RECIPHOCITY.
Salvador de Mendonca, a leading Brazilian statesman, thinks that there is more to Secretary Blaine's reciprocity scheme than some of the secretary's own countrymen do. It has been urged that as the South American countries produce only a small portion of the world's sugar the free admission into our ports of their exports of this commodity would not benefit us pecuniarily. South American sugars, it is said, would be so far from supplying the United States derand that they would sell in our ports at the same price as duty-paid in our ports at the same price as duty-paid in our ports at the same price as duty-paid in our ports at the same price as duty-paid in our ports at the same price as duty-paid in our ports at the same price as duty-paid sugars and the relinquished revenue would and sugars and the relinquished revenue would sugars and the relinquished revenue would sugars and the relinquished revenue would and the relinquished revenue would and the relinquished revenue would sugars and the relinquished revenue would and the relinquished revenue would sugars and the relinquished revenue would sugars and the relinquished revenue would and the relinquished revenue would sugars and the relinquished revenue would sugars and the relinquished revenue would sugars and the relinquished revenue would and the relinquished revenue would sugars and simply go to Brazil without any reduction reports agree and which show that below a suspended bait. He then goes on to say that aged by the free opening of our market. n regard to this matter is that the "most favored nation" clause in Brazilian treaties would make the establishment of reciproc ity with us impossible; and it has been urged, too, that commercial relations and business intimacy already established between Brazil and various European coun-tries would operate against any trade overures from the United States, that Brazilian merchants would be slow to break off to be set back, but the umpire, with still THE LADIES' DELIGHT, new ties of business with Americans. ing machines, and the maximum up to the present 625 horses for an electric light company, the great advantage of the system of transmission adopted being that the force can be transported to whatever point required. The total cost of the work has been £284,000, of which about £200,000 has been for the account of the municipality, while the gross return upon the sale of water in 1887 reached £23,000, or 150 per cent. more than it was nine years before, while, after deducting all the cost of maintenance, staff, interest, and paying off of the capital invested, this leaves a clear profit of £5,500. The demands for more motive power are steadily increasing, and it is anticipated that in a few years' time all the turbines will be in use and that the municipality will have to fall back upon the reserves, which consist of an island way down the Rhone, where a fresh motive force of 7,000 horse-power could easily be obtained and transmitted to Geneva by electricity, the loss by waste en route being calculated at about 2,000 horse-power. But this would leave a margin of 5,000 for actual use, so that there is no fear of the capital invested, this leaves a clear profit of £0,500. It is a device to dump the rabbits one at a time, into a pit by means of a platform swung on pivots below a suspended bait. In a trap of similar device he caught fifty-seven rabbits in one night in a cornfield.

The baseball cranks have a novel and important question to discuss. While a member of the Bradford nine was chasing a ball batted by an Olean man into the left field, the dog in question ran for it and caught it, and closing his jaws, re-fused to give it up. The fielder then ball, the owner came up and helped and finally the jaws were opened and the ball recovered. Meanwhile the Olean man had scored. The Bradford captain appealed against the run being counted on the ball, in which case the runner would have more rigid views on technically, decided handled by a "person," and there was no Olean, and with it the game. Paraguay tea, which is the dried leaves of the Brazilian holly, has been recently examined by Dr. T. Cranstoun Charles of London. It is said to have many of the good qualities, and contains an alkaloid, caffein, identical with that of tea and coffee. From his experiments with this new tea Dr. Charles concludes that it is a stimulant to the brain and nerve centers, and is very useful in fatigue. The natives of South America maintain that its use allays fatigue and prepares them for fresh efforts; moreover, after its use the physical forces remain unexhausted for a long time. Dr. Charles used it successfully in some cases of sleeplessness and nervous headache in persons that could not take tea and coffee.

