Times has been publishing newspaper reports of miraculous cures occurring in va rions parts of the United States, which have been to many of us exceedingly interesting reading.

At intervals during the past year the

We had no reason to doubt the accuracy of these various statements from the fact that they were vouched for by the newscial" to Obicago immediately at the close papers who published the same, and bore upon their face the endorsement of the of the convention. This special train, which will leave Montreal on the morning best men and women in the places from of July 10, will be composed exclusively which they were written. We had no ides, however, that right in our very village, among people we all know, equally as nteresting cases were to be found as those published. The medicine that has been working these wonders and is receiving everywhere the endorsement of physicians, press and patient is Dr. David Kennedy's Favorite Remedy.

Perhaps there is no case more worthy of mention than that of our fellow towns man, C. H. Craver. According to Mr Craver's own statement, he suffered for fifteen years with an ulcerated leg. Dif ferent physicians were consulted. They prescribed, but it did not grow better. "I prescribed, but it did not grow better. "I thought," said Mr. Craver, "that it could never be healed. Finally Dr. Kennedy's Favorite Remedy was mentioned to me, and from the first bottle it began to im-prove and after using, I can't say just how much, it made a perfect cure." Inquiry among Mr. Craver's friends shows that he states nothing but the facts in researd to bic sease Meny other instances

in regard to his case. Many other instances of the kind are widely talked of here in Fulton, where Dr. Kennedy's Favorite Remedy has effected cures after physicians "We all live and learn," said one of our

"We all live and learn," said one of our local physicians in speaking of Dr. Kenne-dy's Favorite Remedy. "No doubt Mr. Craver's case was the result of an excess of uric acid in the blood, and that's why Fa-vorite Remedy cured it. Rheumatism, dyspepsia, diabetis, kidney, liver and uri-nary troubles, scrofula, eczema and the sicknesses women suffer from are all broach taken to the same conservation brought about by the same cause-exces of aric acid in the blood. Dr. Kennedy's Favorite Remedy dissolves this acid, thus ouring the disease. For that run-down feeling people often suffer from in the Spring I have used it with marked suc-

cess." W. H. Morse, M. D., New York Medical Institute, New York city, says: "I know of the therapeutical value of Dr. David Kennedy's Favorite Remedy and prescribe it for the disorders for which it is recommended, and with always satisfactory re sults."

Confirmed invalids who expected to end their lives in hospitals, suffering from chronic rheumatism, neuralgia, stone in the bladder and female weaknesses, have been restored to health by this great medi cine. It is used in every hospital and san itarium

The Sisters of Charity, St Mary's Fe-male Hospital, Brooklyn, N. Y., say: "The satisfaction we realize from the use of Dr David Kennedy's Favorite Remedy far sur

passes all expectations." Imagine the joy and gratitude of Mr. E. P. Tayer of East Nassau, N. Y., after be-ing an invalid for fitcen years from in-flammatory rheumatism, and with no hope ing an invalue for any second second
