New Haven, and county of New Haven, in said state, in pursuance of said statute laws do hereby certify:

That at a meeting of the stockholders of said corporation, specially warned for that purpose, and held at New Haven on the thirty-first day of December, A. D. 1890, it was voted unanimously that the capital stock of said corporation be reduced on January first, A. D. 1891, from the sum of one hundred thousand dollars (\$100,000,00) to the sum of twenty-five thousand dollars (\$25,000,00), and that the number of shares of the capital stock of said corporation be in like proportion reduced from the number of one thousand (1,000) shares to the number of two hundred and fifty (250) shares.

And in further pursuance of said statute laws we deposit this certificate with the secretary of the state, and a supplicate thereof with the town clerk of the town of New Haven, in which town said corporation transacts its business.

Dated at New Haven this first day of January, A. D. 1891.

ANOTHER LESSON. "Investment bond" schemes have been popular in Massachusetts. They have promised a good deal for a little, and many of those in haste to be rich have fallen into the snare. But confidence has re eived a rude shock in the collapse of one of he companies. This concern has issued, acording to its secretary's statement, over ,500 bonds of \$100 each to be paid in hree years. The cost of one of these onds is \$1.25 per month, a total of \$45. When the time came for over 800 certifieates to be redeemed the company had only \$1,700 to pay out and accordingly reseemed only seventeen of the 800 bonds. What is more, it is suspected that these onds were mostly in the hands of the nanagers of the concern, as the secretary s unwilling to tell who held them. Cerain it is that something like 750 people

money where they will not see principal or interest again It is evident that such concerns can only keep their promises in two ways. There must be lapses in payment of enough to pay those who hold on, or for each payment fully two persons must enter, because the payments to the old members are made at the expense of the newcomers in precisely the same way that they were made in the Woman's Bank, or in the recently exploded banking house in Paris, Of course this kind of "investment" can ome to but one end.

CLEAR-SIGHTED MR. BECK. Mr. William H. Beck of Montana is engaged in silver mining, but his occupation "You've broken that lecture item off little body affectionately with the other. Thus arcssing it for a moment, he handed it back to its glad mother, and there was joy throughout the whole family. loesn't seem to have obscured his perception. Mr. Beck is opposed to free coinage of silver on the ground that the present w, which takes fifty-four millions of silver annually out of the market and abso--Puck. utely locks it up, is a better thing for the silver-miner than free coinage, under which all the silver would be on the market. He told the committee that he did not think free coinage legislation alone could raise the price of silver to its coin value. Mr.

Under free coinage the American silver coin would be just as much a commodity as the coins of Mexico, which had free coinage, and the ourchasing power of silver coin would be simply its bullion value, as fixed in the markets of the world. The number of low-grade silver-ore mines, he declared, "So you maintain that you were only little creature, and seems to stand an amazing amount of handling. The others that short time?" "Certainly: there were three of us, you see, myself, my wife and my son. I did the picture galleries, my wife the churches, and my son the hotels and restaurants. In the evening we compared upon a little creature, and seems to stand an amazing amount of handling. The others are aper with it very gently, however, and understand as well as its mother that it requires tender treatment. Since I have moved the mother and it into another cage, where there are only a few others, it will not be neglected, for there are not so was absolutely illimitable, and with the greatly improved methods in production there would be great quantities of silver put on the market. There had been such great improvements in mining that he believed that within five years silver would get down to eighty cents an ounce. He was sorry to see it, but believed it would have to come. Mexico was also greatly inreasing her productions. He read a let-

ter from ex-Governor White of Montana, xpressing gratification at the fact that ree coinage could not pass this Congress, and declaring that free coinage would be a great disaster to the silver industry. This strikes us as a very clear view of

the matter. Silver producers cannot af ford to favor free coinage. EDITORIAL NOTES.

An old lady in Boston adds her testimony to that which has been given against the tomato. She says that the use of the tomato as an article of food invariably results in a moral decadence, as it affects the brain in such a way as to obliterate the distinction between right and wrong. There may be something to this. Who does not know some tomato-eating person who does not make any distinction between right and wrong?

of a recent eruption.

