It grieves us to feel obliged to say anyfriends of a man as slick and respectable s Mr. Charles E. Graves is, but we distinotly assert that the statement made by Mr. Graves concerning the paying of school money to lobbyists, or legislative attorneys, or whatever they may call themselves, was not full, frank and specific; that he knew it wasn't and that he didn't mean it to be. If anybody doubts the entire correctness of this assertion he can have his doubt removed by an nspection of the records of the Board of

A SIGN OF THE TIMES. What is bound to happen on many of the electric railroad systems has begun to happen on the Lynn and Boston system This system is next to the largest in Mas sachusetts. Its lines connect with Boston and with each other the cities and towns of Lynn, Chelses, Revere, Everett, Malden, Saugus, Melrose, Stoneham, Wakefield, Woburn, Swampscott, Marblehead Salem, Peabody, Danvers, Beverly, Wenham and Hamilton, with a prospect of ex tension to other important sections of Esex and Middlesex countles and connec tions with other street railroad systems. These places are related to each other in a 100,000 bushels of apples. This year business as well as a social way, and it is not an apple will be shipped press and freight service over the Lee's Summit who has 2,500 trees says electric railroad lines that connect that he will not have enough fruit to make them will pay. It is thought ham, Salem, Peabody and Danvers, for inof the other cities and towns thus connected, and between the various important manufactories of shoe findings in Lyes and the shoe shops in other places. It has not paid to cart these goods to the steam railroads by team, to be carried but a few eams again, and so it has been customary to send them by team all the way over the direct bighways. But now that these highways are covered by electric railroads it will evidently be much cheaper to transport the goods by cars loaded at the door of one factory and unloaded at that of We shall soon see other plans like this

n operation. We do not, however, beleve such plans will interfere with the steam railroads as some think they will. The electric light hasn't knocked out gas-

light, and electric street railroads won't nock out steam railroads. A DEMOCRATIC EPISODE.

The nomination of James J. Van Alen as Ambassador to Italy has made a stir. That staunch Democratic newspaper the New York World is highly displeased by t and talks right out in meeting. It decribes Mr. Van Alen as follows: Mr. an Alen is not a Democrat. He is not a rue American. He has no sympathy was educated in England and has lived nestly in that country. He is the sort of self-expatriated American who regards the Inited States as "not fit for a gentleman

Alen's appointment involves a greater wrong than this, according to the World, which says that it has been repeatedly stated without denial, and Mr. Van Alen himself is reported as basing his expectation upon the fact, that he contributed a arge sum of money to the Democratic na onal committee, and was to receive the talian commission in consideration of this payment. The sum named \$50,000. The World reports that at Newport dinner in August one of Van Alen's friends said: If Van Alen

John Bickel of Harrisburg, Pennsylvania, says he has an umbrella which is 105 years old and that it has always been in possession of the Bickel family. An umbrella that has stayed in the possession of one family for 105 years is indeed a curiosity.

"What a superb face!" said one Boston girl to another as they stood before a marble head of Minerva. "Yes," said the olks are a bit superstitious. You probably have all steen would be funny men thrown off a stage at rehearsal for quoting some of the Bickel family. An umbrella that has stayed in the possession of one family for 105 years is indeed a curiosity.

A novel application of the electric search ight has been made in Scotland. To enable the workmen to labor through the night while a pit was being sunk a searchight, the apparatus for which consisted of an arc light, a lens and a mirror concealed n a sheet fron case, was suspended over he pit's mouth. Access to the lamp was tained by a sliding shutter on each side the case. The light was focused or adusted by a screw on the top of the outdde of the case, and when necessary the amp could be adjusted to diffuse light broughout the whole shaft or be concer rated at the bottom. The mirror, which vertical direction, so as to deflect the rays to any required spot, and could be fixed in any position by a thumb serew.

