One of the great objections to life in the

The idea is capable of indefinite extension and application. There is much fun and some education in it for the young folks, and a good deal of convenience and saving of time and trouble for their elders. And a family doesn't feel out off from the rest of the human race when by tapping a key it can call up and talk with the whole neighborhood. It is also not to be forgotten that by means of this arrangement interesting gossip can go around a country town literally like lightning.

oank, and he has remained a fugitive from ustice from that day to this. The Senate was slow in paying any attention to this serious charge against one of its members, but Republican Senators finally made the unwilling Democrats look at it and talk about it. And when forced ing assertion that the Senate had no right made with hardly any fullness at the North Dakota was satisfied everybody else riding habit, or be of insufficient dimen-

ion provides that each house of congress shall be the judge of the elections, returns and qualifications of its own members, and that this includes the right to make such inquiry that the integrity of the Senate, ts honor and its purity shall not be inrenched upon. And he very pertinently asked: "Is there nothing which goes to the qualification of a member of this body exsept the question how old he is, where he was born, and in what State he lives? Is that the position which senators take! Do enators hold that the constitution means hat anybody and everybody 30 years old, nine years a citizen of the United States. and an inhabitant of the State, possesse all the qualifications which are required for senator, and that criminality and treason and other vileness do not constitute diequalfication to a seat in this body?" He pointed out that the only way of preserving the purity of the Senate, the only way of having capable, proper legislators in the body, was to place in the discretion of such a body the power to purge itself. "It has no limitation whatever except the discretion of the Senate. It may be, as the Federalist says in relation to the power of impeachment, an awful discretion, but it was a discretion which was committed to confessedly. That discretion having been committed to the Senate in cases of impeachment, there is no reason to argue that it was not intentionally committed to the Senate in cases of expulsion." And he continued: I repeat that this power of expulsion has been asserted over and over again to be without limitation, a power which was given to the legislative body, to the Senate, from the very necessity of

especially in view of the fact that the power is given without qualification and without limitation, and has always been asserted to be without qualification and titutional, immoral and preposterous.

Journal and Courier,

country is its lonesomeness. People no thoroughly tired of other people find it hard to live without talking and being talked to. In the country people, and especially the woman part of people often get hungry for a chance to talk. An ingenious attempt to meet this deeply felt want has been made in a Mishigan town, where a few farmers not long ago connected their houses with a telegraphic wire, including in the circuit the village store and post office, a simple telegraphic instrument being placed in each house, where some member of each family soon earned to read the messages. The whole line was at first but a few miles in length, but a wider circle of families desiring to come in, the line has been extended until now its length is fully 100 miles, with any household upon which it is possible for each other household to communicate. The village doctor is upon the circuit and can be summoned without a long drive, perhaps through stormy weather, with its delay and exposure, while in a hundred other ways the line, entailing small cost upon who, at the time, intimated his intention great convenience and pleasure.

SOUND SENATOR PLATT. The case of Senator Roach of North Dakota continues to be interesting, although the Democrats wish it wouldn't. It will be remembered that it is charged that when Mr. Roach was a bank officer in s Washington bank he embezzled the funds of the bank to the amount of \$64,000 and fied the city; that \$25,000 of that sum was made up to the bank by his bondsmen; that another sum, about \$16,000, was realized by the bank from some property which belonged to him, which was secured by attachment; and that the balance of the \$64,000 has never been made up to the

For a useful, practical riding habit a lit tle single-breasted jacket is shown, with just a touch of shirt front showing, topped to say something they made the astonish- by a standing collar. The sleeves are to investigate the charges against Senator shoulders, and this is wise. At present Roach; that he had been sent to represent sleeves puffs are made so large that they North Dakota in the Senate and that if must either be left off altogether from a sions. To have riding habit puffs conform to the required sizes would be preposterous. Besides a woman's outlines should

possible when their proportions permit.

The jacket fits over a tight-fitting bodice, and it can be worn buttoned up or open to show the under bodice. The garment affords protection in case of sudder "weather," and in case of scoident a we man is equipped for a tramp, the shor skirt of the habit and the trim boots mak skirt of the habit and the trim boots mar-ing a good rig for a long walk, while the jacket and derby hat present no extraordi-nary outlines when the wearer is on foot. Besides, to tell the truth, many women ride because they enjoy it, and not because they want to show their figures. The av-arage riding habit puts a woman out of doors with a skin-tight garment on. Some women feel embarrassed about this, while others realize that so frank an exposure of their outlines is not calculated to add to the beauty of their appearance. The loose jacket, having practical exones for exist-ence, meets this class of horse-women. Also the close-fitting habit challenges crit-icism as to its faultiess finish and cut, two things not always attrinable by the woman who wants to ride. The loose jacket will nelp her out in this matter. FLORETTE

around upon the little band of men guard-ing the battery, he said:
"What regiment is this?"
"The First Minnesota," quietly replied Colonel Colville. That line was the victorious Confederate

division which had just driven from the field the corps of Slokles, and was pressing forward to capture the position held by the First Minnesota and the battery guard-The command was instantly obeyed The First regiment fixed bayonets and charged down the slope with a shont, springing for the center of the Confederate line.

