Who will be speaker of the house The Republicans have few available men to choose from. Most of the members have had no legislative experience and it needs omebody with such experience to manage nong these who are qualified, both by ature and training, is Mr. Allan W. Paige of Huntington. Mr. Paige is a graduate of the Yale law school and has won success by rare industry and perseverance. He knows all there is to know about the way business is done in the legislature, having been clerk of the house and senate and also a member of the house. He is quick, energetic and prompt, has a good voice and knows how to use it. He is courteous, fair-minded and dignified, and would be able to hold the Speaker's place with honor and credit in whatever emergency might arise. His full and accurate knowledge of what has been done and what should be done in the legislature, and his ability to apply that

knowledge, would be of very great service to the house and the State. Few people know when they are well

Dr. Nansen is rapidly preparing for his expedition to the north pole. He will start from Norway in February next, in the ship of 170 tons burden that has been specially built for him. The vessel is so constructed that she cannot be crushed by the ice, but if nipped the floss will simply force her out of the water on top of the ice. Dr. Nansen is provisioning his vessel for five years, and a dozen men will go

with him to share his good luck or tragic fate. He thinks it will take about three years to drift from the islands of New Siberia across the north pole and down the other side to the southern end of Greenand. The expedition, which is carried

GLEN ATPARIC, Scotland, Sept. 24.

To the Editor of the Journal and course. If, as shown in the preceding article, twenty million dollars is annually expended by British sportamen in hunting and fishing in Scotland, it may be essily understood that, of the three great British popular days, "Derby day," which is a move able sporting day, Banker's holiday, on which day every British subject feels entitled to his case and sport, and the statutory feast-day of the Twelfth of August, this latter, which is the annual day dedicated to slangter of grouse, is always rife with the most intense thrills of anticipatory pleasure.

The pent-up yearnings of an army of British Nimrods explode on this day. The very mention of the year fills their whole beings with fisshes and quivers of hunger for the moors and fields. It would be a national crisis indeed that would compel parliament to hold over this initial epoch of the season's out-door sport. If last week the social, political and financial "season" was at its height; if all the millords, the honorables his or that, and the whole

THE OFFICIAL BETURNS.

Herwin the Next Governor if the Pro-hibition Votes are Counted—No Doubt Expressed on That Score by Republican Leaders—The Rejected 126 Republican Ballots Also to be ad - A Plain Statement of Facts Regarding These Ballotslection Notes in General.

Chairman Benton of the republica ate committee returned early last even ing from Hartford and brought the following regarding the official returns as immed up yesterday at the office of the "I think," said Chairman Benton, "that

here is no doubt that Merwin will be the next governor. The facts concerning the fficial returns made to-day are as follows: Full returns were received from all but seven towns, and with a fair estimate regarding those towns the returns give Morris a majority over all of 42. But this does not include the 126 republican votes does not include the 126 republican votes thrown out in Bridgeport nor the 200 prohibition votes which were not counted because the ballots had the word "for" upon them. These 326 votes must, in all fairness, be counted, and cannot be thrown out. Counting these in, as they undoubtedly will be, Morris falls much short of the required majority, and the election for governor goes to the legislature. THE LEGISLATURE DECIDES—MERWIN IS THE

NEXT GOVERNOR. The legislature decides as to the votes thrown out in Bridgeport and as to the counting of the rejected prohibition votes. On the admission of the latter alone, as is clearly evident, Judge Morris will lack the clearly evident, Judge Morris will lack the required majority. The legislature, being republican and being the deciding power, will admit these votes. It certainly ought to and will do it if for justice's sake alone, for who would say candidly that because men voted a ticket reading "For Governor" instead of "Governor" their votes should be killed? Or what court of justice would decide otherwise if such a case was submitted it?

SHOULD HAVE BEEN COUNTED. Ex-Governor Harrison and other legentlemen of high standing say that the words "For Governor" are no more and no less than the law intends. It simply indi-cates the "title of the office voted for." Clearly, then, the prohibition votes should

WHAT THE PRESS DISPATCH SAYS-THE PRESENT ADMINISTRATION MAY HOLD OVER FOR A TIME.

HARTFORD, Nov. 7 .- A comparison the newspaper election figures with the first of the two sets of returns at the office of the secretary of state shows numerou petty changes. Eighteen scattering votes disappear and thirty-six of the eighty-four prohibition votes cast in Waterhury pravidisappear and thirty-six of the eighty-four prohibition votes cast in Waterbury previously reckoned in are not counted in the official returns. The result of these and other petty changes is that Morris, dem., for governor, has an apparent majority. The republicans will claim that Waterbury votes should be counted and that 126 republican votes not counted in Bridgeport belong in. The senate is democratic, the house is republican, joint ballot republican. Some observers think the present administration may hold over at least for a while until the general assembly in Januat bargains at Burgess & Burgess'. A superb variety to pick from. Don't wait for higher prices.