"There is no apparent cause for the strip of deadly fumes surrounding the valley. After I passed through it I became bolder and approach the edge of the deadly place. I was anxious to reach the bottom of the valley if possible, but was afraid to make the attempt, as I had been warned to give the place a wide berth. I determined however, to see what the fumes smelled like, and started to descend. My pet Irish terrier was with me, and so as soon as he saw me step over the side of the bank he rushed down ahead of me. I endeavored to call him back, but was too late. As soon as the animal reached the rocky bed below he fell on his side. He continued to breathe for ten minutes. I don't believe I was ever nearer death's door than a was at the first time. HOW THEY YELL. d Employed on the Campus to See if a Man is in His Boom

New York Alumni Association. A casual visitor to the Yale campus i apt to be impressed at the manner in which the fellows students find out if a student-fellow is in his room. He strolls up to the building in which his friend is located, and then stands outside under his window and yells for him as loud as his lungs will permit. It may be interesting to note a few of the men whose names are most often and most loudly called. I suppose one hears the yell "Oh, Starr Childs," as much as any. This yell indicates that some one is suffering to talk with the chairman of the "News" board Flags will be displayed upon public It has a companion yell of less violence and that is "Oh, Nobby Wright," with the sccent on the "Oh." Another favorite remork is "Oh, Ned Hale," in a tone of re-

proach, showing that a few moment's speech is desired with the genial manager of the Glee club. This too, has its companion song of "Oh, Jo Rhodes," a telephone for the ex-captain of the football eleven. Bert Lee's name is also taken in vain with an alarming frequency. Lee vain with an alarming frequency. Lee is chairman of the "Lit" board, and is in great demand.

Jack Bunce and Ned Isham are two mo seniors who seem to have a great amount of custom. There are two yells which any academic man of good and regular or even irregular standing for at least two years will recognize without difficulty. One is from a voice with a circumflex accent, which wails out in the tones of the pewee, which wails out in the tones of the pewee, which wails out in the tones of the pewee, which wails out in the tones of the pewee, which wails out in the tones of the pewee. "Oh, Bob Pomeroy," and its mate is the thrilling cry "Oh, Ash Green."

To touch upon a few more men whose fame is spread abroad with startling regu-larity. There is a triumvirate from '92 in larity. There is a triumvirate from 92 in Lyceum composed of Peter Jay, Stan Morison and "Stump" Franklin, who receive their callers at all hours.

Willie Runyon, Hugh Bayne and Billy Wright are three more men who are called up continually. They are from the junior class, too. From 93 Murphy and Beebe seem to be in the most demand, but it is only during the day that they seem to be of only during the day that they seem to be of use, for after supper they admit none.

A few more sophomores seem to be of some prominence, but only a few. The freshmen have not yet acquired sufficient This evening the grand annual ball of the Blues, spoken of elsewhere, will be foot hold on the campus to institute any such method of serenading. So any shock

Scrofulous Humor - A Cure
"Almost Miraculous." "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed years. In that time ten or eleven sorcs appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, whon, having used six bottles, and become so fully released from the dis. se that I went to work for the Filnt & Walling Mfg. HOUSEKEEPERS' WEEK.

The next six days' doings need every careful housekeeper's attention.

A big sale of house-wants of all sorts begins Monday, Feb. 23, in the "Big Basement."

Why you should watch it: First, because it looks out for all your likely housekeeping necessities, from a ten-penny nail right up to the most elaborate housefurnishing kit.

Second, because it brings them all to you at the LEAST POSSIBLE COST. At savings to make your household expenses just HALF what they usually are.

Third, because the present is the time to provide for those housekeeping wants that you'll soon be crying out for.

We want to get more of you down stairs. We want ALL of you to know that for variety, quality, and little-priced housekeeping, there's no place in the State like the "Big Basement." These prices are down below cost for that purpose. The Loss is ours for increased trade. The profit yours, if you are wise.

From now to Saturday:

One fact is worth a thousand theories. There is no assurance extant in any company which compares with this. The Equitable is the strongest company in the strongest company in anything else provided for in the order of business arranged by the republican caucus. The Nicaragua canal bill is the unfinished business in this category, but may have to give its place to some other measure. The miscellaneous measures following it are the pure food bill and the Conger lard, the army re-organization bill, the inter-state commerce bill, the bill to transfer the revenue marine service to the navy department and the Pacific railroad funding bill:

The house majority desire to have a number of important matters, including the shipping bill, passed upon before final adjournment, but the representatives in charge of the appropriation bills insist on right of way and the democrats, with a few exceptions, intend to exert all their power to prevent the enactment of the shipping bill into law. The postoffice appropriation bill is not yet out of the committee of the whole and the consideration of the agriculture and deficiency bills has of the agriculture and deficiency bills has of the agriculture and deficiency bills has not begun. Conference reports on other appropriation bills will also consume a part of the time during the week. In addition to these measures there are the copyright, the appellate court and the Indian depredation bills, which have passed both houses, but need to be advanced through the conference stage of legislation before they can go upon the statute book. Rev. A. MacNichel Preaches an Able and Scholarly Discourse Before the O. U. A. M. at Westville The Westville Methodist church was filled to its utmost capacity last evening, the occasion being a service commemora tive of Washington's birthday, with a special sermon to the members of the O. U. A. M. by Rev. A. MacNichol, pastor of the church. The members of the order turned out en masse, every council in the city being represented by a large delegation. The services throughout were of a character befitting the day. The music was rendered by the regular choir of the church, Mr. Arthur Farnham rendering several solos in most acceptable manner. During the the course of his sermon Mr. MacNichol

To be a patriotic citizen of this nation five things are undispensible. The first of these is intelligence, an autocratic form of government may exist for ages while the masses are degraded and ignorant, but the masses are degraded and ignorant, but the strength and perpetuity of a republican form of government must depend upon the virtue and intelligence of its citizens. We want men in this republic to-day who can read more than their ballots, we want men who can read the times, we want men who will refuse to cringe and submit to party dictation. The politics of the day are cor-rupt to the core. Party and not patriotism rules the hour. We want men who can write their ballots as well as read them men who can vote intelligently, not ac cording to favoritism or party dictation but according to the dictates of an enlight-ened conscience and judgment. This is what the country needs, but what it is not getting. Every year between one-half and three-quarters of a million immigrants landing in this country are bringing with them vice, ignorance and superstition and enslavement to an ecclesiastical court that

risk his life or limb in defiance of her institutions then and only then is he institutions then and only then is he qualified to become an American citizen.

In the second place the true patriot will seek to propogate a loyal healthy American spirit. To mix up Italian, German, English or Irish politics with our American politics is a disloyalty that should not be tolerated. This country has no use for German American Second. Irish or English Americans or any kind of Americans with a prefix, but what le does require and has a right to demand is true loyal Americans.

In the third place, the true patriot will

Organizations sgainst law are organiza-tion against the nation's life and every American citizen knows that our socialistic organizations are not the only ones whose of the nation. We have an organize body of law breakers in the keepers of s loons and grog shops, who are the mo-pronounced enemies of the three grande pronounced enemies of the three grandes institutions in this country, the church the school and the home. Fourthly, the true patriot will be loyal to the institutions that have been the foundation of the nation's greatness. The

life of two of the most important of thes

institutions is in danger at the present time, viz., the public schools and the Christian Sabbath, both of which have side of the bridge. There was an immense crowd there.

When the train came to a standstill it was boarded by a deputation of old comrades of Ransom post, G. A. R., under the command of H. L. Ripley, and which, after relieving the guard, received the remains and mounted guard.

Christian Sabbath, both of which have been most important factors in the transforming of aliens into true American citizens. A vigorous and most persistent assault is being made against both to-day. The antagonism is so deep and radical that compromise is impossible. One side or the other must sooner or later be victorious, and if we want to save our school systems and Sabbaths from the ruin which now threatens. which how threatens them we must awake to watchfulness and activity. Finally, the patriotic citizen of the high-est type will be a Christian citizen. The ideal patriot is the man who is true to his country because true to his God. Fa deeper and far broader than the human government is the divine, which ordain and upholds the human, and the man whi is faithful to the divine will never be dis

IMPORTANT IN SPRING.

Advice what People Should Take During the Spring Months-A Remedy Certain to Produce Beneficial Results.

In the spring everybody begins to think of taking a spring medicine. Not only is this a very common practice, but a very necessary and nealthful one. It is a fact which physicians ac knowledge, and the people recognize generally, that a spring tonic taken during the months of March, April and May is more conducive to the restoration of health in cases of those who are could possibly be adopted.