The Confederates paused, apparently in perfect amazement to see this little band of determined men spring from the earth o offer themselves a willing sacrifice The Confederates opened fire and the charging column melted rapidly away.

Again and sgain the colors went down, to be seiged by other strong arms, and still the little company pressed forward until it had crossed bayonets with the Confederate center and thrown their line into confu-

If perchance the rheumatism should fall, it is probable that pleurisy or pneumonia may be the reward. But if, by a miracle, neither the one nor the other repays the trouble taken, then go out an pays the trouble taken, then go out and repeat the same tactics the next day, and the next, and the next, until success is assured. The recips is warranted never to fail if persevered in for a smallernt length of time. A plan almost equally good is the one followed by two young ladies last week. They had both had rheumatic fever previously; yet, because the sun happened to shine brightly in at the dining room window for a few hours, they allowed the fire to go out. They sat without fire the remainder of the day and evening. The following being a bright morning, they did not have the fire lighted at all. They were both extremely surprised when they were attacked by rheumatic pains in all their limbs, and blamed the neighborhood.

I only distinguished myself once, and then the feat was purely socidental, and well nigh cost don't you? Try it yourself, me my life. I was practising with three or four other fellows on a big Texas prairie, not very far from a small farm-house. We were aiming at a tree about four hunired yards off, and all the boys except myself hit the trunk two or three times in ruccession. After I had missed it half dozen times running some one remarked that I couldn't hit a cow which was graz-ing peacefully nearly half a mile to our left. I admitted that he was correct, and foolishly took sim at the cow to show him The next moment that cow was prancing around like a made thing, and in less than five minutes it was dead. Unfortunately for me, the owner of the cow saw the performance and proceeded to demand satis-faction. I never heard an explanation sound so utterly mendscious as mine mus have done, and nothing but the fact tha my companion threatened to shoot the irate granger saved me from dying with my boots on. That oow was worth about ten dollars, but the lowest its owner would take was sixty dollars, and sixty dollars

The Giants took matters easy till the sixth inning, when three more runs came in through three baggers by King and Tiernan and a two-base hit by Doyle. The last New York score resulted from Bliss' error and another double by Doyle.

Yale sent Hedges over the plate in the second on a base hit, a sacrifice and Greenway's single; Beal scored in the third on a base on balls, a steal and a sacrifice; Spier went around in the eighth on his own double, a sacrifice and an attempted put out, and Rustin circulated the bases in the last inning on a base on balls and out, and kustin disclassed the bases in the last inning on a base on balls and Stevenson's double. McQuaid's fielding was rudimentary. D. Fuller took a num-ber of hard balls and with Ward made the most favorable impression created here by the re-organized Giants and 1893 pennant claimants.

sented with an elegant souvenir, receiving it from the hands of Topsy on the stage at the conclusion of the performance.

Age cannot stale the attractions that "Uncle Tom's Cabin" has for the people, and Topsy's antice continue to elicit shouts of laughter, in which the mind fluor sellef from the tearful sympathy with the sorrows of Uncle Tom and the untimely death of little Evs.

"O'Dowd's Neighbors," the popular comedy success, will be moved on the stage of this bouse on Saturday afternoon and evening by Mark Murphy and his excellent company. The people of the "Neighborhoad" are very entertaining, proving themselves to be as pleasing a combination of music and mirth provicers as is often gotten together.

HYPERION.

Last evening a large audience gathered at the Hyperion to witness "The Henrietta," as depicted by Stuart Robson and his excellent company of players. This comedy has not only amused thousands of american people, but it has given them an insight into the working of the great financial circle of America, Wall street, and showed them graphically, yet in an entertaining howed them graphically, yet in an entertaining manner, how the "bulls" and "bears" endeavor to fleece the poor "lambs." So much has been written of this great comedy that it is useless to attempt a criticism or to endeavor to describe it

Suffice it to say that Robson and his su-company presented it in the same perfectly ming manner, and from beginning to end the unce applanded vociferously at every opporaudience applanded vociferously at every opportunity.