A new colony of strange people are farming southeast of Pierre, S. D. They are under the leadership of a woman, and hold their property all in one common lot. The woman is rather handsome and of commanding presence, and rules over the colony of about two hundred in a rather despotic manner. Their religion savors somewhat of the Mormon and old Jewish religion, and on Saturday last they offered burnt offerings in the way of calves, etc. They positively refuse to allow states are reveling or trillity. It would not hurt you, but might conduce to your soul's good, if your companion wore an antiquated beaver, a wrap of obsolete fashion, or was propped up with coshions. This is written in the hope that somebody will take the well meant hint, and supply the long-felt "want" of somebody else, to the great satisfaction and enjoyment of both, for it will be found that in a good deed, as in some other things, action and reaction are equal. Indeed, he thought it would have been better to spend one hundred and ninety-nine thousand dollars in building a poorhouse with an elevator, and have used the one thousand saved in creating a neat little fountain for the people to drink from.

He had been suffering, periodically, for the which he was compelled in April last, to which he was compelled in April last, to retire from active business. • About two weeks ago he was stricken with the attack which finally terminated in his death, as above stated. Deceased had been a constant attendant at St. Thomas' church for a number of years and was well and favorably known. He leaves four sisters to mourn his loss. His funeral services will take place from his late residence, on Monday, August 11th, and will be conducted by the Rev. Dr. Beardsley of St. Thomas' church.

master. In the afternoon he was taken by his son, who is engaged at Tuttle, Morehouse & Taylor, to Dr. James Hickox, one of his old pupils, who performed an operation which had become necessary of an ingrowing nail. Although ninety-five years of age, the aged patient bore the operation without flinching. When it was over he stepped about quite sprightly, and declared that he felt very much younger.

Mr. Lovell will spend a few days at the residence of Leonard A. Horton, No. 35 Wooster Place, where he has expressed a desire that those of his many friends in

PASSENGERS DELAYED. tween Albany and New York—The Grand Union Depot Crowded With People—Two Trains Descried in the Tunnel—Switch Service Refused— Great Excitement at the Depot—Po-lice Reserve Held in Readiness.

New York, Aug. 8.—A general strike nmenced at about 7 o'clock this evening on the New York Central and Hudson River railroad between New York- and West Albany. The strike was ordered on account of the discharge of certain employes. Under the orders every train was abandoned, no matter where it might be. The 7:10 train for Montreal was waiting the signal at the Grand Central depot when ngineer, fireman and brakemen left it and walked out of the depot. Efforts made to secure men to fill their places were without avail. The men on other trains also left them. Two passenger trains, one going each way, were deserted by their crews in the tunnel at Forty-sixth street. Travel was thus not only blocked on the Central railroad, but also on the New York and New Haven and New York and Harlem

Several people who drank the milk from the cow have been taken with convulsions and show symptoms of hydrophobia. For a test some of the milk from the cow was a test some of the milk roads, which use the tracks of the Central road as far as Melrose. road as far as Melrose.

There is great excitement at the depot, where great crowds of people are gathered who expected to take trains out of the city. The hotels in the neighborhood are crowded with disappointed travelers.

In an interview to night Vice President Webb of the Central railroad said: At the Webb of the Central railroad said: At the nearest calculation there are about 850 men out. Every man who has struck may consider himself discharged. We have advertised for men and the places of the strikers are being filled. Not one of the men through whom this trouble has come about will ever be taken back, and we have positively declined to have anything to do with the Knights of Labor. Trains will be started in the morning. We ex-The California Wonder's Work on Sunol and Belle Hamlin would attempt to lower the records of 2:10+ and 2:12+, made by them respectively. to do with the Knights of Labor. Trains will be started in the morning. We expect no trouble, but if there is any we will have the police to protect us."

Mr. Webb announced that the fast mail had pulled out of the depot at 9 o'clock with four mail cars, but no passenger cars were attached to the train. The vice president further announces that no attached to the train and the started to the train are trained to the train and the started to the train are trained to the train and the started to the train and the started trained to the train are trained to the train and the started trained trained to the trained tempered the rays of the sun. The track was dry and in seemingly good condition, but it lacked elasticity. It was nearly 5

up of the great avenue of trade would be begun to-morrow.

