The Young Men's Republican Club's New Quarters to be Formally Thrown Open to the Public This Evening-Several Noted Men to be Present.

The Young Men's Republican club is certainly entering an era of marked prosperity, as well as on a career of greater usefulness. They now occupy a commodious building at 202 Crown street, which has all been newly refitted and refurnished throughout. In the basement is a dining-room and kitchen; on the first floor two large double parlors, with a coat room; on the second floor there are two large parlors which will eventually be joined by an archway. There will be the working rooms of the club, and it intends to do some pretty solid work during this cam-paign. They all asy that James G. Fair Haven for flagmen at the grade crossings at Fillmore and Poplar streets and Blatchley avenue.

The residents of this section have petitioned the city government to order flagmen at these crossings, but it was found that the city had no power to enforce such orders. The residents were determined, however, to have flagmen at these places and have delegated a committee to

appear before the railroad commissioners to-day. If the railroad commissioners do not order flagmen they say they will bring the case before the state legislature. They claim that the crossings are a constant menace to those traveling on these thor-oughtares, and cite many cases of hair

breadth escapes from death experienced by people in carriages or other convey-ances at these crossings. One citizen has counted the number of accidents and narrow escapes which he has seen. He has taken the names and adlresses of those who have so escaped. He found that in less than two months there were six farmers who had the ends of their

he was injured in an accident at Collinaville, which incapacitated him for a time, and three hears since had a similar experience at Richards' crossing, near Unionville. In this accident the car was turned completely over, and Mr. Bentley was taken out of a car window. His health was already on the wane, and shortly after this occurrence he suffered a paralytic shock from which he never fully re-covered. His nervous system was completely prostrated. Mr. Bentiey was retired from act-ive service about two years ago and has since been furnished an annual allowance by the cor-poration. He leaves a wife and one son, Fred-erick Bentley, now in the employ of the Con-nectiout River road. The total foreign trade increased from \$1,610,-533,532 to \$1,643,543,061 - an increase of \$333,069,-500, or 14.9 per cent.
And during the six months just ended, on March 31, 1892, the total foreign trade has reached the extraordinary figures \$1,017,339,907.
Our silver bill of 1890 does enough when it puts out a silver dollar for every marketable dollar's worth of silver to the extent of 54,000,000 ounces a year, and when it pledges lisself to make every dollar of whatever kind as good as any dollar of any other kind, it is believed by the world that saw us make good our paper dollars issued in the agony of war. We may not be true prophets in saying that unlimited colnage would bring upon us a mono-metallic silver currency, a pre-mium in gold, a derangement of our international commerce, and disaster to our financial institu-tions, and most heavily always, of course, to the poorer people, but we see no necessity for mak-ing an experiment so dangerous in the face of the belief of the wiscet financiers and the wiscet men of other lands. If all civilized nations will join us in the general attempt to readjust the relations between the two metals we can easily carry our end of the bargain.
Th 1990 the last republican congress found it-self unable to take any satisfactory position in relation to the important subject of pensions, short of asying that whenever an ax soldier, az-sallor or marine becomes unable to maintain him self he shall be entitled to from §6 to §12 a month, without regard to rank, and according to the az-tent of his disability, sold disability not having arisen from any fault in his own conduct. This shall not derogate from his rights under existing pension laws.
To the criticism that there are many pension-sin short--I enter my protest, based upon fifteen years of correspondence The republican state convention reasser oled yesterday morning at 10 o'clock in Foot Guard armory, Hartford, to complete its work-the election of delegates to the coming national republican convention at Minneapolis. The big armory was soon alive with the five hundred or more delegates and the spectators who had gathered to see and hear the republican leaders. The armory was beautifully decorated, as

AND NOW YOU HAVE church. Saveral liquor cases came before Judge Beach Monday afternoon—Charles Nettleton of Mead-ow's End, Delia Brown and Cassius Smith of Mil-ford Polnt. Each of these plead guilty and was fined §5 and costs. Several other cases were con-tinued till another week. George Howarth enjoyed himself in a rather peculiar manner one evening last week, with the result that he will abide in jail for several weeks to come. His offense consisted in taking posses-sion of two nice teams, each of which he laft in turn after driving them some distance from the place where they were hitched. The fine looking team or Edward Balley was badly wreek-ed in consequence. Howarth was captured by Officer Brown and taken before Jusice McCar-thy, who, in addition to fine and costs, gave him three months in jail. "Under Dr. Roth's treatment I improved a once, and can say all my bad feelings are got and I feel well."

Mr. Cyrus B. Hawkins

Lives at 1 Albert street, West Haven. Had bad cough and soreness of the chest for past 8 years. Had abort breath; would bawk and spit a great deal, and had dul headaches over the eyes and they would blur and have specks before them. A pain in the back and pain under the shoulder blades, pain in the muscles, headache, ringing in the ears, tired all the time, had foating specks before eyes. Now all well by Dr. Roth's treat-ment.