The engagement of the celebrated English comedienne, Helen Barry, in that unique comedy "A Night's Frolic," to-night, is looked forward to with more than the usual interest in dramatic events. The dual role in which Miss Barry appears as Lady Betty and the French Chasseur, has won for her a reputation for versatility in acting that few stars of the present generation eajoy. "A Night's Frolic" is without exception one of the funniest comedies before the public. Many new features have been added including the Tar-ra-boom-De-ay song and dance a la Lottle Collins, which is done by one of the most competent sritist in the profession. Miss Barry's company remains, with but two or three exceptions, the same as last season. The company carries their own scenery, properties and the beautiful stage draperies.

Wrestling match, catch as catch-can, between Isaacs and McMahoen.

During the evening Burt Mitchell, the contortionist, and Mr. Isaacs, the club swinger, amused the audience.

The wrestling match between Isaacs and McMahon was of short duration, as Me-Mahon got the strangle hold on Isaacs' neck, the police interfering. The match was given to McMahon.

The bouts between Bussell and Lynch and Telfair and Lane proved to be very interesting. In the latter match Lane proved to be in far superior training than Telfair.

AN ENTERPRISING and Successful Business Firm-Brown & Durham, Complete House-furnishers - Five Floors Stocked

With Choice Goods. One of the most enterprising and successful business firms in this city is that of Brown & Durham, the popular and widely-known housefurnishers, who for several years have been associated at the corner of Orange and Center streets. From the very beginning their store became a popular resort, and it has steadily inreased in favor and patronage. The reasons for such a gratifying result are quite member of the firm, was present during member of the firm, was present during desire to merit a generous share plain. Long experience in the housefurof patronage by studying the wants of purchasers and giving them full value for their money, have been the

cause of Brown & Durham's popularity with the general public. A visit to their handsome and spacious store will convince any discriminating person that they not only carry an immense stock but also have thebest goods manufactured. Five floors stocked with everything needed to furnish a house and make it attractive and com-fortable can be found there. These floors are easily reached by a fine elevator. Space forbids enumerating the many articles ex-hibited, but a brief allusion may convey bibited, but a brief allusion may convey to the reader an idea of what he can witness when he visits the establishment. The basement floor contains a complete line of kitchen furniture, including stoves and ranges of the best make, refrigerators, crockery, tin and woodenware and anything and everything needed in a kitchen. On the first or ground floor can be seen bedroom sets in great variety—over one hundred patterns—including, among the novelties, curly Birch and Birds-eye maple. An immense array of baby carriages, any one of which looking stylish enough to carry "Baby Ruth" or "Baby McKee," attest the fact that Brown & Durham have made ample provision in this respect "for the little tots." A rich and very choice selection of folding beds, also bed room sets in mahogany, antique oak, cherry, etc., can be found on this floor. The second floor from the basement is the carpet department, which contains a very large stock of very latest and most approved patterns. They are handsome and durable, and the sales in this department are large and increasing daily. Moquettes, body Brussels, tapestry Brussells, ingrain, etc., also mats in great variety. On this same floor, which extends over the whole length of the buildings are sideboards, china closets, olicloths, mattings, laces, shades, draparies, etc., etc. The third floor from the basement contains a magnificent display of parlor and sitting room furniture, parlor suites in brocatelies, tapestry and Wilton rugs, also silk and sultan plushes, easy Turkish chairs and fancy rockers of every style of upholatery known to the trade. Couches, bed lounges and bed sofas are also exhibited there. The above description is a very imperfect one, as it conveys but a faint idea of the quantity and quality of goods at this firm's store.

Their great specialty is in furnishing houses completely, and in this respect they are unsurpassed. Their goods are all marked plainly and can be seen by purchasers, and while all their prices are made on a strict cash basis, yet they cheerfully a te the reader an idea of what he can wit-ness when he visits the establishment. Another Large Audience Attended the Murphy Meeting at the Town Hall Last Night-It is Estimated That Fully One Thousand Persons

Murphy made his appearance he was given an ovation. Every seat was occupied and all the available standing room utilized. The doors of the armory were not opened until 7 o'clock, but half-past six the passageway from the street was filled by at least 500 waiting for the first chance to get in the building. At least three quarters of the crowd were ladies, who were in waiting, and soon nearly all the waiting ones were of the fair sex, for some of the young men discovered that the window on the wast side was unlocked and it was raised and the male portion of the crowd availed themselves of the opportunity to slide in and cost a seat with portunity to slide in and get a seat without waiting for the doors to open. Fully 200 went into the window and the only gentlemen left onteide were those who had ladies with them and could not with propriety get away. It was expected that Mr. Murphy's father would be here last evening, but owing to other engage-ments it was impossible. He came up with his son on the 2:36 train but did not stop here. The