It is further understood by everbody that even for those who call themselves well it is very imant at this season of the year, if they would naintain good health and vigor, to take a spring remedy to strengthen and invigorate the nerves, tone up the action of all the organs and thus, by creating a healthy condition of the nerves, blood, stomach, liver, kidneys and bowels, assist Nature in the efforts she always makes in the spring to cleanse, purify and invigorate the system. In the spring there are great and important changes going on in the body. Perfect health cannot be maintained when the system is clogged and the organs sluggish, and the person has a lan-guid and weakened feeling, with more or less nervousness and debility. If the person has previously been sick these symptoms will be much aggravated; there will be a weak, tired and nerrous condition, with sleepless and restless nights, a tired waking in the morning, no appetite for and general dispirited feelings. In severe cases there will be a feeling of great exhaustion and prostration and the nervousness will be very marked, with no inclination for exertion, the work of the day being done with an effort. For such cases as these be sure and use that re-markable invigorator and tonic, Dr. Greene's Nervura, the great nerve, brain and blood invigorant It is pronounced by everybody, doctors as well as the people, to be the best spring medicine in existence, and has taken rank as the greatest and most important medical discovery of modern that weak, tired and nervous feeling disappears the nerves become strong and steady, the nights are restful and the sleep natural and refreshing; the appetite returns, good digestion and regular action of the bowels are established, the kidneys and liver are restored to healthy action, and the

It will well repay you, as we can testify from our ers, and you have our assurance that you will not be disappointed. Be sure and ask for Dr. Greene's Nervura, as druggists sometimes recommend their own preparation or something on which they make a greater profit. Do not be persunded to take any other remedy in place of this. as we really believe that this is the greatest and best of all spring medicines.

Dr. Greene of 35 West Fourteenth street, New York, its discoverer, is the famous specialist in the cure of nervous and chronic diseases. WHAT MAYOR GRANT SAID-NEW YORK'S BOARD OF ALDERMAN. NEW YORK, Feb. 22.-It seems somwhat singular that the railroad commis sioners, who were at the chamber of com-merce yesterday considering some unimportant matter connected with the Long Island railroad, should have returned to

Albany last night without taking any action upon the tunnel horror.

It is not known whether or not they will take the matter up at all, although it is difficult to understand how they can avoid doing so. There is a profound ignorance of any knowledge on this subject displayed at the Grand Central offices. The law of the state prohibiting the use The law of the state prohibiting the use of stoves in railway cars is teres and decisive, yet, Mr. Loomis, counsel for the New York Central railroad, when questioned regarding it, said it was a matter which belonged to the past so far as they (the New York Central) were concerned, and it had passed from his memory. Mr. Barnett, counsel for the New York and New Haven road, is not in the city.

It is probable that at the meeting of the

The Redemption" to be Given Under the Most Favorable Auspices-The Musical Event of the Season. It is now safe to predict that the pro uction of "The Redemption" by the Gounod society at the Hyperion theater, next Friday evening, will be a musical and financial success. This society has given us many meritorious musical entertain-ments, but this, their latest venture, is to be on a larger scale than any former concert. The chorus has been increased to 150 voices, well known vocalists have been sevoices, well known vocalists have been secured for the solo parts, the Germania orchestra of Boston has been secured, and last, but by no means least, Mr. Harry Rowe Shelley will preside at the organ. The society's enterprise is fully appreciated by our music lovers, and the advance sale of seats indicate that the audience will be one of the lawsert are resulted. will be one of the largest ever assembled at a musical entertainment in this city. "The Redemption" was written and composed by Charles Gounod, who began the work, as he tells us, during the winter of 1867-8. He was then at Rome in company with hie friend Herbert, the celebrated painter and director of the academy of rance. Only the words and two fragments f the music were then written, however, and it was not until more than twelve years later the work was finished with a view to its performance at the Birmingham festival of 1882. The work is a lyrical representation of the three great events in the establishment of the Christian above.

an church—the passion and death of the savier, his life on earth from his resurrection to his ascension, and the spread of Christianity by the apostles. These three parts of the triology are preceded by a prologue describing the creation, the fall of our first parents and the promise of a The prologue is a short one. The creation of the world is represented by an orchestral introduction descriptive of chaos. Then the creation and fall of man is narrated by the tenor and bass soloists and the prologue ends by a semi-chorus of

and the prologue ends by a semi-chorus of twenty-eight voices—the celestial choir—singing the promise of redemption.