Yes, that's right; augh if you will but my experience is ong one and I think I am a sane man Any old manager in this country will tell you that a yellow fiageolet is sure to wreck any company. Circus men won't have them in their bands. I could tell you many incidents to illustrate what I say. Perhaps you remember that when 'The Junior Partner' was put on, every one said it was Partner' was put on, every one said it was going to be a big success. Everything pointed that way, but it opened with a yel-flageolet in the orchestra, and then Mrs. McKee Rankin's troubles began. This is a fact. I have known stage managers, and sensible men, too, who would refuse to ring up the curtain until the yellow flageolet was driven out of the orchestra." Interest now seems evenly divided b tween speculation as to what the new white louse baby looks like and as to when the senate will take a vote on the allver ques tion. As to when the latter will occur the majority are in doubt. Some say the 1st of October, while others declare that the senate will not vote on the silver bill until after the house has settled the tariff ques-tion, which probably will not be for many months to come. Still others declare it cannot be done as long as Senators Stewart and Peffer are in good talking form, which, by the way, reminds me that Sena-tor Peffer is at present the most widely at man in the senate and is the subject of innumerable cartoons. Mr. Peffer, who is stopping while here at the Elsmere on H street with his wife

The procession marched through Wooster to Olive, to Chapel, to Church street. In front of the City hall the procession was reviewed by Mayor Sargent. Sheriff Brannigan stood by the mayor's side, bearing the city standard. The delegates to the Grand lodge, their breasts laden with gay badges, were massed upon the

YALE'S FOOTBALL INTERESTS. The Team's Return—Practice at Yale Field Begun—Laurie Bliss,

Cox and Jenkins Also Here-Total of Candidates Twenty-Four. In spite of Captain Hinkey's telegran stating that the football team would not return from Traver's Island until Saturday, the candidates arrived Wednesday vening, and yesterday they assembled on eason. Laurie Bliss came to town yesterday from coaching Uncle Sam's warriors at West Point, and went to the field to look after the men. Cox '94 and Jenkins '94 also came up yesterday morning, making the total number of candidates twenty-four. The training table at Warner hall has been started up and the campaign is now fairly under way. Captain Hinkey had the men line up and

The two first men have been kept in excellent training, as Messler rowed on the 'variaty orew, and Armstrong with the fresh-

men.

Armstrong is lighter than the other two, but is considered the best player. He is very muscular, and his hard playing and great line breaking gave him the title of "Broncho" at Andover. There is a strong possibility that McCrea's place at guard will be taken by Croes. Cross would probably have played that position last fall if his parents had not interfered, and his crew work has helped him greatly. He is generally considered to be much cleverer and quicker than McCrea, and is fully as strong. With these exceptions, and barring ac-

idents, there will probably be no changes n the line. But in back everything is in loubt, except fullback, and it is now imandidates for the balves. Unless some phenomenon shows up Yale will be in a bad fix at this point. Quarterback is conceeded to lie between Lilley and Adee. The can easily best the blue coat. MITCHELL WILL SIGN. bett Have Been Presented to Him and He Says That He Will Sign Them To-Day-The Coney Island for the Pight, the Largest Purse New York, Sept. 21 .- A meeting took

place to night between J.G. Newton, matchnaker of the Coney Island Athletic club. and Charlie Mitchell, the English heavyweight champion. The situation was thorweight champion. The situation was thoroughly talked over. Mitchell said he did J. Lincoln, Hartford; eccretary, Rev. E. M. not like the idea of being dictated to by Corbett, but he had come here to fight. Judge Newton made him the offer of a parse of \$40,000 to which the stake money of \$10,000 a side could be added, making the purse \$60,000; the largest amount ever fought for in this country.

Mitchell said that if there was no other place to pull this fight off than Coney Island he would just as lief fight there, and he quicker the matter could be settled the etter he would like it.