ATTACKED THE GUARDS. The Strikers in Belgium Become Fu-

rious-Many Persons Were Wounded BRUSSELS, April 17.-The dynamite exosion at Mons to-day seems to have acted s an incentive to the strikers to commit further outrages. The strikers filled the drinking places and indulged in all manner of threats against the government and as the day wore on they became emboldened and determined to take possession of the own for a labor procession Their intentions were known to the au

horities, who have many spies among workmen, and when the mob, singing the Carmagnole and the Marseillaise, attempted to march through the streets, they were met by a strong detachment of the civic nard. An order was given for the strikrs to disperse, but no attention was paid

to it by the strikers.

Hooting and yelling they attempted to march on, when the order was given for the civic guard to prepare to fire. The mob defied the guard to fire upon them, and threw heavy stones, bottles and other missiles at them. The guard fired upon the crowd, but this did not effect their dispersal. On the contrary, it only infuriated them, and a charge en masse was made upon the guard. A desperate hand to hand spou the guard. A desperate hand to hand conflict ensued. The main body of the strikers was

The main body of the strikers was broken up, but groups of struggling men could be seen in the side streets leading from the main thoroughfare. The battle was long and bitterly contested, but finally the civic guard were victorious. It is known that four miners were killed and many rioters injured. A number of them were taken to the hospital. It is thought that the exact number of the wounded will never be known, as some of them were never be known, as some of them were carried away by their friends. The governor of the province of Brabant, in which Brussels is situated, has ind all mayors of cities and towns within his administrative district that they

The city council of Brussels have voted thanks and congratulations to the police and civic guard for their valiant conduct n suppressing recent disturbances here. The government has issued a decree calling 45,000 troops against the workingmen.

Refuse to Leave Their Work-The BRUSSELS, April 17.-Many of the men mployed at Antwerp in loading and discharging vessels and in other work about the wharves did not quit work in obedience to the order of the men engineering the strike. During the course of the morning the strikers made an attack on the workers. The latter made a weak attempt to defend themselves, but the gendarmes took a hand in the affray. Some of the attacking party were armed with revolvers, and when the police interfered they displayed no hesitancy in using their veapone. The gendarmes also opened fire,

and it is thought that several of the strikers were wounded. A number of ringleaders among the strikers were captured and locked up.

The feeling of unrest continues to spread slowly, but surely, and deeds of violence are being reported from most of the industrial centers. There is no denyg the fact that the crisis is soute

ing the fact that the crisis is soute.

Meetings in favor of universel suffrage are being held throughout the country and great excitement prevails at all of them. Everywhere the speakers declare that the time has come for the downtrodden workingman to assert his right to a voice in the government of the country, and impassioned appeals are made to those who live by toll to leave their work and to join the great demonstration now n progress.
In the Charleroi district it is estimated that 20,000 of the miners have quit work and are demonstrating their right to vote for members of the chamber of

The cotton, lace, linen an 1 woolen mills factories in Grammont in East Flanders are affected by the movement, a large number of the operatives in these country district having joined the strike movement. Some of the more enthusiastic and hot blooded atrikers at Grammont assembled in the Cafe Hollandsis at that place to-day, and Cafe Hollandsis at that place to-day, and held an impromptu meeting, at which fiery speeches were made by some of the leaders. The gendarmes attempted to break up the meeting, but met with a stout resistance. The strikers struggled desperately and were only dispersed after a long contest and after two of the gendarmes and a large number of the rioters were seriously wounded. Order now prevalls, but is liable to again be disturbed at any moment.

During these ceremonies the flags on all the ships were constantly changing from one country to another, and to an onlooker it was apparent that if there existed any ill feeling between Russia, England and France there were little remnants of it

The appearance these five ships of the queen's navy presented as they moved majestically over the water and past the outer end of our fleet to the anchorage grounds designated them by Admiral Gherardi was one of the pretitest sights ever seen here. At the head of the fleet was the big armored oruiser Blake, hearing the penant of Vice Admiral J. O. Hopkins, K. C. B. commander in chief of the fleet. Sweeping by the fleet the Blake slowed down just as she passed the Newark and when abreast of the Philadelphia, the signal was displayed to the other ships to anchor. As quickly as the signal was seen just as quickly were five bow anchors seen to splash the water into a foam and the deep rumbling of the chain could be heard as forty

Dr. Wolfe said he had experimented on a student in Hartford, Conn., who had taken ninety-six grains of chloral and twelve grains of morphine, to ascertain the effect of morphine, chloral and atropine acting jointly on the patient, and he found that atropine would not modify the morphine symptoms on the eye nor morphine modify the atropine symptoms.