Joseph W. Watrous,

Of 947 Howard avenue had grip 2 years ago; very nervous; shooting pains all over body; chilly sensations; very weak; not able to walk 2 blocks soreness across the back and pain in back to head and neck. Took Dr. Roth's treatment and years well.

Dr. Edward Roth, the Specialist, who brought about the above result, is a gradu ated physician of Believue Hospital Medical Col-lege, also a graduated druggist and chemist of the New York College of Pharmacy, and pre-pares all his own medicines from selected drugs, of which he is from experience a judge. His charges in every case are reasonable. He is lo-cated permanently at 87 Church street, opposite the postofiles, where he cures catarch, as well as all diseases of the nose, throat, lungs, stomach, heart, liver, kidneys, skin and nervous diseases, rheumatism, asthma, bronchitis, consumptien, dyspepsia and deafneess. ndian affairs, by the testimony of those illiar therewith and in a condition to speak artially, was never in so high a state of iency. Vast areas of public lands, including winout is any degree infringing upon the policy of protection to American labor.
We denounce the proposed tariff legislation of the democratic party in congress as a covert attack upon the American protective system and insist that all our industries are alike entitled to protection. In the interests of American labor and for the protection of American industry and American homes, we favor such legislation as will prohibit the immigration of paupers and criminals.
We commend the policy of the republican party in maintaining an honest and sufficient currency, and assert that to this party alone the people must look for the preservation of the republican party to the American volunteer soldier. Their heroism not only preserved this Union, but also washed out of the flag the stain of homes.
We claim for the men whom they made freemene qual rights and equal protection in those rights. ns, have been opened to the sion office has enormously The pension office has enormously edits capacity and results. The debt has eatly reduced. The volume of money in ion has been increased. Bonds have been ation has been increased. Bonds have beer ded at lower rates of interest, and panis d by the wisdom of the treasury depart A silver bill has been passed, which, h not precisely in accordance with the of either contesting party, has proved a practical and safe compromise. The tself a practical and safe compromise. The loostoffice department has very remarkably ex-ended rapid transit and delivery. The field cov-red by civil service regulations has been largely coreased by its extension to the Indian service and the fish commission and the navy yard em-oloyes. A serious defect has been remedied by roviding for promotions by examinations, i laily record of the efficiency of clerks being cent with a view to such promotion. Under men equal rights and equal protection in those rights. We heartily approve of the position of the house of representatives of Connecticut that the constitutional duty of the general assembly is to declare the election only of such candidates for state officers as the assembly shall find to be le-gally chosen; and we dispute the claim of the democratic senate that the incorrect returns of moderators are final and binding upon the legis-

daily record of the efficiency of clerks being kept with a view to such promotion. Under a previous administration admissions to the large forces of the pension office were so managed that 80 per cent. of the appointments were demo-crats. The example has not been followed, and appointments are rigidly confined to merit proved by examination, giving candidates of both parties equal opportunities. The new de-partment of agriculture has been surprisingly successful in justifying its creation. The navy department has pushed its partiotic work with a wisdom and vigor that have brought compli-ments from all parties. Wise legislation con-cerning the army has been accompanied by most

cellent administration with marked improv

ment. The epublican Fifty-first congress revised the tariff with broad and vigorous action, and every day's progross is accumulating additional proof of its success therein. It swept away the duties upon sugar, an article of great and universal consumption, which for that reason is the favor-ite subject for taxation in the minds of the free trade theorists. It has made great reductions of duties, but not at random, for it has, whenever practicable mude them the means of accuring Trade theorists. It has made great reductions of inities, but not at random, for it has, whenever practicable, made them the means of securing reciprocal benefits from several friendly nations. No previous tariff has carried with it so much of wise forethought and national beneficence. I am not here to say who will be or should be our nominee for the presidency. Here General Hawley gave a brief elogy of Blaine, greeted with immense applause, and another of Harrison, equally applauded.

pually applauded. A few nuggets from the general's speech are

We are not deceived by the cry concerning

We are not deceived by the cry concerning free raw material. Iron ore at \$3 a ton is 90 per cent. labor. It is one man's finished product, as truly so as the exquisite hair-spring of a watch is another man's. The wool of the aheep is labor, the perfect product of the farmer. If there be any eastern manufacturer who thinks that the enormous wool interests of the country will consent to be left without any degree of pro-tection while upon finished woolen goods heavy duties are levied, let him undeceive himself be-fore the election.