The annual meeting of the New Haven dispensary will be held next Tuesday eventhing the votes reported as rejected to a superbola superbola

month. On the face of the returns, not counting the votes reported as rejected Morris has a majority.

An apparent error in the official return from Milford gives Merwin, rep., eighteen additional votes for governor. This reduces Morris' apparent majority to twenty-seven. There are thirty-six prohibition votes in Waterbury and 126 republican votes in Bridgeport not reckoned in these figures. If counted they leave Morris in a

First—The mark was on the tickets before they came to this city, and was not put in by "any man with a lead penoli and leaning against a tree."

Second—The position of the tickets in the original package, all together, at regular intervals, and in the same number, shows that the mark was on one of the plates from which the sheet of ballots was printed, so that cut and stacked up they all came in the pile as above stated.

Mr. Henry R. Parrott of the republican state committee, has these ballots in his possession and will produce them when necessary to demonstrate the fallacy of the democratic claims.

The usual quiet of Milford was pleas antly interrupted Thursday by the mar riage of two of its most highly esteemed young people, Mr. William F. Platt and Miss Lottie E. Clark. The event took place at the house of the bride, where a happy party of friends and relatives had assembled. The rooms were beautifully decorated with evergreens, vines and potted plants. The display of wedding gifts was varied and beautiful, much taste being shown in their selection and arrangement. Propuntly at 6 o'clock the taste being shown in their selection and arrangement. His body was simply flattened out, with scarcely more than a scratch showing. He was about thirty years of age and unmarried and had followed the railroad business for the past ten years. He was a competent and trusted employe.

Entertainments. PROCTOR'S OPERA HOUSE. A lively and amusing farce-comedy wa clearly marked plot which, with all its en anglements and rapid succession of com-plications, remains distinct to the audi plications, remains distinct to the audi-ence. It has characters humorously marked, incisively presented, that do not trench upon burlesque. It is a piece of the cleverest, all funny, and yet in good taste. A very pretty one-act comedy opened the evening and was thoroughly appreciated. It will be repeated this af-termoon and evening.

Charles N. Verner, one of the popular young Irish actors, comes on the first two lays of next week. Marie Hubert Frohman in her new play Thursday. The story is one of weird in-terest and the play is particularly adapted to the clear talents of this young act-ress. The audiences will undoubtedly be

The company is direct from Paris for an American tour, direct from Paris for an American tour, managed by Mr. Arthur Miller. The play is the strong magnet at Eden theater, Paris, at the present time. The authors, MM. Lebreton, Moreau and Millot, have assigned the right of presentation in the United States and Canada to Mons. Coulon, who in conjunction with Mr. Arthur Miller of New York, has brought the company over from Paris.

The embers of the fire are still glowing and reports from Milford say that they will be fanned into a red hot fire before the ecclesiastical council gets well under way in its sessions Monday. All Milford is talking over the complications which have arisen regarding the issuing of calls for the council and the expected war which will break out at the council. The whole matter is aggravated by new complications which have arisen regarding the issuing of calls for the council and the scope of the work before the council. Evidently the council has a good deal of work before it and promises to be well attended both by delegates and the people of the town.

Gold in West Haven. Fifteen men are at work, digging for gold, on Farmer Phraque's farm or Shingle hill, half a mile from the car sta bles. A big pile of quartz has been dug and will be smelted and tested to-day in Bridgeport. There is great excitement over the affair.

Another Severe Case of Rheum Ably Treated by Dr. Damon, the Renowned Vitapathic Physician. Remowned Vitapathic Physician.

There are various theories with reference to the cause of rheumatism but many of them conflict. The poor patient, who endures the agony, thinks in the words of Grover Cleveland that he is "confronted with a condition and not a theory." All he cares for is to get relief and after that is obtained he may, if he chooses, study the cause of the malady. We have now to chronicle a remarkably bad case of rheumatism and prompt relief by Dr. Damon. Mr. A. W. Gleason, 42 Summer street, this city, informs us that he has received truly wonderful treatment at the hands of Dr. Damon. On Tuesday last he decided to try Dr.Damon's treatment for rheumatism, all else having given no relief. At that time he was so crippled with rheumatism as to be scarcely given no relief. At that time he was so crippled with rheumatism as to be scarcely able to walk and was obliged to be assisted into the doctor's office. He has had but three treatments, but has received so much benefit that he is now enabled to walk down town and has been entirely relieved from pain. Mr. Gleason speaks highly of Dr. Damon and his methods of treatment.

Consumption, that hane of our eastern climate, which causes so many to succumb to its ruthless power, is CURED by Dr. Lyon, as many testimonials from unimpeachable witnesses at test. Dyspepsia, the national scourge, which dooms thousands to torture and misery, is routed and annihilated by a reinedy discovered by the doctor. In no case yet has this inestimable specific falled of banishing that painful disease. All diseases of the Lungs, Liver and Kidneys, as well as Skin Diseases and all Impurities of the Blood of whatever name and nature, are radically and permanently cured in a surprisingly short time by the doctor's improved method of treatment.