Mr. Wellman produced a human brain removed from a head less than three hours before, and asked the witness to compare it with the preserved brain. Mr. Wellman contended that the brain shown by the defense was simply the caricature of a brain, but the witness declared it was perfect.

Mr. Wellman's cross examination lasted for an hour and a half. Professor Victor C. Vaughan of the University of Michigan was called, but the court soon adjourned. An Interesting Ceremony.

THE RAILBOAD HEARING. What Was Done in Boston Yester day—The Consolidated's Proposition —Governor Long Approves It.

Bosron, April 17.—Several members of the chamber of commerce testified to-day road committee of the legislature on the New York and New England controversy to the superior terminal facilities of the latter road in Boston. Mr. Benton for the New Haven road presented a written agreement under which

the New Haven bound itself to pay its portion or all the expense of a conne between the two roads at Readville as the railroad commissioners might determine and to deliver there all the freight that was desired by consignors or receivers that t lawfully could.

Mr. Story for the New England road was unable to agree to the proposition without first consulting the management. He thought, however, that the New England should have the right to use the New Haven's New York terminal if it built a fifteen-mile place of track.

Mr. Benton expressed a willingness to agree to this and Mr. Storey said he would gree to this and Mr. Storey said he would

agree to this and Mr. Storey said he would draw up an agreement.

Ex-Governor Long, for the produce exchange, expressed satisfaction with the proposition of the New Haven people.

Mr. Storey then called attention to the real issue, which was being lost sight of. The question was, had the New Haven violated its charter by discriminating against the New England. The latter road he said, he thought could introduce evidence bearing on the question which was of grave importance. Mr. Storey then proceeded at length in support of the charges of discrimination. the charges of discrimination Adjourned to to-morrow.

THE RUSSIAN TREATY. Reason for the Delay in the Exchange of Ratification.

WASHINGTON, April 17 .- It has be earned that the delay in the exchange the ratifications of the extradition trea recently concluded with Russia, we doubtless due to the absence of the czar from St. Petersburg. HARTFORD, April 17 .- A meeting of the directors of the Charter Oak Park Driving ociation was held to-night to take ac tion as to the future course of the association in view of the law relating to pool selling, purse racing and other outdoor sports. The law was thoroughly discussed and it was unanimously voted to rescind a former vote giving a spring meeting with purses of \$6,000.

A committee consisting of President Bulkeley, Secretary Loomis and Celonel Kennedy was appointed to ascertain what arrangements can be made with some other association in the grand circuit to trot upon their tracks the Hartford colt stake of \$10,000 and the historic Charter Oak stake of \$10,000 for the 2:20 class, which was advertised to be trotted at the August meeting. The directors also felt obliged to refuse the applications of the Columbia Cycle club and the Hartford Wheel club for the use of the park for the the cycle tournaments, as the new law makes the lessees of any grounds to be used for racing purposes for prizes liable to ar-rest and imprisonment.

The moment the gong sounded in the second round the men went at one another like wild animals and singged away with J. Edward Simmons, president of the Fourth National bank, said:

"It means, of course, that the free gold in the treasury is down to the reserve mark of \$100,000,000, and that the government will no longer act as a storehouse for the banks. Now, if the people want gold from the banks they will have to take the metal instead of gold certificates, and it is not so easy to cart the metal around as it is the certificates. The situation is a serious one, of course, but it is practically no more serious now than it was last week. Smith was the better of the two and had a slight was the better of the two and had a slight was a bull, also, and he landed on many occasions when Williams fell short. The fighting was exceptionally fast and furious. Both men stood up like stone walls and gave and took without the slightest pretension of trying to avoid a single blow. That type of fighting could not last long, as both men were rapidly showing signs of fatigue. They were both baily marked and bruised from the bard was last week. "People seem that it was lost, and it was easily to be seen that it was only a question of endurance. Neither man paid the one slightest attention to science, but it was last the bout one of purely brute force. Smith was the bout one of purely brute force. Smith was the bout one of purely brute force. Smith one slightest attention to science, but and it was leadly t left and right like two crasy men. Not one second of time was lost, and it was until then, will there be a permanent improvement."

An ex officer of the treasury said there was no more cause for alarm to day than there was last week. "People seem to think," he said, "that it is something new for the free gold in the treasury to be down to the ene hundred million limit. If they will only take time to look up the congressional record and read a speech by Senator Allison on the proposition of Senator Morrison in 1886 to invest all the surplus in the treasury except \$10,000,000 in government bonds, they will find in a treasury statement printed by him that as a matter of fact the \$100,000,000 gold reserve was trenched upon more than once to the amount of between \$3,000,000 and \$40,000,000, and that, too, without any disastrous results."