Judge Newton presented Mitchell with a copy of the articles which Corbett signed. Mitchell has from now until Saturday to onsider the articles and modify them suit him. Then the articles are to be pre sented to Corbett for his approval It is said that the offer of \$30,-000 made by the New Orleans people was reduced this evening to \$25,000. The chances are that the fight will take place at Coney Island, as Mitchell said that from what Judge Newton had told him of the purport of the articles he thought the neo-essary alterations would be slight. Late to night Mitchell said: "I have not

The men were working a thousand feet from the spot where Golightly's lamp set off the gas, but owing to the unusually gaseous condition of the mine the fismes spread so rapidly that there was neescape. A large rescuing party was at once organized and led by Superintendent Morgan, dropped down into the shaft to bring up the victims. Reception to Commander Adams Boston, Sept. 21.—Captain J. G. B. FRANTIC WITH BOILS

And Itching, Would Scratch Until Blood Ran Down His Limbs. Forced to Take to His Bed. Whole System Affected. Doctor after Doctor Without Cure. Instant Relief, Speedy Cure by Using Cuticura Remedies.

My sufferings might have been stopped if I had only known of your Cutteura Remedies eighteen years ago. I contracted the fever and ague, and it effected my kidneys so badly that I had to have an operation, from which resulted blood poison, and I suffered untold agonies. To make my sufferings more, my left leg below the knee broke out in large blood boils, and commenced a scaly, tching irritation, so that at times I was almost frantic, and would scratch until the blood would trickle down my leg. In the summer these large boils would commence,

until the blood would trickle down my leg. In
the summer these large boils would commence,
during which time I would have three or four
which were so painful that at times I was forced
to take to my bed. Every winter a dry itching
scaly mass would gather on my leg, which with
the boils, seemed to effect my whole system.
During all this time, a period of three to nine
months, I had doctor after doctor, but they gave
me only temporary rollef. This last fall I commenced using your CUTICURA, CUTICURA SOAP,
and CUTICURA RESOLVENT, and now the scales
have all gone, the itching all gone, I have not
felt sick, and have worked all winter. I would
not suffer again as I have for the past eighteen
years for anything. I had doctors from the
west to the cast, all to no purpose. I have not
felt so well or been so long without a sick spell
since taking your remedies. Thanks to them
and to you, and the great Maker of mankind
for my returning health.

"Yes, sir; after my investigation, I saw that she had taken some or else something had been done to her, and I asked her about it."

I told her that I was going to send for her mother and she begged me as a physician not to tell anyone about it. 'I would rather die than have my mother or anyone else know about it,' said the girl. "After an analysis I decided that my diagnosis was correct and realized that there was no time to spare if I wished to save the girl's life. I then wrote a pre-cription for elaterine and whatever mediecription for elaterine and whatever medi-cine I thought I might need during the night as I saw it was a question of life or death-which would be settled before morn-ing After capping with ignited brandy in small glasses I gave her ten drops of elaterine. She grew steadily weaker and at 12 o'clock Sunday night I told Cash to telegraph to the girl's mother in Ansonia. He said there was no use. He remarked that that looked a little suspicious and that I had better report the case to the medical examiner. I said that I wanted to do what was right, but that I did not care to do anything about the case until the girl's folks arrived, and besides I did—not wish to have the first case which I had lost the subject of a coroner's investigation. Dr. Ellot and I then went down the stairs and walked toward Chapel street. We then went up Chapel street as far as Church, where Dr. Ellot left me and I went on to Dr. White's office. The witness then explained the visit of Dr. White, Coroner Mix and Sergeant Cowles to the Dayton house, and that he evaded any questions put to him and denied all knowledge of an abortion because he did not think it was anybedy's business. Mr. Case had any questions to sak.

Mr. Case arose and requested the witness to repeat what occurred in Dr. Whitten's office when the latter first told the witness appropriate.

der case against Drs. Lee and Whitten, Attorney Case expressed a desire to ask a question of Dr. Penney, who is the dostor who is supposed to have prescribed the pills for Maggie Schloss.

Mr. Fox immediately objected on the ground that Dr. Penney was a witness for the state. Judge Callahan decided that he would hear Dr. Penney.

