passed here is undoubtedly unconstitutional."

BAD COMPLEXIONS.

The Secret of their Cause Fully Explained-Why Ladies are Sallow and Men Pallid—Some Valuable Facts on

In passing along the leading streets in almost any city in America, to-day, one will meet with but few ladies who have clear complexions. Many persons have tried to account for this sad fact be ause of the severe climate of America, but such asoning is wrong. A bad complexion is cause ful and no man ruddy who has diseased or

ful and no man ruddy who has diseased or impure blood.

The best known way of keeping the blood pure is by keeping it circulating. In this way it passes rapidly through the lungs, kidneys and liver, and is constantly purified. But supposing the system is clogged up, as is frequently the case, then of course the blood becomes impure. Then far too often men and women take some powerful purgative, pill, or other substance that clears the body quickly, weakens the strength, and leaves the system in worse condition than before. The only sensible way is to take a gentle, pure and natural purgative, moderately but regularly, and the highest known medical authorities of the day agree that the genuine imported Carlshad Sprudel Balt is infinitely superior to any other natural preparation known to the world. It is gentle, yet stimulating; it is pure, yet powerful. Containing only natural properties, being evaporated from the celebrated Carlshad Sprudel Salt is cannot injure the body in the least and yet it has never falled to renew life, purify the blood and thus clear the complexion. Hundreds of doctors have given it their unqualified endorsements; thousands of people go each year to the Carlshad Spring, it is pure as an obtain no greater benefit than by taking the Carlshad Sprudel Salt in its powdered form, such as can be procured at any drug store in the land. When it is considered that the Carlshad Sprudel Salt in its powdered form, such as can be procured at any drug store in the land. ON FISHER'S ISLAND. The residence of Bridget McGoldrick on Fisher's Island was destroyed by fire late Tuesday evening. The loss was \$3,000, part-ly insured. A Little Leaven Leaveneth the Whol Lump.

A disease in one part of the body wil eventually fill the whole body with disease Every year or two some part of the system grows weak and begins to decay. Such part should be removed at once and nev natter be allowed to take its place. There's no need of cutting it out with the surgeon's scalpel. Purge away the old, diseased and worn out parts with Brandreth's Pills. Ther the new body will take care of itself.

Financial.

and the Close is Quiet Though Firm and Generally at the Best Figures. The market displayed some hesitation at the opening and first prices were only fairly steady, while Union Pacific and Omaha were down % per ent. each. New England became the leader a first and moved up nearly 1 per cent., but soon re ired and remained dull throughout the remainde ening prices in the first hour, but toward noor ne coal shares came to the front and their strength was soon imparted to the rest of the list which owever, made but slow progress. Toward deliery hour the western stocks again became promi nent and the market took on a stronger tone than at any previous time during the day, and Atchison Lackawanna, Chicago Gas and Transcontinenta

were all prominent in the last hour. The close wa niet, but firm to strong and generally at th BUNNELL & SCRANTON, Bankers and Brokers

BANKRUPT STOCK OF-

SALE!

C. E. Longley & Co.

OF SALEM, MASS.,

THE GRANDEST OPPORTUNITY For Our Customers to Secure Bona Fide Bargains

THAT WE EVER KNEW.

In addition to our own regular stock, which is both large nd attractive, we offer the above Bankrupt Stock at prices which are simply unprecedented.

Since opening this stock one week ago our business has been omething enormous. From present indications we shall sell the whole of it within the next ten days. What stronger evidence could be given of its real merit and great value. The goods, with the exception of a few heavy weights, are new, of fine quality and desirable patterns. We paid 60 cents on a dollar of the first cost. To increase our business and advertise our store we are selling it, the finest as well as the cheapest, without profit.

It Is The Greatest Opportunity

SECURE BARGAINS

EVER KNOWN IN THE ANNALS OF CLOTHING TRADE

FIRST-We offer you a lot of Men's Suits at \$4.95. They are good Suits, good styles, medium colors and weight, and were sold by Sinclair & Cogswell for \$10. All sizes from 35 to 44. SECOND-We offer you a lot of Men's and Young Men's Al Wool Suits for \$6.00 and 6.50. These were sold by Sinclair & Cogswell for \$10.00, 11.00 and 12.00.

THIRD-We offer you a big line of Men's and Young Men's Suits for \$7.50, that Sinclair & Cogswell sold for \$12.00, \$13.00, 14.00 and 15.00.

FOURTH-We offer for \$8.50 the Men's and Young Men's Suits that they sold for \$15.00, 16.00 and 17.00. FIFTH—We shall sell their Finest Suits, elegant goods, for \$9,

\$9.50 and 10.00. Sinclair & Cogswell sold them for \$18.00, \$20.00 and 22,00, and their prices were never considered high. In fact, they had the reputation of selling the higher grades cheaper than any other clothing firm in Salem.

At all these prices, \$5, \$6.50, \$7.50, \$8.50, \$9, \$9.50 and \$10, we offer big lines.

A GREAT VARIETY OF STYLES IN ALL SIZES FROM 33 TO 44.

BOYS AND CHILDREN.

There's Practically No Limit to the Bargains in this Department.

Children's Plaited Cassimere Suits only \$1.50; Sinclair & Cogswell never thought of selling them lower than \$3; sizes to it boys 4 to 13. Children's Fine Cassimere Suits, ages 4 to 13, only \$2.50. These prices—in fact, everybody's prices, for these goods in every city in the country is \$5 or more, we shall sell them for \$2.50.

Children's Suits, ages 4 to 12, only 95 cents.

The Celebrated, "Never Wear Out" Suits, sold by Sinclair & Cogswell for \$5, we shall sell for \$2.75. Homespun, Cassimere and Cheviot Suits, sold by them previous to their failure for \$5, 6.00 and 6.50, we shall sell for \$3.50. Their Finest Suits, sold by them for \$7.50, 8.50 and 9.50, and

as pretty Suits as you will find anywhere, we shall close for \$5. And so we could continue through their entire stock, quoting bargain after bargain, but we have told you enough to enable you to judge of the whole. As we stated above, we bought this stock for a little more than one-half the original cost. We could readily sell it at a handsome profit, but we prefer to sell it without profit, advertise our store and increase our business by giving the people bargains such as never have been known in New Haven. Intended purchasers should not delay, for there will be no such thing as duplicating at these prices.