La to avoid a single blow. That style of fighting could not last long, as both men were rapidly showing signs of fatigue. They were both badly marked and bruised from the terrific punishment they received. Williams was knocked down several times in this round before he received the knock-out blow. Each time he came up gamely, but showed greater signs of fatigue. Smith, con, was quite unsteady on his feet, even when he planted the finishing blow with his right on the point of Williams' jaw. Time, 2 minutes 35 seconds.

The crowd shouted like so many demons. It was evident that the sports had put their money where they put their opinions.

Williams was a much used up man, while Smith was little better, but success kept him smilling and he forgot his aches. The winner is hereafter to fight Dempsey put their money where they put their opinions.

JUDGMENT WAS REVERSED. hief Justice Fuller in the Suprem

Washington, April 17.—The supreme court to-day decided a patent case and reversed the judgment of the circuit court for the district of Connecticut. The Whitman Saddle company of New York sued Smith, Bourne & Co. of Hartford for alleged infringement of a patent for a saddle which was issued by Royal E. Whitman. The patent covered pommel and cantle of a riding saddle, and was said by the judge o the circuit court to be good and to be in-fringed by defendant's saddle. Decree, judgment and appeal to the supreme court followed.

Chief Justice Fuller announced the

opinion of the supreme court on the appeal, which was, in effect, that the devices of Whitman had long been in use in the west in what was known as the "granger saddle" and Smith, Bonne & Co.'s saddle did not infringe any patentable right of the plaintiff. ### It Has Not Been a Pleasant Experience For You Either.

This May Give You Knowledge You Never Possessed Before.

You think that you differ from every-body else, but we are all made up about alike and if you read this you will have an exact expression of your own feelings.

"I suffered from dyspepsia for twenty years," states Mr. Joseph Hogan of Franklin, Mass., (P. O. Box 149.) "The stomach became weakened so that after eating what would be considered a full meal it would not be digested, but would accumulate in the stomach.

"I would have a sense of fulness or bloating after eating, with distress, and I would suffer greatly with acidity and eructations of large quantities of scrid, sealding water.

"I had tried many remedies without finding relief. A gentleman who had been tured of a similar trouble by the use of Dr. Greene's Nervura blood and nerve remedy urged me to give it a trial. The result justified his confidence. I began the use of the remedy three months ago and have not yet used three bottlefuls and have had perfect relief.

"I have eaten all kinds of food and digest it without the slightest difficulty. I consider myself cured of my confirmed dyspepsia. It gives me pleasure to testify to the efficacy of Dr. Greene's Nervura blood and nerve remedy in my case."

If Mr. Hegan's case does not describe your symptoms and facilings, it sower your your symptoms and feelings, it comes very near it, and the same remedy will cure you if you will use it. ### PREPARING FOR CHOLERA. Connecticut Should do Something at

Once to Guard Against Another Invasion of the Disease. The current bulletin of the state board of health states that a conference of the representatives of the port sanitary au-thorities of England and Wales was held in London in February to discuss the best measures to be taken for preventing the mportation of cholers into that country.

During the last week a similar conference of the health officials of the United States and Canada was held in New York. States and Canada was held in New 1012.

It was largely attended by delegates. They represented, besides more than twenty states of the union, the army, the navy and the marine hospital service, together with the provinces of Canada.

Connecticut has as yet done nothing in that direction. Her State Board of Health has no authority to act defensively. As existing laws are the safety of the people

It must be confessed that confidence in prompt, judicious and efficient action is not strengthened by the knowledge that in the face of this peril the largest city in the state still permits thousands of privy vaults upon the line of its sewered streets and allows the night soil therefrom to be carried daily through its populous streets in open wagons.

It would be difficult to contrive a more

certain way to distribute cholera germs than by scattering the exercta of cholera patients along the streets as these wagons EIGHT CLUBS TO SHOOT.

moneys.

There are at present eight clubs in the league and each will send a team. There will probably be fifty Connecticut shooters present and a dozen or more crack shots from outside the state. It is expected that four more clubs will join the league at its next meeting. Athletic Entertainment.

The Columbia Athletic club will give an entertainment at Music hall this evening. There will be some good wrestling and olub swinging, and finally several banjo solos and singing by the Jocelyn Square quartet. Steve O'Donnell of New York will be master of ceremonies. The program, as arranged by the Colum-bia Athletic club, is as follows:

Sparring-Jimmy Carroll, heavyweight cham ion of Connecticut.