When Acting Superintendent of Police Byrnes was notified of the strike he at once ordered the entire police reserve to be in readiness for duty. Police Captain McElvain of the Grand Central station, with his men took possession of the depot as soon as the strike commenced and did his best to maintain order. Policemen were sent out to guard the tracks as far north as Spuyten Duyvil and as far south as St. John's park, where the great freight depot is located Central office detectives were sent to guard all the signal stations and switch houses as Central office detectives were sent to guard all the signal stations and switch houses as far as Spuyten Duyvil. Shortly before 8 o'clock the detectives at the switch house at Fifty-seventh street and Fourth avenue sent for assistance, which was promptly rendered. The police reserves are all in waiting and patrol wagons are placed at convenient points. Thus far no violence has been done.

No one seems to know how the strike was ordered or who gave the signal to the signal t

the wire in 2:41‡.

The California wonder, Sunol, was then called up. As she passed up the stretch for the stark she received a salvo of applause. Turning just above the distance pole she got under headway and passed under the wire in full motion. She reached the quarter in 33‡—slow time for her—but she made up for it in the distance to the half which was reached in 1:05‡ or 31‡ for the three-quarter. To the three-quarters, when seen by a reporter at 8 o'clock to-night.

Trains eastward bound by the New Haven road were run in the early evening, but after 11 o'clock no trains left by the New Haven road except one mail train to New Haven road except one mail train to New Haven at 11:40.

At 11 o'clock to-night the Grand Central depot was closed to the traveling public and the following official notice was posted at all the ticket offices:

Theodoral Superintendent.

The crowd soon dispersed and quiet reigned around the big depot. The general opinion among the strikers is that the trouble would not have arisen if Mr. Depew had been in this country. Their grievances seem to be personally directed against Vice President Webb and General Manager Toucey. They claim that before it is over the strike will prove to be the biggest ever seen in the east.

My first intimation of the strike was at 7 o'clock this evening, when the men left the yard and the local Troy trains were stopped for want of brakemen. The strike, I found, extended over the yardmen and some of the trainmen, but over none of the conductors and engineers. We have received a message from Third Vice President Webb saying that the road will fight the strike, and unless the men return tomorrow morning they will be dropped and their places filled. The trains are delayed so far about four hours, but before morning they will be later. I have sent Mr. Webb's message to every station above and we will abide the result."

While the reporter was talking, a detective came in and reported that the north express and mail train which left New York at 4:30 o'clock this afternoon and Albany at 10 p. m., two hours late, was stalled within the city limits. The platform swarmed with men who apply the air brakes each time the engineer took them off. The engineer was threatened but stuck to his post. The six o'clock train out of New York arrived here at 10:50 o'clock and started west with a police guard to try and clear the platforms of the mail train. Later Mr. Bissell told the reporter that it looked as if the road at least from Albany to Buffalo would be entirely closed by morning. Asked to give his version of the strike he said: "The men have no money grievance. The strike has not yet extended to the West Share and officials say it will not. Additions, corrections and recounts will probably swell the total to the sixty five millions which is the original estimate of the superintendent. This rough unofficial count shows that the population of Connecticut is 730,593 as against 622,700 in 1880.

It is generally understood that the basis of re-apportionment will be between 180,000 and 180,000, and the consequence will be that in either case Connecticut will neither gain nor lose in representation in the next congress after the re-apportionment. ORDERS FOR NIANTIC. The Second Regiment and Camp Embler.
Following are Colonel Doherty's orders

HRADQUARTERS SECOND REGIMENT, COMMECTICUT NATIONAL GUARD, WATERBURY, Conn., Aug. 6, 1890. J Jeneral Oarders, 1 No. 7.

I. Pursuant to circular letter dated from brigade headquarters, Bridgeport, Conn., dated August 2, 1890, the following arrangements are hereby announced for transportation of this regiment to Camp Embler August 18, 1890, viz:

Companies A. and G will leave water-bury at 6,30 a. m.

Companies A. and G. Sury at 6:30 a. m. Company I will leave Meriden at 7:20 Wallingford Company K will leave Wallingford a :31 a. m.

7:31 a. m.

The above mentioned companies will be transported to New Haven and will filen be attached to the train with the field, staff, band, non-commissioned staff, Companies B, C, D, E, F, machine gun platoon, signal and hospital corps. The train will leave the New Haven depot on special train at 8:10 a. m. train at 8:10 s. m.
II. Company H will leave Middletown at 8:40 s. m. on special train with the First

regiment.