Part I depicts the condemnation, crucifixion and death of Jesus. Now one hears music that is truly beautiful. The massive choral "Forth the Banners Go," in the march to Calvary, the derisive chorus of priests "Come Thou Down From the Cross," the quartette and chorus "Before the Cross Remaining," and the concluding choral "O Christ, Thee We Adore," are perhaps the most prominent numbers, all of which the society has learned to sing most effectively. learned to sing most effectively.

Part II is devoted to the resurrection and ascension. Jesus appears to the holy women at the sepulchre and the sanhedrim is informed of his resurrection. The Savior then appears to his apostles and from their midst ascends to heaven. Most of "Ik Marvel," will be engaged by the park commissioners to suggest plans for the development of the public parks of the city.

The music of this part is given to the solor ists, the strength of the chorus being reserved for the last number, which is the most effective of the entire work. It is the most effective of the entire work. It is the chorus declaring the ascension of Jesus into heaven. The celestial choir with harps and trumpets bid him welcome. The earthly chorus, accompanied by orchestra and organ, join in the song "Unfold, ye portals everlasting," and then all sing in unison the hymn of adoration "Behold the King of Glory, He Mounts to the Sky." Such music ought be heard at every opportunity, but never on any occasion described.

Part III opens with the "Prophetic chorus," a hymn of praise of the last age of mankind, foretelling a sort of earthly paradise of peace and love. Then follows the proclamation of the apostles of the three great doctrines of the incarnation of three great doctrines of the incarnation of the word, his eternal generation and his continual presence with his church. The concluding number is a grand chorus cele-brating the glorification of the most holy trinity throughout all ages.

To this production of this great musical composition the Gounod society, under the able instruction of Professor Agra-monte, has given weeks and months of careful, earnest work. It is certain that the performance of one of the master-pieces of the great musician whose name

Advice to Mothers. Advice to Mothers.

Mrs. Winslow's Soothing Syup has been used by millions of mothers for children teething for over fifty years with success. It relieves the little sufferer at once, produces natural, quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gum, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhosa, whether arising from teething or other causes. Twenty-five cents a bottle.

Dull Market - Traders Amuse Themselves by Running a Few Specialties Up and Down. NEW YORK, Feb. 91. Traders amused themselves by running a few

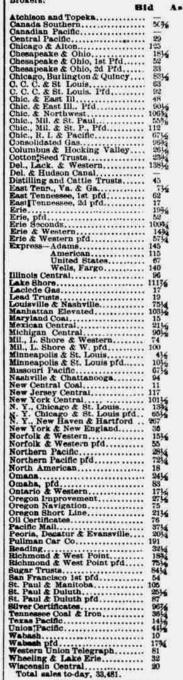

cialties up and down, but otherwise there wa rirtually nothing done to-day. Mr. A. H. Coombs offered down the Suson anna and Western shares and Messrs. H. Campbell and Ed Talcott sold it. As a result the transactions aggregating less than 2,000 shares and the common sold at 9, a fall off of 1% o trading in 3,300 shares. Mobile and Ohio was run up 214 by Messrs. H Nicholas and Louis Bell, but reacted 1 per

cent. Rio Grande Western preferred was marked up 2 per cent. to 71 on 200 shares. Buffalo, Rochester and Pittsburg fell off 2 on sales of 200 shares and Whisky Trust advanced a point on dealings aggregating 600 shares.

Aside from these little diversions made by the second in population in the State and a center of ten lines of Railroads. traders there was virtually no speculation in

tocks. Silver bullion certificates fell to 9614 and recovered to 97, a net decline of 34. In view of the half holiday and the fact that the exchange vas to be closed from noon to-day until Tuesday ext at 10 o'clock, the general indisposition rade was natural. Sales at the board amounted to 33,952 share

(silver bullion certificates not included), again 1,006 yesterday and 66,636 on Thursday. Closing prices reported over the private wire RUNNELL & SCRANTON Bankers an

in the old way with soap and rub, rub, that makes the holes you can't rub without wearing them out. A month of ordinary use won't make the wear and tear of one such washing.

Try a little Pearline-without soap. The dirt comes out easily and quickly without rubbing. There's no need to drag it out by main strength—there's nothing to hurt your clothes, no matter how delicate. There's no hard work about it either. It's easy washing-both for the woman who washes and the things that are washed. It's safe washing, too, Pearline removes the dirt, but won't harm anything else.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, do the honest thing—send it back. 125 JAMES PYLE, New York