DAMMING THE HOUSATONIC.

Proposed Development of Factory Power Sufficient to Furnish Em-ployment to Three Thousand Men. outhville is to be built by a company which includes a number of Bridgepor capitalists. It is claimed that at this place at a point near the little shad fishing dam, still in existence, a dam can be built which will produce sufficient power to store all the electricity needed for the proposed work. Surveys have been made and the plans are all drawn. The Bridgeport Farmer says: "For the past few days Sidney E. Hawley and William R. Roe have been at work leasing the land for this purpose and from those who would be damaged by backing water on to them. They have succeeded in obtaining leases from Henry Camp, Gideon Northrop, David Barnam and F. Clark; these are the prin-cipal ones with the exception of the widow John Smith, who refuses to sign. The dam is to be 300 feet in length, twenty-five feet in height and thirty feet in thick-ness.

ness.

The buildings to be put up will be or the land of Henry Camp, in the meadow where the little old fish house stands. The company is reticent as to what these will be, but rumor says besides the electrical works there are to be factories sufficient to employ 3,000 men."

COURT RECORD. Probate Court-Judge Robertson In this court yesterday the estate of the late Mary A. Tuttle of East Haven was settled. The case has been in court since November, 1891 She left property worth \$5,300 to her brothers John and James Tuttle. A claim for \$3,500 for taking care of Miss Tuttle for twenty years was put in against the estate by Mrs. Caroline Brad ley. That claim was settled for \$1,200. Yesterday the testators came into court and could not agree on anything until Judge Robert son told them to retire to the vault and talk th

They finally agreed that Mrs. Bradley shoul receive \$1,300 for her services. Of this sum the state is to pay \$606 and James Tuttle will pay the other \$700. This is the estate where witnesses came in the probate court and testified that Mr. Hulls who was named as executor, was dead. Charles Hemingway was appointed administrator, and a little later Mr. Hulls appeared on the scene. Mr Hemingway was allowed to continue to act and has settled up the estate.

TEMPERANCE AWAKENING. The Wonderful Work Which Has Been Begun in Portland by Tem-perance Orator William H. Spear, Formerly of This City. PORTLAND, April 17 .- Never in its his

ory has this staid old town been so completely shaken by the temperance moveent as it is at the present time. Evangelist W. H. Spear opened a week's series of gospel temperance meetings here last Thursday night, coming here from Crom-well, where his success had been marvel-lous. Even the temperance people thought little could be done here in the way of awakening the town from its apathy, and they openly stated that possibly one hun-dred women and children might be induced to sign, but that nothing could attr the business men of the town, and it was al-most a hopeless task. A citizens' commit-tee hired Waverly hall for a week and in-vited Waverly hall for a week and in-

vited Mr. Spear to conduct his meeting.

From the very first night the meetings have been a success. Mr. Spear has abused no one, but has packed the hearts of the people by kindness and a marvelous persuasive power that has gone right home to the hearts of his audience. At the meeting Sunday afternoon the health as according ing Sunday afternoon the hall was crowd tended down the stairway to the street door and scores could not step a foot inside the building. The old war horses of temperance opened their eyes with amazzment to see how easily seemingly, a stranger with such, to them, unusual methods of work could so awaken the people that even the staid and aristocratic Episoopal church came forward and endorsed the movement both by the presence of its rector, who made the opening

On Thursday they play the Fordham college team at New York. The law school team will be rather weak as several sub-

staff, and the Rev. Henry W. Kalsey of this city, chaplain of the First regiment, C. N. G. All was quiet at the prison when General Haven took hold. He said he did not expect to order any troops there. Warden Chamberlain intimated that his defense to the charges to be preferred against him would be that they are the result of a conspiracy on the part of some keepers and other employes.

### A DOUBLE PUNEBAL and of Her Son William A. Chamberlin Interred at West Winsted After Brief Funeral Services in This City and Winsted.

The Chamberlin resident at the corne f College and Grove streets was indeed a seene of mourning yesterday upon the oc-casion of the double funeral of Mrs. Harriet C. Chamberlin and her son William A. Chamberlin.

The funeral services at 8:30 o'clock were church and Rev. Dr. Munger of the United church. The services began with the singing of the hymn, "Lead Kindly Light," by a quartette. Rev. E. S. Lines, rector of St. Paul's church then read appropriate selections of scripture and prayer was offered by Rev. Dr. Munger and the short

and then those of the son were placed in another hearse standing at one side. The bearers for Mr. Chamberlin were Alderman A. Maxey Hiller, Gardner W. Allen, Roger S. Baldwin, Henry P. Moseley and Frank W. Guion of this city and Lewis Camp of Winsted. They also acted as honorary bearers for Mrs. Chamberlin.