III. Fleld, staff, band, non-commissioned staff, Companies B, C, D, E, F, machine gun platoon and the signal and hospital corps will assemble at the armory in New Haven at 7 a. m. Assembly will be sounded at 7:15 and adjutant's call at 7:20 share Company and plabe sounded at 7:15 and adjutant's call at 7:30 sharp. Company and platoon commanders will be held strictly accountable for the promptness with which their men respond to these calls. Captains of Companies A, G, H, I and K must see that their respective commands are at the various depots at least (5) minutes before the time for train to

start.

IV. Captains will post sentinels at each end of the cars occupied by their various companies, as provided in par. 1,569, Reg. C. N. G.

V. The colonel commanding desires to report his regiment in camp in the shortest possible time after reaching the depot at Niantic. Captains will therefore have their companies well in hand, that the formation may be made without a moment's delay.

noment's delay.

VI. Guard mounting will take place

VI. Guard mounting will take place immediately after reaching quarters. First Sergeants will therefore see to it that their details are prompt in reporting for same, the First Sergeant of Company H reporting to the Adjutant before dismissing his company.

VII. Attention is hereby called to Par. 3, G. O., No. 4, Brigade Headquarters, regarding the proper books to be carried to camp. Also to Par. 2, G. O., No. 16, A. G. O., July 9, 1890, regarding the baggage to be carried into camp this year. For some time past the custom of carrying excessive baggage has been growing to such an extent that the entire day is spoiled by the continued transportation from depot to camp ground. Where a few years ago one team would accommodate two companies it now requires two trips for one company. Commandants are particularly charged with the importance of carrying out the principles referred to in the paragraphs mentioned.

vIII. Company and platoon commanders are hereby notified that their first sergeants must present their morning reports to the adjutant not later than 7:45 a.m.

By order of Colemel John B. Doherry. ARTHUR M. DICKINSON,

NOTES-THE ROSTER. The brigade will be encamped in following order: Third regiment, Second regiment, Fourth regiment, First regiment,

The state council, Order of United Ameran Mechanics, will hold its annual ses Crane and C. H. Belden. The order has had a remarkable growth in the last two years, now numbering in this state over 6,000. The National council of the order will meet in Bridgeport September 23, when there will be a state parade the first day of the session. Prizes for drilling will be contested for by the military branch of the order, called the Loyal League, who will also parade in full uniform.

There are no catch penny shows or "merry-go-rounds," but a visit to the bathing beaches at the proper time, the tennis courta, the straw rides and the attendance at the hops at the hotels all bear witness to the pleasure of the young people.

We must speak of the sanitary arrangements which are so important to a summer resort.

Collections are made every morning from the cottages before the people are awake, and thus the health is carefully guarded by the Sanitary association.

Three mails a day each way keep the people informed of the whereabouts of friends.

The parishioners of the Church of the Immaculate Conception, Waterbury, are making big arrangements to give a grand reception to their pastor, the Rev. John A. Mulcahy, on his return from Europe. All the prominent members of the parish attended a meeting for the purpose Thursday night, and from present indications the reception will be a notable event. City Treasurer Keenan was appointed chairman of the meeting and James Freney, secretary. In his opening address chairman Keenan said that this reception was being gotten up for the purpose of showing the appreciation of the parishioners for their pastor's labors amongst them and to let the community know of their love and esteem for him. Mr. Keenan also spoke of the way the parish has prospered under the pastor's care, of the building of the splendid St. Mary's school, the new convent, the bringing to the parish of the Sisters of Charity, the building of the handsome block opposite the church and many other improvements. Remarks of the same nature were made by Father Walsh, Father O'Donnell, John H. Moran, John O'Neill, John Ryan, Professor J. A. Moran, William Milton and James Byrnes. A committee of six was appointed to act with clergymen in arranging for the reception. They are as follows: D. J. Casey, John Ryan, E. B. Riley, Thomas Luddy, William Wood and John A. Moran. This committee is to meet at 2 o'clock Sunday afternoon at the parochial residence and report at an adjourned meeting to be held at St. Patrick's hall on Sunday evening at 8 o'clock.