In reply to Mr. Case's questions said he had met Maggie twice, but had never prescribed for her nor for any one else in series of the said something about having that the girl was very pale and feverish when he first saw her. She had nausea all the time that she was in Dr. Whitten's office on the night of the 16th. She was given ice to stop the nausea.

had met Maggie twice, but had never prescribed for her, nor for any one else in her behalf.

Then at Mr. Case's request the clerk produced the box of pills found in Maggie's room and Dr. Penney said: Yes, I saw that box three days after the girl died. Her mother showed them to me.

On cross-examination by Mr. Fox the witness said that from the fact that there was no doctor's name and no label on the box, he would infer that no dector prescribed them. Dr. Penney was then excused and Dr. Lee was again called.

"Did you ever have a conversation with Cash or Wolf about when the girl would be ill!"

"Yes, sir. I told Cash in the parlor that the girl might be ill in a few days."

Senator Fox commenced the cross-examination of Dr. Lee, who testified that he was in the brokeage busiaess in Hamilton, to O., and was part proprietor in the Daily Palladium, which was published in that city, before he began to study with his uncle, D. C. Cox of 206 East One Hundred and Sixteenth street, New York. He lived in there with Dr. Ellison, another uncle, who took the 116th street house when Dr. Cox died until he came to New Haven. He is a graduate of Bellevue Medical college and has a diploma from the dispensary of midwifery in Broome street. The city attorney then asked the names of the instructors in the different institutions. Dr. Lee then said that he started out from his home on the night of August 16 at 10:30 to go to a lady's house from whom it has no proprietor.

he was going to borrow money. He was unable to tell the name of the woman or her residence, however. He stopped on the way at Dr. Whitten's office. Witness would not swear that there was not a pre-vious arrangement between himself and Dr. Whitten with reference to his going to the latter's office on that evening.

He had attended cases at Dr. Whitten's office before and was familiar with the premises.

Mr. Fox—Did you give Dr. Whitten any

part of the money paid to you by Cash! Dr. Lee—No, air. Mr. Fox—Did he know of your use of the speculum and sound upon the girl and washing her out with a fountain syringe?

Dr. Lee—He did. Attorney Fox then brought a medical instrument around and handed it to Dr. Lee, asking him what it was. He said. "a speculum, similar to mine, but of a differ-ent make." Attorney Fox then showed Dr. Lee a chart of Dr. Whitten's premises

and examined him in regard to his familiarity with them.

Mr. Fox—How long did you remain with Mrs. Whitten in the office, prior to the entrance of Wolf, Cash and Maggie Dr. Lee—Abent half an honr, although I could not absolutely swear to this point as I had no reason for looking at the time and I did not. Mrs. Whitten beckoned to

Mr. Fox.

"No, sir," answered Dr. Lee. "About this time his wife left the back office and went upstairs. After she had gone Dr. Whitten said there was a girl who was pretty sick in the front office, and says 'Come in, doctor, and examine her. They think she is in the family way."

"She appeared pale to me and I decided that she was the patient, if any," was the answer.
'Did you positively know what the matter of the girl was when you went out of the back office?" asked Mr. Fox.
"No, I did not," answered Dr. Lee.
Dr. Lee then in answer to questions from Mr. Fox detailed the arrival of Cash and Wolf.

I told him that I could not do that, but

He said that she had told him so, and he asked said that she had told him so, and he asked me how much I would ask to attend her. I ignored his questien and asked him their names. I do not have any distinct recollection of what names they gave me. I then suggested that we sit down. They then asked me again how much money I would take. I said that it was no use talking to me about money then, as I did not know as I would take the case at all until I had avaning the cirl.

Assessor William Shannon has also been subposned for the same purpose. Court reconvened at 2 o'clock with Dr. Lee still on the stand. He told of his arrest by Sergeant Cowles on Coroner Mix's order, and he said that when Sergeant Cowles came to arrest him he, the witness, remarked: "They must have learned something upon which they could arrest me."

Going back, he said: "On the Sunday night before Maggie died I saked Cash to what religious denomination Maggie Schloss belonged, and when he told me I suggested that a minister be called."