Many relatives and friends, despite the unusually early hour, gathered at the residence to pay the last tribute of respect to the departed. Immediately after the services at the the house the remains were taken to the Union depot, and thence to West Winsted on the train, leaving here at 9:45. A funeral car had been placed at the rear of the Berkshire train, leaving at 9:45. At one end of the car the caskets, covered with fragrant blooms, stood side by side and the accompanying relatives and friends took seats just beyond. Upon the arrival the special car in Winsted the remains were taken to the residence of C. P. Camp, an uncle of Mrs. Chamberlain, where services were held. There was a large atservices were held. There was a large attendance and the services were very impressive. Rev. J. S. Vorhees officiated and the interment was in the Central ceme-

tery.

The singing was by a quartette from the Second church, composed of Mrs. Howe, Mrs. W. F. Coe, Mr. Dickerman and Mr. Culver. The pall bearers for Mrs. Chamberlin were Messrs. Henry Gay, Rufus E. Holmes, John Woodford, William L. Camp, I. R. Griswold of Winsted, and Dr. Challe W. Camp.

There was a magnificent array of flowers resting upon and around the caskets. For Mr. Chamberlin the New Haven Yacht club mr. Unamber in the New Haven Yacht club sent a large crescent, B. Shoninger & Co. sent a large standing harp, ex-Alderman Sonnenberg sent a pillow, the ushers of the United church a large cluster of bride roses, the Sunday school of the United church a cluster of mermet roses. There was also a magnificent stable and was also a magnificent sickle and many clusters of cut flowers. Miss Fleetwood sent the white flowers for trimming the neide of the casket and also a spray of white roses to lay upon the easket.

Friends of Mrs Chamberlin brought four clusters of magnificent La France roses, a cluster of Easter Illies, a bunch of callas and many cut flowers.

PREPARING PLANS

For a \$30,000 Power Station. Ansonia, April 17.—The electric road in view of the contemplated improvements and extensions, has had prepared plans for a new power station to be built on its preperty in Birmingham. The plan includes not only building but equipment, and the proposed new plant is entirely modern, with the best of engines, motors, etc. These will give ample motive force to all the cars that would be required to and condemned for railroad purposes, gave a hearing to the parties interested yesterday. No decision was reached in the matter.

Judge Wheeler of the superior court has denied the motion of p aintiff in the suit of Charles L. Harrison, et al., executors, against George L. Deforest, et. al., fer judgment. In the suit of Nathaniel Sleeman against the National Gas Saving company, defendant's motion usat Charles Beeman of New York be made a party plaintiff was denied.

The sentinel says: "Just what the company will do is not known. At present, they say, they will do nothing. If the town of Ansonia proposes to sit down on the efforts for improvement in an endeavor to company, defendant's motion usat Charles Beeman of New York be made a party plaintiff was denied. advantage, and succeeds, it is not proba-able that either of the extensions will be built or the power deficiency be supplied. Mr. Wood, who is the principal owner, and who has put over \$100,000 into the road, without getting even interest back, is very much dejected over the movement in Ansonia and may conclude to order a halt where he is where he is. The action of the selectmen on the peti-tion being circulated by Charles H. Still-son, will be awaited with much interest."

New Haven Athletic Club. The New Haven Athletic club has completed its track on West Chapel street, corner of Sherman avenue, and it is said to be in very good condition. The follow-ing men are now in training for Company C's games in Stamford Saturday evening: Hunter, Morrison, Bissell, F. Sisk, J. Sisk, Sanford, Derrick and Christie.

A Milkman's Mishap. A milkman, name unknown, from North Haven attempted to jump on his team while in motion yesterday morning at the corner of Osborne and State streets. He missed his step and feli, the wagon passing directly over him. He was taken into Bronson's drug store in an unconscious condition, where he was revived and taken to Dr. McNiel's office, where it was found that he was suffering from a scalp wound and a sprain of his right leg. The injuries will lay him up for some time, but are not of a serious nature.

A resident of Morris Ceve for twenty-three years says that it is abourd to talk about the danger from electric cars in front of the cove when for so many years teams have been obliged to use a roadway only sixteen feet wide. He added that the sentiment was steadily gaining in favor of widening the roadway and continuing the electric road around by the shore. Then there would be plenty of room for the cars and the increasing number of teams of all kinds that are visiting the cove every summer.

In about a week Hudson Forbes will put in a fish pound off the bluffs near the cove. 50 far as can be learned this is the only pound to be put in the water in that vicinity this season.