The election. The tariff cannot create a monopoly in any-thing which 65,000,000 people are free to pro-duce. The republican party is not fighting under dis-guiase; it honestly and openly believes that pro-tective duties are always legitimate, and fre-questly their imposition a high national obliga-tion. of the state constraints higher court. We further extend the thanks of the republican party to Governor Bulkeley for his successful ef-forts to provide for the prompt payment of every obligation of the state.

For some people free trade is necessary, newers well for the island of Great Britan with its limited area and resources), and whic

with its limited area and resources), and which mports ninety-three per cent. of its raw materi-i. Great Britan is absolutely dependent on the est of the world for food and the materials for manufactures. country is practically independent of the whole world. It is folly, it is stupidity, it is an economic crime to carry these illimitable raw materials or any portion thereof 3,000 miles away or one mile outside of our own boundaries, to be thence returned in the form of manufactures goods. When we export a million dollars' worth of ma-terial or of goods in any stage of manufacture and bring back an equal value of other people's work thereon, we loss the profit of the conver-sion of a million dollars' worth of labor. If we conduct the whole manufacture at home, two million dollars may disappear from our account of foreign trade to the dismay of the free trader, who thinks we are losing by the transaction; but the sensible American knows that we have two million dollars' worth of labor. If we conduct the whole manufacture at home, instead of one, and have saved two transportations. The free-trader under all diguisas, from the mere reformer upward, laments the compara-tive low figures of our shipping engaged in for-eign trade. So do we, so far as the foreign trade is unavoldable, but his lamentation is excessive. We are engaged in an enormous commerce de-nied to England by her contracted limits. The toonage of the United States, by the census bulletin just issued, is 7,653,676, very largely engaged in our coastwise and interior traffic, but it is commerce. We are not idle, though we are not constantly going abord. Her shipping is value ef at \$250,000,000. In one year we built 10,000 miles of railroad, worth \$000,000,000, or \$50,000,000 more than all Great Britain's shipping, and that 10,000 miles is but one sixteenth of our rail-road system devoted to a most profitable com-merce.

City Attorney Hugh Dailey has served the re-publican party with graat efficiency for years. During the past two years he has been one of the most valuable members of the state central com-mittee. This year he did not desire a reappoint-ment and was loath to consent to accept a re-election, but leading republicans of New Haven and throughout the state insisted that he should serve during the impostant presidential contest, and he finally consented. ad system devoted to a most profitable The workers of America, free trade statistician nfess, are better fed, better clothed and better used than any others, and therefore develop a sater horse power and better brain power, and sy cannot and will not reduce themselves to an limited and unresoficiend, commetition with all

The free trader cannot disguise himself. His loctrine tends to a reduction of wages. We might give up half or three-quarters of our actories to please the free trader because some-there possibly in the wide world the same arti-les can be made cheaper than here by ill-fed, ill-odged labor. OTHER NEW HAVENERS Edward Wines was elected one of the vice pres-dents of the convention and John F. Gaffey was elected one of the secretaries. W. W. LEE'S SPRECH

William Wallace Lee of Meriden is one of the strongest and staunchest republicans in the state, When Hon. O. H. Platt was first a candi-date for United States senator Mr. Lee made the nominating speech, in the course of which he said that if Orville H. Platt was elected senator the choice. Mr. Lee's prophecy has proved true to many times that the makes of is always listened to with great interest when he makes a public utterance of any kind. Yesterday Mr. Lee made a rousing speech, in the course of which he predicted the continued supremacy of the republican party. tion to determine the number of votes legang cast and the persons for whom they should have been counted. We endorse the action of the house in passing the unual and necessary appropriation bills and other important public and private measures brought before it, and we condemn the demo-cratic senate for its stubborn refusal to unite with the house in the legislation imperatively needed to prevent similar complications in fu-ture elections, or in any legislation whatever, by which refusal the state has been subjected to great financial loss. We denounce the outrage upon the state constitution perpetrated by the same democratic senate in attempting, without the concurrent action of the house, to put in pos-session of state offices persons whose election was in dispute and was at the time under investi-gation by a house committee. We endorse the administration of state affairs by Governor Morgan G. Bukeley such the repub-lican state officers associated with him, for its courage, ability and economy; and we especially commend the firmness which has successfully re-sisted the unlawful attempt of the democratic parity to seize the state government in defiance of the state constitution as interpreted by our higher court. We further axiand the thanks of the republican ter restraining nim from using noisy musical in-struments at his dime museum. The application was granted. Martin Scollard of Stamford was before Com-missioner Wright yesterday on a charge of be-ing a retail dealer in liquor without paying the United States tax. John Reilly furnished a bond of \$1,000 for Scollard's appearance on Monday next at 2 o'clock. The application to remove Starr H. Barnum from the trusteeship of the Pierrepont B.
